One of the most important discoveries of the age, in ameliorating the condition of this large large class of suffering humanity, consumptives, is Dr. Wistar's Balsam of Wild Cherry. What time establishes and consecrates, what experience adopts a confirms, what all men in all places unite in saying is good and valuable, is so, doubt. A popularity of this sort fixes in society its roots so deep and so strong, that time cannot destroy it. The success which has attended this medicine for several years past, has overcome the prejudices of all respectable and sensible men and the the article has taken a rank among the first class of discoveries and blessings of the age; and when resorte to in season, eradicates the diseases for which it is recommended.

BRANDRETH'S PILLS.—This medicine is acknowledged to be one of the most valuable ever discovered as a purifier of the blood and fluids. It is superior to Sarsaparilla, whether as a sudorific or alterative, and stands infinitely before all the preparations and combinations of Mercury. Its purgative properties are alone of incalculable value, for these pills may be taken daily for any period, and, instead of weakening, by the cathartic effect, they add strength by taking away the cause of weakness. They have none of the miserable effects of that deadly specific, Mercury.—The teeth are not injured—the bones and limbs are not paralyzed—no; but, instead of these distressing symptoms, new life and consequent animation is evident in every movement of the body.

These Pills, for colds, coughs, tightness of the chest, rheumatism in the head or limbs, will be found superior to any thing imagined of the powers of medicine; and in bilious affections, dispepsia, and in all diseases peculiar to women, they should be resorted to at once. These Brandreth Pills will be found deserving of all praise.

Beware of Counterfeits!—The following are the duly appointed Agents for the sale of the genuine Brandreth Pills in Kent co.

MODEL OF NEW YORK,

IN CARVED WOOD,

BY E. PORTER BELDEN,

Is now on exhibition for a short time at the

ASSEMBLY BUILDING,

Corner of Tenth and Chesnut Streets, PHILADELPHIA.

The expense of transporting and fitting up this immense work at each place is so great, that its exhibition is necessarily confined to the larger cities. This notice is therefore given to those inhabitants of this vicinity who will be soon visiting Philadelphia, that they may have an opportunity of seeing what is universally acknowledged the greatest piece of art and mechanical skill ever produced in this country.

This model is a perfect *fac-simile* of the Metropolis, and all things therein, to the minutest details, including Streets and Alleys, Public Edifices, Houses, Stores, Outbuildings, Elevations and Depressions, the Shipping, Steamboats, Wharves, Railroads, Cars and Locomotives, Magnetic Telegraph, Door Yards, Fences, Trees, Lumber and Coal Yards, Awnings, Lamp Posts, and even the smallest objects in the city. By inspecting this Model a person can point out any object in New York, as well as if he were looking upon the actual city.

This work has been prepared at an expense of over

$20,000!

It was in progress for more than a year, and upwards of 150 persons were employed in its construction. These were artists of the highest class, both American and European. Their names have been already given to the public Over the Model is an
