The faculty of the Summer School comprises scholars and teachers from universities and colleges all over the country, such as Columbia, Rutgers, Northwestern, Sewanee and many others; each member of the faculty is a specialist in his department. The list of Professors contains over fifty names. Of especial interest are the classes in Education, Domestic Science, Manual Training and Agriculture. The large size and the increase in number of these classes are indications of the general movement throughout the South to introduce more practical work and practical methods into educational systems. Mrs. Edith Charlton Salisbury, of the Iowa State College, has found it necessary to divide her pupils in Domestic Science into eleven sections in order to given adequate attention. The enrollment in her classes has increased in three sessions from 24 to 134 members. In the matter of entertainments, the students of the Summer School find themselves especially favored."

The wedding, which was quiet, took place at Sts. Philip and James' Catholic Church. The ceremony was performed by Rev. Hugh J. Monaghan.

The bride wore a tailored suit of cream cloth and sapphire plumed hat, and carried white sweetpeas. Dr. and Mrs. Strong left immediately after the ceremony for Atlantic City. On their return they will live at the Wentworth.

Farm Topics.—With a week of good weather Kent farmers have made hay while the sun shines. Wheat harvest is about over. The crop has ripened rapidly, and the maturing of the grain has not been much retarded by the rains. The yield, we understand, will be above the average. Some fears have been entertained as to the effect upon the grain of the continued rains, but it is reported to have headed out splendidly and to be comparatively free from injuries or faults. The first report comes from H. H. Pearson, of Rich Neck. He got 35 bushels per acre.

From present indications there will be peaches for everybody this year. The dreaded June drop has been very light and the trees all over the State are heavily laden with fruit. This condition also exists on the Eastern Shore of Maryland. This means that there will be enough peaches for everybody—that is, peaches plentiful enough and cheap to be within the reach of everybody. The prospect of a large peach crop on the Eastern Shore is gladsome news to the people of this section, for they had begun to believe that the fruit was a lost luxury. Unfortunately for the Eastern Shore, the expected crops have been failures for so many years that whole orchards have been chopped down and the land devoted to other crops. Mr. Rich'd Groves has been up in the peach belt about Still Pond, and says the crop there will be fine. Some growers have been offered a half dollar per basket for their crop, but refused it.

The June Drop

is about over with the peaches. But not so on a lot of Boys' Straight Pants Suits, sizes 10 to 17 yrs. It begins to-day. This lot of nice, desirable patterns, ranging in price from $3.50 to $5.00, will be closed out at Two Dollars and Sixty-two cents the Suit. Solely on account of being straight pants, an opportunity rarely presented to fix the boys up with a fine suit, elegantly tailored, at $2.62 the Suit.

Our assortment of Men's and larger Boys' Wearables still in good shape and ready to serve you.
