Letter From Talbot County.

Messrs. Editors Kent News:—I must write in fullfilment of my promise, though I may have nothing to communicate of special interest to you or your readers.

My trip across the bay from Buck Neck was a pleasant one, considering attendant circumstances. On arriving at the wharf in Baltimore I met Messrs. Hudgins and Coleman formerly of Chestertown. Mr. H. was awaiting the arrival of the Geo. Law with a supply of the good things he knows so well how to prepare, and which the Chestertown folks so well appreciate. The Law was to make an excursion to Annapolis, and Mr. H. had arranged to provide supper on board. After a pleasant night in the city, I took the steamer Kent, at 7 A. M., for St. Michaels, and reached here safely at about 11½ A. M.

On Wednesday, the 12th inst., the corner stone of the new M. E. Church, in this town, was laid with impressive ceremony. The opening address, pertinent and full of truth, was delivered by the Rev. Dr. Simms, of Baltimore, after which the pastor, Rev. J. Hough, made an earnest appeal to the audience, urging upon them the duty and necessity of promptness and liberality in the work of giving. Subscriptions were taken to the amount of about $700. The edifice is 80 feet in length by 45 feet in breadth, and will have a height of 80 feet from the ground to the top of belfry. The basement will be divided into sabbath school and class rooms, the audience room being above.

A camp-meeting will be held, D. V., under the auspices of the M. E. Church of Talbot Circuit, beginning August 10th. The ground selected is in Harper's wood, about 1½ miles from St. Michaels. The M. P. friends, also, have arranged to hold a camp in Bay Side, to begin on the 27th inst. The heart of Methodism seems to be waking up to greater interest in this department of spiritual labor. As the militant hosts gather at these encampments may it be in the power of a faith that shall be mighty to prevail with God. The anticipations of farmers in this section, with regard to the wheat crop, have been doomed to disappointment; as far as I have learned the yield is very poor, not averaging over 5 bushels to each bushel sown. Corn, as in Kent, is very promising. The frequent showers and warm suns have combined to give it that vitality essential to its growth and development into an abundant yield.

I had the pleasure of attending the Teachers' Institute, held at Easton, on Thursday the 13th inst. The exercises of the day were of a very interesting character. Miss Mellie read an essay in which she set forth the advantages to be derived from the Kindergarten system of educating young minds. The essay evinced intellectual talent of no ordinary degree, and did credit to the cause represented by the lady. After the reading, illustrations were given by Miss Mellie and Mrs. Phœbus, showing with what facility the minds of very young children may be engaged and instructed by the presentation of objects in connection with the instructions given. It is to be hoped that this natural and easy way of developing the mental powers of children will become generally appreciated and practiced in our public schools, and also in the home circle, in the earlier stages of mental development. I was sorry to hear from Prof. Newell, that he had received no communication from Kent or Queen Anne's with regard to holding an Institute this summer, and that there would probably be none. The Examiners of those counties ought not to let this matter pass without taking measures to secure this important feature of our educational interests. Ample accommodations can be had in Chestertown, as those who shared the hospitality of the place during the session of the last Institute, can testify. The liberal minded and generous hearted citizens of the town, would doubtless be ready to avail themselves of the opportunity of entertaining the teachers. Teachers and friends of education speak out on the subject.

St. Michaels, July 21, 1871. M.

OUTRAGEOUS ASSAULT.—On Thursday of last week, a woman named Watson, living near Cecilton, was attacked on her way home by a scoundrel named Andrews, who had been lying in ambush. Whether Andrews succeeded in all the fiendishness of his effort is not known, as the lady was soon rendered insensible by his kicks and blows. An hour or two later, she was found lying helpless where he had left her. She was taken home, where she has since been in a critical condition.

She gave a description of her ravisher, and on last Sunday he was recognized and captured, after desperate resistance, by some of the citizens of Cecilton. He was taken to the bedside of his victim, and she instantly identified him as the culprit. He now lies in jail awaiting a trial, in which it is to be hoped justice will be severely dealt.

