QUEEN ANNE'S AFFAIRS.—We find the following in the *Observer*, of Tuesday:

The grand hop at the "Arlington" on Thursday night was quite a success. It was attended by some of the most respectable ladies and gentlemen of Queen Anne's, Talbot, Baltimore and Philadelphia. The music was furnished by Draper's celebrated Cotilion Band of Baltimore, and gave great satisfaction to the managers and guests of the hop. The party, to the number of about one hundred and fifty, assembled about nine o'clock and continued in the giddy maze until half past four the next morning, all of whom seemed to enjoy themselves very thoroughly. The landlord and his accomplished lady seemed anxious to make all in their house happy, and well they succeeded. Altogether it was a pleasant affair, and was conducted with admirable taste and judgment.

The colored people had a big day in town on Sunday, two excursion steamers coming over from Baltimore. They all behaved well and kept out of trouble.

HEAVY HAIL AND DAMAGE TO CROPS IN FREDERICK COUNTY, MD.—A letter to the Baltimore *Sun* from New Market, Frederick county, dated the 8th inst., says:

This section of Frederick county was visited, yesterday evening by the most terrible hail storm ever known in this vicinity. The oldest residents have never seen anything to equal it. It commenced about six o'clock and raged with great fury for half an hour. The hail laid upon the ground to the dept of two inches, and from the size of a pea to as large as a turkey egg. The storm traveled over a belt of country one and a half to two miles wide, traveling from the northwest to southeast for a while, then shifting to northeast and traveling southwest. Your correspondent drove over the country this morning, from four to nine o'lock, and the atmosphere was cool enough for an overcoat. There was at nine o'clock hail still lying on the ground. At one of the culverts on the Baltimore and Frederick turnpike where there was a heavy wash there must have been, at lowest figure, twenty-five bushels in one heap. The devastation to the wheat crop is fearful. Whole crops look like new mown grass stubble. Numbers of farmers have lost their entire crop, and will not harvest at all. The corn crop is also damaged to a great extent, and those (from present appearances) who were in the heaviest of the storm will not average half a crop.

SENTENCED TO BE HUNG.—On Thursday last Judge Wickes sentenced Ernest Smith, negro, convicted of rape on the person of Miss Bartlett, to be hanged by the neck until he be dead. This is a righteous sentence. The facts proved in the trial of Smith showed the case to be one of extraordinary atrocity. The outrage was committed in the open day, on the public highway, on a Sunday morning. Teachers and school girls and other defenceless women are compelled at times to walk alone on the public highways, and it is right that they should be protected as far as the law can protect them from such villains as this boy, Smith.—When it is that hanging is the penalty to be inflicted for the commission of this class of crimes, the fiendish villians will likely restrain their passions.—*Easton Star.*

SUICIDE MANIA.—There have been a considerable number of suicides in Baltimore recently, but they are in greater proportion in some other parts of the country. In sixteen days, between the 19th of May and the 5th of June, there have been seventeen cases of suicide in New city, or over one a day, and in the last five days there have been nine cases. It is a somewhat note-worthy fact that all these cases have been of persons of foreign birth, the majority being Germans. The American mind does not so naturally run to suicide as that of either the German or the Frenchman, the volatiie character of the latter, and the metaphysical inclinations of the former, each leading to pretty nearly the same result. One cause in bringing this result about is said to be the almost utter impossibility of the laboring classes to obtain work in some districts.

SUNDAY AND THE BARBERS.—Yesterday, the first prohibition Sunday under the lately revised Sunday law, was observed as a holiday by the barbers. The shops were open until half-past eleven o'clock Saturday night, and were very busy. Two of the leading boss barbers say their receipts were larger on Saturday than the average combined receipts of Saturday and Sunday hitherto. It is generally conceded that the abolition of Sunday shaving will not cause any serious inconvenience, or diminish the revenues of the employers. Some of the leading bosses have given their men assurance that no reduction whatsoever will be made in their weekly salaries, and it is understood will be generally the case, in consideration of the extra work necessarily imposed upon the employees during the crowded hours of Saturday night. The shaving public generally acquiesce in the change, but there is some difference between the comfort of a cool Sunday morning shave and a hot gas-light, crowded rush on Saturday night, resulting in a few lightning flashes over a victim's face.—*Sun of Monday.*

RARE CHANCE.—The Wheeler & Wilson Manufacturing Co. advertise for agents to sell their unrivalled machines. To young men of address and energy, and enterprising merchants, this offers a splendid field for remunerative employment.—Write them at once. *

Seeing is Believing.

