The Kent News.

SATURDAY - - - - JUNE 28, 1873.

HOW TO GET LABORERS FOR OUR LANDS. The Philadelphia *Press* is in favor of making practical use of the new line of ocean steamships established there, so as to obtain labor for the counties adjoining Philadelphia, which require help on the farm, in the dairy and harvest. A large portion of the arable land of Delaware and Chester counties, for example, is said to be practically waste, and of that under culture a very small proportion is given to products that the industrial interests of Philadelphia require. The *Press* pertinently remarks that the best importation America can make is of men, not of the product of men's labor in other countries. It is as true of large portions of Maryland as of the localities referred to by the *Press*, that a good deal is not well cultivated and a good deal not cultivated at all. We have ocean steamship facilities for obtaining immigration, and they bring large numbers of immigrants, only, however, to tantalize us by most of them passing through our borders to the far West, leaving but an inconsiderable number to cast their fortunes among us. Even of these, such as have been obtained for farm labor, have in some localities, especially the Eastern Shore and other corn growing sections, become dissatisfied and left. We can only attribute this to the fact that no proper preparation was made to meet their peculiar needs and modes of life. The bacon and corn bread so acceptable to the class of agricultural laborers on whom we so long depended, do not suit Europeans, who are used to more of a vegetable diet, and wheat or rye for bread. It would seem the dictate of common sense to sell bacon, which is costly, and buy for the new-comers what they want, and at the same time give larger attention to growing root crops, as potatoes, turnips, beets, &c. While our own rural districts are suffering for want of labor, it is stated that a good farm laborer in Gloucestershire and other parts of England works for twelve dollars per month (United States currency) and finds himself, and in many cases gives in addition, without pay, the help of his boy of twelve or fourteen years of age. It would seem that a properly organized system of procuring emigrants, and proper methods of treating them after they have been secured, might enable us to obtain plenty of workers. In the meantime these workers desire the opportunity to acquire land of their own in small tracts, and where the sensible disposition prevails to encourage and aid them in this, there are they most likely to remain, attracting others, from time to time, who will hire, and whose children will grow up in the neighborhood, to the advantage of all, by increase of population, improvement and division of the lands, and the general enhanced accumulation of wealth and the means of education.—*Balt. Sun.*

THE PREVALENCE AND PUNISHMENT OF CRIME.—The public ears are filled with the story of crime. Each day has its marvel. No community escapes the prevalent lawlessness. Every form of human destruction, conceived in the frenzy of passion, is attempted. Axes, hatchets, razors, knives, revolvers, guns, poison, suffocation, are the instruments. The hellish purpose finds its victims in all the relations of life. A father is summoned by his unfledged offspring to make humiliating confessions and summary promises of amendment of life and manners. His promises are vain. The tyranny of passion, overborne by opportunity meanly and unmagnanimously obtained, exacts life instead of the demanded reform. The cool villian talks of virtue, and protects mother's happiness by riddling a father's body with bullets. Fourthwith the country resounds with exclamations of wonder, which scarcely die away when some unscrupulous pen attempts to vindicate the atrocious sin, and to blot out the damned spot. Mothers forget their love, and murder whole households. Fathers split the skulls of unoffending families. To crown all, we have Websterian examples of cutting up and burning the victim, and in one instance the murderered man was skinned. Are we retreating into lawlessness and savagery? Is murder epidemic? Shall we have no let up in the fearful course? There must be some causes in our treatment of moral questions in our modes of life, and in the conditions and decisions of the courts of the country for these very prevalent crimes.—*Balt. Gaz.*

A RADICAL'S ANTI-RADICAL VIEW.—In the Ohio constitutional convention a debate occurred on Tuesday on the subject of changing the time of holding the State election from October to November.—Judge West, late of the Supreme bench, (having resigned a judgeship to which he was elected by 20,000 republican majority to take a seat in the convention,) was speaking in favor of the proposition, when he said: "I am a republican of the strictest sect, and, radical as I have been, I now declare that it was absolutely humiliating to men of dignified sensibilities to see Delano, Secretary of the Interior; Boutwell and Creswell, Postmaster General, going down last fall, first to North Carolina, and, after having carried that State by detail, folding their tents like the Arabs and silently stealing away to the State of Maine, and then flitting away to other States, and working to carry elections for the administration party. I hope to God the time will come when such a spectacle will no longer be witnessed on the American continent." [Applause.]

