The Kent News.

SATURDAY - - - - JULY 26, 1873.

The New Jersey Southern Railroad---A New Line to Baltimore.

The correspondent of the New York *Journal of Commerce* gives the annexed interesting statements in regard to three railroad routes between New York and Baltimore, and showing the progress of Mr. Jay Gould's great scheme for a lower short line crossing both Delaware and Chesapeake bays, by great railroad barges without disturbance of passengers:

Long Branch, N. J., July 15.—Many of your readers have no doubt noticed an immense diagonally-braced steamer called the Metropolis, lying at Pier 8, North river, or plying between that pier and Sandy Hook. That steamer is the freight-boat of the new line to the South and West. This line is known as the New Jersey Southern railroad, now in operation to Philadelphia, and soon to run to Baltimore. It is in large part owned and fully controlled by Mr. Jay Gould. I came here to ascertain from headquarters and by observation the route, objects and connections by which we are soon to have a third line to Baltimore, and a fifth connection between New York and the West.

The outline of these connections may be summed up thus: Scott's new line by way of the old Camden and Amboy roads to Philadelphia, thence by York and Lancaster to Baltimore, going south by Baltimore and Potomac road from Baltimore and direct to New Orleans, and west from Philadelphia by the Pennsylvania Central and connections to San Francisco; Gould's line by way of South Jersey, breaking off to Philadelphia in the middle of the State, and crossing Delaware and Maryland to a point opposite Baltimore, boating it across the Delaware and Chesapeake bays. Gould will then use Garrett's connections south and west, and Garrett will in return have the option of using Gould's Southern Jersey route to New York. Gould's object is to get west by a new route. This gives us south Scott's, Gould's and Garrett's competitions, and west the Gould and Garrett competitions over the Baltimore and Ohio railroad, besides the direct competitions of the Pennsylvania, Erie, and New York Central railroads.

All these roads, except the New Jersey Southern, are well known; so let us see just what that is. Starting from New York the passenger takes the Plymouth Rock, or Jesse Hoyt, or Long Branch, (three magnificent boats,) to Sandy Hook. Freight is taken down to Sandy Hook in the Metropolis. This boat carries thirty-three cars at a time. Two other boats of equal size and strength are building for the same duty. At Sandy Hook the railroad commences, going direct to Long Branch, near which place it is intercepted by a branch to Port Monmouth, on Raritan bay. The Port Monmouth connection occurs at a junction between Red Bank and Eatontown, and the branch and main roads merge into each other at Eatontown. Thence we follow southwest to Shark river, Farmingdale, and intermediate stations to Manchester. Here the Toms River road branches off to Toms River and Barnegat, where it is intercepted by the Tuckerton railroad, which leaves the main stem or New Jersey Southern for Tuckerton, at Whiting's station, a few miles below Manchester. At Whiting's the Philadelphia branch goes out to meet the Camden and Burlington county railroad at Pemberton Junction, and thence west and a little south by way of Mount Holly, Moorestown and intermediate stations to Camden, where large and strong boats convey passengers and freight across the Delaware river to Philadelphia. This branch to Philadelphia taps New Jersey almost in the centre of the State, and with the Toms River branch cuts the State from the ocean to the Delaware river. Going back to the main stem we follow twenty-nine miles southwest from Whiting's to Atsion, where, by the Camden and Atlantic railroad, a more southerly connection is made by way of Atco, Longacoming &c., to Philadelphia, and by the same road a connection is made to Atlantic city at Hammonton. From Atsion, on the main stem, the New Jersey Southern follows its general southwesterly course to Vineland, where a connection with the Cape May and Millville road reaches Cape May. The road then, from Millville, goes to Bridgton, and thence to Bay Side on the Delaware bay. Here are to be fine piers and slips, and corresponding ones will appear at Bombay Hook on the Delaware side. From this point the company is now building a short road to Smyrna and to Massey's cross roads, where they will connect with the Kent county railroad, which runs to Chestertown on the Chesapeake side. Mr. Gould recently bought this road, and gave his check in full payment for it. From Chestertown they are building a spur to Rock Hall on the Chesapeake bay, opposite the Patapsco river, or practically opposite Baltimore, as the Patapsco leads straight up to the city. From Rock Hall the Baltimore and Ohio Railroad Company are to take passengers and freight to Baltimore. The New Jersey Southern Co. builds and does all from New York city to Rock Hall on the Chesapeake. There the Baltimore and Ohio Company build boats, piers, &c., and connect for the West and South.

