The steam-engine, that grand invention of modern times, is a machine evolving great power with constant motion. What power is to the steam-engine, life is to the living machine or, rather life is power, which, through the intervention of machinery, produces regular and sentient action. This machinery, like that of the steam-engine, is susceptible of disarrangement, and must, in time, wear out. Both require attention; each have governors, condensers, escapements, valves, &c. all at work, and all important; and accident to either weakens or destroys its motions. The human machine, from its superior, complex, and delicate contrivance, is easily disarranged. Remove the obstructions, lessen the friction, let the valves work freely, and health is again restored. To effect this, use Dickener's Sugar Coated Vegetable Extract Pills, which have attained great reputation for their curative properties. They remove from the system all seeds of disease without irritating it, and are, therefore, suited to all constitutions, and in all stages of complaint.

For sale in Chester Town by John Russell & Co. and by agents published in another part of this paper.

MARRIED,

On Thursday evening last, by the Rev. Mr. Thomas, Mr. SAMUEL HAMBLETON, to Miss LOUISA CAHALL, both of this county.

On the 7th Inst. by the Rev. J. W. Pierson, Mr. JOHN FRAZIER, of Kent, to Miss SARAH E. SPENCER, of Caroline.

DIED.

In Baltimore, on Saturday last, after an illness of three months, Mrs. ELIZABETH JACKSON, in the 87th year of her age.

(From the N. Y. Tribune.)

TO THOSE WHO USE PILLS.

Of all the medicines put forth in the world, none has been regarded with such general favor by all who have used them, as the so well known and efficacious medicine called "Dr. Smith's Improved Indian Vegetable Pills;" and perhaps no medicine ever possessed in its peculiar combination, such mysterious power over disease. A lady of the first respectability in this city, (whose name we are permitted to give in private) informed us this week that she had long suffered the most violent headache, and that nothing had ever afforded her relief like these Pills. She said that Dr. Huntington advised her to try them, stating he knew them to be a good medicine. This case is not uncommon.—Physicians do recommend them, and Dr. S. has the proud satisfaction of being permitted to refer to more than one *high* in the profession. These Pills, besides their great efficacy, have a taste as pleasant as a sugar plum, being coated with sugar, (a thing unheard of in the world, until Dr. Smith made them, after more than a year's trial and great expense.) The public are informed that these Pills are not of mushroom class, made of *anything* merely to *sell* for a *short* time, as they are made of the purest materials, and they will bear the scrutiny of either Physician or Chemist. The public ought to remember that no Sugar Coated Pills can be relied upon unless the signature of G. Benj'n Smith, M. D., the sole inventor, is upon the side of every box, also beware of counterfeits. This is *important*, as *miserable medicine* may be *enveloped* in sugar.

Dealers furnished at the New York College of Health 179 Greenwich st. New York. And sold by John L. Stam, Chester Town

☞CAUTION.—As a miserable imitation has been made, by the name of "Sugar Coated Pills," it is necessary to be sure, that Dr. G. Benjamin Smith's signature is on every box. Price 25 cents.
