THE TRAMPS.

Messrs. Editors:—The tramps have become an institution, and are now looked for in July as regularly as the potato bug. Paris Green seems to have lessened the number of the latter, and the hope is that it has become so obnoxious to the little pests as to cause them to seek other and more agreeable sections of country; or, what would be more charitable, that they may take their flight to the North Pole and never return! But what is to be done with the Tramp? They are annoying to town and country; they increase in numbers and importunities for bread. There is a constant uneasiness and restlessness in the public mind in regard to their pacific or hostile disposition. It occurs to me that the Town Commissioners should at once appoint an additional number of bailiffs, who should so arrange their bouts that several would patrol the town at all hours of the night. There is not a moment during the night that the eye of vigilance should not be open and the town be traversed by a patrol. The security and best interests of the town require this.

But how to protect ourselves in the future is a question. But before examining that question would it not be advisable that an ordinance thould be passed requiring the bailiffs to report to the Justices of the Peace all persons found as vagrants within the limits of the town and have them committed to prison to be fed on low and coarse diet; but before commitment allow them an hour or two to leave the place.

From whence do these people come? They are not "carpet-baggers," because they bring neither bundles nor baggage. They enter Kent county at its head, and it is presumed they come by Sassafras, Masseys and Millington. They follow the public roads, and it is presumed that most of them come by Philadelphia City. Would it not be a saving to the county to employ men to guard the roads at the points designated and prevent the entrance of loafers as nuisances to our community? The expense would not be large, but the advantages would be. An act of the Legislature could authorize the County Commissioners to appoint the guards and levy the pay. Something effectual should be done to protect us from these people in the future. The evil is increasing and will be intolerable. If any one can suggest a better plan of relief, it is hoped they will do so. Every housekeeper in the county is interested in the subject and should be willing to contribute by advice, or in any other way that may be feasible, to prevent a recurrence of a common nuisance.

A HOUSEKEEPER.

Letter from Galena.

Dear News:—We have had an abundance of rain and warm weather in this vicinity. Our farmers speak of fabulous crops of corn. The wheat of those that have threshed has surpassed their most lively expectations. Peaches are bringing merely nominal prices, and our citizens, like sensible persons, heartily condemn the rioters. We feel the deplorable effects in other branches than this, and think that we, as well as the remainder of the inhabitants of the peninsula, will be seriously though temporarily injured by the rashly illegal acts of the rioters. Great fears are entertained that the engineers and trainmen on the Kent County Railroad will strike. *Wouldn't it be orful?*

Tramps continue to infest our neighborhood in large swarms. They ply an incessant war of extermination on the fat meat and pone-bread of our generous farmers.

A spot of about twenty by forty yards in our town is continually infested by negroes. On Saturday night, when "well lined with whiskey," these sable-faced miscreants made the night hideous with their barbarous bellowings. It is quite entertaining to persons unwell.

Sunday is the day on which our clerks shoot cats—the day on which our hotel keepers practice with carnal weapons in anticipation of the troublesome times. It was real amusing to see our friend of the store pop at a cat at the distance of about twenty paces and miss her by more than half that distance. If our hotel keeper don't do better than he did, he will lose his reputation as a good shot

The workmen are now putting the finishing touches on the noble edifice of St. Andrews For a long time it has been an eye-sore to the town as well as a reproach to the congregation, yet the Gospel will triumph, and now it rears its head among the highest. A pipe organ is necessary for its full completion The Rev. Mr. Martin highly pleases his audience while his church is being made comfortable, by his edifying discourses in Horsey's Hall.

If the spirit of improvement continues our town will vie in beauty with the most prosperous on the Eastern Shore. Col. Taylor is erecting on Main St. a charming villa, and he needs must make it charming. Dr. J. L. Dulaney having, like the prodigal, returned, contemplates living out the remainder of his days on Commerce St., where a palatial residence is in course of erection. John D. Boyd is making the avenue more attractive by erecting a domicil of fair proportions.

We are having considerable sickness in our neighborhood, dysentery and diarrhœa prevailing.

The Rev. E. G. Irwin, pastor of the M. E. Church, is quite ill, but recent inquiries show that he is getting better. It is to be hoped that he will soon be able to take charge of his flock, for reasons best known to them. ATTICUS.

A HARD TIMES NOTE.—A curious illustration of the effect the hard times has had on Wilmington, says the *Commercial* of that place, "is found in the business done in the money order department at our post-office. In good times, when the shops here were generally busy, the post-office received more money to be sent away than came to it, a great many men from other places having work here and sending a portion of their earnings home to their families. Now the balance is the other way, the office receiving about $100,000 annually to send away and paying out about $118,000. Some Wilmington mechanics have obtained work elsewhere, and are sending home money to their families here, while money is actually reaching here from England and Scotland to maintain natives of those countries here, or to enable them to return to the old country. This is certainly a condition of affairs we are not likely to be proud of, nor to take comfort in."

