Our Best Ads

ARE NEVER PRINTED IN THE NEWSPAPERS.

Do you know where our best advertising is done?

IN THE STORE.

This TELLING you about things is all right, maybe; but it isn't half as satisfactory as bringing you face to face with your requirements.

SHOWING you is our favorite method. There is no talk that can be half as compelling as the goods themselves.

HERE IS THE BEST OF FURNITURE AT ITS BEST.

Our confidence comes from a knowledge of what's what in Furniture, and the way our stock stands today, we can truthfully say that we never asked anybody to view an assortment that was quite as worthy.

YOU are invited.

John Bartley, Chestertown, Md

THE ADVANTAGES OF AN EDUCATION.

The advantages of an education are so broad that they apply to every walk in life, however humble or exalted, and it seems to me that in no case can an education be applied to better advantages than on the farm. There are opportunities for the farmer at the present time to intelligently consider the various methods suggested by agricultural experts and experiment stations regarding the various branckes, such as the feeding and care of stock; the relative value of fertilizers of different manufacture, applied to different lands for various crops so as to produce the greatest results; the value of individual animals compared with the herd or flock; the testing of butter, milk and the different grasses, vegetables and fruit best adapted to the different soils, climates and manner of cultivation. These are a few of the subjects of importance to the farmer much easier by means of his education. But I do not for a moment wish to infer that an education is all that is needed to make a good farmer. An education to be of the greatest value must be backed by good common sense. I care not what the calling may be, without this the benefits to be derived from an education can never be fully realized and in no calling is common sense called into use oftener than on the farm. Common sense and an education combined with ambition and health, ought to make an ideal farmer. Let us remember that in 1833 the first mower or reaper was invented and not until 1860 were mowers used to any extent in the United States, and then they were so inferior they looked more like an ox-cart than like our present mowers. All this has been accomplished largely by the ingenuity and intelligence of men who at some time in their lives have been connected with the farm. And we have no reason to think that the acme of perfection has been reached. Agriculture like other industries will continue to progress along successful lines because of the educational advantages offered to our farmers.

GRANGER, KENT COUNTY.

CIRCUIT COURT NEWS

Among the cases coming up in the court at Denton will be that against Dr. J. B Merritt, of Easton, and John Deen, formerly of Kent, also of that town. The charge against them is abortion. There are several removed cases which may be heard, among them two railroad cases removed from Kent county—Aaron C. Jones vs. P. B & W. Railroad, and Harry M. Green against the same corporation. One of these cases was tried in the Kent court and a verdict of $500 given agaist the defendant railroad. It was appealed and the Court of Appeals reversed the judgment and ordered a new trial. Then the two were removed to Caroline. Two similar cases have been tried in Talbot, one plaintiff securing damages of $4,500 and the other of $1,500. These were also appealed, the verdict below reversed by the Court of Appeals and new trials awarded in Talbot. The plaintiffs there are named Crawford and Moore. All four cases were instituted in the Cecil court, and as they have been removed twice must now be finally tried in this county and in Talbot. All the plaintiffs are young men who were members of an amateur dramatic troupe from Elkton which a few years ago went to Havre de Grace one night to give a performance. At the Havre de Grace station on the same night, while the Elktonians were waiting for a train to return to their homes a dispute arose between an employe of the railroad, a night watchman at the station, and one of the plaintiffs over an alleged violation of a rule. Eventually, the four men, the watchman, and a local policeman had an encounter; the plaintiffs were all arrested and kept over night in a lock-up which they describe in harsh terms. Two of them, it is said, were badly beaten. The suits against the railroad are the consequence. Henry R Lewis, the company's counsel here, and Fred Haines, of Elkton, appear for the defense, and Omar D. Crothers, J. Harry Covington and William S. Evans for the plaintiffs. In the Kent court Marion deKalb Smith, of Chestertown, and L. Marshall Haines, of Elkton, tried one of the cases. Messrs. Smith and Haines are now dead.

