For Baltimore, Philadelphia, Havre de Grace, &c.

(TRI-WEEKLY.)

The Steamer CECIL, Capt. E. G. STURGEON leaves Baltimore on Tuesday's, Thursday's and Saturday's at 7 o'clock A. M. Returning leaves Wilmer's Point, at 8 o'clock, A. M., on Monday's, Wednesday's and Fridays, touching at the different landings on the Sassafras River.

For Philadelphia via Havre de Grace,

Commencing on the 14th of April.

Leaves Georgetown at 1 o'clock, P. M. on Tuesday's Thursday's and Saturday's, touching at Betterton at 2 o'clock, and Havre de Grace at about 3 o'clock, P. M. Passengers will connect with the 4 to 7 P M. Baltimore train of cars, and reach Philadelphia by bed time.

From Philadelphia, &c.

Passengers will leave Philadelphia in the 1 o'clock P M. train of cars reaching Betterton at about 4½ P M—Turner's Creek about 5—Geo Town say 6, and Wilmer's Point 6½ P M.

Persons from Baltimore may also connect with this Line by leaving Baltimore by 11 A M train of Cars.

Fare to and from Baltimore by water,		$1 00
" "	via Havre de Grace,	1 25
" "	Philadelphia,	1 50
" "	Havre de Grace,	50

☞ The P W & B Rail Road Company will issue through tickets from Baltimore or Philadelphia to Sassafras River—*for which inquire.*

Excursion Tickets from Sassafras to Havre de Grace, returning same day, 50 cts.

do from Betterton to Geo Town, 25 cts.

☞ Conveyances furnished and taken charge of at Betterton.

☞ A M Russell will run a stage line from Chester Town to Betterton and back in connection with the Philadelphia route, leaving Chester Town at 11½ o'clock, AM. Fare 75 cts.

In presenting the above travelling schedule to the community, embracing a greater amount of and more valuable and convenient facilities than have ever before been afforded to our citizens—the owners of the Cecil respectfully solicit a liberal support of the Line, reminding the public and their friends that without such, as a matter of course, they cannot, as they desire, continue the whole route and make it permanent, and wholly a Sassafras River Line, devoted to the services and interests alone of the neighborhoods adjacent.

E. G. STURGEON,
EDWIN WILMER,
RICH'D T. TURNER.

Kent co. April 4, 1857.

CAP and HAT EMPORIUM.

No. 190, West Baltimore St.,

Second door West of St. Paul St.

INVITES the attention of Gentlemen from all sections of the Union to his magnificent assortment of Hats and Caps, which for durability style and finish, cannot be surpassed. The system of selling Hats on long credit is now abolished—consequently all hats purchased of me will be 20 per cent less than those who do a credit business, as I now *Retail Hats at Wholesale Prices.* The prices of my hats are from $4 down to $30 per dozen, or at the same rate for single one; from $4 down to $2,50 according buality. Sep. 27, 1856.

A. BARKER'S

DOUBLE ACTING

FORCE AND LIFT PUMP

IS acknowledged to be the most simple in construction, efficient in operation, less liable to get out of order, and more durable than any pump yet invented.

The World's Fair, London, gave Mr. Barker the complimentary medal, and the Pennsylvania State fair, on two occasions, awarded the pump the first premium.

In cases of fire, the Barker Fire Engine Pump has proved itself invaluable On several occasions persons, by having this pump on their premises, have saved their property from the devouring flames.

The Scientific American, of August 14th 1852, says: "In our humble judgment Barker's Double acting pump is one of the best improvements which has been made in a great many years, and, in saying this, we express the opinion of many who have used the pump and are now using it. The pump was patented last February, and the claims were broad strong and reliable."

References to the following gentlemen: Samuel Baker, Richard S. Thomas, John McDaniel.

You can see these pumps work at any of the places we have a number engaged to put in.

The undersigned have bought the patent right for Kent county; any gentleman wishing a pump put in can drop a note to

BENJAMIN ELLIOTT,
Chester Town, Kent county, Md.,
or to THOMAS RASIN,
Still Pond, M

THE THOROUGH-BRED HORSE

Childe Harold,

The First Horse in America.

WILL stand in Kent county, the coming season. He took the first premium at the Maryland State Cattle Show in 1854, and the 3d Premium, was awarded him at the *United States Cattle Show,* held in Philadelphia, in 1856, and would have taken the *first Premium,* as our fifths of the Committee stated, but the owner not being a life member of the Society they refused to award it to him and would not award him the third premium until the owner was made a life member.

aug. 2, 1856.

"Attention Farmers!"

Guano Excelled BY DE BURG.

IT is a settled point with all Chemists and scientific Farmers that Peruvian or any other description of guano, does not supply to the soil one-third of the necessary constituents for the growth of all crops, on all soils; and the analysis of wheat, rye, corn, oats, potatoes, tobacco, &c., prove the fact. Every one who has had any experience in the use of guano, knows, that the land becomes exhausted and impoverished by its continued application.

The true secret of farming, as we understand it, is to furnish the land with the cheapest manure, that will grow the largest crops, and at the same time improve it.

The object of De Burg is to supply to the soil all, and every requisite required by the crop for its growth and maturity, and leave a surplus for its subsequent improvement. Not supplying yearly costly manures for the one crop alone, without a prospect for future benefit; but to grow as large crops of every description as guano, and add permanently to the improvement and fertility of the land.

