THE METHODIST GENERAL CONFERENCE —*Report of the Committee on the Book Concern Frauds.*—On Monday last the special committee appointed by the General Conference to investigate the charges against the Methodist Book Concern held a meeting, at which the reports of the sub-committees were presented. The chairman of the sub-committee to investigate the affairs of the bindery department reported that the accounts were in a most disgraceful state. In one case there was a blunder of $20,000 against the bindery, made in the footing up of a column. It is said that Hoffman concealed this by carrying over $16,000 from the previous year and putting in $4,000 which appears to have come from nowhere in particular. No statement can be found showing that a balance-sheet has been taken in twenty years. There are many things in the accounts unexplained. The reports made to the annual conferences were not made from the ledger, nor did they correspond with the ledger.

Judge Cooley, chairman of the sub-committee on leather, reported that the question had been submitted to three master binders as to the amount of leather required to produce the amount of finished work turned out by the Book Concern in twenty-one months, and the average estimate placed it at more than $28,000 less than Hoffman charged the concern.—It was also shown that Hoffman was in the habit of selling leather of the concern to different parties. There was a discrepancy between the amount of money Hoffman drew as wages for his employees and the amount he paid them.

Dr. Carlton, senior agent, who was present, explained that he had relied implicitly on the honesty of Hoffman, and if he was dishonest, he (Carlton) was not responsible. A poor excuse, truly.

A vote for missionary secretaries was taken on Saturday without choice, and on Monday another election was had with the following result: Whole number of votes 375, necessary to a choice 188—R. L. Dashiel received 236, T. M. Eddy 204, J. M. Reid 200. J. P. Durbin, who retires from the secretaryship at his own request, leaves it full of years and honors. He has held the position for over a quarter of a century.

PRESIDENT GRANT'S VISIT TO ELKTON —Last Saturday week President Grant and wife arrived at Elkton on a visit to Postmaster General Creswell. The population of the town gathered at the railway depot to see the train come in. When it stopped the President, Mrs. Grant and Mrs. Creswell stepped from the car to the platform, in the midst of a silent, staring crowd, which made the best use of its eyes during the interval before the arrival of the carriage. The crowd then accompanied the party to the vehicle, surrounding them at a respectful distance. At the start the swingletree broke, and some fifteen minutes were consumed looking up another one. On Sunday the President attended the Methodist church, and the pastor, Rev. H. S. Thompson, although indisposed, made an effort commensurate with the occasion, with which the President expressed himself much pleased. On Monday a reception took place in the Odd Fellows' Hall. The President was received by Hon. Alexander Evans in a speech which he acknowledged with a bow. A number of townsmen were then introduced, and handshaking proceeded for some minutes, when Dr. Ellis proposed three cheers for the President, which was construed as a signal that the ceremony had ended, although it had been announced that the ceremony would last from 12 to 1 o'clock. The presidential party then visited Marley paper mills, the matchstick factory, and other points of interest. The party left Elkton for Washington on Monday by the 6 P. M. train.—*Whig.*

SENATOR FERRY DEFINES HIS POSITION. —United States Senator Ferry, of Connecticut, has written a letter to Hon. Jas. T. Babcock, of that State, upon his re-election to the Senate by the combined votes of the democrats and liberal republicans in the Connecticut Legislature.—He thanks the democrats for their votes, and says that while they and he differ in many views, both have one country that they love, and in some things they agree about the best method of promoting its welfare. He alludes to his efforts to procure the removal of Southern disabilities, and his resistance to the attempts to take away from all the people the management of their local affairs. He concludes: "The moral of the Senatorial election in Connecticut is, not that any party or faction or individual has won a triumph, but that the people sustain independent thought and action in their representatives."

Upon this letter the New York Tribune remarks that "it is fair though not full adherence to liberal republicanism, and defense of opposition to administration measures." The Hartford (Conn) Times, dem., says "the man who stands by the constitution may *call* himself a "republican," or anything he pleases—he is in *principle* one with the democrats!"

CHIEF JUDGE SANFORD E. CHUCH, of the Supreme Court of New York, the *World's* candidate for the nomination of the Baltimore Convention, says he has been traveling in the interior of the country, talking with the farmers, mechanics and laborers, and has found but one man opposed to the election of Greeley.—Judge Church does not desire the nomination under the circumstances. He favors a union of the opposition on the farmer of Chappaqua.

WICOMICO BOND CASE.—The case known as the Bond case from Wicomico county, and removed to Talbot county for trial, being the bond of certain persons to put up the county buildings in the event of Wicomico county being formed, came up for trial again on Tuesday in the Court at Easton. Messrs. Henry, Sullivane and Merrick for plaintiff, and Messrs. Crisfield, Handay and Spence for the defendants. We shall wait with curiosity the result.

A VEXED QUESTION SETTLED.—It has now been definitely settled by the Committee of Appeals of the American Trotting Association that Dexter's best public time was not beaten by Goldsmith Maid at Milwaukee, or at any other place. It is now established that not only was the Maid allowed to get over the quarter mile next preceding the home stretch in any gait her jockey chose—the track there being hidden by trees from the judges' stand—but two of the judges were furnished with stop-watches doctored to record only fifty-nine seconds to the minute.