MR. VANDERBILT, in consideration of the good conduct of the men on his railroad during the strike, has ordered $100,000 to be distributed among them, and promises to increase their wages as soon as the times will permit.

WM. H. WEST, of Bellefontaine, was nominated for Governor by the Ohio republican convention at Cleveland Wednesday on the second ballot.

PAYING THE BILL—*What the Riot Will Cost the City of Pittsburg.*—The following estimate of the cost of the Pittsburg riot by the New York *World* does not take into account the damage done by loss of life and the crippling of a score or more of persons, nor the shattering of the social laws or order that may bear more fruit at any time:

"The taxpayers of Pittsburg would have been less likely to allow a handful of ruffians to convert their city into a pandemonium if they had realized the consequences to themselves of that night's hideous work as fully as they will now be made to do. Eight millions of dollars is the lowest estimate of the loss caused by the mob, and many place it at $10,000,000. Already one pawnbroker whose place was ransacked by the crowd, has sued to recover $6,000; a leading lawyer notifies the city that claims amounting to $150,000 have been entrusted to him for collection, and so it goes.

"A Pittsburg paper estimates rudely the liability of the county at $1 13 per voter. The total amount being funded at five per cent., with allowance of a sinking fund, the annual levy of Pittsburg will be increased from $600,000 to $1,200,000. In other words, for the next twenty odd years every resident of Pittsburg who pays taxes will have his annual burden doubled because actively or passively he aided last Saturday's rioting. In accordance with the invariable rule this increase of the municipal burden will fall upon the man of last resort—the laborer. When the property holder has to pay $1,000 a year more taxes he raises the rent of his tenant each $100, and each of them taxes each of his ten individual customers $1 to reimburse himself. These things indicate the probable cost to the people of Pittsburg of their practical course in political courage. It will be expensive, but if they learn the lesson thoroughly, it will prove to be cheap in the end."

THE TRAMP AS A RIOTER.—The part which the professional tramps took in the recent disturbances shows that they deserve no pity from peaceable and industrious people and no pity from the authorities. Not only did they everywhere turn up as rioters but in scenes of the Western States they were discovered in considerable bands encamped near cities and towns, ready for organized incendiarism and plunder. Most of the States have vagrant laws, and these ought to be enforced against the tramps with rigor and vigor. They are becoming a dangerous nuisance, and unless summarily dealt with may become formidable to society—*N. Y. Herald.*

FIDELITY REWARDED.—During the recent strikes the employees of the Western and Atlantic railroad, which extends from Atlanta, Ga., to Chattanooga, Tenn., remained faithfully at their posts, and did not even make application for an increase of wages. Ex-Governor Brown, the president of the road, has issued a circular returning his thanks to these employees for their fidelity, and announcing that in recognition of their bearing he has ordered an increase of five dollars per month in the pay of conductors and a proportionate increase in the pay of flagmen and trainmen.

ONE of the most amusing and suggestive scenes is a company of average Americans at a dinner table: Suggestive, because it indicates the prevailing national habit of rapid eating, with its inevitable result—Dyspepsia. If people must eat so rapidly as to induce discomfort, and ultimately establish disease, then let such, for self-interest at least, remove all discomfort and tendency to disease by taking that most efficacious medicine—Keller's Vegetable Life Drops, freely recommended, because it never fails.

"How I wish that my Skin was white and soft as yours," said a lady the other day to a female friend. "You can easily make it so," said the lady addressed.—"How?" inquired the first speaker. Use GLENN'S SULPHUR SOAP, sold by all Druggists. Hill's Hair & Whisker Dye, black or brown, 50 cts. jy27-4t.

A TRAMP went to a house near Middletown, one day last week, and demanded something to eat, and when the lady of the house refused to give him he drew a large knife on her and threatened to use it if she didn't comply with his demands. So the *Transcript* says.

WINCHESTER, a village in Queen Anne's county, is happy. Two ladies of the town, Mrs. Bucher and Mrs. Wm. Smith, have both presented their husbands with twins.

Delays are Dangerous.—If this axiom is true respecting the ordinary affairs of life, still more obviously so as regards the exigencies o approaching disease. Unquestionably! Yet how many neglect to practically recognize this plain truth when health is in the balance. Of the many premonitory symptoms of disease a hacking cough is the most prophetic of peril. Arrest it at the outset with Dr. WISHART'S PINE TREE TAR CORDIAL, and so avoid Consumption. Bronchitis, Inflammation of the Lungs, Coughs, Colds, and, indeed, all Affections of the Respiratory Organs, are entirely cured by this sovereign remedy, which also eradicates Dyspepsia, Piles, Gravel, Nervous Debility, Torpidity of the Liver, Urinary Difficulties, Constipation, Palpitation of the Heart, Scrofulous Affections, and the infirmities peculiar to the gentler sex. This Cordial derives its virtues from the vegetable kingdom, and is infinitely to be preferred, both on account of its superior efficacy and freedom from nauseous and injurious properties to the officinal drugs so often administered with no other effect than to offend the palate and disorder the stomach. The *Pine Tree Cordial* can always be relied on to do what is claimed for it. Sold by all Druggists. Principal Depot, 916 Filbert street, Philadelphia. mr24-3m.

