SATURDAY - - - - JAN. 24, 1874

Public Education in Maryland.

President M. A. Newell, of the State Board of Education of Maryland, has sent his usual report on public instruction to the Maryland Legislature. The document gives particulars of the administration of the Maryland public school system for the year ending September 30, 1873, which are embodied in the following summary:

In the year ending September 20, 1873, there were 123 public schools in Baltimore, and 1,619 in the counties; total, 1,742. Number of different pupils in Baltimore city, 40,183; in the counties, 90,141; total, 130,324. Highest number enrolled in one term in the city, 28,329; counties, 70,929; total, 99,258. Average number in daily attendance in the city, 22,181; counties, 38,636; total, 60,817. Number of teachers in the city of Baltimore, 624; counties, 1,931; total, 2,255. Number of months schools were open in the city, 10; counties, 9 1-5; average for the State, 9 13-30 months. Amount paid for teachers' salaries in the city, $388,984 77; counties, $500,491-70. Amount paid for building, repairing, and furnishing school houses in the city, $83,133 46; counties, $114,252 64. Amount paid for books and stationery in the city, $25,484 13; counties, $44,042 16. Amount paid for colored schools in Baltimore, $38,166 48; counties, $31,410 70. Total expenditure for public school purposes in Baltimore, $540,487,-67; counties, $813,579 04.

A comparison of the statistics of the counties, exclusive of Baltimore city, for 1873, with the year previous, shows a uniform increase over 1872, except in finances, receipts, and expenditures, &c. The increase in schools reported was 221; of scholars enrolled, 12,198; highest single term increase of enrollments, 8,701. The average enrolled in 1872 was 57,237, and in 1873, 63,879; increase 7,642. The average increase of daily attendance for 1873, 3,727. Increase of teachers, 212; increase in average number of mos. schools were open, 11-20, the average for 1872 being 8¾, and in 1873 9 1-5 months.

In further comparison with 1872, when the average school year was shortened ten days, teachers' salaries diminished $24,000, and $31,000 less was spent on school buildings, while there were 2,286 children less on the rolls, and an average decreased daily attendance of 2,040 pupils. The report refers with gratification to the increase of the year 1873, when, as shown above, the school year was lengthened by sixteen days; teachers' salaries increased $14,000; $70,000 more has been spent on school houses, pupils have been increased 12,198 on the rolls, and the average daily attendance 3,727 increase. The report says:

"With the exception of the appropriation for colored schools, of which the counties received $40,714 52, this increased expenditure has been provided for by county taxation voluntarily imposed; for the proceeds of the State school tax and free school fund were less than in the previous year by nearly $11,000.

It is true that the greater part of the increase in the number of pupils is due to the opening of schools for colored children, still there is evidence of progress in the other schools, which shows an increased enrollment of 1,009 pupils. A mere comparison of numbers, however, will fail to indicate the actual advancement which has been made. The popular feeling in favor of public schools is more unanimous and more intense now than at any previous time.

THE MARRIAGE OF THE DUKE OF EDINBURG.—On Monday the marriage of the second son of Queen Victoria, the Duke of Edinburg, with the Grand Duchess Marie, the only daughter of the Czar of all the Russias, was formally solemnized in the Russian capital. A St. Petersburg letter says:

"On Sunday, the 14th instant, the Duke of Edinburg arrived at St. Petersburg in good health and capital spirits. About an hour previous the imperial carriage and sledges arrived at the railway station to receive him, and presently a guard of honor, with a band at its head, and the Russian eagle displayed, was drawn up on the platform. Soon after the Grand Duke Alexis appeared on the scene, and, saluting the guard with a hearty 'good morning soldiers,' was received with a stentorian response. Next came the Grand Duke Nicholas, who received the same greeting, and it now only remained for the emperor to arrive, which he did a few minutes after 2 o'clock, accompanied by a brilliant staff, among whom was the British ambassador. So soon as the train had entered the station the Duke of Edinburg jumped out and advanced to the emperor, who gave him a most affectionate welcome, as did also the Grand Duke Alexis in turn, the Band meanwhile playing 'God Save the Queen.' The chief thoroughfares were gaily decorated with flags, chiefly Prussian and English. When the duke arrived at the winter palace he was received by the empress and Princess Marie, together with the imperial household."

