The Kent News.

SATURDAY - - - - - - OCT. 6, 1877.

THE WAY TO CONQUER.—"I'll master it," said the axe, and his blows fell heavily on the iron; but every blow made his edge more blunt, till he ceased to strike.

"Leave it to me," said the saw and with his relentless teeth he worked backward and forward on its surface, till they were all worn down or broken; then he fell aside.

"Ha! ha!" said the hammer, "I knew you wouldn't succeed, I'll show you the way," but at the first stroke, off flew his head, and the iron remained as before.

"Shall I try?" asked the soft, small flame. But they all despised the flame; but he curled gently around the iron, and embraced it, and never it left till it melted under his irrisistible influence. There are hearts hard enough to resist the force of wrath, the malice of persecution, and the fury of pride, so as to make their acts recoil on their adversaries; but there is a power stronger than any of these, and hard indeed is that heart that can resist love.

WHAT TIME BIRDS BEGIN TO SING.—A French ornithologist has taken the trouble to find out at what hour during the summer the commonest small birds wake up and begin to sing. The result of his inquiry shows that the earliest riser of all is the greenfinch, who tunes up about half-past one A. M., some hours before the more robust and melosious species of finches are ready for work. The second to put in an appearance is the blackcap, who is to be heard at half-past two or thereabouts; and half an hour later the quail makes his first attempt at a musical performance. It is nearly four o'clock, and the sun is well above the horizon, before the first real songster appears in the person of the blackbird, who preceeds the thrush about half an hour, and the chirp of the robin is about the same length of time before that of the wren. Finally, the house sparrow and the tomtit occupy the last place on the list.

ARTIFICIAL ICE.—Much ingenuity has been expended of late years in devising convenient apparatus for the speedy and economical production of ice by artificial means. It is well known that the ice supply can be made much more advantageous from the manufactured article than from that imported from colder regions. A very simple arrangement has been lately invented for the production of cold by the evaporation and condensation of ether or other equivalent substance, the special result being ice that is absolutely clear and in blocks some six inches thick. This transparency is effected by a device for the constant agitation of the water while freezing, so that all the air-bubbles are driven out. The maximum blocks hitherto made are some twelve inches thick, weighing about 700 pounds each.

PRESIDENT HAYES' story about the man who economized time in saying prays by always pointing to a printed prayer on the wall and fervently ejaculating "them's my sentiments," was probably suggested by the old Ben Franklin's story. It is related of old Lightning that at one period of his life, having been subjected to a daily fare in which pork and daily grace was painfully regular, at dinner suggested an order to economize time that the grace be said over the original barrel of pork. —*N. Y. Republican.*

SECRETARY THOMPSON says his wife greatly enjoyed the jokes made about him when he was appointed Secretary of the Navy until one was at last made at her own expense. "You know," he explained, "that the New Orleans *Times* told a story that when Mrs. Thompson heard of my appointment she said: 'The idea of making my husband Secretary of the Navy! Why, Dick can't swim.' Could anything be more absurb? If there is any one thing that I can do better than another it is swimming. I have always been a capital swimmer."

HAYES endorses the President whose example he imitates. At Nashville he said of Andrew Johnson that he bravely "faced a storm of party rage," and that "his memory is now respected throughout the land as one of the most faithful and devoted servants of the country." The republican doctrine on the subject of Johnson was formerly that he was "the greatest criminal of this or any other age."

MR. SMALLEY, in a letter to the New York *Tribune* on the political outbreak in Pennsylvania, frankly admits the existence of a serious revolt in the republican ranks, and intimates that the breach is likely to widen rather than diminish. He says, too, that the labor movement is likely to injure the republicans more than the democrats.

A GOOD domestic Sulphur bath can be instantly prepared by taking a cake of Glenn's Sulphur Soap into the bath tub. Such an expedient will, to use a slang phrase, "knock the spots off" any victim of cutaneous blemishes. Sold by all druggists 25 cents. Hill's Hair & Whisker Dye, black or brown, 50 cts. sep22-4t.

THE duckers are getting ready for the winter campaign, and are getting their guns, decoys, boats, &c., in order. The ducks from the lake regions are putting in their appearance on the Susquehanna flats.

