For House of Delegates:
JAMES S. HARRIS,
HARRY C. WILLIS.

For Surveyor:
GILBERT B. TAYLOR.

NO PROHIBITION TICKET THIS FALL?

There seems to be some doubt existing as to whether or not the Prohibition party can nominate a ticket in this county. The doubt exists on an interpretation of the new primary election law, which was passed at the last session of the legislature. The law, it is contended, provides that all nominations shall be by a primary election, and not otherwise, and only such parties which polled ten per cent of the total number of votes cast at the election of 1907, or some future election, can hold a primary under the new law. If this is the proper construction of the law, then it might be that if the Prohibitionists desire to nominate in this county this fall it will be necessary for them to circulate petitions and put their candidates on under a different party name.

GOVERNMENT SEED.

The NEWS has received some seeds from the Government the quality of which is well described in the following item:

A farmer living in Greensboro vicinity, who this year received some seeds from the Government, has sent the following report to the Department of Agriculture:

"In acquiesance with your general request to report concerning the outcome of seeds submitted by you, I take great pleasure in sending, under separate cover, a specimen of some radishes which were grown from your seeds. The radishes are very productive, growing at a rapid pace, most up and down instead of across. Long, slender and willowy, they present a striking appearance when brought to the table. Expecting extraordinary quality from radishes of these dimensions, we were not to be disappointed. The first impression made by the teeth proved an excellent test as to their incisive properties, and the sensation left on the tongue was a lasting one of great warmth. We thought it best to extricate them from the ground while we could locate the terminus of the roots, whereas, left to be full grown they were apt to go in search of the little yellow people on the other side."

CHESTER RIVER SURVEY DONE.

State Commission Has Completed 10,000 Acres of Oyster Beds.

The houseboat Oyster, of the Maryland Shellfish Commission, used as living quarters by the surveying crews at work on the oyster grounds of Maryland, arrived in Baltimore Friday from the Chester River in tow of the State steamer Governor McLane, the work of surveying the bed in the Chester river having been been completed. The Oyster will remain until after taking on stores when she will leave for Kent Island narrows, where the survey will be carried on in the waters of Eastern bay and its tributaries.

While the Oyster is at Baltimore Mr. Swepson Earle, in charge of the survey work, will survey the lumps in the Chesapeake bay between the shores of Baltimore and Kent counties south of Poole's Island. At the same time the Coast and Geodetic Survey party will carry on its triangulation work in Eastern bay.

After the lumps in the bay are surveyed and chartered the party will work down the shore of Kent Island to Bloody Point and will there combine with the Coast and Geodetic Survey party for work in the waters of Talbot county.

Since June 1 the surveying parties have completed a survey of 10,000 acres of oyster beds and bars.

Electric Lights for Ridgely.—A franchise has been granted the owners of the electric light company, of Denton, to light the town of Ridgely. Ridgely is rapidly going to the front and in a very short time will be recognized as one of the leading towns on the peninsula. It has made more rapid strides than any other place on the Shore in recent years, and to-day its pavements are the best in any of the Eastern Shore towns.