With this event the reigning family of Great Britain will be allied by marriage to Russia, Germany and Denmark.

STARVING FAMILIES IN NEW YORK.—The New York Sun of yesterday publishes three cases of starvation in that city. First, the case of Michael O'Connell, a painter by trade, and his family, consisting of a wife and two children, a boy and a girl in Thompson street. A reporter found the man in his wretched bed reduced to a skeleton. The woman so emaciated as to be nearly helpless. The children were under thirteen years of age, and were actually starving for food, the father having been without work for two weeks. The man, it was thought, was beyond help. In the same neighborhood, in the house opposite, Mrs. Sarah Abington, aged sixty-two years, died of starvation. The third case reported was at Fordham village, on the Harlem railroad, where a respectable and intelligent woman and three children were discovered freezing and starving, the husband and father lying on his death-bed. Relief was promptly afforded.

RETURNED HOME.—The Salisburg (Wicomico County) Eastern Shoreman says that Captain Mesick, of the schooner Rock, sailing from Wicomico river, whose disappearance from his vessel in the city of Washington was mentioned a few weeks ago, and who was supposed to have been murdered, returned, to his home in Salisbury last week. He says that having sold his cargo of oysters in Washington, he was invited to drink, and supposed that he was drugged, as he lost all consciousness and remembers nothing that occurred until, regaining consciousness, he found himself on board a brig, out at sea, among a strange crew, his money, amounting to several hundred dollars, all gone, and his person terribly bruised. He finally landed at New Orleans, without a cent of money, and from there worked his passage to New York, whence he arrived at home as above stated.

WORTON AGRICULTURAL CLUB.

Messrs. Editors:—Changing the day of meeting of the Club resulted in a larger attendance than usual last Monday. After the routine business had been gone through, an interesting essay was read, reviewing the old but still unsettled question of deep or shallow plowing. Years ago deep plowing was claimed to be the panacea for the farmer's ills; practice has failed to sustain the theory, and in many cases has proved disastrous. By deep plowing, any depth beyond six or seven inches is understood. Facts demonstrate that the cereals use only three or four inches of the surface in gathering their nutriment.

When we remember that two hundred pounds Peruvian guano—a quantity so small as to be inappreciable by any mechanical or chemical test, being about the 1-33rd of a grain to the cubic inch in a soil six inches in depth—makes all the difference between fertility and barrenness; in many soils it would seem to be not the depth but the constituents of the soil that demands our most earnest attention. Prof. Ville, at the experimental farm, at Vincennes, France, has demonstrated that only four elements are required to be added to any soil to secure its full fertility. These are, Nitrogen, Phosphoric acid, Potash and Lime, and these are required in such small quantities that four inches of soil will contain them as well as ten. Leaving out the fact that the soil is a store house for moisture it would seem the great cost of deep plowing is unnecessary.

The opinion was offered that immediate contact with the atmosphere of every particle of soil is a prerequisite to fertility, and that this influence diminishes as we descend until at a certain depth it becomes in operative and the soil barren, no matter what its constituents. Seeds covered beyond a certain depth do not vegetate, either lying dormant or perishing, showing that beyond a certain depth the vitalizing influences of the atmosphere are absent. Young trees planted materially deeper than they grew do not thrive. Soils in forests are thin, no matter how large the timber. These facts, with many others that might be mentioned, seem to prove that all or nearly all of plant food is extracted from a very few inches of surface. It would seem that the thorough tillage of any crop is of advantage mostly by comminuting and loosening the particles, and fitting them for the genial influences of heat, light, moisture, electricity, the absorption of gases, and perhaps other and more powerful agents as yet undetected.

In reference to applied manures, the leaching and absorbing powers of the soil seem to lie on the surface. It may be the same with sunshine, heat, &c., the subtile, vitalizing principles being extracted by the first contact with the soil. Now, it may be that even the inverting of the soil may lessen its fertility by causing that part turned down to part with the valuable qualities it had derived from the atmosphere. It may be that the chief value of rest as a fertilizer is by prolonging the contact with the atmosphere. It is claimed in England that the best results are obtained by disintegrating the soil without inverting it. However, men's views on this subject have been greatly modified of late, and it seems likely the farmer of the future may look on the present plow as an antiquated and injurious implement.