THE New York *Times* admits "that one of the greatest difficulties which the administration has to encounter is the want of popular and party faith in the earnestness of its professions." How can the people have any faith in fraud?

ONCE in a while the New York *Times* tries to be smart. This is the latest specimen: "Unless the House elects about six speakers there are going to be five terribly-disappointed democrats."

THE Baltimore county *Herald* says the Towsontown military went out on a target practice, recently, and succeeded in hitting the side of a hill. Now let the Creedmoor champions stand aside.

A BEAUTIFUL complexion depends upon the purity of the blood. To keep the blood pure and healthy use Dr. Bull's Blood Mixture.

WHEN a young lady is equipped in the full fall fashions she is said to closely resemble a rolling-pin wrapped in rag carpet.

A SAN FRANCISCO clergyman says that only one-tenth of the men in that city ever go to church.

Ask Yourself these Questions.

Are you a despondent sufferer from Sick Headache, Habitual Costiveness, Palpitation of the Heart? Have you Dizziness of the Head? Is your Nervous System depressed? Does your Blood circulate badly? Have you a Cough? Low Spirits? Coming up of the food after eating? &c., &c. All these and much more are the direct results of Dyspepsia, Liver Complaint and Indigestion. GREEN'S AUGUST FLOWER is now acknowledged by all druggists to be a positive cure. 2,400,000 bottles were given away in the U. S. through Druggists to the people as a trial. Two doses will satisfy any person of its wonderful quality in curing all forms of Indigestion. Sample bottle 10 cts. Regular size 75 cts. Sold positive by all first class Druggists in U. S.

To the Farmers of Kent Co.

$200 PREMIUM!

A PREMIUM of Two Hundred Dollars, or Five Tons of I. P. THOMAS' RAW BONE SUPER-PHOSPHATE, will be given for the best yield of Wheat produced in 1878 from Fifty Bushels seeding with the I. P. Thomas Fertilizer. Competition restricted to Kent county and that portion of Cecil county, Md., lying south of the Chesapeake and Delaware Canal.

The I. P. THOMAS FERTILIZERS have been more extensively used during the past two seasons by the farmers of Kent county than any other brand, and is to-day without a successful rival. Those whose interest is in the sale of other brands, have been made to praise the I. P. Thomas. Did space permit, the testimony of over one hundred of the leading Farmers of Kent could be added.

Testimony of Farmers:

Still Pond, Aug. 27, 1877.
Mr. Hickman—Dear Sir: I have used the I. P. Thomas Fertilizer for three successive crops. Results have been such as to continually increase my confidence in it. I made over 28 bush. of red wheat to the acre this season. I shall continue its use. Resp'y, JNO. F. BEEKS.

Buck Neck, Kent co., Md., Aug. 20th, 1877.
Mr. Hickman—DEAR SIR:—In the fall of 1876 I planted some experimental plots in Wheat for the purpose of testing the relative value of fertilizers. On one plot I used the Lister Phosphate—on the adjoining plot the I. P. Thomas Raw Bone Super-Phosphate at the same rate per acre. The plots were harvested, threshed and weighed separately with the greatest care. The I. P. Thomas gave an excess of one hundred and forty pounds of wheat to the acre over the Lister. Before making the test I had no preference, and it was impartially made. The Lister gave rather the most straw, which led me for a time to over-estimate it. I shall use the I. P. Thomas this fall again.
Respectfully, JAMES SHUSTER.

Still Pond, Aug. 18, 1877.
Mr. Hickman—DEAR SIR: I have used the I. P. Thomas Raw Bone Super-Phosphate in competition with a number of the most popular brands for two seasons, and have found that it gave more wheat to the cost than any Fertilizer I have heretofore used. I shall use it this season again. Respectfully,
J. FRANK WILSON.

Still Pond, Aug. 20, 1877.
Mr. Hickman—DEAR SIR: I have always used the most popular brands of fertilizers. Have used the I. P. Thomas Raw Bone Super-Phosphate for two years, and can frankly say that I have never used any article that surpasses it. I shall continue the use of it. Resp'y,
H. T. JUMP.

Fairlee, Kent Co. Md., Aug. 22d, 1877.
Mr. Hickman—DEAR SIR:—The I. P. Thomas gave entire satisfaction for two seasons—I have confidence in it and will use it this season again. Resp'y,
R. C. SMYTH.

