Some of the Best Crops of Wheat

GROWN IN THE STATE WERE FROM

WILBUR W. HUBBARD'S

STANDARD BONE FERTILIZERS

Last year we made for Dr Isaac Barber, the ex-Congressman, and Mr. G. M. Wingard, the machinist, of Easton, a lot of Fertilizer that ontained 1400 pounds of Dissolved Animal Bone, 400 pounds of Bone Tanking, 200 pounds of Muriate of Potash; total 2000 pounds. Dr. Barber we have not have not heard from, but the following is what Mr. Wingard has to say:

EASTON, MD., Aug. 1, 1906.

WILBUR W. HUBBARD, ESQ, Chestertown, Md.—Dear Sir: That goods you made for me last fall certainly gave satisfaction. In the spring our wheat looked like other people's. We feared that we would only have half a crop, although as I told you when I got you to make this goods for us I believed in a good goods and use less per acre, and only used 200 pounds on 100 acres, and threshed a few days ago from 66 acres 27 bushels per acre; from 40 acres 29½ bushels; from four acres 40 bushels per acre: and it was nice wheat. And I therefore believe it paid me better to use 10 tons of that goods than it would 20 tons of a cheap fertilizer, and my clover is splendid and about a foot high.

Respectfully,
G. M. WINGARD,
Machinist, Easton, Md.

Mr. Vincent Lee says: I used Wilbur Hubbard's fertilizer last year alongside a goods costing $3 50 more per ton and marked the place, and when the wheat was examined by people who came to see it Hubbard's was generally acknowledged to be as good or better.

Mr. Wm. Clark, on H. H. Barroll's farm, near St Paul's Church, says that Hubbard's fertilizer certainly did splendidly for him this time, and that part of it threshed out 24 bushels per acre.

Mr. E. D. Reed, who owns a threshing rig, under date of July 29th, certifies that Wilbur Hubbard's fertilizers for the last three years have yielded 3 to 5 bushels more per acre than others used in competition and that the farmers are appreciating their value.

Mr H. H. Klinefelter says: I have used 90 to 100 tons of Hubbard's goods per year for ten years, and I expect to continue to use them.

Mr. John T. Jones, of Barclay, Md., says: I sold and used 40 tons of Hubbard's in 1903, 60 tons in 1904, 165 tons in 1905, and will need over 200 tons to supply my trade this fall.

Mr. Cad. L. Phillips, of Laurel, Del., says: I have sold and used Hubbard's fertilizers for 20 consecutive years, and this year it will take me 150 to 200 tons.

Mr. John H. Evans, of Queen Anne's, uses 75 to 100 tons of our goods per annum, and says this year by actual test Hubbard's was the best, and expects to use it again.

Mr. J. B. Hossinger says Hubbard's fertilizers give him satisfaction, and that is why he places his order for 28 tons this year.

Wilbur W. Hubbard

BETTERTON IN ITS GLORY.

Fishing Resort Popular and Sport is Good. Where Place is.

Advices from Betterton say that rock and perch fishing has been very good there during this week, and prospects are bright for the coming week. Many Baltimoreans have been enjoying the sport. It is necessary for those taking the trip to procure their bait before leaving Baltimore. Blood worms or peeler crabs are required to catch the large fish.

Betterton, becoming famous as the great perch and rock fishing resort is situated in Kent county, Maryland, at the head of the Chesapeake bay, at the junction of the Sassafras, Elk, North East and Susquehanna rivers, and is one of the most picturesque spots on the beautiful Chesapeake. It is 40 miles from Baltimore, 60 miles from Philadelphia and 14 miles due south of Havre de Grace.

The bay is eight miles wide at that point, and the view is magnificent. The climate is healthy and invigorating, and out of the bay banks flows the most delightful and pure spring water. Kent county has long been known as a great fruit section. Large quantities of delicious peaches, pears, etc., are shipped from there.

The principal fishing is for rock and white perch, with handline. The rock or striped bass is very gamy, and runs from 2 to 10 pounds in weight. The white perch not only affords great sport for hook-and-line fishermen, but is a most delightful table fish, and frequent fish fries are indulged in on shore. If desired, expert handline fishermen and first-class boats can be procured by visitors.

MIDDLETOWN CREAMERY DESTROYED BY FIRE.

Believed the Blaze in the Cook and Brady Plant Middletown Was Started y An Incendiary.

Fire early Friday morning destroyed the creamery and ice plant of Cook and Brady, known as the Middletown Farms, at Middletown. The loss will be between $15,000 and $20,000, partly covered by insurance. The blaze is believed to have been started by an incendiary. It was discovered by the engineer of the Norfolk express that left Wilmington at midnight, when the train pulled into Middletown. He blew several blasts from the locomotive whistle to alarm the sleeping residents, and a passenger who alighted at Middletown, informed the fire company. It went into service immediately, but the flames had gained too great headway and the frame buildings were entirely destroyed. The Middletown Farms has a distributing store in Wilmington for its products, and its creamery was one of the best equiped in Delaware.