THE French and Belgian engineers are trying various experiments to ascertain the best means of preserving wood. The last agent, and the most promising one, is tar. Wooden substances impregnated with tarry preparations very imperfectly, have been known to be as perfect twenty years afterwards as when first prepared. By the present method the tar follows the lines of the longitudinal fibres of the wood, completely filling the pores, and coating the bolts, screws and nails. A railway sleeper on a Belgian or French road will now last as long as an Egyptian mummy, to which, when taken out of its bitumen it bears not a very remote resemblance. The use of these prepared timbers is rapidly extending, especially in Belgium, where fully two-thirds of the sleepers of the numerous railways are thus chemically rendered more durable. Our railways are the great consumers of our timber, which is already beginning to fail. Such preservation of the wood so used might save us millions of dollars.

COLONEL MCKENZIE, who conducted the successful raid upon the Kickapoo Indians on the soil of Mexico, has been complimented by Gen. Augur in a general order. It ends as follows: "It is believed that a few repetitions of this effective and summary punishment would give quiet to that portion of the Rio Grande frontier so long outraged by these Indians." This fixes the position of our government in relation to the conduct of Col. McKenzie, as no General would have issued such an order as the one mentioned without the endorsement of the President, through the General of the army.

A TERRIBLE BOAT RIDE.

SHOOTING RAPIDS—ONE HUNDRED AND FORTY MILES IN TWO HOURS.

Clear Creek is a miniature river that runs through the canon of the same name. It decends upon a down grade of four hundred feet per mile, with here and there a fall over a rocky precipice fifteen or twenty feet in height. Large boulders, forty and fifty feet in diameter, and weighing tons, impede its dashing progress every two or three hundred yards, while its curves are so sharp and so frequent that the stream can nowhere be seen for a distance of a thousand feet. Granite cliffs two and three miles high project over it on either side, and give frightful, romantic and dangerous appearance to the rushing torrent beneath.

Just below Black Hawk, on the side of the stream, a small reservoir has been constructed in which is kept an ordinary skiff. Last Sunday two little sons of Martin F. Walker, aged respectfully ten and twelve years, got into the boat, and were splashing the water, with a stick, when the fastenings gave way and the boat drifted towards the rapid running current. The little boys soon discovered their danger, but were powerless to avert it; so they clutched hold of the side of the boat, and with pallid countenances awaited their doom. Soon the boat was caught by the rapid current and began decending at a fearful rate, over Black Hawk rapids they went like an arrow, clearing a distance of sixty feet at a single dash, lighting again on the torrent surface the boat seemed to have gained a new impetus, and shot by the boulders and around the rocky point with a celerity of a sunbeam.

At a distance of about six miles below the starting point conducter Gibbens, who was standing on the rear platform of the down C. C. train, saw the boot coming, and immediately stopped the train.—All hands repaired to the water's edge, and did everything in their power to arrest the flying boat, but past them she went like a bullet from a rifle, and was out of sight in a moment. The conductor then ordered the engineer to put on a full head of steam and followed as rapidly as possible, which he did, constantly sounding the alarm of danger. He did not get another glimpse of the boat, but the alarm brought the employees at Beaver Creek Station to the lookout, and quickly making a slipnoose they sought to throw it over the bow of the boat as she came under the bridge. This they succeeded in doing, but could no more hold it than could have held a thunderbolt, and over Beaver Creek Falls she went with the speed of the lightning. The falls are about thirty feet high, and at the foot are a number of large boulders, but the velocity of the boat was such that it cleared them easily, and struck the water some twenty feet beyond.

