The Kent News.

SATURDAY - - - - MAY 10, 1873.

New Delaware Liquor Law.

The recent legislature of Delaware passed an act further guarding the interest of the people of that State against the wholesale traffic in rum. The law, although not what it should have been, is an improvement upon former legislation and will in some measure restrict the sale of the ardent.

The applicant for a license is required to obtain the recommendation of twelve freeholders in his school district, or if in the city of Wilmington, twenty-four from his Ward. This application with the endorsers, is required to be published in two newspapers of the County thirty days before the sitting of the Court. In towns of less than 2,000 inhabitants the applicant, in addition to the above requirement, must have at least two rooms, and four beds, for the exclusive use of guests, and stabling for four horses. Store keepers to obtain license the same as taverns. No liquor can be sold or given away on Sabbath or election day, or to any minor, or person drunk. The fine for violation of these provisions is $50 to $100, and the second offence forfeits the license. All bills for liquor by small to be uncollectable by law. There are no provisions for restaurants in the bill.

Persons found drunk, noisy, or excited by liquor on the streets to be arrested without warrant and lodged in nearest jail or locked-up. It is made the duty of all peace officers to enforce the law, and on neglect to do so they are liable to forfeit and pay a fine at the discretion of the Court.

LOUIS NAPOLEON'S WILL—*His Estate and Legacies—Advice to his Son.*—The New York *Herald's* London special gives the following text of the will of the late Emperor Napoleon, under which letters of administration are now applied for. The estate is sworn to under £120,000 sterling, and this sum is subject to claims which will reduce it one-half:

"This is my will. I commend my son and my wife to the high authorities of the State, to the people and to the army. The Empress Eugenie possesses all qualities requisite for capably conducting a regency, and my son displays a disposition and judgment which will render him worthy of his high destiny. Let him never forget the motto of the head of our family, "Everything for the French people." Let him fix on his mind the writings of the prisoner of St. Helena; let him study the Emperor's deeds and correspondence, and finally, let him remember, when circumstances permit, the cause of the people is the cause of France. Power is a heavy burden, because one cannot always do all the good one could wish, and because contemporaries seldom render justice, so that in order to fulfill one's mission one must have faith, and conscientiously appreciate his duty. It is necessary to consider that from Heaven above those whom you have loved regard and protect you. It is the soul of my illustrious uncle that has always inspired and sustained me. The like will apply to my son, for he will always be worthy of his name.

"I leave to the Empress all my private property. I wish at the majority of my son she shall live at the Elysee and Biarritz. I trust that my memory will be dear to her; that after death she will forget whatever unhappiness I have caused her.

"With regard to my son, let him keep as a talisman the seal I wore attached to my watch, and which comes from my mother. Let him carefully preserve everything that came to me from the Emperor, my uncle, and let him be convinced that my heart and my soul remain with him. I make no mention of my faithful servants. I am convinced the Empress and my son will never abandon them. I shall die in the Catholic Apostolic Roman religion, which my son will always honor with his piety. Done and signed with my hand at the palace of the Tuileries, the 24th of April, 1865. NAPOLEON."

TRAVELLING SHOWS.—There have been organized, for the present season, as many as twenty-six traveling circusses, museums, menageries and hippodromes, of greater or less magnitude, representing a capital of at least ten million of dollars, and employing about two hundred persons each, or an aggregate of over five thousand people. One of the largest of these great travelling wonders, is that of P. T. Barnum, which has four hundred and twenty-six people attached to it, one hundred and two wagons, five hundred and sixty-three horses, and represents a capital of $1,200,000. Barnum's great show was organized in New York, and started out about the middle of April. Then there is Haight & Co's. Menagerie and Circus, which employs 300 people, 200 horses, and requires 60 railroad cares for transportation. L. B. Lent's mamouth concern, employing over 400 people, 200 horses, and 80 wagons. Van Amburgh & Co's. require eleven tents, and costing over $1,000,000. Adam Forepaugh's monster combination. John Robinson's, one half of which moves in seven steamers, the other half by rail, from Cincinnati. G. F. Bailey's, John H. Murray's, Cooper, Hood & Bailey's, Dan Rice's, Montgomery Queen's, John O'Brien's, Howe's London Circus, G. G. Grady's and a number of others of lesser note and magnitude, all travelling to amuse an instruct the American people, and to put money in the pockets of the managers.

A BRIEF HISTORY.—About twenty-five years ago, a young mechanic, in Boston, overheard the remark that a fortune awaited the inventor of a Sewing Machine.—This aroused and directed his inventive faculties; a spell was upon him, which he could not resist. His brains and hands were busy with needles and threads and other devices, contriving stitches for sewing and mechanism for making them. He finally fixed upon what is known as the "Lock stich" as best for forming seams by machinery, and devised the mechanism for it.