It is said that the same ruffian attempted a similar assault on a young lady of Chesapeake City a week or two previous, and was hiding from officers in search of him when he committed outrage No. 2. —*Cecil Democrat.*

PUNISHED FOR STEALING NEWSPAPER FILES.—A pleasant piece of poetic justice is reported from a town in Oregon. One morning a young man called upon the editor of the only paper in the county and asked permission to look at the files of that paper for 1869. It was granted.—While the editor was in bed, waiting till his wife could wash his shirt, that young man carried away the file, nor was it ever seen again until his lawyer offered it in evidence during the trial of an action for $5,000 damages for an alleged libel, which that young man brought against the editor. It is gratifying to learn that the plaintiff recovered six and a quarter cents damages, and was arrested by the editor on a charge of stealing books, convicted and sent to the penitentiary for seven years.

LAW AGAINST SLANDER.—At the last session of the Pennsylvania Legislature an act taking immediate effect, was passed, providing that "an action may be maintained by a female, whether married or single, to recover for words hereafter spoken, imputing unchastity to her, and it shall not be necessary to allege or prove special damages in order to maintain such action. In such actions a married woman may sue alone, and any recovery therein shall be her sole and seperate property."

THE true issue before the country is thus perspicuously stated by Judge Trumbull, the (Rep.) Senator from Illinois:

The question is whether we are to revolutionize this government, and no longer have a republic composed of separate States, but a centralized, consolidated government—to strike out thirty seven stars and have but one.

EX-PRESIDENT ANDREW JOHNSON is expected in Paris, and arrangements are being made for his reception.

AN Indiana man took laudanum, remarking that he had an engagement with General Jackson at four o'clock. Active exercise on the part of a stomach pump caused the engagement to be broken.

The Wharton Poisoning Case.

Letter from Mrs. Edward Wharton—Her Account of the Death of her Husband and Child—Grave Allegations &c.

The Washington *Star* of last Monday says that the following letter has been received by Mr. John Purdy, of Washington city, from Mrs. Edward Wharton, sister-in-law of Mrs. Henry Wharton, now in jail in Baltimore on a charge of poisoning. The letter, it will be seen, bears no date except "North Conway," in New Hampshire, and is evidently written under excitement. We give the document as it is found in the *Star*, as follows:

"*North Conway*"—My Dear Mr. Purdy:—Having seen an extract from the Washington *Star* that you had spoken kindly of my dear husband and child, I thought I would write to you and let you know my opinion. When my dear husband and child died, I did not know what was the reason of their death, but after my child's funeral, only a week I believe, I was taken suddenly ill, and at one time was thought to be dying. I told the doctor I was poisoned the day I was taken sick, and then I suspected that she had poisoned my husband and child also, and told my brother and all of my husband's family also, when it occurred, nearly four years ago, but they thought my mind was affected, and told me not to say so, that she might prosecute me, and I could not prove it; but I have never spoken to her since I was brought from her house, and have never had but one opinion, that she poisoned them and killed them, and I barely escaped with my life. My daughter never had but one hemorrhage in her life, and that Dr. May can testify to, and did not die of consumption, but vomited her life away; and although I feared she might break a blood vessel in vomiting, she did not, but being weakened by distress she died, and I just escaped. Please mention this to the editor of the Star, and have it published, for I am in great distress. I write this letter in my bed, for I am too weak, from being so distressed, to sit up. Mrs. H. Wharton owed my husband two thousand five hundred dollars, which we with difficulty got after his death, I am now at North Conway, at the Sunset Pavillion, New Hampshire. Please tell what I have told you; for I have never had but one opinion, and that was that Mrs. Henry Wharton poisoned and killed my husband and daughter, and tried to kill me, and I said so at the time, nearly four years ago; and it was not the first time she tried to poison my daughter, either, as I saw mentioned this morning, in a Boston paper, about a vial of brandy that we sent to my brother to Philadelphia to have analyzed; only it was whisky that we sent. It is all true, and occurred almost one year before they were killed by that woman. My kind regards to Mrs. Purdy. Believe me, truly,

J. G. WHARTON.

The accused is in the city jail, and her daughter is allowed to remain with her. The fact that the grand jury has found indictments against her, has of course, added to the number of those who think her guilty. But as the public have no additional facts in the case, the question of her guilt or innocence is to be answered hereafter. In the meantime the matter is the prominent feature of discussion; and there are to be found many who think the lady is accused on insufficient grounds. There is, however, no division of sentiment as regards sympathy for the young daughter who is so lovingly sharing her mother's incarceration.

