"KU-KLUX DIABOLISM."

Such is the caption to a chapter of what purports to be a narrative of so-called "ku-klux outrages," which a committee of Congress has been instituted to discover and report to the next meeting of that body. This committee, and its voluminous report, will cost the treasury of the people well on to a quarter of a million of dollars. Much of the evidence before this committee is from perjured wretches, unworthy of belief, suborned for the purpose of making up a case against the South, that it may go forth as official, in wagon loads, under the frank of Radical members of Congress, as an electioneering document in the next Presidential election. This whole scheme is believed to be a mere party trick, concocted months ago by certain corrupt conspirators, in order to secure to the ruling party a further lease of power. The foul conspiracy will be further carried out, or attempted, by declaring martial law, suspending the writ of *habeas corpus*, and putting the citizens of most or all of the Southern States under military control, until after the next Presidential election, so that our imperial Cæsar may continue his reign, for another four years, if not for an indefinite period. This is the plot, and the force bill, and this pretended ku-klux investigation, is but a part of the details of the most stupendous conspiracy ever attempted under the forms and sanctions of law, in any country. Much virtuous indignation is to be affected at the monstrous doings of the ku-klux, and the country is expected to be electrified at the mere recital. It will thus be seen that the "diabolism" is not all upon one side of this ku-klux business, and that it is one of the most monstrous frauds and deliberately concocted conspiracies ever attempted by any faction. The diablery of its conception, to say nothing of its execution, is most astounding, and must, if there be any virtue left in the people, defeat itself. Alarmed at the waning power of that party, it was at once seen, by those at the bottom of this plot, that if something extraordinary was not brought forward to divert public attention from the unparalled corruption, extravagance and misrule of the present Administration, that it would be hurled from power, by the might of the ballot, its record of infamy closed, and the legions of plunderers fattening upon public spoils under it, driven into retirement. A fate they mean to avert, if within the range of possibility, and to compass their ends they will pause at nothing, scruple at nothing.—There is such a thing, however, as cunning overreaching itself, and we feel confident that this dark scheme of the Radical conspirators will meet with the most signal rebuke from the people, ever administered to corrupt, crafty and designing men.—*Democrat Advocate.*

UTILIZING SOLDIERS.—The English government is seriously considering the project of employing its now idle soldiery on regular daily work, in addition to its drill, and would commence by making them build the coast fortifications. As the world goes in its badness soldiers, we suppose, are a necessary evil, but it is a great waste of the muscle of the male population to devote it merely to soldiering. Any other employment which is useful is better for the individual man as well as the community at large that he should be devoted to. Men should be producers rather than destroyers.

THE CHOLERA.—A cable telegram announces at length the appearance of a case of Asiatic cholera in London, an event for some time dreaded but no doubt fully anticipated, and while it creates sensation among the people, it is presumed that steps have been taken to prevent the visitation from becoming a public calamity. The disease may or may not soon find its way to American seaports. New York has commenced the work of preparing for its reception, and adopted measures for systematic street cleaning and other salutary precautions which might be copied with advantage by other cities.

IT is understood that, previous to the fall of the French empire at Sedan, Napoleon was in negotiation with Richard Schell, of New York, for the Jumel estate, which he proposed to use for a residence in case of being dethroned. The loss of much of his wealth by war forced him to look for a retreat of more modest dimensions, and he is therefore treating with Samuel L. M. Barlow for the Burton Kinnard estate at Glencove, for which it is expected he will have to pay $500,000. Meantime, ex-Queen Christina, of Spain, is negotiating with Schell for the Jumel estate for $4,000,000.

THE New York *Sun* says: "On the 3d of March, just before he ascended the Capitol steps to take the oath of office, General Grant accepted a gift of $64,000. On the 5th of March, with the pledges of this inaugural lingering on his lips, he appointed the largest contributor to this fund, Secretary of the Treasury, and the two most active agents in raising it, Sub-Treasurer and Collector of the Customs at New York." As Americans, we blush to acknowledge the truth of the above paragraph. No other President left such a record to darken and blast his fame.

ONE good thing has grown out of the Ku-Klux investigation, "only one, and nothing more" in the language of Poe's raven. Facts have been developed which show the "carpet-bag" state governments have been inefficient and corrupt, and have created local offices heretofore unknown to the people, and filled them with political adventurers; that the State debt and taxation have been dishonestly increased; and that the petty officers have been tyrannical and overbearing in their conduct and extortionate in their demands.

A SOUTHERN SCENE.—On Friday last six white men were marched through the streets of Raleigh, N. C., in custody on a charge of participation in a vigilance committee to break up a negro brothel, and of whipping the female keeper. The United States marshal marched at the head of the procession, openly armed and with a cowhide in his hand, while the rear was brought up by a party of negroes in burlesque "Ku-Klux" disguises.

WHAT WILMINGTON IS DOING.—Wilmington is one of the most thriving cities in the country. It is building a $150,000 Masonic Temple, a $136,000 hotel, a new railroad to the West, known as the "Wilmington and Western," which will tap the rich counties of Southern Pennsylvania, a new $35,000 public school house, a $60,000 Presbyterian church, and a $15,000 "Home for Aged Women."