There you have the details of this new venture, and by looking at the map you can see just how the road will get to Philadelphia, Baltimore, and the West and South. All is completed to Philadelphia, and through New Jersey to the Delaware bay. Mr. Gould says the line will be completed across Del. and Md., between the bays, in three weeks, and that the Baltimore and Ohio people will be ready to connect at Rock Hall by the first of September. That time is near at hand, and these facts are therefore important to know. There will be altogether 327 miles of road from here to Rock Hall, including the two Philadelphia branches. One hundred new freight cars have been ordered, forty of which have just been delivered. These are ventilated for fruit. The idea is to bring peaches from the orchards of Delaware and Maryland to New York, and perishable stuff, such as early vegetables, from all that country. A connection with Norfolk by way of the bay line of steamers will no doubt give this road a good patronage with early garden stuff. Twenty-five new passenger cars are building at Dunkirk for the road. It is good that we have competing lines to Philadelphia. Heretofore there has been but one line, or rather two lines under one ownership, which is the same. Gould's Philadelphia line is now running to Philadelphia. It gets a good patronage now because numbers want to go by way of Long Branch, even if they do not wish to stop there. The ride from here to Sandy Hook attracts them, and the scene at the Branch is diverting, to say the least of it. Two weeks ago there was only one line between Philadelphia and Baltimore. The Pennsylvania Air Line, Scott's road, through to Washington, opened up another, and appears to be successful. The New Jersey Southern, Gould's line, will give another, and the Baltimore and Ohio Company have a charter to build all the way from Baltimore to New York.

Proceedings of the Kent County Temperance Alliance.

The Alliance met on Saturday, P. M., 12th inst. In the absence of the President, G. H. Baker was called to the chair, and Howard Meeks appointed Secretary pro tem. The Constitution submitted at a previous meeting and referred to a committee for inspection and modification was reported back, read, and adopted as follows:

PREAMBLE.

To counteract the evils of intemperance and to secure such Legislative enactments as will suppress the sale of intoxicating liquors as a beverage. We, citizens of Kent county, in convention assembled, do agree to organize a County Society, and adopt this

CONSTITUTION:

ARTICLE I.—*Name.*—This society shall be known as the Temperance Alliance of Kent county, and shall be auxiliary to the State Temperance Alliance.

ARTICLE II.—*Membership.*—Any person may become a member thereof by paying fifty cents yearly to the Treasurer of this society.

All local societies in the county, public or secret, whose object is the promotion of Temperance and the abrogation of the licensed sale of intoxicating drinks, are recognized as auxiliaries, and requested to report to this society.

ARTICLE III.—*Object.*—The sole object of this organization is to secure the enactment of laws by the Legislature to allow the citizens of the State to express through the ballot whether they will or will not have the liquor traffic licensed in their respective wards or election districts, and to provide for adequate legal redress for injuries arising from its licensed sale.

ARTICLE IV.—*Officers.*—The officers of this society shall be a President, one Vice-President from each Election District, a Secretary, a Treasurer, and an executive committee of two members of each election district.

ARTICLE V.—*Duties of Officers.*—The President, or in his absence, the oldest Vice-President, shall preside and keep order at all meetings of the society. The Secretary shall keep a correct account of the proceedings of each meeting and shall have charge of and conduct all correspondence. The Treasurer shall receive and hold, subject to the order of the executive committee, all moneys from whatever source derived. The executive shall be charged with the collection and disbursement of funds to sustain the operations of the society, and have the general supervision and direction of the temperance movement in the county. They shall have the power to call meetings, secure speakers, and take what steps may be judged necessary to secure the object of this society.

It being understood that Hon. George Vickers would be compelled to decline the Presidency of the Alliance, in consequence of the pressure of private business, C. H. Baker was unanimously elected to fill the vacancy. The following gentlemen were elected as members of the executive committee:

1st district, F. Clift, M. D., William Comegys; 2nd district, J. Frank Wilson, T. Shaeffer; 3d district, Dr. E. A. Vannort, Isaac Parsons; 4th district, J. W. Collins, Capt. J. H. Thompson; 5th district, Samuel Burgess, Howard Meeks.

On motion, a committee of ten colored men, two from each district, were appointed to operate among the colored people. The following were appointed:

1st district, Joseph Jeffries, Frisby Black; 2nd district, Warner Rasin, Chas. H. Jones; 3d district, Robert Wilson, Rev. C. H. Horsey; 4th district, William Perkins, Samuel Derry; 5th district, Rev. P. Miller, John Pearce.