"*The Potato Rot, its cause and remedy,*" being the regular subject, was the foundation of an instructive and interesting discussion. It was said, no one should be discouraged by the serious loss we are suffering from the rot, as a year so exceptional in its character, and so likely to produce disease may not occur again for a long time. The cause of the Peach Blow rotting so generally, and earlier ripening varieties escaping, was held to be that the other varieties being more matured when the heavy rains set in, did not suffer, but the Peach Blows, growing but little if any during the drought, made an astonishing growth when the rains fell, and the cells being unnaturally and powerfully developed did not mature, and at the end of the season while the potatoes were large there was not enough vitality in proportion to their size to resist successfully the usual course of decay.

In the fall when the potatoes were taken up they should have been thoroughly dried and extra care taken in putting them away—protecting them from heat and dampness, and every defective potato removed. How easy to appreciate a lock after the steed is stolen.

The subject for discussion for Jan. 26, is "Plowing," suggested probably by the essay mentioned above

The Club by a unanimous vote invited Prof. Herbert, of Washington College, to address it on the subject of agriculture. I learn the invitation has been accepted, and Feb. 2nd, at 2 o'clock, appointed as the time. We anticipate instruction and pleasure. Our fellow farmers are invited to be with us.

Yours, PARTICEPS.

THE CHAMPION MURDERER.—Bob Turner, of Potosi, Wisconsin, has been arrested for the murder of his brother Albert, whose head he chopped off as he was coming out of a mining hole. It transpired after his arrest that he murdered a boy named Nelley on the 23d of December, and he has confessed also to having killed a stranger whom he encountered in a deep ravine, and at another time a man who was looking for work. He pretends also to have killed many others. Now that he has confessed, he delights to talk of the many persons he has killed. He gloats over the skill with which he has concealed their bodies, and declares if they were got together there would be nearly forty of them.

Two Foes of Health.

Cold and damp are inimical to health, and we generally have an unwholesome combination of the two at this season. They penetrate the skin and integuments and affects the muscular, glandular and nervous organizations, producing rheumatism, neuralgia, chills and fever, and where there is a tendency to dippepsia or liver complaint, provoking an attack of indigestion or billiousness. The best advice that can be given under such circumstances is to keep the external surface of the body warmly clothed, and to keep the internal organs in vigorous working order with the most wholesome and genial of all tonics, Hostetter's Stomach Bitters. Gradually but constantly this famous invigorator is superseding the adulterated liquors of commerce, as a medicinal stimulant and corrective, in all parts of the country. It will be a happy day for humanity, and it will surely come, when this pure restorative shall have taken the place of raw spirits as a stimulant in all our public and private hospitals. It is not, however, merely a harmless substitute for the fiery stimulants referred to. Its stimulating properties are not its chief merits, although in this regard it surpasses all the unmedicated products of the still, domestic or imported. The powerful influence it exercises over the torpid and toneless stomach, the disordered liver, the constipated bowels, and the relaxed nerves, render it a positive specific in dyspepsia, liver complaint, intestinal constriction, nervous weakness, hypochondria, rheumatism and sleeplessness. All chronic complaints are aggravated by a cold, moist atmosphere, and it is therefore particularly necessary for those who are afflicted with ailments of this nature, whatever their type may be, meet this predisposing cause of sickness with a wholesome antidote. Hostetter's Bitters should be taken daily at this season by all persons laboring under chronic ailments that tend to weaken the system.

THE SWEDES IN MAINE.—While the subject and policy of immigration is receiving considerable attention in Maryland, Virginia and Delaware, a few facts concerning the Swedish settlement referred to in the message of Gov. Whyte are of interest. Some 50 Swedes settled in Maine in 1871, and founded a village called New Sweden. They have increased by immigration and otherwise to the number of 600. They have taken up 20,000 acres of land, felled 2,200 acres of timber, have 400 acres in grass, have built 130 houses, 130 barns and 3 mills. The State advanced them $24,000 to assist them in their enterprise, of which they have already repaid $8,000.

ONE day last week Capt. George Phillips, of East New Market, Dorchester county, undertook to remove a loaded gun from his batteau, when it exploded, the load passing through his arm, almost carrying it away. Surgical aid was summoned, but the loss of blood had been so great that death ensued.

Dissolution of Co-Partnership.