MEXICAN AFFAIRS.—Late intelligence from Mexico represents that the election for President is still in doubt, and that both parties are arming and preparing for a revolution. It is alleged that the Juarez government is negotiating with the United States for a loan, and is hypothecating the national territory for future payment of the amount. A national bank, without capital or credit, has been established.

THEY have a natural soda-water lake on the Union Pacific Railroad. It is proposed to plant fruit orchards and maple sugar trees on the banks.

Is the Democratic Party Dead?

The Democratic party is much stronger to-day than it ever was in its history. It means now to win.—[Horace Greeley, at Vicksburg.

You may make light of the Democracy but to-day, in the State of New York, there is a clear Democratic majority of ninety thousand. We never did have the Irish, and now we are losing all the Germans.—[New York Times, radical.

Grant, with his Ku-Klux bill, thinks he can kill the Democracy. It will take more men by a million than he had at Appomattox.—[New York Sun, radical.

A great deal has been said about the dead Democracy. Those who think it is dead, surely never read the story of the resurrection. There will be signs in the heavens and on the earth in 1872 when this Democratic party gets its soldiers in the field.—[Springfield (Mass.) Republican, Radical.

He is a fool or a traitor who expects to win an easy victory over the Democratic party in 1872. Grant can never do it with the bayonet.—[New York Evening Post, radical.

They may say what they please, but those who are the most confident do not know these Democrats. They are the most dangerous when they seem the most whipped. In retreat they are treacherous and often fatal.—[Louisville Commercial, Radical.

THE Knoxville (Ill.) *Republican* tells a singular story of the marriage at that place of a Mr. Williamson, of Stockton, California, to his own wife. He married her 30 years ago and took her to Michigan. Not liking frontier life she left her husband and returned with her child to her home. After the separation Mr. Williamson married again and went to California. His second wife died some years since, and recently he visited Knoxville, courted his first wife again, and was remarried on the 15th ult.

HORACE GREELEY AS THE REPUBLICAN CANDIDATE.—The Leavenworth Daily *Times*, republican, contains a letter from Mr. Cassins M. Clay, of Kentucky, to General William Larimer, of Kansas, in which the eminent fitness of Mr. Greeley for the Presidency is strongly urged.—If the latter is nominated by the republicans, Mr. Clay says, he will be triumphantly elected, the North will secure her highest interests, and the South will be content—we shall "have peace." To this the Richmond *Whig* responds with the hope that Mr. Greeley may be the candidate of the republican party. That would insure us, whatever the result of the election, a vast improvement on the present. Mr. Greeley is honest, and not mercenary, and he would give no countenance to thieves and villains, carpet-baggers or others, who are now plundering the land.

FORRESTER, the Nathan murderer, is hiding among the swamps in Louisiana, according to the latest reports, where it is impossible for any posse to find him.—From his stronghold he writes to the newspapers to say that he is not the murderer of Nathan, and will surrender himself for trial if the authorities will remit his thirteen years of sentence in the Joliet (Illinois) prison. The New York Herald thinks this a fair proposition. It would be worth that much, it says, to hear some explanation of the great mystery of the Nathan murder.

FOREIGN CAPITAL INVESTING IN AMERICA.—The present year has seen an unusually large amount of European capital invested in American enterprises. Every month the sale of some gold or silver mine is reported. The sale of a gas company out West to foreign capitalists was lately recorded, and now it is understood that representatives of Amsterdam capitalists are negotiatiating to start a bank in Chicago with $5,000,000 capital, for the sole purpose of advances on grain and other Western produce. An institution of this kind would be of great value to the West and her producers.

AMNESTY.—The Charleston (South Carolina) *Republican* a few days after the defeat of the Republican ticket in that city said: "We hold more firmly than ever to the wisdom of complete amnesty. The withholding of it can do no good, but rather it will insure measureless harm to these Southern States, and through these to all our nation, while the speedy proclamation of a complete, unequivocal pardon will bring us a measure of peace and prosperity which can be secured to us in no other way."

A NEW PROCESS.—They make butter in Ravenna, Ohio, by putting the cream into a cloth bag and burying it about two feet deep in the earth, letting it remain three days. When it is disinterred it is found to be transformed into pure, sweet yellow, butter, with not one drop of butter-milk to be seen. The butter makers say that creem will yeild one-third more butter by this process than by the old fashioned way of churning.

SUIT FOR MADISON'S HOMESTEAD.—In the United States Circuit Court for the Richmond (Va.) district, a suit has been instituted by C. W. Pairo, Mary Jane Pairo, and others, for the possession of Montpelier, in Orange county, the homestead of President Madison. It is asked that a deed executed by Thomas J. Carson to Frank Carson, for the sale of Montpelier, be set aside.—*Richmond (Va.) Dispatch.*

IT is proposed to hold a convention of Virginia landholders in Richmond, in September, during the Pomological and Horticultural Exhibition, to consider immigration and the best means to promote it.