A Few Words to the Ladies.

Many ladies, particularly mothers nursing, complain of a tired listless feeling, or complete exhaustion, on arising in the morning. On the wife and mother devolves the responsibility of regulating the duties of the household. Her cares are numerous, and the mental as well as the physical powers are frequently called into requisition. She often finds her slightest occupation a weary task and existence a burden, while at the same time she has no regular disease. Hostetter's Stomach Biters, if resorted to at this period, will prove an unfailing remedy for this annoying lassitude. The effects of this potent agent are soon seen in the rosy cheek and elastic step of the head of the family, as with restored health and renewed spirits she takes her accustomed place in the family circle. If this friend in need be regularly used, those depressing symptoms will never be complained of, and not only would lassitude not be experienced, but many diseases following its advent be avoided. As a medical agent it has no equal, while its pleasing flavor and healthful effects have made it a general favorite. It is free from all properties calculated to impair the system, and its operations are at once mild, soothing and efficient. All who have used the Bitters attest its virtues and commend it to use.

COUGHS, SORE THROAT, ETC.

No Medicine or Treatment can excel the Powerful Curative Power of
DR. SIMMS'
WHITE PULMONIC BALSAM.

It cures with a rapidity unequalled by any other remedy offered for Throat and Lung diseases. It is recommended by over 2,000 persons in Wilmington, and hundreds in Philadelphia, Baltimore and other cities and communities throughout the country. Mr. Pennington, of Wilmington, Illinois, writes that there is not (with a few exceptions) a family in that city who will be without it if possible to procure it. Such is its popularity wherever it is known—and this popularity arises from the fact that it universally cures all who use it. There is no case of *Coughs, Colds, Sore Throat, Asthma, Bronchitis, Croup, Blood Spitting, Hoarseness,* and even *Pulmonary Consumption,* where the system is not broken down with the wear of the disease, or pretended medicine, or inexperienced advice, that this Balsam will not cure if carefully used, according to directions. We guarantee it all we represent it to be, and invite a trial from the afflicted everywhere. Price, 50 cents, medium size, and $1 for large size bottles. Prepared only by

A NEW ERA IN BELTING.

PAGE'S PATENT
Tanned Leather Belt.

Tanned in Oil and by the same process as Lace Leather, by PAGE BROS., inventors and manufacturers of the celebrated Page's Lace Leather.
These Belts are perfectly soft, and hug the pulley like pure rubber, thus giving 25 per ct. more driving power than any other belt.
They also have eighty per ct. more strength than the best oak-tanned belts.
They have been placed on pullies running 9,000 turns per minute, and in places where all other belts have failed, have given entire satisfaction, outwearing every other belt 50 per ct.
The fact that they are driving out of the market in the East, very fast, the other kinds of belt, is sufficient testimony.
All the large Eastern Factories now use them.
The following are a few of the many testimonials we have received:
Messrs. Charles E. Inloes & Co.:
GENTS:—We have been using Page's Patent Belt in our factories for over a year, and believe it to be the best and cheapest belt made. Best, because it is stronger and more durable than oak-tanned; and cheapest, because its adhesive qualities give it so much more driving power. Very respectfully,
R. H. THOMPSON,
Sup't Union Mfg. Co. of Maryland,
Ellicott's Mills.
Messrs. Charles E. Inloes & Co.:
GENTS:—The fourteen-inch Page's Patent Belt, bought from you, has been in daily use ever since, and gives perfect satisfaction, and you are at liberty to use our name in endorsing the qualities you claim for it, in every respect, as we believe it to be the best Belt made, and shall adopt it altogether in our mills. Very truly,
