### COMBINATION GRINDER

and have

HEALTHIER COWS, MORE MILK-AT LESS COST!

Proper stock feeding is a matter

that deserves the serious attention of every progressive farmer. The right feed results in healthier, happier stock-more milk production-increased earnings. A proper balanced ration is important. Experiments show that seven cows fed GROUND feed produce as much as ten cows fed whole grain.

GRINDING DEMONSTRATION

We will have public demonstrations of this combination grinder at our store, when we will grind hay, fodder, corn, etc. Don't forget the dates below and come in and see this mill in operation.

> DECEMBER 29 AND 30, 1922 JANUARY 6 AND 13, 1923.
