For the Kent News.

Mr. Editor:—I notice in your paper an Ordinance compelling persons to clean the snow from their pavements; I think it would be well if the Commissioners would set the example by cleaning the public pavements. Then they would have good reason for their wise enactment. OBSERVER.

Telegraphic Feat.

WASHINGTON, June 26.—The following despatch was received to-day by the President of the Submarine Telegraph Company:

"ST. JOHNS, Newfoundland, Jan. 26—Eleven o'clock, A. M.—To Cyrus W. Field, National Hotel, Washington: The Legislature of the Colony will be opened on Thursday next, when the Atlantic Telegraphic Cable will form a prominent topic in Governor Darling's speech.

(Signed) "A. SHEA."

This dispatch was received at the Washington telegraph office at 10 o'clock and 56 minutes this morning! The distance from St. Johns to Washington is 1.960 miles. It was re-written at six different stations, involving a considerable loss of time, and in addition was delayed nearly 45 minutes at Halifax! Notwithstanding all this, owing to the difference in longitude between St. Johns and Washington, it reached the latter point before the hour at which it was timed!—*Reporter.*

ACCIDENT.—William P. Preston, Esq. on Monday morning last, met with a serious accident; and one which will doubtless prevent his attendance to his multifarious legal duties for some time. While on his way to the city from his country residence in a sleigh it was upset near the first tollgate on the Hillen road, and he was thrown with such force as to break his left leg by a fracture of bone between the knee and ankle. He was immediately surrounded by the neighbors in the vicinity where the accident occurred, and every possible aid rendered to alleviate his intense suffering.—*Sun.*

☞ The brig report wrecked near the Ocean House, N. J., was the Emeline, belonging to an Eastern port, with a cargo of logwood, scrap iron and copper, which is strewn along the beach. She has gone to pieces—every soul on board of her having perished! Some of the bodies have been found upon the beach.

The supply of water in New York city is getting short, in consequense of the faucets being left open in the cold weather. It is calculated by a competent public officer, that of the 30,000,000 gallons daily delivered, 15,000,000 is allowed to run uselessly.

BURNING OF A SLAVE IN ALABAMA.—We find the following account of the burning of a slave at Abbeville, Ala., in the Eufaula Native. The crime for which he was burned was the murder of his master:—

"A large concourse of people was assembled at Abberville, numbering from 4.000 to 5,000. The negro was taken from the jail by the guard, no opposition was offered by the sheriff. The place was arranged before the negro arrived. A green pine stake was set in the ground firmly, and around that a pile of fat pine was arranged in diameter about six feet, and about four feet high. He was bound head and feet to the pole, and before fire was placed to the pole the wretch made the following confession, 'That he had murdered his master, but would not have done it had it not been for a white man.' He made some other confessions implicating a white man and another negro in the affair.

"Our informant says that when he left, the fire had already consumed his head, legs and feet, and that they were piling on more wood to finish the body!"

Acquitted.

Philadelphia, Jan. 24.—Shurlock, on trial for the murder of Clawges, for the seduction of his wife, was acquitted today. There was great enthusiasm at the result manifested by the crowd thronging the court-house.

Seizure by the Custom-house Officers.

New York, Jan. 24—The custom-house officers have seized the entire stock of Messrs. Henle, Brothers, on Maiden lane, consisting of diamonds and other precious stones, valued at $150,000, as having been smuggled.

Destructive Fire.

Springfield, Mass. Jan. 24.—At Lee, this morning Eldridge's block, Webster's block, the Congregational church, the Lee Bank and the dwelling house of Mr. Porter, were all burnt. The Housatonic Hotel is also badly damaged.

Another Explosion.

Concord, Jan. 23.—An explosion took place this afternoon at the Concord steam mills, by the collapse of the flue of one the boilers. Loring A. Webster was instantly killed and any man named Kenniston severely injured.

Boston Harbor.

Boston, Jan. 24.—The efforts to keep the channel open is so far, unsuccessful. The harbor is now frozen over, and the ice has made to a considerable distance down the bay, closing the Narrows and the Light house channel.

CAN'T AGREE.—The jury in the case of Atonie Antone, the Italian, charged with assaulting with intent to murder Col. Turner and Messrs. Woolen and Pfetz, in the city of Baltimore, retired to their room on Saturday, and up to Tuesday evening had not agreed upon a verdict.

Commander Rowan Cashiered.