From here no one saw the boat, or its living freight, until it reached a point one hundred miles below Denver. Through Golden into Platte river, and under the Denver bridges she went, unnoticed, nor slackened her pace until she lodged in a drift at the distance below Denver above mentioned. The Platte does not run very rapidly, but the boat had acquired such a wonderful speed in decent from the mountains that it far outrode the current. A Mr. Walsh, who lives on a farm near the drift where the boat lodged, discovered the boys still in the boat which was nearly full of water, and took them to his home. They were restored to their overjoyed parents the following evening, after having accomplished the most perilious journey, in the quickest time ever before made by any human being who escaped alive. The distance traveled was one hundred and forty miles in two hours, but how was it ever done, or how the boat escaped being dashed to pieces upon some of the huge boulders or rocky cliffs which everywhere intercept the course of Clear Creek, is nothing short of a providential mirical. Probably not again in a thousand years could the journey be made with the best appliances, and by the most skilful mariners.—*Central (Col.) Coach.*

BUT few are, perhaps, aware of the large and constant flow of emigration from the dominions of King Oscar to the United States. In 1869 as many as 60,000 Scandinavian souls came to America. There has been no year since then in which the number has not exceeded 30,000. And yet the population of the whole kingdom is not much larger than one of our middle States. And, what is better, we have no emigrants who are more desirable than the Swedes and Norwegians. They have every quality we crave in the men and women who are to be the parents of future American generations—temperance, industry, and a desire for an independent agricultural life.

PARTING WORDS OF CAPTAIN HALL.—Captain Hall wrote as follows to the editor of the Nautical Gazette, before embarking in the Polaris: "I shall bring you tidings which will astonish the world, and recompense my friends for all their labors in my behalf, or I will die in the attempt. I will never return to the Arctic regions again if I am successful; but, if I am unsuccessful, and live to see the United States, I shall tell my story, and then seek a home in the far North, where, in peace, I shall pass away to a brighter and better land. God bless you. Farewell."

THE CIRCULATION OF NEWSPAPERS.—At a late meeting of the Michigan State Press Association a series of resolutions were presented and adopted denouncing the action of Congress in enacting oppressive regulations upon the circulation of newspapers, and calling upon the Senators and Representatives of the State to vote for the repeal of the act at the next session of Congress. The action of certain members of Congress in raising their own salaries and at the same time putting additional burdens upon the press of the country was commented upon very severely.

CONSIDERABLE excitement has been occasioned among the New Orleans republicans by the appointment of men to office by the Governor imported especially from Washington city. The republican club have passed resolutions denouncing this action, and also referring to the recent equality party movement as a democratic decoy.

IT is related of Mr. Filmore that while Vice-President of the United States, during the sitting of the Senate, he invariably recognized Senator Sevier, when rising to speak, as the Senator from Arkansaw, while he recognized Senator Ashley as the Senator from Arkansas, pronouncing the name of the State according to the manner of the Senators respectively.

Excitement at Drug Stores.—There has been a general rush the last month at the Drug stores in Kent county for Dr. A. Boschee's German Syrup. It has been lately introduced in this country from Germany, and for any person suffering with a severe cough or heavy cold settled on the breast, consumption or any disease of the throat and lungs it has no equal in the world. Our regular size bottles are 75 cts. Two doses will relieve any case. Try it. Sample bottles free of charge. L. M. Green & Son, Proprietor, Woodbury, N. J. For sale by all Druggists and Dealers, and wholesale by C. F. STAM & BRO., Chestertown. eow

PROFESSOR SMITH of Baltimore, some eighteen months ago, addressed a long letter to the Baltimore *Sun*, upon the subject of Hydrophobia and its treatment, which was very generally copied by the press of the country, his great reputation in medicine giving his opinion on the subject great weight.

We give below, from the *Sun*, another letter on the same subject, suplementary to the first.