This young mechanic is world-famous as Elias Howe, Jr., to whom, in the language of Judge Sprague, of the United States Circuit Court, for all the benefits conferred upon the public by the introduction of the Sewing Machine, the public is indebted. He was not content to stop with his first success. While he focused others to engraft their improvements upon his invention, he busied himself in developing the Machine. In its present shape the highest premium was awarded to it at the Exposition Universelle, Paris, 1867. A. H. Gorsuch, Chestertown Md.

The New York Tribune in speaking of the death of George Francis Train's father, says: "Mr. Train, senior, died on Friday morning last at his residence, in this city, in the 84th year of his age. He was a native of Boston, and was one of the first merchants of that city. He was a man of very strong mind, and was well known in commercial circles for his great generosity and his unbounded hospitality. He was a very kind-hearted man, and his death will be very sad to his numerous friends.

NEW YORK BRIDGES.—With the magnificent project of a bridge between New York and Brooklyn, now about being realized, there is connected two or three smaller avenues of communication with the neighboring shores that are attracting attention. The bridging of the East river over to Long Island is the most promising of these. One company has already obtained a charter to span the river directly across from Fortieth street.—The bridge will be a long span on a new principle, and will be a link between the straight girder or tube and the suspension. Another plan is to bridge the river, useing Blackwell's Island as an intermediate station. This last will be nine thousand five hundred feet in length, and the span of the East and West channels will be seven hundred and twenty feet. The whole structure will be one hundred and thirty-five feet above high water. It will consist of a double track railway, a carriage way of twenty-four feet, and three foot ways of twenty feet each. The cost of these bridges will not be less than five millions of dollars each.

RAILROADS AND TIMBER.—If we may rely upon the accuracy of recently published statements, the question of the supply of timber for the construction and use of railroads is likely to become a very serious one. It is estimated that the number of railroad ties in present use in the United States are 150,000,000. A cut of two hundred ties to the acre is above rather than under the average, and it therefore has required the product of 750,000 acres of well timbered land to furnish the supply. Railroad ties last about five years, consequently 30,000,000 ties are used annually for repairs, taking the timber from 150,000 acres. The manufacture of rolling stock disposes of the entire yield of 360,000 acres, and a fuel supply of nearly 500,000 acres more every year. It appears, then, that our railroads are stripping the country at the rate of 100,000,000 acres per annum, and their demands are rapidly increasing.

A PROPER LAW.—The New York Legislature has passed the bill, which has been for some time pending, intended to prevent the frequent accidents that occur from the careless handling of fire-arms. It is now a misdemeanor in New York to point a gun, pistol or other firearm, at any one, whether the weapon is loaded or not, and the crime is punishable by fine and imprisonment. This is a wholesome enactment, well worthy imitation everywhere. The terrible and fatal case resulting from this foolish practice on Saturday in this city, is a marked illustration of the necessity of such a law.—*Baltimore Sun.*

A SOLDIER of the war of 1812, named Eates, died recently at Savoy, Mass., at the age of eighty-eight. He was an eccentric man, who never applied for a pension, and never rode upon a railroad in his life; and when elected to the Legislature declined to serve.

THE MOST UNHAPPY PERSON in the world is the Dyspeptic. Everything looks dark and gloomy; he feels "out of sorts" with himself and everybody else. Life is a burden to him. This can all be changed by taking Peruvian Syrup (a protoxide of Iron.) Cases of 27 years' standing have been cured by it.

CORN MANURE.

The attention of the Farmers of Kent is invited to the above Fertilizer.

IT IS VERY RICH IN POTASH, and is recommended mainly to PREVENT CORN FROM FRENCHING.

It was used in the county last Spring, and its success fully warrants its recommendation for that purpose.

PRICE $35 PER TON delivered in Chestertown. For sale by

T. W. ELIASON, Jr.

March 22, 1873—2m.

Kent Co. Commissioners' NOTICE.

THE COMMISSIONERS OF KENT COUNTY, will meet at their office in Chestertown, on

TUESDAY,

The Twenty-fifth day of March, 1873, at 10 o'clock, A. M., and will continue to meet at the same place and hour

EVERY TUESDAY,

Until the Twentieth day of May next.

All persons who have SOLD OR TRANSFERRED any assessable property since the general valuation and assessment of 1872, are particularly requested to attend at an early day and have their Tax accounts adjusted.

After Tuesday, the 20th of May next, NO ALTERATION in the assessment will be made during the present year.

All persons having ACCOUNTS AGAINST THE COUNTY, are requested to bring in the same on or before

TUESDAY, the 20th day of May next, otherwise they will not get into this year's levy. All accounts presented to the Court will be required to be under oath.

