A WHITE MAN'S GOVERNMENT

In a recent interview published in the Baltimore Sun, ex-Gov. Frank Brown struck the keynote of the campaign in this State next fall when he declared that the white people of this State who have the best interests of this grand old commonwealth at heart must stand together for a "white man's government" and for the restriction of the right of suffrage to the worthless class of negroes that are pouring into Maryland from the Southern States, where the ballot has been denied them. After reviewing the conditions which existed in Baltimore city under the last Republican administration of municipal affairs, and referring to the steady growth of an undesirable class of negro voters, he turned his attention to conditions in the counties, and spoke as follows:

"Maryland has now become the chief dumping ground of a worthless class of colored people from the South—a class of people in whom we have no interest, directly or indirectly, but who no sooner land within our borders than they become competitors of the honest white labor of the State, and in very many instances become the subjects for our courts, prisons and asylums, and thro' their alliance with and allegiance to the Republican party enable that party to dominate the better class of white people of the State, thereby guaranteeing to this worthless, inferior class of colored people protection, and, by this protection, to become insolent, indolent and vicious and the terror of any neighborhood they habituate.

"I also call the attention of the white people throughout the State to the conditions existing in what is termed the 'black belt' of Maryland, embracing the southern counties of Anne Arundel, Calvert, Charles and St. Mary's. There are only 2,000 more white voters in these four counties than colored. In Charles county there is less than 100 difference. In Prince George's the difference is a little greater, but practically the same conditions exist. Therefore this section can well be termed the 'black belt.'

"Such a condition does not exist in any other part of the South, because in the Southern States these votes are managed in one way or another, so that the white people can preserve control; but in these counties the white people are absolutely powerless. With 100 white Republicans anxious for office, combined with the negroes, they dominate the situation and control the political and business interests of these communities, and when banded together they can elect the judges and control the courts.

"If such facts as these do not startle the white voters of Maryland I cannot see under what conditions they could be aroused. All movements have a beginning, and I say to the people, let the 'white man's flag' fly from this moment on, until it is recognized throughout the country that Maryland is safely in the hands of the white people of the State, and then you will find the properties in the 'black belt' of some value. As it is now, lands are almost given away because of the colored conditions referred to, with white people leaving the counties and the colored population increasing."

The ex-Governor's remarks are timely coming as they do right along with the decision of the Supreme Court in the Alabama case. They point out that something must be done, and very speedily, to stop this flow of undesirable negroes into our midst. If it is not done the Eastern Shore counties will soon be in the same condition as the "black belt" of Southern Maryland.

The Eastern Shore counties are ideal places of residences for the negro. Living is smooth and the climate mild. The water furnishes an easy way of gaining a living, and the situation of Wicomico and Somerset counties, along the line of a trunk railroad from Virginia, makes it not difficult for the negro to emigrate from Virginia and other Southern States where he has been disfranchised, and take up his home is this section.

SUSQUEHANNA FISHERIES.

Enormous Catches Of Herring And Other Fish.

The catch of herring in the Susquehanna river for the past week has been enormous, and they have also appeared in numbers in some of the streams which empty into the river. Many of the fishermen are using nets with meshes large enough to let them escape, so that only shad will remain. The fishing is estimated to be worth at least $150,000 to the city of Havre de Grace alone.

Capt. William E. Moore on Tuesday morning last, near Black Island, caught more than two tons of rock fish, and was only prevented from catching more of them from the fact that he had his boat loaded and could not care for them. As these fish are selling in the market wholesale 10 cents a pound, it will be seen to have been quite a good haul.

Extraordinary large catches of herrings are reported in the Little Gunpowder river, and wagon loads of these fish have been used as fertilizer.

The hook-and-line fishing season in the Chesapeake and Upper Susquehanna is about on, and already extensive preparations are being made for anglers from the various cities that visit our waters.

YOU KNOW WHAT YOU ARE TAKING
when you take Grove's Tasteless Chill Tonic because the formula is plainly printed on every bottle showing that it is simply Iron and Quinine in tasteless form. No Cure, No Pay.
