New Scientific Expeditions.

There does not seem to be much difficulty in starting expeditions for scientific purposes. No matter how expensive they promise to be, or what little immediate return is expected from them, there is always some Government or learned society ready to help them. In spite of the ill success which has heretofore attended Arctic explorations, the old love of adventure is not yet dead. Men will sail away to the regions of perpetual frost as gaily as they would to the tropics, and jot down their observations as quietly and unconcernedly in the midst of northern desolation as if they were only on the top of Mount Washington. The Howgate Arctic expedition dispatched its first vessel from New London on the 20th instant. Captain Tyson, who brought back the survivors of the Polaris crew, commanded it, and the attempt will be made to reach Frobisher's or Hudson's Straits and collect dogs, sledges, guides and interpreters. Captain Howgate will himself follow in the spring, and with these aids begin a systematic exploration of the northern seas. The idea is to form a colony at some convenient point so that the explorers can always rely on supplies, and at the same time be able to keep up a communication with the commercial world. In spite of all the disappointment which has resulted from former expeditions, and the many brave and useful lives sacrificed, scientific men still cling hopefully to the belief that there will be a practical outgrowth from them some day, and argue that the information to be gained will be of immense value to the world. As we cannot prevent the spirit of inquiry, we may as well accept their judgment and only hope that the secrets which lie in the icy bosom of the far north may, according to promise, be attended with fewer sad results than heretofore. In connection with this expedition may be mentioned the Woodruff expedition, organized by a gentleman of that name in Indianapolis. It, of course, is also purely scientific, although it does not have so many of the elements of danger as the other. The members will sail for New York on the first of October next in a screw steamship of the Havana and Mexico line, under the command of navy officers, and will be absent two years. Professor B. G. Wilder, the famous naturalists of Cornell University, and seventeen scientific gentlemen will compose the faculty. We may look with confidence on their return for many rich additions to those researches and discoveries which attend our civilization and progress.

HOW TO RETURN A FAVOR.—An old Scotchman was taking his grist to mill in sacks thrown across the back of a horse, when the horse stumbled and the grain fell to the ground. He had not strength to raise it, but he saw a horseman riding along and thought he would ask him for help. The horseman proved to be a nobleman who lived in the castle hard by, and the farmer could not muster courage to ask a favor of him. But the nobleman was a gentleman also, and, not waiting to be asked, he dismounted, and between them they lifted the grain to the horse's back. John—for he was a geutleman, too—lifted his cap and said, "My lord, how shall I thank for your kindness?"

"Very easily, John," replied the nobleman; "whenever you see another man in the same plight as you were in just now, help him, and that will be thanking me."

How it is Done.

The first object in life with the American people is to "get rich"; the second, how to regain good health. The first can be obtained by energy, honesty and saving; the second, (good health,) by using GREEN'S AUGUST FLOWERS. Should you be a despondent sufferer from any of the effects of Dyspepsia, Liver Complaint, Indigestion, &c., such as Sick Headache, Palpitation of the Heart, Sour Stomach, Habitual Costiveness, Dizziness of the Head, Nervous Prostration, Low Spirits, &c., you need not suffer another day. Two doses of AUGUST FLOWER will relieve you at once. Sample bottles 10 cents. Regular size 75 cents. Positively sold by all first-class Druggists in the U. S.

The Buffalo Lithia Springs, Va.

THESE SPRINGS ARE NOW OPEN TO VISITORS.

It is an indisputable fact that these waters are the *most powerful of known diuretics*. In the various diseases of the Kidneys, Bladder and Uretha the cures made by the water of Spring No. 2 have been so remarkable and astonishing in their character that they would not be credited were they not attested by evidence which no amount of incredulity can resist. In *Rheumatic Gout*, Rheumatism, *Paralysis*, and in diseases of the *Digestive Organs* these waters challenge a comparison of record with the most celebrated Mineral Waters of the world. They are a powerful and permanent *Nerve Tonic* and in nervous exhaustion or prostration, and in all cases where mental depression is a symptom they are an invaluable remedy.

In *Ague and Fever* and all diseases of malarial origin, they possess extraordinary power. In the peculiar maladies of women they are pronounced by eminent medical men "well nigh specific."

THE WATER in cases of one dozen half gallon bottles is for sale at $5 per case in advance at the Springs.

Springs Pamphlets sent to any address. Both Water and Pamphlets can be had in Baltimore of Messrs. Coleman & Rogers, 178 W. Balt. st., or C. F. STAM, Chestertown. THOS. F. GOODE, Prop'r.

AT GREAT BARGAINS!

EVERY Organ and Piano sold warranted to give entire satisfaction.—My prices are the lowest. My terms are the best. Numerous styles, at prices to suit all. Thousands of testimonials can be given endorsing their merits. A few testimonials will suffice, as follows:

"HONESTY IS THE BEST POLICY.—How impressively is this old maxim demonstrated in the extraordinary success of the great Musical instrument house of Horace Waters & Sons, adopting from the first the rigid rule that every instrument should prove all and more than their warrantee called for, the firm has built up a business far in advance of their cotemporaries and from Maine to the Gulf the name of WATERS is as familiar as household Words." *Woods' Household Magazine.*

"HORACE WATERS & SONS.—These well known manufacturers have secured an immense patronage, their sales extending and increasing in every direction."

—*Christian Advocate, N. Y.*

"The Piano you sent me is allowed to be the best in this town, and there are several of Chickering's and Stoddart's here."