Still Pond, Aug. 17, 1877.
Mr. Hickman—DEAR SIR: One Hundred and Eighty pounds of I. P. Thomas' Raw Bone Super-Phosphate to the acre gave me a perceptibly heavier yield of wheat than Two Hundred pounds of Lister to the acre, used side by side. I shall use the I. P. Thomas this season again.
Resp'y, J. R. STAVELY.

Lynch's, Md., Aug. 25, 1877.
Mr. Hickman—DEAR SIR: I have used I. P. Thomas' Raw Bone Super-Phosphate for two seasons. Have used Lister and most of leading kinds, but have never used any fertilizer that satisfies me better than the I. P. Thomas.
Resp'y, S. J. ROSEBERRY.

Still Pond, Md., Aug. 18, 1877.
Mr. Hickman—Dear Sir: I have used the I. P. Thomas Raw Bone Super-phosphate for the two past seasons—have used other popular brands at the same time.—Never used any article that gave better satisfaction for the money, or that I consider more worthy of confidence than the I. P. Thomas. Resp'y,
JOHN P. VANDYKE.

Still Pond, Md., Aug. 18, 1877.
Mr. Hickman—Dear Sir: I consider the I. P. Thomas Fertilizer the best and most reliable article I have ever used, and shall continue the use of it while results are so satisfactory. Resp'y,
THOS. RASIN, JR.

Chestertown, Md., Aug. 20, 1877.
Mr. Hickman—Dear Sir: I regard the I. P. Thomas Raw Bone Super-Phosphate as the equal of any fertilizer sold in Kent county, and shall continue to use it.
Resp'y, T. C. PARSONS.

Chestertown, Md., Aug. 20, 1877.
Mr. Hickman—Dear Sir: I am so well pleased with the I. P. Thomas Raw Bone Super-phosphate that I shall use some of it this season again.
Resp'y, R. NICHOLSON.

Hanesville, Md., Aug. 20, 1877.
Mr. Hickman—Dear Sir: I have used the I. P. Thomas Raw Bone Super-phosphate for two years for both Corn and Wheat, with the most satisfactory results. Considering the permanent character of it as an improver of the soil, it is to my mind the best and cheapest Phosphate I have ever used. I shall use it this season again. Resp'y, J. W. COREY.

Still Pond, Md., Aug. 22, 1877.
Mr. Hickman—DEAR SIR:—I am fully convinced from two years experience with the I. P. Thomas Raw Bone Super Phosphate that it has never been surpassed by anything I have ever used. I shall use it this season again. Respectfully,
GEO. W. DAVIS.

Chestertown, Md., Aug. 20, 1877.
Mr. Hickman—Dear Sir: The I. P. Thomas Raw Bone Super-phosphate has given me heavy crops of wheat and has proven an excellent fertilizer for grass also. I am satisfied I have never used a better or more reliable article. I shall want more of it this season.
Resp'y, S. LECATES.

Rock Hall, Md., Aug. 21, 1877.
Mr. Hickman—Dear Sir: The I. P. Thomas Fertilizer purchased of you last fall gave fine results, much better than a heavy application of manure. I am highly pleased and will continue the use of it this season. Respectfully,
R. B. WILLSON.

Kent Co. Alms House, Aug. 22, '77.
Mr. Hickman—Dear Sir: I look upon the I. P. Thomas Raw Bone Super-Phosphate as one of the best fertilizers I have ever used. In all my experience I have found nothing to excel it, and desire to use some this season again.
Resp'y, J. COPPER.

Lynch's Md., Aug. 21, 1877.
Mr. Hickman—Dear Sir: The I. P. Thomas Fertilizer, purchased of you for two seasons, has proven an excellent article and gave the most gratifying results. I shall continue its use. Resp'y,
JAMES A. ROSEBERRY.

Rock Hall, Md., Aug. 21, 1877.
Mr. Hickman—Dear Sir: I regard the I. P. Thomas Raw Bone Super-Phosphate, from two years' experience, as one of the best fertilizers I have ever used.
Resp'y, WM. STEVENS.