Resolved, That the executive committee be requested to take immediate steps to have printed on the ballots of both parties the words, "For Local Option."

On motion adjourned.

C. H. BAKER, Pres't.

HOWARD MEEKS, Sec'y *pro tem.*

THE St. Louis *Republican* discusses the third term question. It says: "General Grant's power over his party is the silent, unimpassioned authority which he wielded over his army. There is no delight in the obedience which the party renders to him, and the party is plainly tired of it. And yet, it feels that it is bound to the irksome duty till such time as it shall be released by the grace of its master. It does not want him for a third term, and yet it feels that it has no voice in the matter. It all depends on the President himself. If he will allow the party to select some one else, the party will be delighted; if he shall demand a third term, or, which is the same thing, if he shall permit the office-holders to demand it for him, the party will have no alternative but to yield it."

The Wear and Tear of Life.

The cares, anxieties and misfortunes of life, have as much to do with shortening it as disease. They are in fact the source of many ailments and physical disabilities. Nervous weakness, dyspepsia, affections of the liver, disturbances of the bowels, headache, hypochondria and monomania are among these distressing fruits. It is, therefore, of great importance that persons whose minds are oppressed with heavy business reeponsibilities, or harrassed by family troubles, or excited by speculation, or perplexed by a multiplicity of enterprises, or in any way overtaxed or overworked, should keep up their stamina by the daily use of a wholesome tonic. Thousands of persons thus circumstanced are enabled to bear up against the difficulties in which they are involved, and to retain their strength, health and mental clearness, by regular use of Hostetter's Stomach Bitters. Diseases which are prone to attack the body when debilitated and broken down by over-much brain work or exhausting physical labor, are kept at bay by the resistant power with which this incomparable tonic endows the nervous system and the vital organs. At this season, when the heat is evaporating the elements of strength from every pore, an invigorant is absolutely essential to the safety and comfort of the public, and is required even by the more robust if they desire to keep their athletic capabilities in status quo. Hence a course of Hostetter's Bitters is particularly useful at this period of the year as a defence against the invisible disease afloat in a sultry atmosphere. It is the most potent of all preventive medicines, and for all complaints which affect the stomach, the liver and the bowels, and interfere with the perfect digestion and assimilation of food, it is the standard remedy.

Excitement at Drug Stores.—There has been a general rush the last month at the Drug stores in Kent county for Dr. A. Boschee's German Syrup. It has been lately introduced in this country from Germany, and for any person suffering with a severe cough or heavy cold settled on the breast, consumption or any disease of the throat and lungs it has no equal in the world. Our regular size bottles are 75 cts. Two doses will relieve any case. Try it. Sample bottles free of charge. L. M. Green & Son, Proprietor, Woodbury, N. J. For sale by all Druggists and Dealers, and wholesale C. F. STAM & BRO., Chestertown. cow.

Ready-made Clothing.

BRADLEY'S PATENT ENAMEL PAINT,

MADE FROM Pure White Lead, Linseed Oil and Zinc, *CHEMICALLY COMBINED.*

Mixed Ready for Use, CAN BE APPLIED BY ANY ONE.

One Gallon covers 20 Square Yards, Two Coats.

SPECIMENS of different colors may be seen at the Store of Messrs. Stam & Bro.

Read the following Testimonials:

CHESTERTOWN, May 12, 1873.

Mr. C. P. Knight, Baltimore, Md.—I bought your Bradley's Patent Enamel Paint of Messrs. C. F. Stam & Bro., Chestertown, and found it to be all you recommend.

Respectfully, CHAS. G. RICAUD, School Examiner, Kent Co., Md.

BALTIMORE, Dec. 10th, 1872.

Mr. C. P. KNIGHT—Dear Sir:—It affords me much pleasure to say to you that the Bradley's Patent Enamel Paint far exceeds my expectations in economy, beauty, and I have every reason to believe, in durability.

More than twelve months since I painted the roof of my Hotel (Mansion House) with the Bradley's Patent Enamel Paint, and I was so well pleased with it I determined to paint the outside of the Hotel, and am most happy to say it gives me perfect satisfaction. In conclusion I will say if this testimonial will be any advantage to you, you are at liberty to use it. Yours, most respectfully,

ISAAC ALBERTSON, Mansion House Hotel, corner Fayette and St. Paul streets, Baltimore.