WOULD ABOLISH HANGING

Electrocution in the State penitentiary, instead of hanging, is to be the fate of criminals sentenced to death in Maryland if a bill introduced by Senator Price becomes a law.

When a criminal is convicted in any part of the State and sentenced to death, he is to be taken by the sheriff to the penitentiary, where the penalty is to be inflicted, the sheriff, in whose charge the prisoner is, having charge of the sentence.

Directors of the penitentiary must provide a suitable building within the walls of the prison and equip it with the necessary appliances, all at a cost of not more than $2,000.

The act is to take effect January 1, 1911, and is to apply to punishments for crimes committed on or after that date. The death penalty for crimes committed before that date is to be inflicted as now, although the execution may not take place until after the new law is in effect.

Warner's Gold Standard Yellow Dent Corn

PHOTOGRAPHED BY BENSON, EASTON, MD.

This is the earliest high yielding YELLOW DENT CORN that has yet been produced. I have been breeding this variety since 1893 and the average yield per acre of this variety has steadily increased until this year my entire cultivation produced an average yield of 85½ bushels shelled corn per acre, and was two weeks earlier in maturity than other varieties. Never have I had better seed corn than I have today. The germation is as perfect as IT IS POSSIBLE TO GET CORN TO GROW. Write for Free Circular giving prices and my methods of Corn Breeding and Testimonials from FARMERS WHO HAVE BOUGHT SEED CORN OF ME.

H. W. WARNER, Seed Specialist, Easton, Maryland.

STOMACH LIVER LUNGS

Each of the chief organs of the body is a link in the Chain of Life. A chain is no stronger than its weakest link, the body no stronger than its weakest organ. If there is weakness of stomach, liver or lungs, there is a weak link in the chain of life which may snap at any time. Often this so-called "weakness" is caused by lack of nutrition, the result of weakness or disease of the stomach and other organs of digestion and nutrition. Diseases and weaknesses of the stomach and its allied organs are cured by the use of Dr. Pierce's Golden Medical Discovery. When the weak or diseased stomach is cured, diseases of other organs which *seem* remote from the stomach but which have their origin in a diseased condition of the stomach and other organs of digestion and nutrition, are cured also.

The strong man has a strong stomach. Take the above recommended "Discovery" and you may have a strong stomach and a strong body.

GIVEN AWAY.—Dr. Pierce's Common Sense Medical Adviser, new revised Edition, is sent *free* on receipt of stamps to pay expense of mailing *only*. Send 21 one-cent stamps for the book in paper covers, or 31 stamps for the cloth-bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.

Picknell 35381

Record 2.15¼, Made in Third Heat of Winning Race.

Bred by C. W. Williams, Galesburg, Ill. Foaled 1901. A model in every way. His size, 15.2 hands, weight close to 1050 pounds, and color mahogany bay, are ideal. His disposition and manners are perfect. His breeding, the highest of fashion—a son of the greatest sire of his age, living or dead, Allerton 2 09¼, the sire of Picknell he has 202 in the list, world's champion trotting stallion to high wheels, from one of the greatest producing daughters of Baron Wilkes 2 18, the famous Futurity sire, which has 131 in the list. Jay Bird 2 01¼, the sire of Allerton has 131 in list. A race horse himself, never having worn hobbles nor other false rigging; started green in the late summer of 1906 in six races, winning two of them, and was well up into the money the other four, he has, (though prominent horsemen have pronounced him capable of a record of 2 05 or better) been retired to the stud, sound, clean, superbly handsome, with vigor and vitality unimpaired, saving for his offspring what a mere racing-machine wears out on the track.

PICKNELL will make the season of 1910 at my stable, Kent and Calvert Staeets, Chestertown, Kent Co., Md., at $15.00 the season, or $25.00 to insure approved mares

Will not be responsible for accidents or escapes, but best care taken of mares sent to me. For extended pedigree that will interest any horseman or for fuller particulars call on or address

David B. McMenamin,
Kent and Calvert Streets, : : Chestertown, Maryland.