ALL NEW APPLICATIONS FOR PENSIONS must be in writing, stating the residence, condition and circumstances of the applicant, and which must be signed by two or more persons having a knowledge of the facts therein set forth.

JOHN RUSSELL, Clerk

To Commissioners for Kent County.

March 15, 1873—tim.

Jan. 25. J. B SAPPINGTON'S, Chestertown.

TO FARMERS!

"EXCELSIOR." 1873 1873

Composed of 800 lbs. of No. 1 Peruvian Guano, and 1200 pounds of Soluble Phosphate of Lime, (bones dissolved in sulphuric acid,) Potash and Soda,

Forming the most concentrated, universal and durable fertilizer ever offered to the farmer—combining all the stimulating qualities of Peruvian Guano, and the ever durable fertilizing properties of Bones. Excelsior is in fine, dry powder, prepared expressly for drilling, and can be applied in any quantity, however small, per acre; and it is the opinion of many close calculating farmers, after FOURTEEN years experience in testing it side by side with other popular fertilizers, that an application of 100 pounds of Excelsior is equal to from 200 to 300 pounds of any other fertilizer or guano offered for sale, therefore is fully 100 to 200 per cent. cheaper.

Look out for imitations and counterfeits. The popularity of Excelsior has induced *unscrupulous* parties in this and other cities to copy our trade mark, and resort to other dishonorable means to sell their *worthless* compounds.

Farmers should see that every Bag is branded as above, with ANALYSIS and OUR NAME in RED LETTERS. All others are counterfeits.

Price $60 Per Ton.

GAMBRILL'S and other brands of EXTRA and SUPER FLOUR, for sale by the barrel or pound, at J. B. SAPPINGTON'S

Jan. 4, 1873. Chestertown.

TO THE PUBLIC.

THE subscriber most respectfully informs the public that he has made arrangements with Dr. Thos. H. Whaland to carry on his

MILL

near Chestertown, for the present year.

His long experience in the business and his reputation as a Miller warrants him in the belief that he can give universal satisfaction.—As soon as practicable he intends to keep on hand a good supply of

CORN MEAL,

WHEAT FLOUR of all Grades,

HORSE FEED, &c., &c.,

which he is determined to sell at reduced prices.

He only wants to make the regular toll, and will be compelled to sell for Cash only as his capital is small and he does not intend to keep books.

He will use all means to make the Mill a public convenience as well as a source of profit. A trial is all he asks.

Most respectfully,
SAMUEL A. ANTHONY.

THE EUREKA FANNING MILL.

THE GREATEST INVENTION OF THE NINETEENTH CENTURY!

Farmers Look to Your Interest!

THE attention of Farmers and Mechanics is particularly directed to the combined economy, utility and practicability of the Eureka Mill, and to the many other advantages it possesses over every other Fanning Mill which has been introduced to the public.

It is the fruit of long and patient investigation by the inventor, who has made it his constant study for over twenty years. He has secured several patents for Mills, and has always been rewarded with the best of success. But not feeling satisfied with his former attainments, he determined to reach the climax, and he now believes that his new invention will warrant him in exclaiming in the joy of his heart, like the philosopher, Phythagoras—EUREKA!—signifying in the Grecian language, "I have found it." This has given the name to this new Mill.

In this Mill are all the former improvements to which have been added several more, adding still greater advantages than were at first anticipated, or even thought possible by the inventor himself. It embraces the three great essentials necessary in every invention:

It combines ECONOMY, UTILITY and PRACTICABILITY!

THE "EUREKA" MILL

Is small and lighter, and is capable of doing more and better work in a given time than any other Mill ever invented.

IT IS THE ONLY MILL that will successfully remove from wheat all such pests as Cockle, Garlic, Oats, Rye, &c.

Should an extra quality of grain for seed or gristing purposes be required, it can be so arranged as to catch in one box perfect grain, and in the other, grain fit for market or mill. Here is made a great saving usually lost sight of: for nearly one quarter of the grain cleaned is the common Mills is lost when sown, on account of shrunken kernels and inferior grain. The Eureka Mill saves all this, and gives seed every kernel of which will grow when put into the ground, and this saving will, in a short time, pay for the Mill.

HINES & BURCHINAL,

Chestertown, Maryland,

Owners of the Mill, are having them manufactured at the Sash Factory and Planing Mill of Noland & Co., Port Deposit, Md., which is a guarantee that they will be put up in the best manner. jel7-tf.

REMOVAL and ENLARGEMENT!

L. C. BAKER,

HAS removed from the basement of the Voshell House, to the Store House of S. S. Usilton, up town, where he has ENLARGED HIS STOCK, and will keep on hand