FROM HON. JOHN WETHERED.

Mr. C. P. Knight:—At the recommendation of a friend, I was induced to apply your patent "Bradley's" paint to my house. I have pleasure in stating that it has proved highly satisfactory, covering more surface than you promised, is more economical, carries better gloss than any other paint and is freer from disagreeable odor. Yours, respectfully,

JOHN WETHERED.

THE PLAINS, Fauquier County, Va., February 6th, 1873.

C. P. KNIGHT—Dear Sir:—The Paint came safely to hand, as ordered, two kegs, five gallons each, and three buckets, one gallon each. As practice was slack I did the job myself.—Two weeks not constant work completed the house two coats, the last coat applied thick, and it is now generally conceded that for "Enamel" like hardness and body and harmony of colors there is not a handsomer job in the place. I saved sixty-five ($65) dollars by the operation, which is an item just now with Southern people." It should be generally adopted in this State; any country lad can apply it. I have never dabbled in such stock as Testimonials, but I feel so forcibly the great adaptability of your "Enamel Paint" to the wants of our people in excellency of material, in beauty of color, and the fact of its being "Ready Mixed," that I give you free permission (if it is desirable to you,) to make what use you think proper of this letter.

Very truly, S. McGILL, M. D.

Pleasantville, Harford Co., Md.

C. P. Knight—Dear Sir:—I am happy to inform you that your Patent Enamel Paint has given entire satisfaction. I prefer it to any paint I have ever seen used, and recommend it for durability and beauty as paramount to any other. Very respectfully,

R. DICKEY, M. D.

Belair, March 3d, 1873.

Mr. C. P. Knight—Dear Sir:—I have been using, since last Spring, Bradley's Patent Enamel Paint, and am happy to say that it gives entire satisfaction wherever I have used it, and to parties to whom I have furnished it for other painters to use. Mr. John I. Street, who I furnished with the paint last Fall, says if his name is of any use you can use it with pleasure in recommending so good a paint. S. H. Montague, Painter, agrees with me as to the durability of your most excellent Paint. I hope that those who have painting to do, will look to their advantage and apply Bradley's Patent Enamel Paint, which is the most durable Paint now in use. It holds its gloss longer than any other Paint that I have ever used.

Yours truly, E. C. GARRETTSON, Belair, Harford county, Md.

Baltimore, Sept. 30th, 1872.

C. P. KNIGHT, Esq.—Dear Sir:—I have had the Bradley's Patent Enamel Paint, which I purchased from you, used inside and outside both at my dwelling and store for two seasons. It gives me great pleasure to be able to say it comes fully up to your recommendations in facility of use, economy, durability and beauty.

Yours, truly, THOS. J. IRVING, of T. J. Irving & Co., 58 West Baltimore St.

Chambersburg, December 10th, 1872.

Mr. C. P. Knight—Dear Sir:

The paints we received from you have been applied to several of our own buildings, and to those of our friends, and have given satisfaction in covering qualities, in gloss and in adaptability to all kinds of surface or material, and we cheerfully recommend it, especially to that class of consumers who have to depend upon unknown parties or painters to mix and furnish materials, wherein we have found the most deception.

Yours, truly, JACOB STOUFFER & SON.

A CARD

To my Fellow-Citizens of Kent County:

I am induced by many considerations to announce myself to you as an INDEPENDENT CANDIDATE FOR THE HOUSE OF DELEGATES of Maryland. There is no reason why labor should not be represented in the State Legislature by one of her own sons and not always by a gentleman of property.—I am not ashamed to be the poor man's candidate. I am opposed to all cliques, rings and conventions, by means of which the few rule the many, taking care to provide office and emolument for themselves to the exclusion of the rank and file. I am against all party machinery and trickery, and am not a caucus candidate, but simply ask and hope for the support of all independent men.

I am your ob't servant, JAMES M. AYRES.

MANHOOD: *HOW LOST, HOW RESTORED!*

JUST PUBLISHED A NEW EDITION OF *Dr. Culverwell's Celebrated Essay* on the *radical cure* (without medicine) of Spermatorhœa, or Seminal Weakness, Involuntary Seminal Losses, Impotency, Mental and Physical Incapacity, Impediments to Marriage, etc.; also, Consumption, Epilepsy and Fits, induced by self-indulgence or sexual extravagance.

Price, in a sealed envelope, only 6 cts.