Chestertown, Md., Aug. 22, 1877.
Mr. Hickman—Dear Sir: I used the I. P. Thomas Raw Bone Super-Phosphate purchased of you last season, alongside of other popular fertilizers, and have found nothing that surpasses it. It gave excellent satisfaction. I would like to use it this season again. This is the only testimonial I have given to any one for two years. Resp'y, I. R. LEAVERTON.

TO THE FARMERS
—OF—
KENT and QUEEN ANNE'S!

CHESTERTOWN, Aug. 1, 1877.

We would respectfully submit to your consideration the

LISTER PHOSPHATE,

Manufactured by LISTER BROS., the largest manufacturers of Phosphates and dealers in Bone in the United States, with certificates from Farmers and others who used it last fall.

CERTIFICATES OF FARMERS:

CHESTERTOWN, August 12, 1877.
Messrs. Hines & Co.—Gentlemen: After experiments with various Standard Fertilizers, I have arrived at the conclusion to purchase Lister Bros. Phosphate for my entire fall seeding, having derived more advantage from the use of it than any I have heretofore applied to my crops. Very truly yours,
GEORGE W. T. PERKINS.

CHESTERTOWN, August 13, 1877.
Messrs. Hines & Co.—Gentlemen: In answer to your inquiry touching Lister's Standard Phosphate, which I and my tenants have purchased of you for several years, we have used it exclusively on Wheat and it has never failed to give satisfaction. Before we ventured its use extensively it was carefully tested in comparison with actual results derived from a judicious application of the most approved Fertilizers sold in this market. We shall use Lister's almost exclusively next fall; at least Twenty-five Tons. Yours, &c.,
R. HYNSON.

CHESTERTOWN, August 13th, 1877.
Messrs. Hines & Co.—At your request I will state that I have used Lister's Standard Phosphate for the past two years upon wheat on my farm in Kent county, and that I consider it the best Fertilizer I know at the price at which you sell it. It is always in good drilling order, stimulates the growth of the plant and gives heavy grain. My tenant informs me that it has improved the clover also. I expect to continue its use. Yours respectfully,
J. A. PEARCE.

KENNEDYVILLE, KENT CO., MD., Aug. 15, 1877.
Messrs. Hines & Co.—Gents: Having some experience in the use of Patent Manures for the last fourteen years and using many different kinds, none that I have ever used has given me the same satisfaction as that of Lister's. I believe it to be as good as any in market and much better than some that claim a higher reputation.
Yours, respectfully, JAMES P. CAROTHERS.

CHESTERTOWN, August 11, 1877.
Messrs. Hines & Co.—I beg to state in regard to Lister's Phosphate that I purchased of you last fall, that I used it alongside of I. P. Thomas' Standard Phosphate, and I am satisfied Lister's is a superior article, and I shall use it this fall.
DAVID F. MILLS.

Experiment of JOHN BRICE in 1876-7.

Seeded Three Four-acre Plots in '76—1½ Bushels Wheat per Acre, and 200 lbs. Phosphate per acre. A careful threshing showed the following results:
FOUR ACRES—With 200 lbs. Turner's Excelsior per Acre. Threshed 120 Bushels Wheat, weighing 65 lbs. per bushel, bag inclusive.
FOUR ACRES—With 200 lbs. I. P. Thomas' Phosphate per acre. Threshed 127 Bush. Wheat, weighing 65 lbs. per bushel, bag inclusive.
FOUR ACRES—With 200 lbs. Lister's Standard Phosphate per acre. Threshed 128½ Bushels, weighing 66 lbs. per bushel, bag inclusive.
The above is correct. JOHN BRICE.

NEAR CHESTERTOWN, March 17, 1877.
Messrs. Hines & Co.—Gents: In reply to your inquiry about the Eclipse Fertilizer that we purchased of you last spring to go on corn, we tried it by the side of one of the corn fertilizers, and we tried one acre of each and tried the same amount of fertilizer on both acres, and where we measured the corn yours gave us one-fourth more per acre than the other fertilizer.
THOMAS H. LAMBERT and WILLIAM FORD.

NEAR CHESTERTOWN, July 17, 1877.
Messrs. Hines & Co.—Gents: You ask me for a certificate for your Phosphate, and in reply would say that I furnished Lister's Phosphate that I bought of you, and my landlord furnished Turner's Excelsior, which I used by the side of yours, and the Lister beat it about 10 to 15 per cent., and I shall use Lister's this fall.
Yours, &c., JOSEPH SHRIVER.

