GALENA.—A Galena correspondent of the *Cecil Whig*, furnishes the following items:

Building Association.—The Galena Building Association, made a sale of money, on Tuesday evening last, at 17 per cent premium.

Library.—The Galena Library has recently been increased by the addition of a number of choice books. This Library is said to be the best on the Eastern Shore.

Religious.—Regular service is being held by Dr. Trapier, (Episcopal) in our Town Hall.

Improvements.—Our Catholic friends are building a parsonage, adjoining their Church. W. A. Hyland & Co., Machinists, are building new shops, which will be an improvement to our town.

Change of Owners.—Capt. Demming has sold the steamer *Trumpeter* to Captain Colmary, who takes charge on the first of July.

SENTENCE OF MRS. FAIR.—After the conclusion of the argument of Mrs. Fair's counsel on Saturday, in San Francisco, the Judge informed the counsel for the State that it was useless for them to reply, as the attempt to impeach the jury had failed, and that he would overrule the exceptions taken during the trial. He then, after a brief allusion to her long and impartial trial, sentenced Mrs. Fair to be hanged on the 28th of July. Most remarkable demonstrations at once occurred on the part of the women who had attended throughout the trial, who manifested their sympathy in a most ostentatious manner. Mrs. Fair, it will be remembered, was tried for killing her paramour in San Francisco, some months since.

FIFTEEN MILLION DOLLARS SAVED BY STRATAGEM.—The Versailles government secured the funds in the public offices in Paris by an ingenious stratagem. These funds, which amounted to $15,000,000, in specie bonds and bank bill, were placed in a wagon used for conveying bread and potatoes from the charity hospital to the almshouse at Issy. The evening before attempting to pass the vehicle through Issy gate, a similar one was sent by the hospital manager by way of trial and to disarm suspicion. The guard allowed it to pass, while at the same time the driver secured a pass for the next day, written in the usual unofficial style of the commune: Open the gate even if there be orders to keep it closed. Next day the wagon containing the treasure hidden under sacks of potatoes and loaves of bread, arrived at the same gate and was stopped despite the written order. The guard who gave the pass was away, and his successor would not respect it. In virtue of his right of inspection, he proceeded to open the door of the wagon, and having overturned some of his sacks, was about to remove those which covered the treasure, when a lieutenant who commanded the post arrived, and called, "I know all about that cart; let it pass." The guard let go the sacks, closed the door, and the vehicle passed out. In an hour and a half later the $15,000,000 was safe in Versailles. The same evening the commune learned all, and proclaimed that they were robbed. They sent orders to Issy to arrest the manager of the hospital, but he had followed the millions which he helped to secure.

THE PRESIDENT AND THE TREATY.—A correspondent of the N. Y. *Herald*, who has had an interview with President Grant at Long Branch, writes to that journal an account of the same. The President is credited with saying in regard to the treaty of Washington that the Queen had pledged her signature to the treaty beforehand, and that he regards it, therefore, as practically ratified. There will be pecuniary considerations, he said, and measures will have to be adopted on both sides to provide for them—he felt certain that our House of Representatives would act patriotically in the matter, and had no apprehension as to the course of the British people. The point aimed at was not merely a pecuniary satisfaction for our losses by the Alabama and other cruisers from British ports, but the settlement of an irritating and disturbing question likely any day to bring the two nations into armed conflict. Settlement or war was the alternative. As to the Canadians, who are displeased now, he supposed they would become reconciled to it by and by, as the fishery clauses of the treaty were as favorable to them as to us; the Canadian fisheries are really of little value to us, while the equivalents we grant must be considerable to them. Both governments, too had always to have men of war watching each other's fishermen, and friendly relations between the two governments were constantly disturbed by anticipations of strife. The money consideration, under these circumstances, was a matter of very slight importance.