The great advantage De Burg has over guano alone is attributed to the large amount of fertilizing matter which it contains, and any one of its seven elements are necessary and as valuable to the practical farmer, as either of the two which guano supplies.

Many experiments have been made recently, relative to its value as compared with the best Peruvian Guano, and a preference given to it as a manure, being quite as effective in its action of inducing early maturity as guano, but much more durable and fortifying to the soil, and less volatile.

Dr. David Stewart, Professor of chemistry at St. John's College, Annapolis, Md., and Chemist to the Md State Agricultural Society—analyzes every lot of De Burg we receive, and says, in his report to us:

"De Burg's compound is *much* more generally valuable to the practical farmer than any mixture of phosphates and ammonia, or manipulated guano.

There are other elements in De Burg to which I attach as much importance as ammonia and phosphates, and I cannot pass a cargo where one of these is absent, however much ammonia and phosphates are present."

Again he says:—"I do not think there is a compound now offered for sale; that contains as large a proportion of Phosphates, combined with the same quantity of Ammonia, as this, and there is a remarkable uniformity in all the cargoes of this manufacture."

S. W. Spencer Esq., Chestertown, Kent Co., Md. says:—"Last spring I made some experiments with De Burg, on my corn crop, and there is no question about its valuable properties for corn. It pushes corn beyond any manure I ever saw."

Kent co.—Geo. T. Hollyday, says:—"There was a great difference in my corn last year where I used De Burg and where I did not. I applied it at the rate of a handful to three hills at planting and it was at least one-third better."

Thos. Wm. Hynson, Chestertown, Md., says 15th July, 1856: "I applied De Burg on corn last Spring, a table spoonful to the hill, and now, although there has not been rain enough to wet the corn to the roots, since it was planted, will average four feet, of a thriving, growing color, and where there is none, about sixteen inches owing to the drought. I consider it the best fertilizer I have ever tried.

Queen Ann's Co.—Philemon T. Cook, Esq., Centreville, Md., says, Jan. 7th, 1857: "Last spring I applied DeBurg in the hill on my corn, a very small quantity to each, and I think my most sanguine expectations were realized. My crop was considerably increased, and for the small amount of money expended, it will pay better than Peruvian Guano."

NOTICE.

For the protection of our own and the farmers interest, and to avoid any mistake on the part of the manufacturer, every lot we receive is thoroughly inspected and analysed, by Drs David Stewart, Chemist to Maryland State Agricultural Society, who rejects all that does not come up to the fixed standard; thereby guaranteeing to the farmer a uniformity not to be found in Guano or any other fertilizer; and farmer will also

BEAR IN MIND,

That it is only De Burg that produces the above results, and in consequence of the greatly increased demand—which is beyond all precedent in artificial manures—many imitations have been put upon the market, and palmed off for the genuine.

Farmers should therefore be particular, and buy none except from responsible dealers.—The genuine is in barrels with *white heads,* stencilled C. B. DE BURG'S No. 1 AMMONIATED SUPER-PHOSPHATE OF LIME, in *black letters:* to secure which call on or address,

J. J. & F. TURNER,
42 Pratt Street, Baltimore, Md.

1857. May, 1857.

NEW SUMMER GOODS!

WICKES & BRO.,

Dry Goods, Clothing.

Are this day opening one of the best assortment of

Summer Goods,

ever before brought to this market.

Inviting purchasers to call and examine their STOCK, they deem it useless to go into any enumeration of it here—but would merely state that it is

Heavier and More Varied,

this season, than it has ever been heretofore.

Their purchases of

DRESS GOODS,

and

CLOTHING

Have been made with unusual care, and persons in want of either would find it to their advantage to give them a call before buying.

N. B. Highest prices paid for country produce.

May, 2. 1857.

Notice.

I OFFER on easy terms, or will exchange for other property, my *WHARF, GRANARY and the Lot of Ground* adjoining, at Betterton, mouth of Sassafras river.

Also the Schooners "*BLOOMFIELD,*" 3 years old, & "*SARAH SOPHIA,*" 4 years old, *prime* vessels in the hull, and sails rigging in good condition—now in good order for carrying grain, &c. Capacity of 'Bloomfield' about 3000 bushels, under deck—'Sarah Sophia,' 1500.

The wharf built in 1855, on piles in the most substantial manner—has since been protected against ice &c. by a series of breakwaters and pens of stone, rendering it capable of sustaining a powerful pressure. Granary 30 feet square with 3 stories and attic—capable of storing some 6 to 8000 bushels of grain by increasing the garners. Lot of ground, about 2 acres

To an energetic person with some capital, who would devote his entire attention to the business, the above presents a favorable opening; as the place is an improving one and located right upon the Bay, within 1½ miles of the great thoroughfare of freight and passenger travel from Philadelphia to Baltimore, must ultimately command a large share of business denied by remote position to many other localities.

In case of sale of vessels only, the Granary and privilege of wharf will be rented and the subscriber will attend thereto, if desired, assisting by such influence and freighting as he may control or possess.

To my friends and customers who have so kindly sustained me the past year and previously, in a public enterprise, I return my heartfelt thanks and inform them that should I not succeed in selling my vessels they will be run as heretofore and my efforts given to promote the interests of all who may confide their business to my care.

Advances made on Grain to be shipped within a specified time, and consignments respectfully solicited.

R. T. TURNER.

Betterton, Kent co. Md., 1 mo. 5, 1857.