NEAR CHESTERTOWN, July 28, 1877.
Messrs. Hines & Co.—Dear Sirs: I have used the Whitelock and other Phosphates, and find that the Lister is equally as good as the Whitelock or any other that I have used, and also came through the winter better.
Yours truly, V. HENDRICKSON.

NEAR ROLPH'S WHARF, Queen Anne's Co., April 29, 1877.
Messrs. Hines & Co.—Gentlemen: In answer to inquiry concerning Lister & Bros. Super Phosphate, I will say that I applied the ton purchased of you on my wheat last fall, and at this date am much pleased with its action. I used it by the side of two other first-class fertilizers, and am satisfied that Lister's is fully equal to either of them. I regard it as an article of real merit.
Respectfully, GEORGE W. SMITH.

CHESTERTOWN, July 31, 1877.
DEAR SIRS: I used last fall on my wheat two tons of Lister's Phosphate and two tons of Whitelock & Co. I find that Lister's suits my land better, and shall use more this fall. Yours truly, C. C. BROWN.

NEAR CHESTERVILLE, July 27, 1877.
Messrs. Hines & Co.—Dear Sirs: The 1½ tons of Lister Phosphate purchased of you last fall I find to be an excellent article, and drills much better than I expected. I shall use more of it this coming Fall. Yours, truly, R. J. LUSBY.

BOXLEY FARM, July 16th, 1877.
Messrs. Hines & Co.—Dear Sirs: We used the Lister Phosphate bought of you along side of Turner's Excelsior, and found it to be equally as good both in length of staw and yield of wheat.
Yours, Truly, W. H. COLEMAN and R. HYNSON.

NEAR CHESTERTOWN, July 10, 1877.
Messrs. Hines & Co.—Sirs: I used last fall three kinds of Phosphates, all considered first-class Phosphates and sowed side by side. Of the three I think Lister's Bone Phosphate the best. It gave me more wheat and better grass, and I shall use it this Fall. Yours, truly, E. J. WATSON.

CHESTERTOWN, July, 18, 7.
Messrs. Hines & Co.: The ton of Lister's Phosphate that you induced me to use last Fall has proven to be a superior article. It did better than Turner's Excelsior that I used principally. My grass looks considerably better where I sowed Lister's.
Respectfully, I. R. LEAVERTON.

QUAKER NECK, June 8, 1877.
Messrs. Hines & Co.—The Lister Bros. Phosphate I purchased of you last fall is making Wheat look very well. I used two tons, and believe if I had used four it would have doubled what it is now. I did not put it over 150 lbs. to the acre, and one field only 130 lbs., and it is fine wheat. In sowing wheat last fall I had not enough Phosphate by about two bags, so I finished without it. The difference is from twelve to sixteen inches in height and double the size in the heads. This field was in corn last year, and I used the Lister Eclipse on the corn—a handful to two and three hills—and where the Phosphate was not sowed last fall. There is a large bunch of wheat in every hill, made by the Eclipse used on the corn, it having over doubled the crop of corn. Yours, respectfully, A. J. CRUIKSHANK.

NEAR CHESTERTOWN, July 16, 1877.
Messrs. Hines & Co.—In answering your inquiry in regard to Phosphate bought of you last fall, I am glad to state that I found Lister's Standard Phosphate the best of four kinds. I used Dissolved Bone and Peruvian Guano mixed, I. P. Thomas', Hubbard's and Lister's Standard Phosphate, and am satisfied Lister's is superior, taking net cost in consideration. I also used it on my own place, and got over 30 bushels to the acre. WILLIAM FORD.

NEAR ST. PAUL'S CHURCH, July 14, 1877.
Messrs. Hines & Co.—Gentlemen: I used your Fertilizer (Lister's) on my wheat alongside of I. P. Thomas' brag Phosphate, and am fully convinced to my own satisfaction that it is superior, and does not cost as much by several dollars per ton.
Yours, truly, J. C. WHEATLEY.

