Facts For Oystermen.

The Republicans in Kent are doing their utmost to influence the oyster tongers against the Democratic ticket by charging one of the nominees with being untrue to their interests. They say he is in favor of leasing the oyster beds, and to establish this the Republicans circulate certain expressions of Capt. Cecil R. Atkinson. This gentleman can and will fully defend himself from this charge.

The oyster tonger will have no truer friend in the Maryland Legislature at its next session than Capt. Atkinson. He is opposed to the leasing of the oyster beds, and will vote and work against any such laws. He declares this publicly and privately. He is a man of integrity and character and means what he says. No man has a right to question his veracity. To say now that he is in favor of leasing the beds is to say that he is wilfully attempting to deceive the people—more plainly, that he lies, who will dare take such a position? Now that Capt. Atkinson has publicly declared his purpose, who will question his truthfulness or honesty. Every one can trust him upon his word.

Capt. Atkinson is a hard working waterman himself. He mingles daily with the people he is charged with having the disposition to injure. The oyster tongers of Rock Hall and Quaker Neck are his friends and neighbors—he lives and moves about with them—and it will be his highest aim to protect their every interest and especially to prevent the leasing of the oyster beds.

The danger of the oyster tongers is not in Democratic success. Their only hope for safety and sure protection is in a Democratic legislature. That party has stood by them in all the past. Against the onslaughts of great corporations, which have been striving to possess these mines of the bay and rivers for years past the Democratic party has stood firm, and through this party alone has been preserved the dearest interests of all the oyster tongers in the tide waters of Maryland.

These are facts.

Capt. Atkinson is a Democrat. He will act with his party in the next Legislature in protecting our oyster tongers. All the hue and cry against him is not so much to defeat him as it is to undermine the whole Democratic ticket.

The set purpose is to prejudice Democratic oystermen—to poison their minds and get them to vote against the nominees of the Democratic party. It is a bold, determined effort to capture Kent county—to get possession of all the offices.

The next Legislature is almost certain to be Democratic. The Democratic State ticket is specially popular, and all the circumstances attending its nomination, with succeeding indications on every hand, point to a great Democratic victory this year. How awkward, then, will be the position of our oyster tongers who have cast their fortunes with the minority party? Capt. Atkinson and his Democratic associates from Kent would have a potent voice to prevent the schemes of the spoiler. They could and would do far more than any Republican representative possibly could, be they ever so sincere.

These are facts that should have the most careful consideration of those classes of our fellow-citizens who are so vitally concerned.

CARDINAL GIBBONS, the first American to take part in the election of a Pope, returned Tuesday morning from Europe, whither he went last July, when all hope of Leo XIII's recovery was abandoned. The Cardinal, who was accompanied by Rev. P. C. Gavan, Chancellor of the Archdioceses of Baltimore, his conclavist during the meeting of the Sacred College, was a passenger on the Kaiser Wilhelm der Gross. When that steamship was docked he was formally welcomed home by a delegation of supreme officers of the Catholic Benevolent Legion and was also greeted by several priests of his archdiocese.

The eminent prelate was in the best of health and spirits and said that the last three days of the voyage were especially delightful. He had intended to proceed at once to Baltimore, but stated that he would accede to the wishes of those who had arranged for his reception. After leaving Rome in the second week in August the Cardinal spent a pleasant time in Switzerland and France, but said he was glad to get back home, adding that while there are many beautiful places in Europe there is no place like Baltimore.

THE Odd Fellows captured Baltimore this week. This grand organization made a big showing and impressed the public with its strength numerically, financially and intellectually.

Another "Clincher."

Each day brings new evidences of the coming victory for the Democrats in Maryland. The latest move towards the election of Democrats is the announcement by Hon. Isidor Rayner of his candidacy for the Senate of the United States.

It has been expected for some time that Mr. Rayner would take this step, but this is the first definite announcement of his intention, and it goes without saying that this is a movement that awakens the attention and interest of the Democratic party of the State.

Mr. Rayner, speaking of his candidacy said that he scarcely thought it necessary to say more at present relative to his position than is contained in his formal statement.

The career of Isidor Rayner is known to every Marylander. His recognized position as one of the leaders of the Maryland bar, his power as an orator known throughout the Union, his success in the great cases which he has tried as Attorney-General of the State, his record of six years in Congress, his public services to his State and to his country, and his magnificent defense of Admiral Schley, are all parts of history and public records.

Now, if ex Gov. Frank Brown would make his announcement as a candidate for the Senate and work for the ticket it would "Clinch" the whole matter.

EX-GOV. ELIHU E. JACKSON, of Wicomico county, has been asked by Chairman Vandiver, of the Democratic State Central Committee, to accept the chairmanship of the new executive committee, which will co-operate with Mr. Vandiver in the management of the Democratic State campaign.

While he has not given a definite answer, it is believed ex Governor Jackson will accept the position and become an active factor in the fight. This fact, taken in connection with his announced candidacy for election to the United States Senate, will, it is thought, increase Democratic prospects all over the State. The executive committee will be composed of one member from each of the six Congressional districts, and will act in an advisory capacity to the chairman of the State Central Committee.

TUESDAY next will be the first day of registration, and the following Tuesday the second and last day, as the sitting of the registers and October 13 will be for revision only. Democrats throughout the county are urged to use their best efforts to see that all voters are registered and the lists purged of all names that are not entitled to remain thereon.

The work of registration is an important one, and should be most carefully looked after.

When a Methodist Love Feast Almost Became a Prohibition Tidal Wave.

It was at Ocean Grove says the Pennsylvania Methodist: "The love feast on Sunday morning was attended by nearly 8,000 people and was a feast indeed. A broad-shouldered Texan in one of the galleries brought greetings from Texas, where 132 counties are dry, sixty-six semi-dry and only fifty-four wholly wet. Other Prohibition testimonies followed. Some one referred to our Prohibition Bishop (Fitzgerald) on the platform and at once thousands of handkerchiefs were waving him the Chautauqua salute.

It seemed an even chance for five minutes of swinging the meeting unintentionally into a Prohibition tidal wave. The common people are ready for it everywhere. Only the scowls of most of our church leaders prevent the incoming millennium."

What a pity the meeting didn't swing all the way and then and there the vast audience consecrate themselves to the "White Crusade" of Prohibition. That is the form of service that will bring down the blessing of revival that is held back because Achan is in the camp in the form of a "rum vote."

Whom? The citizen who fails to perform his civic duties. Yes, that is the place for him at all times and especially when murders, assassins, rioters boodlers, fiend-like ravishers and defiant traffickers in intoxicants bring peril to our homes and the State, and menace our civilization as now, when the barriers of society seem to be in danger of breaking away and henious crimes are of every day occurance. The daily press teeming with records of these horror startlings and alarming enough to arouse the good citizens to instant action to secure protection Reiterate the assertions. Hold up to private and public scorn him who enjoys the fruits of order and law yet, lends no help to the herculean work of electing conscientious legislators and competent officials. By him legislatures and courts are surrendered to the corrupt control of professional politicians. By him the dram shop is protected and the midnight villian and cutthroat screened from just punishment.

The indifferent citizen is a greater foe to our civilization than the open criminal, for standing within the pale of the law he aids and abets crime and corruption in a way for which he cannot be held legally responsible and the only redress is to put him in the moral pillory of an indignant public sentiment and visit him with well deserved censure.

Beloved, be inspired with a lofty ambition, punctuate your moral and Christian life — vote the Prohibition ticket.