The celebrated author, in this admirable essay, clearly demonstrates from thirty years' successful practice, that the alarming consequences of self-abuse may be radically cured without the dangerous use of internal medicine or the application of the knife; pointing out a mode of cure at once simple, certain and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically

THIS LECTURE should be in the hands of every youth and every man in the land.

Sent, under seal, in a plain envelope, to any address, postpaid on receipt of six cents, or two postage stamps.

Also, Dr. Culverwell's "Marriage Guide," price 50 cents.

Address the Publishers, CHAS. J. C. KLINE & CO., 127 Bowery, New York, Post Office Box 4,586.

WISTAR'S BALSAM OF WILD CHERRY

THE GREAT REMEDY FOR CONSUMPTION

which can be cured by a timely resort to this standard preparation, as has been proved by the hundreds of testimonials received by the proprietors. It is acknowledged by many prominent physicians to be the most reliable preparation ever introduced for the relief and cure of all Lung complaints, and is offered to the public, sanctioned by the experience of over forty years. When resorted to in season it seldom fails to effect a speedy cure in the most severe cases of Coughs, Bronchitis, Croup, Whooping Cough, Influenza, Asthma, Colds, Sore Throat, Pains or Soreness in the Chest and Side, Liver Complaint, Bleeding at the Lungs, &c. Wistar's Balsam does not dry up a Cough, and leave the cause behind, as is the case with most preparations, but it loosens and cleanses the lungs, and allays irritation, thus removing the cause of the complaint.

PREPARED BY SETH W. FOWLE & SONS, Boston, Mass., And sold by Druggists and Dealers generally.

WESTERN SPORTING GUN POWDER, said to be the best Powder in use, for sale low at J. B. SAPPINGTON'S.

Jan. 4, 1873. Chestertown.

FUR, WOOL and STRAW HATS Just received at the New Store.

May 17, 1873. J. H. SIMPERS.

AXES.—Several kinds of Axes of superior make, for sale low. J. E. WEER,

Feb. 24. Kennedyville, Md.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Among the great discoveries of modern science, few are of more real value to mankind than this effectual remedy for all diseases of the Throat and Lungs. A vast trial of its virtues, throughout this and other countries, has shown that it does surely and effectually control them. The testimony of our best citizens, of all classes, establishes the fact, that CHERRY PECTORAL will and does relieve and cure the afflicting disorders of the Throat and Lungs beyond any other medicine. The most dangerous affections of the Pulmonary Organs yield to its power; and cases of Consumption, cured by this preparation, are publicly known, so remarkable as hardly to be believed, were they not proven beyond dispute. As a remedy it is adequate, on which the public may rely for full protection. By curing Coughs, the forerunners of more serious disease, it saves unnumbered lives, and an amount of suffering not to be computed. It challenges trial, and convinces the most sceptical. Every family should keep it on hand as a protection against the early and unperceived attack of Pulmonary Affections, which are easily met at first, but which become incurable, and too often fatal, if neglected. Tender lungs need this defence; and it is unwise to be without it. As a safeguard to children, amid the distressing diseases which beset the Throat and Chest of Childhood, CHERRY PECTORAL is invaluable; for, by its timely use, multitudes are rescued from premature graves, and saved to the love and affection centred on them. It acts speedily and surely against ordinary colds, securing sound and health-restoring sleep. No one will suffer troublesome Influenza and painful Bronchitis, when they know how easily they can be cured.

Originally the product of long, laborious, and successful chemical investigation, no cost or toil is spared in making every bottle in the utmost possible perfection. It may be confidently relied upon as possessing all the virtues it has ever exhibited, and capable of producing cures as memorable as the greatest it has ever effected.

PREPARED BY Dr. J. C. AYER & CO., Lowell, Mass., Practical and Analytical Chemists, SOLD BY ALL DRUGGISTS EVERYWHERE.

HALL'S VEGETABLE SICILIAN HAIR RENEWER

Every year increases the popularity of this valuable Hair Preparation; which is due to merit alone. We can assure our old patrons that it is kept fully up to its high standard; and it is the only reliable and perfected preparation for restoring GRAY OR FADED HAIR to its youthful color, making it soft, lustrous, and silken. The scalp, by its use, becomes white and clean. It removes all eruptions and dandruff, and, by its tonic properties, prevents the hair from falling out, as it stimulates and nourishes the hair-glands. By its use, the hair grows thicker and stronger. In baldness, it restores the capillary glands to their normal vigor, and will