CHESTERTOWN, July 31, 1877.
Messrs. Hines & Co.—Gentlemen: I used last fall several kinds of Phosphates on my wheat crop, but I think the Lister Bone Phosphate was the best, and I shall use it this fall. Yours, T. S. WILMER.

In good Drilling order, and for sale by
HINES & CO.,
Next door to the Bank, CHESTERTOWN, MD.

CRAMPTON'S
IMPERIAL SOAP
IS THE "BEST."
THIS SOAP is manufactured from pure materials, and as it contains a large percentage of Vegetable Oil, is warranted fully equal to the best imported Castile Soap, and at the same time possesses all the washing and cleansing properties of the celebrated German and French Laundry Soaps. It is therefore recommended for use in the Laundry, Kitchen and Bath room, and for general household purposes also, for Printers, Painters, Engineers and Machinists.
As it Will Remove Stains
OF INK, GREASE, TAR, OIL and PAINT from the Hands.
Manufactured only by
CRAMPTON BROTHERS,
2, 4, 6, 8 and 10 Rutgers Place, and 33 and 35 Jefferson St., New York.
For Sale by PARRISH BROTHERS, 99 W. Lombard Street, Baltimore, Md., and Grocers generally.
ALSO, FOR SALE BY
T. W. Eliason, Jr.,
mar10-77. Chestertown, Md.

HENRY ALLNUTT
192 West Pratt St.
HAVING been for a number of years engaged in the business with John F. Moffett & Co., and lately with E. S. Allnutt & Co., Wholesale Dealers, I beg leave to inform my friends that I have leased the old stand formerly occupied by
J. F. MOFFETT & CO.,
192 WEST PRATT STREET,
Where I will conduct the
WHOLESALE and RETAIL
HAT & SHOE BUSINESS.
With my experience in the Wholesale and Retail business for the past NINE YEARS, I feel sure of being able to make purchases as low as any house in the city.
I shall keep on hand the best Eastern and City made work, also take measures and make to order all kinds of Custom work.
One price to all, and all goods guaranteed as represented.
HENRY ALLNUTT,
No. 192 West Pratt St., BALTIMORE,
3 doors above Maltby House.

Read and Remember!
To the Farmers and Horse Jockies of Kent and Adjoining Counties.
I WOULD have you to know that I am Still on Burchinal's Corner, in the
Harness Business,
and am selling Goods in my Line Cheaper than Ever.
To the Horse Jockeys I would say that I have the man to work for me that formerly worked at Middletown, and made the Harness that were exhibited and took the First Premium at the Delaware State Fair. Many who looked at them said they could not be beat, and I am prepared to make the same kind, as I have the man to put them up.
LIGHT TROTTING HARNESS made to order.
TRACK HARNESS and anything that can be made in a Harness Shop, made in the Latest Styles, and of the Best Moffett Leather.
I have COLLARS,
BRIDLES,
MARTINGALES,
HORSE BOOTS,
REINS, Round and Flat,
and Everything that is generally kept in Harness Shops. Cheaper than can be purchased elsewhere.
REPAIRING done very cheap.
WM. W. COPPER.

HORNER'S
CONCENTRATED
SUPERPHOSPHATE
FOR ALL CROPS.
It is made of the best and most concentrated materials, possesses all the virtues of PERUVIAN GUANO and BONE DUST combined, and is well adapted to Wheat, Corn, Oats, &c., producing abundant crops where all others fail. Having a large percentage of Soluble and Precipitated **Phosphoric Acid and Ammonia**, it is without doubt **the richest Commercial Fertilizer in the country.**

HORNER'S
BONE-DUST
Made only of Slaughter-House Bones, contains a larger percentage of AMMONIA and BONE PHOSPHATE LIME than any other brand in the market.
WE OFFER
ONE THOUSAND DOLLARS
For the Detection of any Impurity in our manufacture of Bone.
We do not steam or bake our Bones, or otherwise treat them so as to destroy the animal matter, which is rich in Ammonia.
The Best Article in the Market!
HORNER'S
SUPERPHOSPHATE LIME
OR DISSOLVED BONE,
MADE OF PURE SLAUGHTER-HOUSE BONES AND CONCENTRATED ANIMAL MATTER.
It is richer in SOLUBLE PHOSPHORIC ACID and AMMONIA than any similar article in the market.
Samples and Prices sent on application.