DOG BITES.—TO THE PUBLIC.—Allusion having been made to an article on hydrophobia, published by me a year and a half ago, I deem it proper to repeat what I then emphatically said, "that a slight scratch from a dog's tooth is more dangerous than a deeper wound," because less blood flows to wash away the poison, and to render necessary more thorough washing with soap and water. The part should be instantly washed with soap and water and when dry should be thoroughly touched with caustic potash by a physician, if possible. The milder caustics, such as lunar caustics, &c., are worthless.

I have witnessed many deaths since that article was published, from this disease, in not one of which was the caustic used. In all cases the patient said "the scratch was so slight that they did not mind it"—the very reason that they should have "minded" it. In all these cases life would have been saved had the means been promptly employed.

Another error is, always killing the dog that bites; he should be carefully shut up. If he remains well he has not the hydrophobia. But apply the caustic at any rate at once.

FISH AND FISHERIES.—Professor Baird, United States commissioner of fish and fisheries, has given a summary of the results of his investigations in New England waters during the years 1871 and 1872, in which he states that the alleged decrease in these waters is fully substantiated, and has been going on for twenty years, which represents the time during which traps and pounds have been well established. The decrease is attributed to the combined action of the fish pounds or weirs and the blue fish, the former destroying a large per cent. of the spawning fish before they have deposited their eggs, and the latter devouring an immense number of young fish. The remedy suggested is the enactment of laws by the several States for a close time during each week in the spawing season, from Friday night to Monday morning, and not the abolition of traps and pounds, as the latter would prevent sufficient quantities of fish from being furnished to supply the demand.

THE Springfield *Republican* thinks that with Andy Johnson Governor of Tennessee, and General Butler Governor of Massachusetts, there would be great danger that the peaceful and friendly relations now existing between these two sovereign States might be interrupted.

TO THE LADIES.

Mrs. S. S. JOINER, (formerly Miss Calder,) still continues the business of DRESS MAKING, FITTING and CUTTING, in the store room occupied by her last year, nearly opposite the Voshell House. A nice assortment of FANCY GOODS is also kept on hand. The ladies are invited to call. Also, a variety of CONFECTIONERY. MRS. S. S. JOINER. my3-2m.

AGENTS WANTED Either local or canvassing in every town. *Large cash pay and the best outfit.* Liberal premiums for getting up clubs. Send at once for terms and particulars. Address WATERS & CO., Pubs., Chicago, Ill. je14-tf.

A CARD

To my Fellow-Citizens of Kent County:

I am induced by many considerations to announce myself to you as an INDEPENDENT CANDIDATE FOR THE HOUSE OF DELEGATES of Maryland. There is no reason why labor should not be represented in the State Legislature by one of her own sons and not always by a gentleman of property.—I am not ashamed to be the poor man's candidate. I am opposed to all cliques, rings and conventions, by means of which the few rule the many, taking care to provide office and emolument for themselves to the exclusion of the rank and file. I am against all party machinery and trickery, and am not a caucus candidate, but simply ask and hope for the support of all independent men.

I am your ob't servant, JAMES M. AYRES. ap12-6m*

KENT COUNTY, Set:

I hereby certify that on this 10th day of June, 1873, personally appeared before the subscriber, a Justice of the Peace of the State of Maryland, in and for Kent county, John H. Porter, farmer of Kent county, and made oath in due form of law, that he has taken up as an estray trespassing upon his enclosures, ONE ROAN HEIFER, supposed to be about three years old, without ear or other marks. Given under my hand. T. W. RUSSELL, J. P.

NOTICE.—The owner of the above described Heifer is notified to come forward, prove property, pay charges, and take it away. JOHN H. PORTER, je14-3t. Quaker Neck.

TO THE PUBLIC.

