COMMUNICATED.

To Teachers.—I am directed by the Board of School Commissioners of Kent county, as will be seen in this paper, to call your attention to the very general complaint of parents of children under your care, of the neglect of their lessons in writing, and of their Arithmetical studies. In some cases an exercise in writing once or twice a week is deemed sufficient, while arithmetic receives attention an hour or so, on alternate days.

Nothing need be said of the paramount practical utility of these studies, nor of the injury done by throwing them in the back ground. I am not authorized to make any suggestion as to the allotment of studies in your schools, but venture to recommend that 15 or 20 minutes of each session be devoted to instruction in writing, and the greater part of each afternoon be given up to arithmetic.

I take this opportunity to ask your attention to the omissions in your Reports, and to urge you to make them more full and correct. In some cases the attendance of pupils is not footed up, in many no account is stated, in others the account is balanced in the wrong place, and in very many the certificate of District Commissioners is given to the correctness of the report and not to the condition of the school, or the efficiency of its management. A defective Report must be returned, incurring additional expense of postage, and impairing to that extent the ability of the Board to pay promptly salaries when due. Great care should be taken to enter *only* the *increase* of pupils or new pupils in each term after the fall term, in the table at the right hand side of the Report. I append also the scale of salaries, and a brief formula by which each may be calculated, which every teacher should cut out and paste in the Register:

	15 pupils or less	$1.00.
Average	5 additional	$2.00 each
"	5 "	1.00 "
"	10 "	75 "
"	10 "	50 "
"	40 "	25 "
All above 40		

Multiply the number of school days in the term by 15. Subtract the reult from the aggregate days attendance, and divide the remainder by the number of school days in the term, the result is the average number of pupils above 15. If the average is 15 or less, deduct lost time, but not otherwise.

Persons having claims against the School Board, authorized by the District Board, would save trouble in having them allowed, if they would get the endorsement of the Dist. Board before presenting them.

HOWARD MEEKS.

A TERRIBLE CASUALTY—*A Ship's Captain and First and Third Officers Swept Overboard.*—The Steamship Europa, Capt. Findlay, which arrived at New York on Monday from Glascow, reports that from the 1st to the 7th of March she experienced a succession of heavy gales from the Northwest. On Saturday, the 4th, at 9.45 A. M., the vessel shipped a heavy sea, which carried overboard the starboard side of the bridge, on which were Capt McDonald, Mr. Davies, first officer, and Mr. Walter, third officer. Every effort was made on the part of the crew to save them, but owing to the severity of the gale, no boat could be lowered, and nothing was seen of them after they passed the stern of the steamer. Mr. Findlay, the second officer, ran aft to render aid and was caught by another sea and had great difficulty in saving himself, being up to the waist in water. He ordered the ship hove to for the night, and on the next day the weather moderated. Capt. McDonald was thirty-five years of age, unmarried, and resided at Gourock, Scotland. Mr. Davies, the first officer, was 25 years of age, unmarried, and resided at Glenlace, Wigtonshire, Scotland. He was in command of one of the boats of the steamship Hibernia that foundered at sea several years ago, escaping almost miraculously after a perilous voyage of 800 miles in an open boat. Mr. Waller, the third officer, was 22 years of age, also unmarried, and resided at Edinburgh.

A FEMALE FARO DEALER.—The editor of the Kansas City *News* recently got a peep at one of the women faro-bankers of Denver, and here is what he has to say about her and her business:

A woman went through on the Kansas Pacific train last evening, that was pointed out to us as one of the celebrated female faro-bankers of Denver. She was dressed tastily and quietly in a gray alpaca travelling suit, with gloves and trimming of hat to match; was of medium stature, well formed, and not more than 34 or 35. Her face was not at all an unpleasant one, must have been very pretty, some time, ere so many tell-tale lines were drawn upon it—and what is most unusual in women of her class, the complexion was good. She was on her way back from St. Louis, where she went, so our informant stated, to place a young boy at school. Their faro-band at Denver has been in full blast for some time, and the two proprietors are reaping as rich a harvest as their professional "sisteren" of New York—Woodhull & Claflin. No fights or disturbances of any kind have ever occurred at their rooms, and the women conduct the game with all the suavity of experienced professionals. Several lights of the gambling fraternity of this city were at the depot, and seemed much interested in inquiring after her welfare. Women minstrels, women gamblers, women counterfeiters—who protests against women's rights?

GOING OVER.—The New York Evening *Post*, under this head, says: "We have long suspected that Mr. Kelly, Mr. Maynard, Mr. Hooper, and others like them, hated the republican party. Their conduct has always weakened that party, and has, at last, very greatly reduced its preponderance in Congress. It is high time for them to throw off their false colors and come out as democrats. Let them go openly where their sympathies are.—Nobody forbids them. They are not wanted in the republican camp. And we advise the Tribune to go with them." It is presumed the democrats would have no objection to this accession, though there are others, perhaps, that they would not be so willing to receive.

THAT old terrapin marked "F. A. G. 1800," died at the Brick Hotel in Easton on Saturday evening week, aged about 75 years. He is supposed to have been born near Easton, Pa., about the year 1796.

Cheering Facts for the Bilious.

Every day demonstrates more clearly that liver complaint, in all its distressing forms, can be controlled and cured without difficulty or inconvenience. It is an obstinate disease, but its obstinacy is not proof against the pertinacious, remedial and restorative operation of Hostetter's Stomach Bitters. That genial corrective *compels the organ to do its duty*. It *must* secrete regularly and healthfully under the influence of the Bitters. Their action brings it back from a state of rebellion into perfect harmony with the laws of health. If there is costiveness, it disappears; if there is side-ache or back-ache, it ceases; if the skin and the whites of the eyes are tinged with superfluous bile, they recover their natural hue; if the appetite is gone, it returns; if the digestion is impaired it is restored; in brief, whatever the symptoms of the complaint may be, and whatever phase it has assumed, *a cure is certain*. Such are the uniform effects of this preparation where bilious disease has been already developed; but in cases where there is merely a constitutional tendency to liver complaint, it may be prevented throughout life by the regular use, in small quantities, of this palatable antidote. These are proven facts, and should be seriously pondered—or, rather, they should be promptly acted upon—by all persons of bilious habit.