MRS. PATTEN'S DEATH.

A Former Kent Countian Dies in Baltimore.

[From the Baltimore Sunday American.]

A coroner's jury at the Northwestern Police Station last night returned a verdict holding Dr. J. W. C. Cuddy responsible for the death of Mrs. Fanny Patten, as the result of a criminal operation.

The first witness who testified at the inquest was Harry C. Andrews, permit clerk in the Health Department, who testified to the fact that he gave a permit for the funeral of Mrs. Patten on a death certificate signed by Dr. J. W. C. Cuddy, of 927 Madison avenue, and that the cause of death assigned on the certificate was peritonitis from gastric irritation.

Dr. N. G. Kierle, city post-mortem physician, who held an autopsy on the body of the woman, testified that after a thorough examination he had found that Mrs. Patten had not died from peritonitis, as was specified on the death certificate, but resulted from blood-poisoning superinduced by a criminal operation.

When called upon to give his evidence Dr. Cuddy denied that he had performed a criminal operation. He said that the woman, who was a perfect stranger to him, came into his office last May, and that after hearing an explanation of her trouble he prescribed for her. Again on August 3, he said, he was called in by Mrs. Patten, and she complained of suffering internally, and that after an examination he found her to be suffering with peritonitis, and notified the woman's family that her death might be expected at any time.

Mrs. Elizabeth Smith, who prior to the first of August occupied part of the home of Mrs. Patten, on West Franklin street, testified to the fact that an operation had been performed on Mrs. Patten. Mrs. Smith said that while living with Mrs. Patten she was confined to her room, and had been attended by Dr Cuddy. On the occasion of Dr. Cuddy's visit just prior to her removal from the Franklin street address, Mrs. Smith stated that after he had left the patient she (Mrs. Smith) visited Mrs. Patten's room, found her in great pain, and that while with her a child was born. The child, she said, was sent around to the home of Mary Anderson, a negress, who resides at 503 Carlton street, who sent it back to the Franklin street home. Mrs. Smith then stated that a package of the same size in which the infant was wrapped was taken away by Dr. Cuddy when he next visited the house.

The Anderson woman testified to the fact that the child had been sent to her home, but that she refused to receive it.

CASTORIA. Bears the Signature of Chas. H. Fletcher. The Kind You Have Always Bought

Nature's Way Is Best.

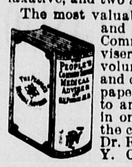
The function strengthening and tissue building plan of treating chronic, lingering and obstinate cases of disease as pursued by Dr. Pierce, is following after Nature's plan of restoring health.

He uses natural remedies, that is extracts from native medicinal roots, prepared by processes wrought out by the expenditure of much time and money, without the use of alcohol, and by skillful combination in just the right proportions.

Used as ingredients of Dr. Pierce's Golden Medical Discovery, Black Cherry-bark, Queen's root, Golden Seal root, Bloodroot and Stone root, specially exert their influence in cases of lung, bronchial and throat troubles, and this "Discovery" is, therefore, a sovereign remedy [redacted] bladder [redacted] where located.

You don't have to take Dr. Pierce's say-so alone as to this; what he claims for his "Discovery" is backed up by the writings of the most eminent men in the medical profession. A request by postal card or letter, addressed to Dr. R. V. Pierce, Buffalo, N. Y., for a little book of extracts from eminent medical authorities endorsing the ingredients of his medicines, will bring a little book *free* that is worthy of your attention if needing a good, safe, reliable remedy *of known composition* for the cure of almost any old chronic, or lingering malady.

Dr. Pierce's Pleasant Pellets cure constipation. One little "Pellet" is a gentle laxative, and two a mild cathartic.



The most valuable book for both men and women is Dr. Pierce's Common Sense Medical Adviser. A splendid 1008-page volume, with engravings and colored plates. A copy, paper-covered, will be sent to anyone sending 21 cents in one-cent stamps, to pay the cost of mailing *only*, to Dr. R. V. Pierce, Buffalo, N. Y. Cloth-bound, 31 stamps.

WHEREVER you spend your vacation, whether in the mountains or at the seashore, see that you have the proper shoes. Do not wear patent leather shoes for tramping, nor tennis shoes for dancing. Select the proper shoe for each purpose. Comfort and economy are both secured by a frequent change of shoes.

DOLLY MADISON SHOES supply the right footwear for each occasion on the most economical price basis.
