SEWING
AND
SEWING MACHINES.

THE subscribers having secured the services of a Good

SEAMSTRESS,

hey are now prepared to do all kinds of

Family Sewing and Stitching,

on the celebrated GROVER & BAKER MACHINE. The work done on this Machine is more durable than any other, because it is more elastic.

ALL KINDS OF CLOTHING
For Ladies and Children
MADE TO ORDER.

The reasons why persons in want of a SEWING MACHINE should buy it of PERKINS & SON, are because it can be had no cheaper in the city, and it is more convenient for Ladies to visit the Machine room here and learn to use them, than it would be to go to the city.

LADIES will find in their MACHINE ROOM, which is under the charge of a lady, the following goods:

HOOP SKIRTS, CORSETS,
LADIES' VESTS, AND DRAWERS,
MUSLIN SKIRTS AND GARTERS,

and many other articles expressly for the Ladies. The assortment of such Goods will be much enlarged in the Spring.

A LADIES' DRESSING ROOM

has been fitted up for the accommodation of Ladies from the country, which is connected with the Machine room.

REDONDA GUANO:

The Cheapest and Most Successful Fertilizer on Wheat ever introduced into this Country.

THE Redonda Guano has now been used extensively for two years upon every description of crops, and with the most unprecedented success. Its results upon the various crops, and especially the wheat crop of the present season, has established its reputation beyond all others, and a demand, unprecedented.

"REDONDA" is a pure, natural Guano, entirely uniform in its character, sold to the farmers just as it is imported, and requires no preparation for the DRILL.

The EXTREMELY LOW PRICE at which it is sold (the ordinary manufactured Phosphates costing over one hundred per cent. above the price of Redonda) is not the least important fact to the farmer.

Pamphlets containing testimonials from FARMERS and PLANTERS in Maryland, Virginia, Delaware and New York, from which we extract briefly the adjoining on wheat, together with REPORTS and ANALYSIS of the most eminent chemists in the country, with full directions for its use, can be obtained at our warehouse or from our various agents.

Price $30 Per Ton.

REDER'S WHARF, St. Mary's Co., Md., June 6, 1868.

Messrs. W CRICHTON & SON.

Gentlemen:—I have just returned from a visit, made expressly to see the effects of your Redonda Guano on the present crop of wheat, and although it involved a ride of thirty miles, yet I feel amply compensated.

The three gentlemen I visited, were Col. Forbes, H. G. S. Key, and George H. Morgan; they all used it extensively, and three finer fields cannot be found in Maryland. The latter gentleman is most enthusiastic in its praise, he has used Peruvian, and all the numerous manufactured Phosphates, but he never had such a field of wheat as at this time.

Yours, respectfully,
W. O. REEDER.

SANDY SPRINGS, Montgomery Co., Md., June 24, 1868.

Messrs. W. CRICHTON & SON.

Gentlemen:—The Redonda Guano, that we purchased of you last fall, has given us entire satisfaction, we applied it to wheat, corn, potatoes, and buckwheat, we sowed one field of wheat broadcast, about 400 lbs. to the acre, in Montgomery County, and harrowed it in which looks well. On the same farm, in this county, we put in a field of *Buckwheat*, which was as good as ever grew on land; about 200 pounds to the acre, of the Redonda, was applied. The potatoes look well and the Redonda has made us as good crops as some of the Fertilizers that cost us double the price the Redonda did.

Yours, truly,
RAWLINGS & SON.

DEP'T LABOR AND AGRICULTURE STATE OF MD. *Office 31 N. Calvert Street*, Baltimore, July 16, 1868.

Messrs. W. CRICHTON & SON.

Gentlemen:—I desire, as promised, to acquaint you with the results of the application of the *Redonda Guano*, upon my wheat land last fall. I applied the Guano at the rate of 350 lbs. per acre (as thick as the drill would sow it;) this application was made to 12 acres, one half sown in *Wheat*, the other in *Rye*.

The grain grew well in the fall and both Wheat and Rye promised a fine crop in the spring, the grain has been harvested but not as yet thrashed. I have reason to believe that the Rye will make an unusually fine yield, but the Wheat does not promise so well, owing to the Fly having damaged it very severely.

This may be ascribed to so little extent to the variety sown (Boughton,) as the bearded wheat of my vicinity has almost entirely escaped the ravages of both Fly and Weevil. The *Clover* sown upon the ground to which the Guano was applied, is well set and very vigorous, and I esteem the application of the *Redonda*, though not of speedy benefit, from the causes above, as a very valuable permanent fertilizer. Yours, respectfully,
W. S. McPHERSON.

TRAPPE, Talbot Co., Md., July 3d, 1868.

Messrs. WM. CRICHTON & SON, Baltimore.

Dear Sirs:—"The Redonda is so cheap, when compared with other Fertilizers, is a great thing for us in these times, the price, and its success last year has induced many of our farmers to try it.

I have used it mixed, *four* parts of Redonda and *one* part Peruvian, as have some of my neighbors, and our wheat crop is very good; equal to any in our neighborhood, where Peruvian and manufactured Phosphates have been used costing from $60 to $70 per ton."

Respectfully, yours,
THOMAS S. HADDAWAY.

PORT PENN, Delaware, June 6th, 1868.

Messrs. WM. CRICHTON & SON.

Gentlemen:—You are aware that I depended *mainly* on the mixture of *Redonda* Guano last autumn for manuring my wheat, using a *small* portion of Peruvian (not all of a part of a ton I got from you) on about thirty-five acres.—From present appearances, my crop will excel any ever raised on same area, within my recollection on the fields now in cultivation, during the past thirty years.

Yours, respectfully,
DAVID STUART, M. D.
Late Chemist to the Maryland St. Agr. Society, and Prof. of Chemistry in St. John's College, Annapolis.

CHARLESTON, Cecil co., Md., July 25, 1868.

Messrs. W. CRICHTON & SON,

I purchased through Mr. Robert Lumsden, last September, 5 tons of REDONDA GUANO and also several tons of various manufactured phosphates, costing $60 a ton. I used them separately on my wheat, and must say the Redonda is equal if not superior to any of them. I shall use nothing else but Redonda on my wheat this fall. GEO. W. BARNES.

"POPLAR GROVE," Queen Ann's Co, Md., August 15th, 1868.

Messrs. WM. CRICHTON & SON.

Gentlemen:—The application of two-thirds of *Redonda* and one-third *Peruvian Guano*, at the rate of 200 lbs. per acre, with the Drill, to corn ground wheat, on 50 bushels seeding, the greater portion being a light gravel soil, gave 16 bushels of Wheat per acre. On the balance of the field, by far the best wheat land, on 46 bushels seeding I applied two-thirds Jordan's Super Phosphate, costing $50 per ton, and one-third Peruvian Guano, which yielded 14 bushels of wheat per acre.

Upon a quarter farm where I seeded 18 bushels with the same proportions of "Redonda" and Peruvian, on the fallow, I made *Twenty-four bushels wheat to the acre.*

I have used Jorden's Super Phosphate for several years, and selected it for this experiment, as I found it to pay better, in careful experiments, with three of the most celebrated fertilizers of your market, (whose names I send you herewith.) I will want 8 to 10 tons of "Redonda" this Fall,

Very respectfully, yours,
J. R. EMORY.