Debility and Emaciation

Both result from the lack of ability to convert the food into nutriment. How necessary, then, for those suffering from these alarming symptoms to immediately resort to a remedy that will strengthen the stomach and digestive organs. For, as soon as this desirable object has been accomplished the health improves, and the patient resumes his usual personal appearance. Hostetter's Stomach Bitters have attained a world-wide popularity in such cases, and have been proven the best and safest means of removing constipation, toning the stomach, giving energy to the liver, and relieving every symptom of nervousness and depression of spirits. Its cheering and beneficial effects are highly spoken of by thousands, who owe to it their restoration to health. No restorative in the annals of medicine has attained the same popularity in the short space of time it has been before the public, or has won the high endorsements accorded to this excellent tonic. Many other preparations, purporting to be correctives and restoratives, have been introduced, and have perished one by one, while the popularity of Hostetter's Stomach Bitters continues to increase, and is now recognized as a standard household medicine. The success which attends the use of the Bitters evinces at once its virtues in all cases of debility and disease of the stomach. Certificates, almost without number, have been published, attesting its truly miraculous power in removing those painful and fearful diseases. And at this time it seems idle to do more than call attention to the great remedy of the age, in order to awaken public attention to its excellence. It is the only preparation of the kind that is reliable in all cases, and it is therefore worthy of the consideration of the afflicted.

PURE SPICE.—Ginger, Cloves, Cinnamon, Mace, Allspice, Nutmegs, Sage, Mustard, Black and Red Pepper—all can be obtained, ground, at
jan7tf. WICKES' DRUG STORE.

A FAMILY REUNION.—The name of Arthur John Willis, of Caroline county, says the Easton *Gazette*, is well known throughout the State. He is a man of wealth, has represented his State in the Legislature, and is an original genius. There are two other brothers who have resided down South for many years and have become very rich, but have not, until recently, visited their old homestead in Caroline county, for a long number of years. Having been absent for so long a time, and the three brothers separated, they determined to have a reunion of all their friends and relatives and many acquaintances, and on Wednesday, the day appointed, there were some five or eight hundred persons assembled at the old Willis homestead and joined in a friendly greeting. Preparations had been made on a grand scale, to the cost of $4,000. It is said by those present on the occasion that the dinner was magnificent—consisting of everything that can be produced by our soil or purchased from the city markets, until the extensive tables almost trembled beneath their weight. The best of wines and liquors that could be procured also flowed in abundance, and the large assemblage talked over the past and rehearsed the doings of boyhood days until a late hour in the evening. The hours between 12 M. and 4 P. M. were spent at dinner.

RESTORATION OF PARIS.—The city council of Paris have taken a brave step for the restoration of the city to its former beauty and magnificence. For this purpose a loan has been voted of 350,000,000 francs, which, it is estimated, will be sufficient to rebuild and repair the edifices destroyed or damaged during the reign of the commune.

SPURGEON AGAIN.—Having been offered ten thousand dollars in gold, by submarine cable, to write a Life of Christ, Spurgeon, the great English preacher, has telegraphed back that as good a Life of Christ as could be written would be found in the New Testament.

THE belles at Long Branch this season are principally married ladies. At other fashionable resorts the same fact is noticed. A connoiseur explaines this by saying that young unmarried ladies are so much absorbed in the science of dress and self-display as to be utterly insipid.

THE census of Great Britain shows that out of about 31,500,000 people, only 30,000 are land-holders.

WHEAT SEEDING!

Composed of 700 pounds of No. 1 Peruvian Guano, and 1,300 pounds of soluble Phosphate of Lime (bones dissolved in sulphuric acid,) potash and soda, forming the most concentrated, universal and durable fertilizer ever offered to the farmer—combining all the stimulating properties of Peruvian Guano, and the ever durable fertilizing qualities of Ground Bones.

Excelsior is in fine dry powder, prepared expressly for drilling, and can be applied in any quantity per acre, however small; and it is the opinion of many close calculating Farmers, after twelve years, experience in testing it side by side with other popular fertilizers that an application of 100 pounds of Excelsior is equal to 200 to 300 pounds of any other fertilizer or guano offered for sale, therefore is fully 100 to 200 per cent cheaper.

The very best evidence we can offer of the value of our Excelsior as a crop grower and fertilizer, is the fact of its being imitated and counterfeited in this and other cities.

Farmers should see that every bag is branded as above, the ANALYSIS and *our name in RED LETTERS.* All others are counterfeits.

WE offer to the Farmers of Kent and the adjoining counties our well-known

Cultivator Teeth,

which have been used for some years with entire satisfaction. They have stood the test, and are considered far superior to the old three-cornered teeth. The old teeth always wear round and blunt, and have no point, while our tooth wears to a point. Their regular crook from the frame to the point makes them draw to the ground and run deep, while they run close to the plant without covering it up.

They are Made of the Best Steel,

and can be bought as cheap here as elsewhere, having reduced the price on them as on the rest of our work.

OUR CULTIVATORS

are of greater length, which makes them run steadier than other Cultivators.
