

### AUTO DEATH TOLL SHOWS INCREASE

#### Fifty-One Fatalities During Month of June

The total number of fatal accidents for the STATE OF MARYLAND for the first six (6) months of 1937 has increased to 35 1/2 percent over the corresponding period of 1936 as the tabulation by months will show. There was an increase of only (1) one for the month of June, over the same month of 1936:

January	1936	1937
February	26	27
March	28	37
April	20	45
May	40	29
June	31	36
TOTAL	195	265

Of the fifty-one (51) persons killed during the month of June, (17) or 33.2 percent were pedestrians, (21) or 41.3 percent were passengers, and (13) or 25.5 percent were drivers. From this report it is evident that most of these deaths occurred in rural sections, as 10 deaths occurred in Baltimore City and 41 deaths occurred in the Counties.

Mr. Walter R. Rudy, Commissioner of Motor Vehicles says: "During the next few months nearly every automobile that can be operated will be using the roads of this State in search of relaxation and pleasure; therefore I call upon every motorist to use the utmost caution in the operation of their cars to help decrease this ever-mounting toll of accidents, which result in the death of some pedestrian, passenger and often themselves the drivers."

Of the 51 persons killed during the month 44 were killed during clear weather and the large majority were on straight dry roads. 29 were killed during daylight and 22 during darkness.

Judging from the June report motorists are in the most dangerous position when driving on straight dry roads on Saturdays and Tuesdays between the hours of 4 p. m. to 5 p. m.

### NEWS FROM OTHER SHORE COUNTIES

#### As Glimpsed From Shore Papers

Somerset farmers faced many trials and tribulations in the marketing of their early tomato crop this week. First and foremost was a sharp decline in the market quotations following the past week and holiday caused by glutted terminal points and disorganized distribution—in some cases Somerset trucks waited 12 and 14 hours to unload in New York. Prices receded from \$2.00 and \$2.50 quotations last week to as low as 75 cents per lug in New York this week with a majority of sales around 90 cents and the highest at \$1.25. Trouble was also experienced when tomato wrappers struck for 5 cents a lug an increase of 1c over the previous prices. When the disagreement in the packing houses was settled, colored pickers in the fields struck for an increase from 3c to 5c a basket. A compromise of 4c was agreed to in some sections.

The Maryland State Roads Commission has applied to Washington this week for permission to build two bridges on the Eastern Shore, one over the Sinepuxent Bay to Ocean City and the other across Cambridge creek, at Cambridge. Both bridges are to cost about \$900,000 and were authorized at the 1937 session of the Legislature.

The Ocean City bridge will connect the shore resort with the mainland, carry four lanes of traffic and will have a clearance for navigation of nearly twenty feet.

The Cambridge span will cross the creek on the eastern edge of that city.

Announcement of the sale of the News Publishing Company, Inc., to The Brush-Moore Newspaper, Inc., of Canton, Ohio, has been made by Al-

fred T. Truitt and Charles J. Truitt, owners of the former company's common stock.

The sale, which was concluded Wednesday, includes The Salisbury Times, The Wicomico News, the News-Times building at 114 Main street, and the commercial printing operations of the company.

The Truitts will sever connections with the company and its operations this week.

Shore Motorists are warned by the Keystone Automobile Club of Maryland that the new law permitting a maximum speed of 50 miles per hour in Pennsylvania does not become effective until September 1.

Officials of the Club said many motorists are under the impression the 50-mile limit is permissible. Pennsylvania police have had occasion to warn thousands that the legal limit still is 40 miles per hour.

Under a section of the new motor code now in effect, Pennsylvania will establish "no passing" zones at hazardous points on State highways. Wherever such signs appear, motorists are advised to remain in line and not attempt to pass. The fine for violation of this law is \$10.

Another change in Pennsylvania law separates the old offense of "overtaking and passing" into two offenses "overtaking" and "passing." Under conditions where there is not an "assured" clear distance ahead, a motorist who overtakes another vehicle even though he does not pass it, is liable to prosecution. A vehicle "overtakes" another within the meaning of the act when any part of a car approaching from the rear is on a line with any part of the vehicle in front.

A man literally returned from the grave this week when Oswald P. Bozman, missing since the World War, returned to his home and parents, in Revells Neck on Tuesday.

Bozman was a member of the AEF and served overseas in the World War. He was gassed in action and was reported dead at the close of the war. His parents residing near Princess Anne, having received an identification tag, which was supposed to have been their son's naturally expected never to see their boy alive again. A very touching scene was enacted when Mr. and Mrs. Benjamin Bozman greeted their son who they thought dead and had not seen for over twenty years.

### Sudlersville Is Blanked By Local Nine Here Sunday

One scratch hit was all that Sudlersville could get off three Chestertown pitchers here last Sunday as the locals topped the visitors from Queen Anne's county, 7-0.

Spencer hurled the first three innings and Loller the next three for Chestertown. Neither allowed a safe hit. Wheat pitched the final three frames and Timko's slow infield roller was the only hit yielded.
