**Show Company Stranded.** — Six women and six men composing the Yorkville Vaudeville Company, of New York, went to Easton on Monday to give performances in Music Hall for two nights. The performance was well attended Monday evening, but Manager Higgins, of Music Hall, canceled their second night's engagement. He paid over the proceeds of Monday night's engagement to their manager. The troupe were left stranded, without any money and their hotel bills unpaid. They wandered about town endeavoring to pawn their musical instruments, jewelry, etc., to raise money enough to pay their hotel bills and get out of town. Several citizens assisted them to raise the necessary funds.

**Sudden Death of Mr. C. E. Lewis** — Mr. C. E. Lewis, aged about 60 years, a prominent farmer of near Ingleside, Queen Anne's county, died very suddenly last Friday morning from an attack of acute indigestion. The day before his death he was in his usual health, but on retiring complained of feeling unwell, although he was soon sleeping peacefully. His wife did not retire for some time after, and on awakening Friday morning found her husband had been dead some time. Mr. Lewis was a native of Delaware, but went to that county about 20 years ago. He married Miss Isabel Jarrell, daughter of the late Wm. Jarrell, who survives him.

### Rev. Irl Hicks Tells What We May Expect For October

Change to warmer with falling barometer and growing cloudiness as early as the 1st and 2nd. During Tuesday, Wednesday and Thursday, the 3d, 4th, and 5th, these conditions will advance eastwardly across the country, causing rain and autumnal storminess over most parts lying along and near the paths of storm centres.

Saturday, Sunday and Monday, the 7th, 8th and 9th, are reactionary storm dates. On these days there will be decided return of storm conditions. Storm conditions are: falling and low barometer, easterly to southerly winds, rising temperature, and growing cloudiness.

The next regular storm period is central on the 14th, covering the 13th to the 17th. Marked depressions of the barometer and other evidences of gathering storms will appear to the westward as early as the 13th, and during the days next following up to the 16th or 17th very decided autumnal storms will visit most parts of this and other continents. Autumnal lightning and thunder may come with the first stages of these storms, but gales out of the north, with severe dashes of sleet and snow northward, may reasonably be counted upon at this time.

The reactionary storm period, central on the 19th, 20th and 21st, coming as it does near the close of the Mercury period, will most likely take up the Mercury characteristics by prolonging the tendency to cloudiness, cold rain and sleet.

The last regular Vulcan storm period for October extends from the 24th to the 29th, being central on the 26th. Change to much warmer, with a decided fall of the barometer will be noted in western sections by the 24th and 25th. These conditions will be quickly followed by cloudiness, storm and precipitation. By Thursday, the 26th, decided storms, attended by heavy rains, autumnal lightning and thunder, will be developed and on their eastward march across the country.

These storms will reach their crisis and culminate in much force on and touching the 28th. As the month goes out a reactionary storm period will be in its first stage—the barometer will be falling in the west, with change to warmer and gathering clouds. This period will express itself in more or less storm and disturbed weather conditions during the opening days of November.

**A Mad Negro.**—A dispatch from Ridgely, Caroline county, says that John Newman, a Baltimore negro employed at D. P. Holsinger's canning factory at Tuckahoe Station, Caroline county, threatened to kill several of his fellow-workmen. He used as his weapon a hatchet, and so great was the excitement among the colored people of the factory that nearly everyone left work and ran to a nearby woods and other places of safety. Officers from Ridgely were sent for and upon their arrival Newman defied any of them to come within reach of him. The raging negro was hit in the head with a large lump of coal, the coal bursting and flying in all directions.

This appeared to have no effect upon him, but made him still more vicious and unmanageable. He finally gave up and consented to be arrested after several shots from a 32-caliber revolver had been fired at him. He was handcuffed and tied to a carriage before the officers could carry him to Ridgely.

If you really want that foot comfort which is worth all else, in addition to long service, and individuality of design, select Dolly Madison Shoes.