THE partnership heretofore existing between N. T. Hynson, Jr., and Medford Hynson, and known as HYNSON & BROTHER, is this day (January 1st, 1874,) dissolved by mutual consent. All accounts not settled will be left with N. T. Hynson, Jr., for settlement.

N. T. HYNSON, Jr.,
MEDFORD HYNSON.

January 1, 1874.

THIS IS TO NOTIFY the public that I will continue the business of Wheelwrighting at the old stand in Still Pond, and while thanking the public for past favors, respectfully solicit a continuance of patronage.

N. T. HYNSON, Jr.

Jan. 10, 1874.

District Court of the United States

FOR THE

District of Maryland.

IN BANKRUPTCY.

In the Matter of MORRIS ASCHER, Bankrupt.

District of Maryland, ss.:

THIS IS TO GIVE NOTICE, that on the 19th day of July, 1873, a Warrant of Bankruptcy was issued out of the District Court of the United States against the estate of Morris Ascher of Rock Hall, in the County of Kent, in said District, who has been adjudged a Bankrupt on his own petition: That the payment of any debts and the delivery of any property belonging to said Bankrupt, to him, or to his use, and the transfer of any property by him, are forbidden by law; and that an adjourned meeting of the Creditors of said Bankrupt, to prove their debts and choose one or more Assignees of his Estate will be held at a Court of Bankruptcy, to be holden at Denton, Maryland, before GEORGE M. RUSSUM, Esq., Registers in Bankruptcy for said District, on the 21st day of January, A. D., 1874, at 12 o'clock, M.

EDWARD Y. GOLDSBOROUGH,
U. S. Marshal for said District.

Jan. 3, 1874—3t.

We have hesitated about Breaking the Market, but there is no help for it!

WE HAVE OVER $100,000

IN

MEN'S AND BOYS' CLOTHING,

AND GOODS FOR MEN'S WEAR.

WE CANNOT AFFORD TO CARRY THEM

Good Times are Coming! But we cannot sell Winter Clothing in Summer time any more than People can Wear Summer Clothing in Winter Time.

AND BESIDES, WE WILL NOT ALLOW OUR STOCK TO BECOME OLD.

J. H. SMITH & CO.

Have therefore organized at MARBLE HALL an IMMENSE and ATTRACTIVE SALE. We have actually more than $100,000 worth of GENTS' and BOYS' CLOTHING, and now throw it on the market to be sold immediately at

Marble Hall Buildings, N. E. Corner Baltimore and Frederick Streets.

We make up the goods in the best manner, expecting to sell at a profit, but we cannot stand for profits now.

A Plain Statement from J. H. SMITH & CO.:

We know that the flurry in the money market is only temporary. The harvests throughout the country have been large, and business has been conducted, as a general thing on sound principles. It is only speculation that has brought about this state of affairs which must soon subside, but this is the season to sell our goods. Books, Machines, Furniture, &c., can be sold all the year round, but our goods are made for special seasons, and so, without halting, J. H. SMITH & CO. adopt a war measure and put into IMMEDIATE OPERATION

A SWEEPING SALE AT NORTH EAST CORNER BALTIMORE and FREDERICK STREETS,

That shall CLEAR OUR COUNTERS. This is good news to the millions of city and country patronized us in good times, and we are willing to try, for they will gain the PROFIT FROM OUR NECESSITY; but they have generously given us the BEST OPPORTUNITY FOR BUYERS EVER OFFERED IN AMERICA, *BEGINNING TO-DAY.*

And Continuing Rapidly, without Interruption, Until Further Notice, We Will Sell for Ready Money the following:

100,000 COATS, PANTS, OVER-COATS and BOYS' SUITS,

MAKING BY FAR THE LARGEST STOCK TO BE FOUND IN ANY RETAIL CLOTHING HOUSE.

We are content to lose money rather than carry stock until next season. Imperative necessity compels us to make the best of it. The Store is opened at 6 45 in the morning, and remains open until 9.45 in the evening, and on Saturday night until 12 o'clock. Our force of salesmen will be supplemented, and best attention given to buyers, who will find morning the best time to make selections. Every article sold will be guaranteed as represented, or money will be refunded. Parties coming together from country towns within forty miles of the city, purchasing at great bargains, the *Price of a Railroad Ticket to Return Home.*

MARBLE HALL, will receive, besides the

J. H. SMITH & CO., Marble Hall, White Building,

Northeast Corner of Baltimore and Frederick Sts.