WILL GRANT BE RENOMINATED?—The opinion that he will not, appears to be gaining strength. Several of the most influential Republican journals, at the head of which stands the New York *Tribune*, are openly opposed to the President for a second term. Many of the prominent leading men, in Congress and out of it, are opposed to him. Among these may be mentioned Sumner, Wilson, Chase, Schurz, Boutwell, Trumbull, Wells, Motley, Phillips, and a host of others of lesser note. Nearly all the prominent officers of the Army are opposed to him.—We will mention only Sherman, Hooker, Logan, Burnside, Meade, Seigel, Heintzelman, and Slocum. Butler, although a pretended friend of Grant, at present, in order to use him, is opposed to him, at heart, for he wants that position himself, and will join any combination against him, with the hope of strengthening his own chances, if for nothing else. It will thus be seen, at a glance, that here is the nucleus of a powerful party against the President, who will have but few followers outside of his army of office-holders; and these mercenaries will desert him in a body at the first approach of danger, or of any combination that promises to make head against him. It is a reasonable inference, therefore, that Gen. Grant will not be nominated for a second term.

THE VERITABLE SEVENTEEN-YEAR LOCUSTS.—It is announced in the Chicago Tribune of May 30th, have just appeared in Illinois. It says:

"Mr. Sanford, of Morris, Grundy county, has sent in a few specimens, and reports that many millions of the pests are visible in his section. They will probably be found all over the northern part of the State in greater or less numbers, and will undoubtedly make immense havoc among the fruit trees and shrubs, while they threaten but little damage to the grain. The locust is reported to have last appeared in this section in 1854, so that it is due in 1871."

LONG BRANCH is dubbed "the summer capital of the United States" by some of the witty Northern papers, who say that "the administration" has arrived there. They ought to be more respectful to the President and his household when they go to the seaside, as do other American sovereigns.

The report that Mr. Bonner had accepted the challenge of the owner of the much talked of San Francisco horse for a trot, the match to be for $50,000, is contradicted by that gentleman.

A RICH MARRIAGE—*Seven Hundred Thousand Dollars in Presents.*—The marriage in New York on Wednesday evening, of Mr. Arthur Ambrose Meginnis, of New Orleans, to Miss Mary Amelia Tweed, daughter of Wm. M. Tweed, the well known New York politician, was a notable affair, as rich as, if not far richer than the celebrated Ovidio diamond nuptials which created so much talk some years ago. Trinity Chapel was the scene of the Maginnis-Tweed nuptials, and the streets for blocks around were filled with carriages, while the church was crowded to excess. Afterward, when the married couple proceeded to the elegant Fifth Avenue mansion of the bride's father, they received their friends, standing under a magnificent marriage bell of japonicas at the end of the reception room.—The parlors and stairway and upper rooms were all decorated with natural flowers from Mr. Tweeds hot-house at Greenwich. The floral decorations were most profuse and in elegant taste. In an enclosure at the foot of the stairs, on the reception floor, was stationed a band of music, which discoursed promenade music during the first part of the evening, and afterwards played dancing airs. The wedding presents, given by a large number of friends, were displayed in one of the uppor rooms, and must have amounted to the value of over $700,000, and presented an appearance of brilliancy which can never have been equalled in munificence. They comprised all sorts of jewelry, with diamonds enough to stock half a dozen stores; silver sets in profusion, and almost everything that the ingenuity of the human mind could suggest in the line of presents. The room which contained this magnificent display was thronged with the guests, who feasted their eyes on the brilliant contents.

The bridal trousseau is described as having been "the richest ever produced in New York, and fit for a princess."—The wedding dress alone, which was of white grossgrain, with a prodigious train and trimmed with point lace, cost $5,000. It took one of the principal fashion establishments in the city two months to complete the whole trousseau.

THE DORCHESTER AND DELAWARE RAILROAD.—The Cambridge *Democrat* gives a summary of some results wrought by this local railroad since its construction.

