## MARRIAGES.

On Thursday last, at Crumpton, by the Rev. Mr. Mogee, ALEXANDER A. CROOK, of Philadelphia, to Miss HELLEN M. PRIMROSE, of Queen Ann's county.

On the 15th inst., at Camden, Del., by the Rev. Mr. Houston, JOHN H. RUTH, of Queen Ann's to Miss LAURA URIE, of Kent county.

## DEATHS.

OBITUARY.—NATHANIEL MEGINNIS, Esq., died at the residence of his son-in-law, Dr. Robinson, in the city of Baltimore, April 12th, 1862, in the 66th year of his age.

When 19 years of age he professed saving faith in Christ, and united with the M. E. Church, of which he continued a most exemplary and useful member until his Divine Master called him to join the Church above.

The Christian character of Brother Meginnis was very decided. He was truly a "Man of God," a man of faith, of prayer, of entire devotion to the cause of Christ. For many years he resided at his pleasant home, near Massey's X Roads, Kent county, Md. By the Church on the Millington Circuit he was much beloved and honored. He was a licensed exhorter for a long time on the aboved named circuit, and filled the offices of steward and trustee up to the time of his removal from the neighborhood. All these relations to the Church he filled with entire acceptability and great usefulness. He was also highly esteemed by his fellow citizens of Kent county, having been elected by them to fill several important offices in the county, and also to represent them in the State councils.

His old homestead in Kent was for many years a resting place for weary itinerants, as they journeyed up and down this peninsula, to and from the sessions of the Philadelphia Annual Conference. Many of the older members of the Conference, who now rest with him in the "Better Land," rested with him and his excellent family at his home on earth. They were always welcome here. Many members of the Conference yet living will drop a tear of fond remembrance when they read these lines.

For several years before his death it was evident to his family and friends that his health was declining, for the improvement of which he was removed to the city of Baltimore, about 18 months since, accompanied by his excellent wife and devoted daughter. Every means that kindness could suggest was employed for the recovery of his health; but all in vain. His work was done; and he patiently awaited his summons home. During the late sessions of Balt. Conferences, the writer had the mournful pleasure of spending a few days with this Servant of God before he departed to his rest in Heaven. He found his spirits somewhat depressed at times by the force of disease; but his faith in God was strong, and his confidence in Christ as *his* Saviour unshaken. Thus he remained until the weary wheels of life stood still, and

The Spirit took its flight,
To the blessed world of light.

A bereaved widow, sorrowing children, and a large circle of relatives and friends mourn the loss of one we loved; but our loss is his everlasting gain.

"Servant of God well done,
Thy glorious warfare's past;
The battle's fought, the race is won,
And thou art crowned at last."

The funeral services were conducted by Rev. Dr. Reese, of the Broadway M. E. Church, and the remains deposited in the Baltimore Cemetery, to await the Resurrection morn.

## MOWERS AND REAPERS.

### Re-Improved for 1862.

WE would call the attention of Farmers to the following facts:

That—This is the most perfect Combined Mower and Reaper in use; better than any single reaper as a reaper.

That—It is the strongest and the lightest, being made entirely of iron, except the pole, seat and platform. The finger-bar is of wrought angle iron, of great strength and lightness.

That—It has a Revolving Track-Clearer, which is the only track-clearer that will thoroughly separate the cut from the uncut grass, and without leaving the cut grass in bunches.

That—It requires one-third less draft than any other machine.

That—No pressure is made on the horses' necks, and no side draft.

That—Its ability to work on rough ground is not equaled by any machine yet produced. The finger-bar working up and down, independent of the driving wheel, enables the machine to go through dead furrows and ditches, among stones and bogs, over knolls and gopher hills, where no other machine could follow it. It will work from 2 to 18 inches high.

That—It can be used in mowing either with or without the reel.

That—In both mowing and reaping the positions of the driver and raker are the most convenient and easy, enabling them to do their labor with but little exertion.

That—While the machine is in motion the driver can, by means of a lever, throw the cutters out and into gear, and by another lever he can raise and lower the finger-bar to pass obstructions, or move from field to field.

That—It is easily managed, marvellously simple, well built, compact, not liable to get out of order, made of the best materials, Babbet metal boxes, and is furnished with double trees, neck-yoke and extras complete.

Extras always on hand. Machines repaired, &c., &c. For sale by