FLOUR FROM NEW WHEAT.—The Augusta (Ga.) Constitution has received a bag of "Pride of Augusta" flour made from wheat of the crop of 1872. Samples have been sent off to New York, St. Louis, and other points. A sale to an Augusta dealer was made at fifteen dollars per barrel.

GRANT used to set type, Colfax is an old newspaper man, while Greeley and Brown are experienced printers. Four types running for the highest office in the people's gift ought to make a good impression.

A KANSAS paper, in reporting a trial, concludes with "the jury rendered a verdict of not guilty, but if the prisoner is sharp, he will leave without loss of time."

THE EIGHT-HOUR STRIKES IN NEW YORK—*General Accessions to the Demands.*—The eight-hour movement, which was begun in New York last week by the strike of the journeyman carpenters, followed by the bricklayers, has since extended to a large number of trades. The spring building contracts, which had been generally entered into prior to the movement, compelling acquiescence in the demand of the men by the building contractors, some of whom will be involved in losses in consequence. On Monday the piano-makers struck, the employers refusing to yield the two hours work. The upholsterers and cabinet-makers, who had struck previously, were joined by the whole woodworking fraternity, including the woodturners, moulders, saw millers, engravers and planers. Most of the employing cabinet-makers yielded, and on Monday out of 14,000 hands engaged in the eight-hour movement all but 2,000 were at work on that basis. Dispatches from Boston and Philadelphia stated that all their members there "were out," and delegations were sent to each of those cities with offers of assistance, etc. Other trades which have joined the movement are the wheelwrights and blacksmiths, stonecutters and quarrymen, and clothing cutters. It is estimated that forty-thousand men in all are engaged in the movement in the city of New York. The board of aldermen adopted a resolution affirming the action of the city departments, which are conducting their work on the eight-hour basis. The city laborers held meetings with a view to demanding an advance of wages from $2 to $2 50 per (eight hour) day, but upon the representation that there are some thousands of men in the city who would be glad to fill their places, concluded to defer action. The Brooklyn common council, by way of intimating its sympathy, has ordered the fire alarm bells to strike the hours of 8 A. M. and 5 P. M.

ERRONEOUS IDEAS OF MR. GREELEY.—The man who calls Greeley a *farceur*, or as being one who naturally surrounds himself with this class, makes a blunder scarcely to be surpassed. Mr. Greeley may be the cause of mirth in others, but for himself he is grave and earnest. Further, and although it may be hard to overcome the prejudice upon this point, he is a very dignified person, whose occasional lapses into the heat of passion are not more frequent and noticeable than those of other men. The stupid fashion in which people have persisted in regarding Mr Greeley as a cross between a bumpkin and a conscientious fool almost passes comprehension. The general idea of him has been that of an amiable sort of idiot—a monstrocity in any case, but particularly ridiculous when it is reflected that this idiot is the editor of the leading American newspaper, and that he has for thirty years been a leader in our politics. In the monotony and rigor of our public life, Mr. Greeley's strongly marked peculiarities made him a shining mark which the caricaturists and comic writers were not slow to improve. But these people, while they have made the unthinking laugh, have very often made the judicious grieve.—One of the greatest blunders surrounding the popularly received idea of Mr. Greeley, is that he is an uncouth man. Nothing could be further from the truth. He is, in fact, a person of thorough and cultured manners, a man of the world, and well used to all the forms and observances of society. The personal characteristics of Mr. Greeley have likewise been absurdly caricatured. Instead of being the old slouch that he is universally represented, he is one of the best dressed people to be met in a day's walk. What he might have been in younger days in this respect cannot be affirmed; but at this time we might just as reasonably accuse General Grant or Senator Sumner of marked eccentricity in dress as Mr. Greeley. We have, of course, no object in this other than, as far as in us lies, to correct reports concerning an individual of whom it is necessary to have the clearest ideas obtainable. It is not to say that Mr Greeley should be President to deny that he is a clodhopper and a scarecrow.—*Philadelphia Telegraph.*

A Pitiful Condition.

It is a sad thing to pass through life only half alive. Yet there are thousands whose habitual condition is one of languor and debility. They complain of no specific disease; they suffer no positive pain; but they have no relish for anything which affords mental or sensuous pleasure. In nine cases out of ten this state of lassitude and torpor arises from a morbid stomach. Indigestion destroys the energy of both mind and body. When the waste of nature is not supplied by a due and regular assimilation of the food, every organ is starved, every function interrupted.

Now, what does common sense suggest under these circumstances of depression? The system needs rousing and strengthening; not merely for an hour or two, to sink afterward into a more pitiable condition than ever (as it assuredly would do if an ordinary alcoholic stimulant were resorted to,) but radically and permanently.

How is this desirable object to be accomplished? The answer to this question, founded on the unvarying experience of a quarter of a century, is easily given. Infuse new vigor into the digestive organs by a course of Hostetter's Stomach Bitters. Do not waste time by administering temporary remedies, but wake the system up by recuperating the fountain-head of physical strength and energy, the great organ upon which all the other organs depend for their nurture and support.