If in this liberal age there are persons to be found who are so blinded by prejudice as not to believe that a medicated stimulant is an item of immense importance in the catalogue of human remedies, we should like them to witness the wonderful effects which Hostetter's Stomach Bitters are now producing all over the country in cases of intermittant fever, rheumatism, billious disorders, dyspepsia, nervous complaints, constitutional debility, mental depression and permature decay. To be sure these effects are nothing new. The great vegetable invigorant and its cures have been before the people for more than twenty-five years, and in every year of the twenty-five its popularity has increased and its sale has become larger. Yet there is no doubt many thousands of intelligent citizens who have never had an opportunity of observing for themselves the surprising changes which this unequalled tonic and alterative produces in systems which seem to be hopelessly broken, and in cases of disease which are not amenable to ordinary remedies. Probably many of these regard the statements made in relation to the sanitary properties of the Bitters with some degree of incredulity. Would that all such skeptics could see with their own eys what the medicine is doing for the sick and feeble everywhere, what a staff of life it is proving to the aged and infirm, what a help in time of trouble to feeble women suffering from the complaints and disabilities peculiar to the sex, what a protection to health and life in malarious districts, what a panacea for languor and depression, what a specific for all diseases in which the system requires to be vitalized and sustained. Of all stimulants it is the purest and safest, of all tonics the most genial, effective and agreeable, of all alteratives the least violent and most certain in its beneficial results.

The Late S. S. Convention.

Messrs. Editors:—The Union Convention of Sabbath School friends at St. James' Church, held June 3d and 4th, was, in some senses, a success, and in others not. It was decidedly a culinary and gastronomic success. It could not be otherwise when the hospitality of Worton was invoked. It was fully up to the mark in the item of music, Messrs. G. R. Beck and G. H. Thompson and lady, with Mrs. Mary (G.) Stephens with their well trained choir, gave ample guarantee against failure in this respect. The Georges are at home in music. Long may they play and sing! The speaking was generally lively and full of vim. The address by Rev. Mr. Gilbert was apt, excellent and well delivered; the storm, however, had so thinned the audience as to compel the wish that it could have been deferred a few hours. Those who failed to hear it missed a great treat. The devotional exercises throughout were enlivening and profitable, and the experience meeting something long to be remembered with pleasure.

Now, where was the failure? Not from the rain, though it may have kept some away; but in the entire absence of many of the ministry. One Presbyterian minister, Bro. Gaylord, was with us one day. Bro. D. W. Bates, of Cecil, a part of both days. Bro. Norris was at his post. Bro. Graham part of one day. Bro. Caldwell showed himself the first day, but was obliged to withdraw from indisposition, but spent the whole of the next in the convention. Did other ministers deem this home affair too small, or an Institute elsewhere of greater importance to their sphere of labor? I only ask. There was also a failure in the matter of representation. Westminster was not represented, except in an ex-officio way by Bro. Gaylord. Galena, Chesterville, Locust Grove, Chestertown M. E. Church, Hynson's Chapel, Piney Neck, Rock Hall, Eastern Neck Island, Millington, Morris' Chapel, and perhaps others were without a single representative. Bond Chapel, the banner school, sent one representative, Bro. C. H. Baker, who also gave a report for the M. E. School in Chestertown.

Can it be that any one entertained an idea that Worton is now what it was forty years ago, or had a doubt as to the character, degree, or extent of its open-hearted and ample hospitality? What a pity they should have failed to test it.

A resolution was passed which, if I mistake not, will add largely to the interest of future meetings. It has been customary heretofore to designate the first speakers on each subject on the morning of the first day, allowing time only for the most hurried preparation. The result was, as to be expected, a mass of crude, undigested thought, without order or arrangement, and sometimes without point. The resolution proposes to give such speakers thirty days notice, and if the subjects are limited in number to two or three, we may expect speeches with much more body and much less froth. RINX.

THE EASTON *Star* in reference to the Congressional question, says:

"We have heretofore stated that the names of James A. Pearce, Esq., of Kent, and Hon. Daniel Fields, of Caroline, are spoken of in connection with the Democratic nomination for Congress in this District, in the place of Hon E. K. Wilson, who it is understood declines a re-election. Since then we learn that Queen Anne's will present to the nominating convention either the name of Thos. J. Keating, Esq., or Hon. James T. Earle, both gentlemen being aspirants. Dorchester will cast her vote for Clement R. Sulivane, Esq., the talented editor of the Cambridge *Cronicle* and a rising young lawyer at the Cambridge Bar."