THE subscriber most respectfully informs the public that he has made arrangements with Dr. Thos. H. Whaland to carry on his MILL near Chestertown, for the present year. His long experience in the business and his reputation as a Miller warrants him in the belief that he can give universal satisfaction.—As soon as practicable he intends to keep on hand a good supply of CORN MEAL, WHEAT FLOUR of all Grades, *HORSE FEED, &c., &c.,* which he is determined to sell at reduced prices. He only wants to make the regular toll, and will be compelled to sell for Cash only as his capital is small and he does not intend to keep books. He will use all means to make the Mill a public convenience as well as a source of profit. A trial is all he asks. Most respectfully, SAMUEL A. ANTHONY. Jan. 6, 1872—tf.

CHEAPER THAN EVER! TOYS, CONFECTIONERY, &c., &c. J. H. SMITH Has now in store a large assortment of NEW GOODS, Embracing a general variety of TOYS, CONFECTIONERY, RAISINS, CURRANTS, CITRON, PRUNES, FIGS, NUTS, French and Common Candy, Canned Fruits, JELLY, PICKLES, CHOW-CHOW, TOBACCO, CIGARS, &c. Give me a call. Dec. 14. J. H. SMITH.

Great Discovery!

BRADLEY'S PATENT ENAMEL PAINT, MADE FROM Pure White Lead, Linseed Oil and Zinc, *CHEMICALLY COMBINED.* Mixed Ready for Use, CAN BE APPLIED BY ANY ONE. One Gallon covers 20 Square Yards, Two Coats. SPECIMENS of different colors may be seen at the Store of Messrs. Stam & Bro.

Read the following Testimonials:

CHESTERTOWN, May 12, 1873. Mr. C. P. Knight, Baltimore, Md.—I bought your Bradley's Patent Enamel Paint of Messrs. C. F. Stam & Bro., Chestertown, and found it to be all you recommend. Respectfully, CHAS. G. RICAUD, School Examiner, Kent Co., Md.

BALTIMORE, Dec. 10th, 1872. Mr. C. P. KNIGHT—Dear Sir:—It affords me much pleasure to say to you that the Bradley's Patent Enamel Paint far exceeds my expectations in economy, beauty, and I have every reason to believe, in durability. More than twelve months since I painted the roof of my Hotel (Mansion House) with the Bradley's Patent Enamel Paint, and I was so well pleased with it I determined to paint the outside of the Hotel, and am most happy to say it gives me perfect satisfaction. In conclusion I will say if this testimonial will be any advantage to you, you are at liberty to use it. Yours, most respectfully, ISAAC ALBERTSON, Mansion House Hotel, corner Fayette and St. Paul streets, Baltimore.

FROM HON. JOHN WETHERED. Mr. C. P. Knight:—At the recommendation of a friend, I was induced to apply your patent "Bradley's" paint to my house. I have pleasure in stating that it has proved highly satisfactory, covering more surface than you promised, is more economical, carries better gloss than any other paint and is freer from disagreeable odor. Yours, respectfully, JOHN WETHERED.

THE PLAINS, Fauquier County, Va., February 6th, 1873. C. P. KNIGHT—Dear Sir:—The Paint came safely to hand, as ordered, two kegs, five gallons each, and three buckets, one gallon each. As practice was slack I did the job myself.—Two weeks not constant work completed the house two coats, the last coat applied thick, and it is now generally conceded that for "Enamel" like hardness and body and harmony of colors there is not a handsomer job in the place. I saved sixty-five ($65) dollars by the operation, which is an item just now with Southern people." It should be generally adopted in this State; any country lad can apply it. I have never dabbled in such stock as Testimonials, but I feel so forcibly the great adaptability of your "Enamel Paint" to the wants of our people in excellency of material, in beauty of color, and the fact of its being "Ready Mixed," that I give you free permission (if it is desiruble to you,) to make what use you think proper of this letter. Very truly, S. McGILL, M. D.

Pleasantville, Harford Co., Md. C. P. Knight—Dear Sir:—I am happy to inform you that your Patent Enamel Paint has given entire satisfaction. I prefer it to any paint I have ever seen used, and recommend it for durability and beauty as paramount to any other. Very respectfully, R. DICKEY, M. D.