3m.

Stoves! Stoves!

A NEW STOCK

Oct. 25, 1873.

TO THE PUBLIC.

THE subscriber most respectfully informs the public that he has made arrangements with Dr. Thos. H. Whaland to carry on his

MILL

near Chestertown, for the present year.

His long experience in the business and his reputation as a Miller warrants him in the belief that he can give universal satisfaction.—As soon as practicable he intends to keep on hand a good supply of

CORN MEAL, WHEAT FLOUR of all grades,

HORSE FEED, &c., &c.,

which he is determined to sell at reduced prices.

He only wants to make the regular toll, and will be compelled to sell for Cash only as his capital is small and he does not intend to keep books.

He will use all means to make the Mill a public convenience as well as a source of profit. A trial is all he asks.

Most respectfully,
SAMUEL A. ANTHONY.

Nov. 15, 1873—tf.

CLOTHING! CLOTHING!!

Ready Made Clothing

IN FINE CASSIMERE SUITS.

Ready Made Clothing

IN SEPARATE GARMENTS:

Roofing and Spouting done in the best manner at short notice.

REPAIRS for Stoves kept on hand.

By strict attention to business, and untiring efforts to please my customers, I hope to merit and receive a liberal share of patronage.

R. E. KNIGHTON,

Nov. 1—y Galena, Kent Co

CRUMBS OF COMFORT

Are a modern stove polish, far better than any other in existence.

Are better, because they give a finer gloss than any other polish.

Are a neat and cleanly article, making no dirt nor dust when used.

Can be used even in the parlor without the trouble of removing furniture or carpets.

Has no disagreeable sulphurous or strong acid smell when prepared for use, but are pleasant and harmless.

Are put up in neat style and in a form more convenient for use than any other polish.

In each box are 12 sticks; one stick is sufficient for any stove, thus all waste is saved.

Are the cheapest polish in the market, because one box at 10 cts. will polish as much surface as 25 cents worth of the old polishes.

Have just taken the first premium at the Indianapolis Exposition, in competition with several of the best of the old stove polishes.

BUY CRUMBS OF COMFORT of your storekeeper if he has them, or will procure them for you; if not, send us one dollar, your name, and the name of your nearest express station, and we will send you ten boxes, and samples of Bartlett's Blacking and Pearl Blueing, free of cost.

CRUMBS OF COMFORT can be had of all Wholesale Grocers and Dealers in the United States, and Retail Dealers will find them the most profitable, from the fact that they are the fastest selling article of the kind in the market.

H. A. BARTLETT & CO.,
115 North Front St., Philadelphia.
143 Chambers St., New York.
43 Broad St., Boston. n22-3m.

NOTICE to COAL CONSUMERS.

THE undersigned, would respectfully call the attention of the public to the fact that he has made arrangements to furnish

GOOD COAL

to the people on and after July 12th.

NOW IS THE TIME TO BUY. Fully 50 per cent. can be saved by buying now.

We buy from *first hands*, and will sell at a small advance upon the cost price.

My agent, Mr. WM. H. PALMER, will receive all orders and moneys.

JAMES F. TAYLOR.

HEADACHE, TOOTHACHE.
NEURALGIA, RHEUMATISM.
COLD CHILLS, AGUE CHILLS.

The application of the **Ready Relief** to the parts or parts where the pain or difficulty exists will afford ease and Comfort.

Twenty drops in half a tumbler of water will in a few moments cure CRAMPS, SPASMS, SOUR STOMACH, HEARTBURN, SICK HEADACHE, DIARRHŒA, DYSENTERY, COLIC, WIND IN THE BOWELS, and all INTERNAL PAINS.

Travelers should always carry a bottle of **Radway's Ready Relief** with them. A few drops in water will prevent sickness or pains from change of water. It is better than French Brandy or Bitters as a stimulant.

FEVER AND AGUE.

FEVER AND AGUE cured for fifty cents. There is not a remedial agent in this world that will cure Fever and Ague, and all other Malarious, Bilious, Scarlet, Typhoid, Yellow, and other Fevers (aided by RADWAY'S PILLS) so quick as RADWAY'S READY RELIEF. Fifty cents per bottle.

HEALTH! BEAUTY!!