Land in the vicinity of Hurlock's Station that was offered a few years ago at five dollars cannot now be bought for fifty. New Market is feeling the impulses of progress that surrounds it on every side. Williamsburg is improving, Messrs. Mahood & Mitchell have started a basket factory for shipping peaches; they are turning out six thousand baskets daily. Probably no point on the road is progressing more rapidly than Federalsburg and the surrounding country. Here Mr. Tilghman Hubbard has prepared in the most improved and costly manner eleven acres and planted it in cranberries. This small lot will probably net more money than any one hundred-acre farm in the county for the next twenty-five years.—Last year there was not over fifty thousand quarts of cultivated berries shipped over the road. This year a car has been very nearly loaded daily with these berries; people on the road do not talk of wheat and corn, but berries and fruit. Last year one or two fruit cars were daily placed on this road to transport the peach crop; now the company is making arrangements to have one or two cars left at every fruit station to be filled daily. This looks like progress.

THE Maryland Agricultural and Labor Convention reassembled on Thursday in Baltimore. An opening address was made by Governor Bowie, and the committee appointed at the previous meeting submitted a report regretting the present depressed condition of the agricultural interests of the State, and asking that more general attention be paid to their revival and encouragement. It is recommended that societies be formed in the counties, as auxiliaries to that now in existence in Baltimore, for the purpose of inducing European immigrants to settle in Maryland. A proposition to apply for an appropriation of $230,000 from the State developed strong opposition, and resolutions were finally adopted in favor of having each county raise $500 to aid immigration. The Convention adjourned, subject to the call of the president. The proceedings will be found on our first page.

TERRIBLE EARTHQUAKE IN CHINA—*A City Overthrown and over Two Thousand Lives Lost.*—Advices from Minister Low, in China, just received at Washington, give an account of a dreadful earthquake which visited the district of Ta-tsien, on the borders of Thibet, and about 700 miles northwest of Canton, on the 4th of April, 1871. The city of Bathang was overthrown, with eight temples and 2,421 dwellings, killing 2,298 people. Flames burst forth in the ruins and raged for four days, destroying the lives of hundreds who lay wounded or imprisoned among the wreck. The shocks were very severe, and continued, with intermissions, for ten days. Hills were upheaved and others sunk, leaving yawning gulfs in their places. The earthquake affected an area of over four hundred square miles.

INSURANCE EXTRAORDINARY.—The secretary of the National Insurance Convention, in session last week in New York, states that the sum in gross of the policies on life sud property of American citizens now in force is ten or twelve thousand million dollars.

A Chapter of Facts.

Space is valuable in a newspaper, and it is therefore proposed in this advertisement to condense a variety of facts, important to the public, into a small compass. Those facts refer to Hostetter's Stomach Bitters—what that celebrated medicine is, and what it will do. In the first place, then, the article is a stimulant, tonic and alterative, consisting of a combination of an absolutely pure spirituous agent with the most valuable medicinal vegetable substances that Botanic research has placed at the disposal of the chemist and the physician. These ingredients are compounded with great care, and in such proportions as to produce a preparation which invigorates without exciting the general system, and tones, regulates and controls the stomach, the bowels, the liver, and minor secretive organs.

What this great restorative will do must be gathered from what it has done. The case of dyspepsia, or any other form of indigestion in which it has been persistently administered without effecting a radical cure, is yet to be heard from, and the same may be said of bilious disorders, intermittent fever, sick headache, mental disbabilities to which the feeble are so subject. It purifies all the fluids of the body, including the blood, and the gentle stimulus which it imparts to the nervous system is not succeeded by the slightest reaction. This is a chapter of facts which readers, for their own sakes, should mark and remember.

The TWENTIETH OF JUNE, 1871, At 3 o'clock, P. M., at the "VOSHELL HOUSE," in Chestertown, Maryland,

The Real Estate

OF THOMAS D. BURGESS,

late of Kent county, deceased. This Real Estate is a FARM, lying in the Fifth Election District of Kent county, directly on the public road leading into Eastern Neck.

It contains about

60 Acres of LAND.

The soil is good and particularly well adapted to Peaches, Small Fruits and Truck.

The situation is most eligible for Fruit and Garden culture. It is not over half a mile from the *Steamboat Landing on Grey's Inn Creek*, near Rock Hall on the Bay, and not far from Deep Landing, the western terminus of the Kent county Railroad, now under construction. In other respects the situation is desirable, being convenient to Churches, Schools, &c., and also, our best Ducking points, fishing grounds and Oyster beds on Chester River and the bay.