Belair, March 3d, 1873. Mr. C. P. Knight—Dear Sir:—I have been using, since last Spring, Bradley's Patent Enamel Paint, and am happy to say that it gives entire satisfaction wherever I have used it, and to parties to whom I have furnished it for other painters to use. Mr. John I. Street, who I furnished with the paint last Fall, says if his name is of any use you can use it with pleasure in recommending so good a paint. S. H. Montague, Painter, agrees with me as to the durability of your most excellent Paint. I hope that those who have painting to do, will look to their advantage and apply Bradley's Patent Enamel Paint, which is the most durable Paint now in use. It holds its gloss longer than any other Paint that I have ever used. Yours truly, E. C. GARRETTSON, Belair, Harford county, Md.

Baltimore, Sept. 30th, 1872. C. P. KNIGHT, Esq.—Dear Sir:—I have had the Bradley's Patent Enamel Paint, which I purchased from you, used inside and outside both at my dwelling and store for two seasons. It gives me great pleasure to be able to say it comes fully up to your recommendations in facility of use, economy, durability and beauty. Yours, truly, THOS. J. IRVING, of T. J. Irving & Co., 58 West Baltimore St.

Chambersburg, December 10th, 1872. Mr. C. P. Knight—Dear Sir: The paints we received from you have been applied to several of our own buildings, and to those of our friends, and have given satisfaction in covering qualities, in gloss and in adaptability to all kinds of surface or materials, and we cheerfully recommend it, especially to that class of consumers who have to depend upon unknown parties or painters to mix and furnish materials, wherein we have found the most deception. Yours, truly, JACOB STOUFFER & SON.

FOR SALE BY C. F. STAM & BRO., DRUGGISTS, Chestertown, Kent Co., Md. ap26-6m.

To Corn Growers! J. J. TURNER & CO.'S Ammoniated Bone Super-Phosphate.

ANALYSIS:

Ammonia - - - -	2.83
Soluble Phosphate of Lime -	29.51
Bone Phosphate of Lime -	10.67

Composed of the most concentrated materials, it is richer in Ammonia and Soluble Phosphates than any other Fertilizer sold, except our EXCELSIOR, and is made with same care and supervision, uniform quality guaranteed; fine and dry, in excellent order for drilling. Packed in bags and barrels. Price $50 Per Ton. J. J. TURNER & CO., 42 Pratt Street, Baltimore. FOR SALE BY T. W. ELIASON, Jr., Chestertown, Md. HINES & BURCHINAL, " " ANDREW WOODALL, Galena, " WM. McKENNEY, Centreville, " HALL & FEDDEMAN, " " March 22, 1873—3m.

TO FARMERS! "EXCELSIOR." 1873 1873

Composed of 800 lbs. of No. 1 Peruvian Guano, and 1200 pounds of Soluble Phosphate of Lime, (bones dissolved in sulphuric acid,) Potash and Soda, Forming the most concentrated, universal and durable fertilizer ever offered to the farmer—combining all the stimulating qualities of Peruvian Guano, and the ever durable fertilizing properties of Bones. Excelsior is in fine, dry powder, prepared expressly for drilling, and can be applied in any quantity, however small, per acre; and it is the opinion of many close calculating farmers, after FOURTEEN years experience in testing it side by side with other popular fertilizers, that an application of 100 pounds of Excelsior is equal to from 200 to 300 pounds of any other fertilizer or guano offered for sale, therefore is fully 100 to 200 per cent. cheaper. Look out for imitations and counterfeits. The popularity of Excelsior has induced *unscrupulous* parties in this and other cities to copy our trade mark, and resort to other dishonorable means to sell their *worthless* compounds. *Farmers should see that every Bag is branded as above, with ANALYSIS and OUR NAME in RED LETTERS. All others are counterfeits.* Price $60 Per Ton. J. J. TURNER & CO., 42 Pratt St., Baltimore. FOR SALE BY T. W. ELIASON, JR. - - Chestertown, Md. HINES & BURCHINAL " " ANDREW WOODALL - - Galena, " WM. McKENNEY - - - Centreville, " HALL & FEDDEMAN " " March 22, 1873—3m.

