Are the Fly and Mosquito Dangerous?

The fly, with spongy feet, collects the invisible germs of diseases, spreads them over our food and poisons us with typhoid and cholera. The mosquito with its bite injects into our veins malaria and yellow fever. The bacteria of consumption, or grip, are everywhere present for us to breathe into our lungs. The blood which flows through our veins and arteries is our protection. It should contain healthy red and white blood corpuscles—capable of warding off these disease germs. Dr. Pierce's Golden Medical Discovery is a blood medicine and alterative made entirely without alcohol, a pure glyceric extract of bloodroot, golden seal, Oregon grape root, queen's root, mandrake and stone root, which has enjoyed a good reputation for over forty years. The refreshing influence of this extract is the Nature's influence—the blood is bathed in the tonic which gives life to the blood—the vital fires of the body burn brighter and their increased activity consumes the tissue rubbish which has accumulated during the winter.

M. MAGUIRE, ESQ.

"About forty years ago while in Newark, New Jersey, I had chills and fever," writes MR. MICHAEL MAGUIRE, of National Military Home, Kans. "I went to Kansas City and in the spring of 1877 the chills and fever returned. Doctors and everything I tried failed to do me good. Finally I saw Dr. Pierce's Golden Medical Discovery advertised. I took one bottle of it and the chills vanished. In about a year afterward I felt them coming back so I got another bottle and have never had any symptoms of fever or ague since. That is all of twenty years ago, for I had the chills about twelve years before I started to take 'Golden Medical Discovery.'"

Dr. Pierce's Pleasant Pellets are for liver ills.

CROWDS EXCITED AS AIRSHIP PASSES OVER THE CITY

Monday evening, shortly after sunset, hundreds of persons watched an airship sail directly over the business section of the city, apparently five or six hundred feet above the earth. People along Garrison avenue were startled to see a large dirigible airship with a man sitting in the framework beneath what resembled the world-famous Zeppelin type of Germany.

The airship, with its numerous mechanism at work, sailed rapidly and within a few minutes had crossed the Arkansas river and was floating over Oklahoma soil, while the crowds wonderingly watched it as it disappeared in the western horizon.

Investigation revealed the fact that the "airship" in question was a life-like dirigible airship that was sent up from the top of the Goldman Hotel by the publicity managers of the International Drug Company, who have their advertising offices at the Goldman.

The International Drug Company was organized last May under the laws of Arkansas with an authorized capital of $100,000. While this corporation has only been in existence a short time, they have attracted attention all over the United States and sections of Canada, Mexico and Cuba. They sell four remedies as follows: "CHIL-LAX" for chills and fever; "KIL-POIS" for Blood Ailments; "KIDNEY-FLUSH" for Kidney and Bladder Diseases, and "666" for Rheumatism. From the present outlook, and if they continue to grow as rapidly in the future as they have in the past, these remedies will undoubtedly prove the largest sellers ever known, as remedies with merit sell, and it is hoped they will break all previous records of the medicine world which will put Fort Smith in the homes of millions and milions of people.—Southwest American, July 23rd, 1912.—Fort Smith, Arkansas, U. S. A.

MUST BE WONDERFUL DISCOVERIES

The Company mentioned above is patronizing us with a nice advertisement, as shown on another page, and you will see that they are offering the consumer a mighty liberal proposition, putting Remedies in the homes of the people at the Company's risk, as they figure that every family receiving a set of Remedies means several permanent users.

The International Drug Company further claim that a satisfied customer is worth more to a business than a solid block of flashy billboards.

We are glad the Remedies are proving large sellers, as one spending years upon years searching and reaching at an uncounted cost, to relieve suffering humanity, deserves success.

Something else to be admired of the International Drug Company is the fact that their advertisements do not claim any "CURE ALLS," etc., and we will say for the benefit of our readers that single Remedies and 50c sizes may be had at any Drug store or General Mercantile store throughout the country; although you can not lose by ordering the "Family Set," as each Remedy must give absolute satisfaction or the Company does not want the other $4.00, and you are to be the sole judge. Evidently these Remedies have proven wonderful discoveries, or no concern could have built up such an enormous business on so liberal terms.

We are informed that the International Drug Company is offering the druggists and merchants an Airship free with each order received for Remedies during August. These Airships are exactly like the one that thousands of people in the Company's home town riveted their eyes on recently. They are 12 feet long and have a frame-work beneath that resembles the old famous Zeppelin type of Germany, which has created comment from every quarter of the globe.

Every man, woman and child would like to see an Airship float in the upper blue. Who is the first live merchant?

The New Perfection Toaster

Anyone, even a little girl, can make toast on the New Perfection WICK BLUE FLAME Oil Cook-stove

She will not burn the toast, and she will not burn her fingers either, if she uses the New Perfection Toaster.

For toast or roast
For boil or broil
For fry or bake

there is no other stove that is as quick and as handy as the New Perfection Oil Cook-stove — the convenient stove for all purposes, all the year round.

Every dealer has it. Handsomely finished in nickel, with cabinet top, drop shelves, towel racks, etc. Long chimneys, enameled turquoise-blue. Made with 1, 2 and 3 burners. Free Cook-Book with every stove. Cook-Book also given to anyone sending 5 cents to cover mailing cost.

Mrs. Physick is visiting friends in Culpepper, Va.

A NOTABLE EVENT RECALLED.