THE IMPROVEMENTS

ARE A

Frame Dwelling

And the usual OUT-BUILDINGS, all in good order, and a

PEACH ORCHARD

of good market varieties.

Also, a fine collection of Small Fruits.

This place offers rare inducements to purchase to any one who may desire to engage in canning fruit and oysters, and horticulture.

TERMS OF SALE:

The terms of sale prescribed by the Decree are as follows: Fifteen hundred dollars cash on the day of sale or on its final ratification, at the option of the Trustee; the residue or balance in equal instalments of six, twelve and twenty-four months from the day of sale; payment to be secured by bond of the purchaser with approved security, bearing interest from the day of sale.

R. HYNSON, Trustee.

By the direction of the Decree of the Circuit Court for Kent county, in Chancery, for the sale of the real estate of Thomas D. Burgess, late of Kent county, deceased, the Trustee to sell said property hereby notifies the Creditors of the said Thomas D. Burgess, deceased, to file their claims, with the vouchers thereof, with the Clerk of said Court within four months from the day of the sale of said property.

Cultivator Teeth! Cultivator Teeth!

WE offer to the Farmers of Kent and the adjoining counties our well-known

Cultivator Teeth,

which have been used for some years with entire satisfaction. They have stood the test, and are considered far superior to the old three-cornered teeth. The old teeth always wear round and blunt, and have no point, while our tooth wears to a point. Their regular crook from the frame to the point makes them draw to the ground and run deep, while they run close to the plant without covering it up.

They are Made of the Best Steel,

and can be bought as cheap here as elsewhere, having reduced the price on them as on the rest of our work.

OUR CULTIVATORS

are of greater length, which makes them run steadier than other Cultivators.

TO FARMERS.

"EXCELSIOR."

Containing Ammonia - - 6 per cent.
Super-Phosphate equivalent to Bone Phosphate of Lime 57 "
Potash and Soda - - - 5 "

We again call the attention of the Farmers of Maryland and Virginia to our EXCELSIOR, composed of 700 pounds No. 1 Peruvian Guano, and 1300 pounds of Soluble Phosphate of lime (bones dissolved in sulphuric acid,) potash and soda, forming the most concentrated, universal and durable fertilizer ever offered to the farmer—combining all the stimulating properties of Peruvian Guano, and the ever durable fertilizing properties of Ground Bones.

Excelsior is in fine dry powder, prepared expressly for drilling, and can be applied in any quantity per acre, however small; and it is the opinion of many close calculating Farmers, after Twelve years experience in testing it side by side with other popular fertilizers that an application of 100 pounds of Excelsior is equal to 200 to 300 pounds of any other fertilizer or guano offered for sale, therefore is fully 100 to 200 per cent. cheaper.

The very best evidence we can offer of the value of our Excelsior as a crop grower and fertilizer, is the fact of its being imitated and counterfeited in this and other cities.

Farmers should see that the 'Analysis' and name of J. J. TURNER & CO., are branded on every bag *in RED LETTERS.* All others are counterfeits.

MANHOOD,

How Lost, How Restored

JUST PUBLISHED, a new edition of DR. CULVERWEL'S CELEBRATED ESSAY on the *radical cure* (without medicine, of Spermatorhoea, or Seminal Weakness, Involuntary Seminal Losses, Impotency, Mental and Physical Incapacity, Impediments to Marriage, etc.; also, Consumption, Epilepsy and Fits, induced by self-indulgence or sexual extravagance.

Price, in a sealed envelope, only 6 cents

The celebrated author, in this admirable essay, clearly demonstrates from a thirty years' successful practice, that the alarming consequences of self-abuse may be radically cured without the dangerous use of internal medicine or the application of the knife; pointing out a mode of cure at once simple, certain and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically

This Lecture should be in the hands of every youth and every man in the land.

Sent, under seal, in a plain envelope, to any address, postpaid on receipt of six cents, or two post stamps.

Also, Dr. Culverwell's "Marriage Guide," price 25 cents. Address the Publishers,