Philadelphia, January 27.—The sentence of the court marshal in the case of Commander Rowan, of the naval asylum, has been approved by the Navy Department, and he has been officially notified that he is cashiered.

☞ Josiah Bradlee, of Boston has just given $2,000, in addition to $1,000 given three years ago, to the Society for Decayed Clergymen.

☞ John Haney and his wife were lately murdered near Salisbury N. C., by unknown persons.

☞ Dr. Cox, of Chesterfield county, Va., was thrown from his buggy and killed last week.

☞ John Schweitzer was found frozen to death four miles from York, Pa., last Friday.

☞ During the year 1855 there were imported into Great Britain 175,688 tons of guano.

☞ Mr. P. T. Barnum is said to be dangerously ill in London from a severe attack of pleurisy.

☞ Edmund Leavenworth, a soldier of the Revolution, died at derby, Conn., on 20th inst.

☞ J. A. Adams, for many years publisher of a Sunday paper in Boston, is dead.

☞ Foot passengers are crossing the Ohio on the ice at Wheeling.

A GOOD assortment of Saddles, Bridles, carriage, wagon and cart Harness for sale cheap by A. W. ROBERTS.

Notice.

I OFFER on easy terms, or will exchange for other property, my *WHARF, GRANARY and the Lot of Ground* adjoining, at Betterton, mouth of Sassafras river.

Also the Schooners *"BLOOMFIELD,"* 3 years old, & *"SARAH SOPHIA,"* 4 years old, *prime* vessels in the hull, and sails rigging in good condition—now in good order for carrying grain, &c. Capacity of 'Bloomfield' about 3000 bushels, under deck—'Sarah Sophia,' 1500.

The wharf built in 1855, on piles in the most substantial manner—has since been protected against ice &c. by a series of breakwaters and pens of stone, rendering it capable of sustaining a powerful pressure. Granary 30 feet square with 3 stories and attic—capable of storing some 6 to 8000 bushels of grain by increasing the garners. Lot of ground, about 2 acres

To an energetic person with some capital, who would devote his entire attention to the business, the above presents a favorable opening; as the place is an improving one and located right upon the Bay, witin 1½ miles of the great thoroughfare of freight and passenger travel from Philadelphia to Baltimore, must ultimately command a large share of business denied by remote position to many other localities.

In case of sale of vessels only, the Granary and privilege of wharf will be rented and the subscriber will attend thereto, if desired, assisting by such influence and freighting as he may control or possess.

To my friends and customers who have so kindly sustained me the past year and previously, in a public enterprise, I return my heartfelt thanks and inform them that should I not succeed in selling my vessels they will be run as heretofore and my efforts given to promote the interests of all who may confide their business to my care.

Advances made on Grain to be shipped within a specified time, and consignments respectfully solicited.

KRAUSERS PORTABLE CIDER MILL.

THESE superior Cider Mills can still be furnished, of improved construction and finish. Their grinding apparatus is peculiar and gives them an advantage over all other mills. By the action of two reciprocating pistons the apple are forced up against the teeth of a rapidly revolving cylander and retained till ground to a fine pulp, which of course yields more juice when subjected to pressure than if the pomace was coarse. The screw press has been greatly improved and strengthened since last year and the whole frame is tightened by strong joint bolts. It is adapted to either hand or horse power and can be worked by hand to the extent of six to eight barrels in a day.

BARKER'S

DOUBLE ACTING

FORCE AND LIFT PUMP

IS acknowledged to be the most simple in construction, efficient in operation, less liable to get out of order, and more durable than any pump yet invented.

The World's Fair, London, gave Mr. Barker the complimentary medal, and the Pennsylvania State fair, on two occasions, awarded the pump the first premium.

In cases of fire, the Barker Fire Engine Pump has proved itself invaluable. On several occasions persons, by having this pump on their premises, have saved their property from the devouring flames.

The Scientific American, of August 14th, 1852, says: "In our humble judgment Barker's Double acting pump is one of the best improvements which has been made in a great many years, and, in saying this, we express the opinion of many who have used the pump and are now using it. The pump was patented last February, and the claims were broad strong and reliable."

References to the following gentlemen: Samuel Baker, Richard S. Thomas, John McDaniel.

You can see these pumps work at any of the places we have a number engaged to put in.

The undersigned have bought the patent right for Kent county; any gentleman wishing a pump put in can drop a note to