GALENA MACHINE SHOPS!

Wm. A. Hyland & Co.

WE beg leave to call the attention of the Farmers of Kent and the adjoining counties to our new

COMPETITOR REAPER,

and the many IMPROVEMENTS we have made this year. Our Self-Oiling PITMAN BOX, which will run two hours without stopping to oil; also, case hardened Journals, which we think is a great advantage, preventing the wearing of the Journals, a trouble that all other machines have to contend with. We are now using a Guard with concaved centre, which will PREVENT CHOKING and always present a Sharp Cutting Edge, a thing that must present itself to the farmer at once. Also, a Knife with Steel Back, thereby adding Strength, Lightness and Elasticity; and our PATENT STEEL WIRE DROP, that overcomes all objections to a Dropper, working as well in light as heavy grain, a thing that has been long needed and found at last by us.

We make the Reapers of two sizes, for two and four horses. The four-horse Reaper cuts a Swath of six feet, and will cut from twenty-five to thirty acres of grain per day, and will not work the horses as hard as ordinary farm work. The five foot machine is intended for two horses, and is handled very easily. Farmers, call and see, or write to us and learn what we have for sale.

They are the proprietors of a Corn Sheller with Fan attachment, which with their one and two horse power, will shell and clean seventy-five bushels in one hour, of which fact good reference can be given.

REPAIRING

they do neatly, and all their work is done at reasonable prices, and say to all, encourage home manufacture, or at all events give them a trial.

THE CRAWFORD MOWER

so justly celebrated for its light draft, and good work done by it, they also keep for sale.

Also, the Celebrated Taylor Rake

☞*WE GUARANTEE every Machine that leaves our Works.*

Wheat Seeding!

HIGH GRADE FERTILIZER

HUBBARD'S STANDARD BONE SUPER PHOSPHATE. TRADE MARK

HUBBARD'S *STANDARD* Bone Super-Phosphate,

UNEXCELLED

FOR ALL CROPS!

We again offer to the public our *Standard* Phosphate this, our ninth season. It is sold on an increased demand, not only in this State but Delaware, Pennsylvania, N. Jersey and Virginia, and for the last two years it has been extensively used as a *test* side by side of various *higher priced* Phosphates sold in the market, upon Wheat, Corn, and other crops in Kent and Queen Anne's counties, by many of our best farmers, who pronounce it to be equal to any in result, and superior to many, while the price is much less. There are other advantages in favor of the use of our *Standard*, which will be proven on trial.

1st. It is sold at $35 cash per Ton, at the Factory.

2d. It can be easily applied, with safety and profit, upon all crops.

3. It is always guaranteed to be in excellent order for drilling.

4. It is especially adapted to the growth of each and every crop.

5. The Base of the *Standard* is pure animal Bone, of which we invite inspection.

6. Animal Bone is a permanent improver of the soil.

7. Chemistry has enabled us to demonstrate with a degree of certainty that our soils lack principally *Nitrogen, Potash* and Phosphoric-acid, they being the three substances most essential for the profitable growing of crops and the Farmer to buy. Hence

☞We ask but ONE TRIAL

to convince all of the valuable properties contained in our Phosphate as a CROP PRODUCER, and we pledge ourselves to keep it up to its well known HIGH STANDARD, believing that our success depends entirely upon the QUALITY of our Fertilizer. We refer below to the names of a few Farmers who used our Phosphate on their wheat last Fall, which yielded an abundant Harvest:

MANHOOD,

How LOST, How RESTORED.

JUST published, a new edition of Dr. Culverwell's Celebrated Essay of the *radical cure* (without medicine) on SPERMATORRHŒA or Seminal Weakness, Involuntary Seminal Losses, Impotency, Mental and Physical Incapacity, Impediments to Marriage, etc.; also, CONSUMPTION, EPILEPSY and FITS, induced by self-indulgence or sexual extravagance, &c.

Price in a sealed envelope, only 6 cents.

The celebrated author in this admirable Essay, clearly demonstrates, from a thirty years' successful practice, that the alarming consequences of self-abuse may be radically cured without the dangerous use of internal medicine or the application of the knife; pointing out a mode of cure at once simple, certain, and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically.

This Lecture should be in the hands of every youth and every man in the land.

Sent under seal, in a plain envelope, to any address, *post-paid*, on receipt of six cents or two postage stamps.