Inwood, W. Va., Aug. 5, 1912

MESSRS. EDITORS:

Sixty one years ago, August 8th, 1857, Taylor Murphy and Shelton were hung for the murder of the Cosden family. I was a boy at the time a few months over fifteen years old and was clerking for Wiley & Perkins. I saw them several times while in the jail and on the morning of the execution Ben Vickers and I took our stand near the jail. Saw them when they came out and took their seats in the wagon and started for the place of execution which took place on a hill in the field on the right going from town to Whaland's Mill. There was a large crowd in town on that day. Ben and I joined the procession. When opposite the scaffold we took our seats on the fence in the shade of a locust tree. When the drop fell there was quite a commotion on the hill for a moment. Then some fellow came tearing down like "Tom O'Shanter" yelling one of the ropes was broken and he was on his way to town to get a new rope. We then walked up and pressed our way through the crowd until we reached the line of the hollow square. Taylor and Shelton were hanging, Murphy was sitting in a chair groaning and praying. I saw the red mark on his neck caused by the rope. We then concluded to go down to the spring at the mill and get a cool drink. Just as we reached the foot of the hill we saw them take Murphy up and in a minute or two the drop fell and Murphy joined his companions. There was a very heavy thunder storm that afternoon.

How very few that was present that day if the roll was called could answer to their names. A very large majority are "sleeping in the dull cold tomb where no mention of them will more be heard of."

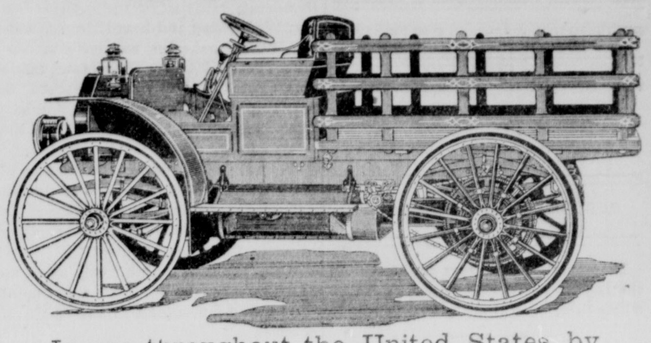
The International Auto Wagon

Or Commercial Car



In use throughout the United States by Farmers, Merchants, Millers, Contractors, Manufacturers, Liverymen and others.

A feature of the International Commercial Car that will appeal to a great many people is the fact that this car can be converted into a vehicle for carrying people. A rear seat and a double top can be added, making a very comfortable vehicle. The space behind the back of the front seat is sufficient so that two seats can be added, making a three-seated rig for liverymen who have traffic of this kind.

The International in the strictest sense of the word is a commercial car—one that can be used every day of the year, through snow and mud, cold weather and hot. The great success this car has attained in the past and the present is the greatest commendation of its usefulness.

The snow storm which tied up traffic in Chicago in February, 1911, did not interfere with the International Commercial Car service. This car was one of the few commercial cars in service in Chicago that was not delayed by the snow. The drivers were not afraid to turn out of street car tracks and into the side streets and places where the snow was deep, for fear they would stall. The car is as efficient in negotiating mud as it is in plowing through snow.

Capacity 1500 to 2000 pounds depending upon conditions of the haul. Speed 15 miles per hour. 20 H. P. Two-Cylinder Engine. Factory output 20 cars per day, which does not meet the present demand. Easily operated and as nearly fool-proof as possible. Solid tires—eliminating tire trouble.

This car will be driven throughout every part of Kent county and will stop at Still Pond, Kennedyville, Locust Grove, Galena, Georgetown, Massey, Millington, Crumpton, Chesterville, Chestertown, Rock Hall, Fairlee, Melitota, Worton, Lynch and Betterton, affording everybody an opportunity to see the car in operation.

"Anybody Can Clean Silver This Way—"

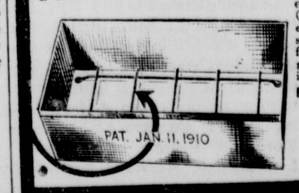
I'm sure"—says the LITTLE HOUSEWIFE. There's no "fussing" with dirty, mussy, injurious "pastes" or powders, no rubbing or "real work" of any kind. It's so much quicker, better and more satisfactory, in every way, than any other Method that you'll really enjoy using the

Silver-Clean Pan

This truly wonderful little home labor-saving device is very simple, yet extremely durable in construction. It quickly and thoroughly cleans any silverware of black and tarnish—without defacing, marring or scratching, or removing one particle of silver—and leaves it bright and new.

The SILVER-CLEAN PAN is a scientific combination of electro-chemical metals. Hot water, with ordinary baking soda and salt, is placed in the PAN—and the silver merely immersed and left for a few minutes—then taken out and wiped dry, when every trace of tarnish will have been removed—WITHOUT RUBBING OR SCOURING.

Thousands of housewives use the SILVER-CLEAN PAN—and what once was a dreaded task is now a pleasure. Hotels, clubs, restaurants and dining cars also employ the PAN. The household size, No. 1, single, (with full, simple directions). Shipped on free trial, express prepaid, for only $1.25. If not found entirely satisfactory, we willingly pay return charges and refund the purchase price. Beware of imitations. None genuine without grid; see arrow. Slabs and other forms injure silverware. The "Silver-Clean" does not.



Manufactured only by Ramsay-Vance Sales Co., Madison, Wis.