THE EPISCOPAL CONVENTION FOR THE EASTERN SHORE.—On Wednesday week the Sixth Annual Convention of the Protestant Episcopal Church of the Diocese of Easton convened in St. Peter's Church, Salisbury. Fourteen ministers and twenty laymen answered to their names. Rev. James W. Hoskins preached the Convention sermon. He briefly alluded to the Cummins schism, and seemed to treat it as a matter of not much moment to the weal of the church. The Bishop, however, in his annual report spoke of the Cummins schism as a thing not to be dispised by the Dhurch, he did not pretend indifference to it. He denied the existence of cause assigned by the schismatists, and thereupon branched out into an exhaustive disquisition on the causes under controversy.

NORTH AND SOUTH CAROLINA COMPARED.—The Raleigh Crescent says: "We in North Carolina connot well appreciate our good fortune in having driven the carpet-baggers out of the State except by a comparison of our situation with that of other communities still cursed by the sinister presence of those birds of evil omen. In 1868-70 our taxes were enormously high—more than people could well pay—but since the conservatives have been in power we apprehend that no people are less burdened by taxation for State purposes than we are. In South Carolina the public thieves have held on to the crib with death-like pertinancity, and the people are irretrievably ruined."

PROTECT YOUR BUILDINGS!

Which may be Done with Less than Quarter the Usual Expense by the Use of

GLINES' PATENT SLATE ROOFING PAINT!

A Roof may be covered with a very cheap shingle, and by the application of this Slate be made to last from 15 to 30 years. Old Roofs can be patched and coated, and made to look much better, and last longer than new shingles without the Slate. for

ONE-THIRD THE COST OF RE-SHINGLING

The cost of Slating new Shingles is only about the cost of simply laying them, and the Slate is Fire-Proof against sparks and live coals falling upon it, as may be easily tested by any one, and as appears from the fact that Insurance Companies make the same tariff that they do for slated roofs. For its acid and gas fumes it is equal, as it expands by heat, contracts by cold, and

NEVER CRACKS OR SCALES.

For Cemetery Fences it is particularly adapted, as it will not corrode in the most exposed places. Roofs covered with Tar Sheathing Felt can be made water-tight at a small expense.

The Slate or Paint is Extremely Cheap!

Two gallons will cover a hundred square feet of shingle roof, or over four hundred feet of tin or iron. Price of the Slate, ready for use, is $3 gal. per gallon, $10 per half-bbl., or $20 per bbl. of about 40 gallons, with all the Liquid Ingredients for water. We furnish and apply the material at $2.50 per 100 square feet in the vicinity of this city. We also

therefor does not affect the water from the roof, if turned off from it [illegible] years for the first one or two years. The Paint has a very light body, but is easily applied with a brush, and which coloring bends. On old rotten Shingles it fills up the holes and pores, hardens them, and gives a new and substantial roof that will last for years. On curled or warped shingles, it brings them to their place and keeps them there. It fills up the holes in Tin or Felting Roofs, and stops the leak. One coat is equal to ten of ordinary paint. The color of the Slate when fresh applied is a dark purple; in about a month it changes to a uniform slate color, purple; in about a month it changes to a uniform slate color.

And is to All Intents and Purposes Slate.

It is a slow dryer, but rain will not affect it in the least in one hour after it is put on. Samples sent to any part of the country by Express, C. O. D., at the following prices, if desired to be sent by weight, the money must accompany the order:

DYSPEPSIN

DYSPEPSIN

A Certain Cure for

DYSPEPSIA, LIVER COMPLAINT, Jaundice, Billiousness, Sick Headache, and Habitual Costiveness.

WHAT is life without the enjoyment of health? If you had the wealth of Crœsus, and afflicted with Dyspepsia, or its kindred diseases, you could not enjoy life. Dyspepsia is a prevalent disease in the U. States, brought about by our habits and irregularities. The Materia Medica has been exhausted to find a remedy, and the skill of the most learned Physicians has failed to effect a cure. Notwithstanding this declaration we unhesitatingly say—**"MILLER'S DYSPEPSIN" is a Certain Cure for Dyspepsia** and the many complaints incident thereto. It has been before the public a sufficient length of time to fully test its merits, and in every instance where it has been used according to directions, it has resulted in giving relief and effecting a cure. With each bottle is a Circular, describing the symptoms of the diseases named, and for which only we claim it as a specific