By the time that a dozen doses of the great vegetable tonic and invigorant are taken, the feeble frame of the dyspeptic will begin to feel its benign influence. Appetite will be created, and with appetite the capacity to digest what it craves. Persevere until the cure is complete—until healthful blood, fit to be the material of flesh and muscle, bone and nerve and brain, flows through the channels of circulation, instead of the watery pabulum with which they have heretofore been imperfectly nourished.

Public General Laws,

PASSED BY THE

GEN'L ASSEMBLY OF MARYLAND,

At the January Session, 1872.

[PUBLISHED BY AUTHORITY.]

[CHAPTER 264]

AN ACT

To provide for the licensing of gaugers of casks and liquids, for the City of Baltimore, and providing for the duties thereof.

Section 1. Be it enacted by the General Assembly of Maryland, That any citizen of the State of Maryland, on application to the Clerk of the Court of Common Pleas, in the City of Baltimore, and on paying one hundred dollars to the said clerk, shall be entitled to receive a license to act as gauger of casks and liquors for the term of one year from the date thereof. The person applying for said license shall, at the time of receiving the same, take and subscribe before said clerk on oath that he will honestly and faithfully discharge the duties of said office.

Sec. 2. And be it enacted, That no person engaged in vending or trading in or manufacturing casks or liquors, individually or as a partner, or as agent, clerk or employee of a trader, vender or manufacturer of said article, or either of them, or any commissioned officer, shall be licensed to act as gauger of casks and liquids.

Sec. 3. And be it enacted, That any person may sell, export or otherwise dispose of any foreign or domestic liquors in casks without having the same gauged by a licensed gauger, but in cases of difference between the buyer and seller as to the quantity, either party may call in a gauger, and his judgment shall bind the parties.

Sec. 4. And be it enacted, That the gaugers shall procure and use a correct set of gauging instruments, and as soon as they have ascertained the capacity of any cask they shall distinctly mark, with marking irons, the capacity on the bilge near the bung, and prefix the letter M., for the State of Maryland, and the first letter of the surname of the gauger who does gauging; and any cask containing such liquor to be merchantable, must be round at the bilge and heads, the staves thereof to be seasoned white oak, free from any injurious portion of sapwood, and not less than half an inch thick at the thinnest part, and not more than three-quarters of an inch at the thickest part, and to be tight, and secured with a sufficient number of good hoops, if of iron, six, and if of wood, not less than twelve, and at least not less than twelve on all double barrels and hogsheads; and if any cask containing such liquor shall be found deficient in any of these respects by said gauger, he shall direct it to be coopered or other casks substituted therefor, at the expense of the owner or seller; and if such cask shall be found to be fraudulently made, the owner or seller thereof, or his agent, shall forfeit the cask to the use of the State.

Sec. 5. And be it enacted, That the said gaugers, in order to ascertain the capacity of casks, shall conform to the Baltimore standard of wine measure, and if any cask or vessel gauged or marked by said gauger, shall in its capacity be found lacking or exceeding one or more gallons in any barrel, or two or more gallons in a cask of a larger size, the gauger shall forfeit and pay two dollars for each gallon so lacking or exceeding the number of gallons marked by him on the cask.

Sec. 6. And be it enacted, That if any person shall alter any mark or number marked or set down by any gauger, thereby to deceive and defraud the purchaser of distilled spirits, wine, molasses, or other liquid merchandise, so gauged and marked, or shall put any false mark or number on said cask, or upon any certificate intended to counterfeit the mark or numbers of the gauger, he shall forfeit and pay twenty dollars for every offence, one-half to the informer and the other half to the use of the State.

Sec. 7. And be it enacted, That every gauger so licensed shall be entitled to demand and receive from the person at whose request he shall gauge any cask or casks, the following fees, to wit: For gauging casks not exceeding forty gallons, ten cents per cask, for casks of larger size fifteen cents.

Sec. 8. And be it enacted, That any person not being properly licensed who shall act as gauger, or being so licensed, shall act as said gauger outside of the limits of the said city, shall forfeit and pay to the Sheriff of the city the sum of three hundred dollars; said penalty to be imposed as a fine by the Criminal Court on presentment and indictment by the Grand Jury and conviction in due course of law, and one-third of the penalty shall be paid by the Sheriff to the informer, and the residue shall be accounted for by the Sheriff to the Treasury as other fines; if any person so licensed shall be guilty of a fraud by reason of a collusion with any parties, he shall be deemed guilty of misdemeanor, and shall, on presentment and indictment therefor and conviction thereof, forfeit and pay a fine of not less than five hundred dollars or more than one thousand dollars, for every such offence, or be imprisoned, in the discretion of the Court, for a time not exceeding three years, or both, and shall also be liable in damages at the suit of the party aggrieved.

Sec. 9. And be it enacted, That this Act shall take effect from and after the date of its passage, and all Acts or parts of Acts inconsistent herewith are hereby repealed.

We hereby certify that the aforegoing is a true and perfect copy of an Act passed the General Assembly of Maryland, at the January Session, 1872.

AUGUSTUS GASSAWAY, Secretary of the Senate.