THE GREAT REMEDY FOR CONSUMPTION which can be cured by a timely resort to this standard preparation, as has been proved by the hundreds of testimonials received by the proprietors. It is acknowledged by many prominent physicians to be the most reliable preparation ever introduced for the relief and cure of all Lung complaints, and is offered to the public, sanctioned by the experience of over forty years. When resorted to in season it seldom fails to effect a speedy cure in the most severe cases of Coughs, Bronchitis, Croup, Whooping Cough, Influenza, Asthma, Colds, Sore Throat, Pains or Soreness in the Chest and Side, Liver Complaint, Bleeding at the Lungs, &c. Wistar's Balsam does not dry up a Cough, and leave the cause behind, as is the case with most preparations, but it loosens and cleanses the lungs, and allays irritation, thus removing the cause of the complaint. PREPARED BY SETH W. FOWLE & SONS, Boston, Mass., And sold by Druggists and Dealers generally.

BAKERY! BAKERY! FRESH BREAD, CAKES AND PIES JOHN WAIBEL Has again commenced the *Bread and Cake Baking Business,* in Chestertown. I have built a Bakery on Queen Street, adjoining Mrs. Biscoe, and hope to supply my old customers and the public with BREAD, CAKES, PIES, &c. I am determined to sell at the very lowest prices, and will do all in my power to please my customers. Give me a call. 24d. JOHN WAIBEL.

BREAD AND CAKE BAKERY DOROTHEA GRUBER, AT the old Bakery (up town,) respectfully informs the public that she is prepared to furnish BREAD, RUSK, BUNS, PIES, Biscuits, &c., FRESH FROM THE BAKERY, together with every description of Cake, such as Pound Cake, Sponge Cake, FRUIT CAKE, JUMBLES, SUGAR CAKE, Jelly Cake, Lemon Cake, &c., at the lowest prices. Having had large experience in Philadelphia in this business, she is satisfied of her ability to give satisfaction. DOROTHEA GRUBER. Chestertown, Jan. 1, 1866

J. C. SLAUGHTER & CO., PRODUCE COMMISSION MERCHANTS, 228 Washington Street, Bet. Barclay & Robinson Sts., NEW YORK.

COLIN F. STAM. LOUIS K. STAM

C. F. Stam & Bro. CHESTERTOWN, MD., DEALERS IN DRUGS, CHEMICALS, PERFUMERY, AND FANCY TOILET ARTICLES. THOMPSON, FOSTER IMPROVED, BARTLETT, MARSH, and REINHARDT TRUSSES, LOUDON and PRATT & HOWE Abdominal Supporters, AND Shoulder Braces. Wax Flower Materials, BOOKS AND STATIONERY OF ALL KINDS, *Can be bought at City prices from us.* Paints, Oils, Varnishes, Dye Stuffs, AND WINDOW GLASS of all sizes. *Do not fail to call and examine our stock. Remember, we take pleasure in displaying our goods.* Orders by mail promptly answered. C. F. STAM & BRO. April 12, 1873.

THE Howe Machine COMPANY Are now able from their increased facilities for manufacture to offer their IMPROVED SEWING MACHINES, ON THE MOST ADVANTAGEOUS TERMS. They are now manufacturing SIX HUNDRED DAILY. During the past six years they have manufactured and sold 400,000 which attests the great popularity of this unequalled machine. Until the year 1865 ELIAS HOWE, Jr. THE ORIGINAL INVENTOR OF SEWING MACHINES, Did not compete with Companies who were paying him royalty for the use of his patents. At that time he commenced manufacturing and put the genius which invented the Sewing Machine, the experience learned from the failures of other manufacturers, and the experience of a long life as a practical mechanic into the HOWE MACHINE. It is a noticeable fact that the Howe Machine Co. HAS FOUR HUNDRED THOUSAND of their Machines in use, although having existed but SIX YEARS, while the Company which claims to have the most in use, has only about twice that number, though having existed for TWENTY YEARS. A. M. GUDGEN, CHESTERTOWN, Will sell on credit or lease on Monthly Payments, and offers such easy terms that every one can afford to have a HOWE SEWING MACHINE. He will spare neither pains nor expense to give his customers complete satisfaction. *He sells at New York prices and does not charge Fifteen Dollars in advance as some rival agents are doing.* Nov. 9, 1872—tf.