Clear and Harmless as Water!

NATTANS' CRYSTAL DISCOVERY

FOR THE HAIR!

A PERFECTLY clear preparation in one bottle, as easily applied as water, for restoring to gray hair its natural color and youthful appearance, to eradicate and prevent dandruff, to promote the growth of the hair and stop its falling. It is perfectly harmless and entirely free from any poisonous substance and will therefore take the place of all the dirty and unpleasant preparations now in use. In everything in which the articles now in use are objectionable, CRYSTAL DISCOVERY is perfect. It is warranted to contain neither Sugar of Lead, Sulphur, Litharage, or Nitrate of Silver. Bear this in mind when you want anything for your hair.

Clear and clean as water, it does not soil the scalp or clothes, is agreeably perfumed, and makes one of the best dressings for the hair in use. It restores the color of the hair more perfect and uniformly than any other preparation, and always does so in from 3 to 10 days. Virtually feeding the roots of the hair with all the nourishing qualities necessary to its growth and healthy condition, it restores the decayed and induces a new growth of the hair more positively than anything else. The application of this wonderful discovery also produces a pleasant and cooling effect on the scalp and gives the hair a glossy appearance.

☞We call especial attention to the fact that a limited number of trial bottles will be given away gratuitously to those desiring to try it. You will notice that in pursuing this course our aim is to convince by the actual merits of the article. ARTHUR NATTANS, Inventor and Proprietor, Washington, D. C., to whom all orders must be addressed.

WASHINGTON, D. C., Aug. 5, 1870.

Mr. Arthur Nattans:

Dear Sir—I do not hesitate to say that your Crystal Discovery deserves to supercede all other preparations claiming to restore the growth and color of the hair. I have used it a week now, and my hair has already returned to its natural color, and has ceased falling almost entirely. I cheerfully recommend it.

Respectfully, fe11y. MRS. ANNIE MORRAIN.

BLACKSMITHING

—AND—

WHEELWRIGHTING.

WE take this method of informing our friends and the public that we have connected Wheelwrighting with our former business, believing it will be better for ourselves and our customers too, as we will be able to work much lower where there is but one profit.

We have Good Seasoned Stock

And Good Workmen in our employ.

We intend to have the Wood work done as we have had our Blacksmithing—that is to say, IN THE VERY BEST MANNER; and we are willing for the public to be the judges. Our experience is that "the best is the cheapest."

We will have

Plows, Cultivators,

AND HARROWS, FOR SAME

We shall also put up New CARTS,

Wagons, Dearborns, Express Wagons,

&c., in good style.

ALL KINDS OF REPAIRING DONE AT SHORT NOTICE.

Our work will be done as low as at any other establishment here or elsewhere in the State, or outside of it. We are determined to leave no excuse in the way of those who have heretofore been sending their money out of our own community—where it is so sadly needed—to build up manufacturers at a distance.—We challenge a comparison of our work with that done anywhere else, as to price, material, workmanship, style, finish, or any other essential.

CHAPMAN & LAMBERT. Chestertown, Jan. 7, 1871—tf.

A NEW ERA IN BELTING.

PAGE'S PATENT

Tanned Leather Belt.

Tanned in Oil and by the same process as Lace Leather, by PAGE BROS., inventors and manufacturers of the celebrated Page's Lace Leather.

These Belts are perfectly soft, and hug the pulley like pure rubber, thus giving 25 per ct. more driving power than any other belt.

They also have eighty per ct. more strength than the best oak-tanned belts.

They have been placed on pullies running 9,000 turns per minute, and in places where all other belts have failed, have given entire satisfaction, outwearing every other belt 50 per ct.

The fact that they are driving out of the market in the East, very fast, the other kinds of belt, is sufficient testimony.

All the large Eastern Factories now use them.

The following are a few of the many testimonials we have received:

Messrs. Charles E. Inloes & Co.:

GENTS:—We have been using Page's Patent Belt in our factories for over a year, and believe it to be the best and cheapest belt made.

Best, because it is stronger and more durable than oak-tanned; and cheapest, because its adhesive qualities give it so much more driving power. Very respectfully,

R. H. THOMPSON, Sup't Union Mfg. Co. of Maryland, Ellicott's Mills.

Messrs. Charles E. Inloes & Co.:

GENTS:—The fourteen-inch Page's Patent Belt, bought from you, has been in daily use ever since, and gives perfect satisfaction, and you are at liberty to use our name in endorsing the qualities you claim for it, in every respect, as we believe it to be the best Belt made, and shall adopt it altogether in our mills. Very truly,

W. W. TUNIS & BRO., Oakland Steam Saw Mills, Talbot Co., Maryland.

The following are a few of the parties now using it in Baltimore:

R. Sinclair & Co.,	Murrill & Keiser,
W. E. Hooper & Sons,	W. Wilkens & Co.,
Magne & Chipman,	J. W. Butler & Co.,
Liberty Mining Co.,	Johnson & Waters,
P. S. Chappell,	L. M. Beebe & Bro.

Congressional Globe Printing Office, Washington.

The Laps are all short, and besides, the usual copper rivets and glue are fastened by two rows of pegs guaranteed not to come out, which is a great advantage.