STRONG AND PURE RICH BLOOD—INCREASE OF FLESH AND WEIGHT—CLEAR SKIN AND BEAUTIFUL COMPLEXION SECURED TO ALL.

DR. RADWAY'S

Sarsaparillian Resolvent

THE GREAT BLOOD PURIFIER.

HAS MADE THE MOST ASTONISHING CURES; SO QUICK SO RAPID ARE THE CHANGES THE BODY UNDERGOES, UNDER THE INFLUENCE OF THIS TRULY WONDERFUL MEDICINE, THAT

Every Day an Increase in Flesh and Weight is Seen and Felt.

Every drop of the SARSAPARILLIAN RESOLVENT communicates through the Blood, Sweat, Urine, and other Fluids and juices of the system the vigor of life, for it repairs the wastes of the body with new and sound material. Scrofula, Syphilis, Consumption, Glandular disease, Ulcers in the throat, Mouth, Tumors, Nodes in the Glands and other parts of the system, Sore Eyes, Strumorous discharges from the Ears, and the worst forms of Skin diseases, Eruptions, Fever Sores, Scald Head, Ring Worm, Salt Rheum, Erysipelas, Acne, Black Spots, Worms in the Flesh, Tumors, Cancers in the Womb, and all weakening and painful discharges, Night Sweats, Loss of Sperm and all wastes of the life principle, are within the curative range of this wonder of Modern Chemistry, and a few days' use will prove to any person using it for either of these forms of disease its potent power to cure them.

If the patient, daily becoming reduced by the wastes and decomposition that is continually progressing, succeeds in arresting these wastes, and repairs the same with new material made from healthy blood—and this the SARSAPARILLIAN will and does secure—a cure is certain; for when once this remedy commences its work of purification, and succeeds in diminishing the loss of wastes, its repairs will be rapid, and every day the patient will feel himself growing better and stronger, the food digesting better, appetite improving, and flesh and weight increasing.

Not only does the SARSAPARILLIAN RESOLVENT excel all known remedial agents in the cure of Chronic, Scrofulous, Constitutional, and Skin diseases; but it is the only positive cure for

Kidney & Bladder Complaints,

Urinary and Womb diseases, Gravel, Diabetes, Dropsy, Stoppage of Water, Incontinence of Urine, Bright's Disease, Albuminuria, and in all cases where there are brick-dust deposits, or the water is thick, cloudy, mixed with substances like the white of an egg, or threads like white silk, or there is a morbid, dark, bilious appearance, and white bone-dust deposits, and when there is a pricking, burning sensation when passing water, and pain in the Small of the Back and along the Loins.

Tumor of 12 Years' Growth Cured by Radway's Resolvent.

DR. RADWAY'S

Perfect Purgative & Regulating Pills

perfectly tasteless, elegantly coated with sweet gum, purge, regulate, purify, cleanse and strengthen. Radway's Pills, for the cure of all disorders of the Stomach, Liver, Bowels, Kidneys, Bladder, Nervous Diseases, Headache, Constipation, Costiveness, Indigestion, Dyspepsia, Biliousness, Bilious Fever, Inflammation of the Bowels, Piles, and all Derangements of the Internal Viscera. Warranted to effect a positive cure. Purely Vegetable, containing no mercury, minerals or deleterious drugs.

A few doses of RADWAY'S PILLS will free the system from all the above named disorders. Price, 25 cents per Box. SOLD BY DRUGGISTS.

DYSPEPSIN

A Certain Cure for DYSPEPSIA, LIVER COMPLAINT, Jaundice, Billiousness, Sick Headache, and Habitual Costiveness.

WHAT is life without the enjoyment of health? If you had the wealth of Crœsus, and afflicted with Dyspepsia, or its kindred diseases, you could not enjoy life. Dyspepsia is a prevalent disease in the U. States, brought about by our habits and irregularities. The Materia Medica has been exhausted to find a remedy, and the skill of the most learned Physicians has failed to effect a cure. Notwithstanding this declaration we unhesitatingly say—**"MILLER'S DYSPEPSIN" is a Certain Cure for Dyspepsia** and the many complaints incident thereto. It has been before the public a sufficient length of time to fully test its merits, and in every instance where it has been used according to directions, it has resulted in giving relief and effecting a cure. With each bottle is a Circular, describing the sym