TAKE NOTICE! WE will sell the balance of our stock of WINTER BOOTS and SHOES AT COST. The stock is all new and of good quality. SPECIAL INDUCEMENTS in the GROCERY LINE: Light Brown Sugar at 10 cts. a pound. White Sugar at 12½ cts. a pound. Respectfully, J. B. SAPPINGTON, Chestertown. Store on Cross street, opposite G. E. Lambert's Carriage Factory. mh15-2m.

LOCAL OPTION. Now is the Time to form your Clubs. FINE OLD RYE WHISKY, Fully Four Years Old, $4 per gallon. Or, in large bottles, securely packed in cases, 11.00 per dozen. *VERY FINE PALE SHERRY,* AND *RARE OLD PORT WINES,* At same prices. *GOLD SEAL BRANDY,* Very Choice, $18.00 PER DOZEN. Send in your orders, H. & A. C. VAN BEIL, 1310 CHESTNUT STREET, ap19. PHILADELPHIA.

WINDOW GLASS, Cut to fit an Sash Nov. 23. C. F. STAM & BRO.

CHEAP SHOES At the NEW STORE. April 5. J. H. SIMPERS.

Ayer's Cathartic Pills,

For the relief and cure of all derangements in the stomach, liver, and bowels. They are a mild aperient, and an excellent purgative. Being purely vegetable, they contain no mercury or mineral whatever. Much serious sickness and suffering is prevented by their timely use; and every family should have them on hand for their protection and relief, when required. Long experience has proved them to be the safest, surest, and best of all the *Pills* with which the market abounds. By their occasional use, the blood is purified, the corruptions of the system expelled, obstructions removed, and the whole machinery of life restored to its healthy activity. Internal organs which become clogged and sluggish are cleansed by *Ayer's Pills*, and stimulated into action. Thus incipient disease is changed into health, the value of which change, when reckoned on the vast multitudes who enjoy it, can hardly be computed. Their sugar coating makes them pleasant to take, and preserves their virtues unimpaired for any length of time, so that they are ever fresh, and perfectly reliable. Although searching, they are mild, and operate without disturbance to the constitution, or diet, or occupation. Full directions are given on the wrapper to each box, how to use them as a Family Physic, and for the following complaints, which these *Pills* rapidly cure:—For Dyspepsia or Indigestion, Listlessness, Languor, and Loss of Appetite, they should be taken moderately to stimulate the stomach, and restore its healthy tone and action. For Liver Complaint and its various symptoms, Bilious Headache, Sick Headache, Jaundice or Green Sickness, Bilious Colic and Bilious Fevers, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it. For Dysentery or Diarrhœa, but one mild dose is generally required. For Rheumatism, Gout, Gravel, Palpitation of the Heart, Pain in the Side, Back, and Loins, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear. For Dropsy and Dropsical Swellings, they should be taken in large and frequent doses to produce the effect of a drastic purge. For Suppression, a large dose should be taken, as it produces the desired effect by sympathy. As a *Dinner Pill*, take one or two *Pills* to promote digestion and relieve the stomach. An occasional dose stimulates the stomach and bowels, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these *Pills* makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus. PREPARED BY *Dr. J. C. AYER & CO., Practical Chemists, LOWELL, MASS., U. S. A.* FOR SALE BY ALL DRUGGISTS EVERYWHERE.

HALL'S VEGETABLE SICILIAN HAIR RENEWER.

Every year increases the popularity of this valuable Hair Preparation; which is due to merit alone. We can assure our old patrons that it is kept fully up to its high standard; and it is
