

EMPLOYABLES ARE CUT FROM RELIEF ROLLS

Arbitrary removal of all families containing employable members from the relief rolls on January 1—termed "the most drastic step the Board of State Aid and Charities has been compelled to take since the Maryland program was launched two and a half years ago"—was ordered in a bulletin sent to the Baltimore Emergency Relief Commission and all county welfare boards Monday.

The bulletin, drafted last week, was adopted at a special joint meeting of the State board and the BERC, and was dispatched to the local agencies throughout the State immediately afterward by Harry Greenstein, State relief administrator. It reads, in part:

"As you know, there will not be enough money to take care of all needs during the month of January. For that reason the Board of State Aid and Charities has decided, in a series of meetings held this week, that certain groups will have to be denied relief. Depending upon the totals of all estimates received, the following policies may have to be adopted (and were at yesterday's meeting) in the order named:

"No new cases containing an employable person may be opened for relief after January 1.

"Aged persons eligible for old-age assistance must be cared for through old-age assistance funds and not from general relief.

"No adjustments of pay checks can be made for persons assigned to WPA.

"No case containing an employable person can be carried on general relief after January 1.

"Unemployable cases, consisting of cases eligible within the definition of 'Aid to Dependent Children' and 'miscellaneous unemployables' will be carried through the month."

"This is the most drastic step the Board of State Aid and Charities has been compelled to take since the Maryland program was launched two and a half years ago," Mr. Greenstein said, "and it was adopted only as a last resort due to the limitations of funds and after exhausting every possible source of additional money."

"We realize this decision could not have come at a more inopportune and unfortunate time—in the dead of winter, with relief demands accentuated by the recent snows and extreme cold. The weather conditions already are having their effect in additional appeals for aid throughout the State."

In its bulletin, the board defined an employable as "any male or female over the age of 16, excepting that it shall not include a woman needed at home to care for minor children, nor shall it include a child in school."

The person should be in good health and capable of work, the bulletin added, and any person suffering from a physical handicap or suited only for light work, should be classified as "employable" only in the event of reasonable certainty of his placement in a job.

PROF. WALKER TO ADDRESS C. of C.

Paul Walker, professor of economics at the University of Maryland, will be the speaker at the dinner meeting of the Rockville Chamber of Commerce, January 17, it has been announced by O. W. Anderson, president. Prof. Walker, who has made a study of the Maryland tax situation, will discuss the tax problem from a research standpoint.

BOND ISSUE FOR SANITARY PROJECTS

The Washington Suburban Sanitary Commission was authorized by the Public Service Commission to issue \$250,000 in bonds for the construction of water and sewerage lines.

The bonds will bear interest at four per cent.

Part of Montgomery and Prince George's counties in Maryland are included in the territory in which the sanitary commission operates.

NOTICE

The annual meeting of the Social Service League of Montgomery County will be held on January 14 at 8:15 p. m. in the Commissioners' Hearing Room in the Court House, Rockville, Maryland. All friends interested in the League are cordially invited to be present.

J. W. BIRD, M. D., President

\$2,000 SUIT FOR INJURY DAMAGES

Suit for \$2,000 damages against Walter Perry, of Bethesda, has been filed by Mary J. Cleveland, of Bethesda, in the circuit court at Rockville.

The suit charges that the defendant erected an iron post to support a balcony on his property at 6823 Wisconsin avenue, and because of improper lighting, the plaintiff walked into the post and painfully and seriously injured herself. She charges that she suffered injury to her vision and a shock to her nervous system.

The plaintiff is represented by Attorneys Kenneth Lyddane and Lowry N. Coe.

Mrs. Virginia C. Beall

Mrs. Virginia C. Beall, widow of William A. Beall, and daughter of the late Josiah and Mary Ann Watkins, died at her home in Lewisdale, after an illness of two days from pneumonia, aged 77 years.

The following children survive: Harry Beall, Randalltown; Mrs. Veda Thompson, Claggettville; Ronald Beall, Browningsville; Mrs. Clara Brown and Mrs. Edith Unglesbee, Long Corner; Mrs. Nora Musgrove, at home. The funeral was held from Bethesda M. E. Church, with interment in the adjoining cemetery.

KENSINGTON TO HAVE TROLLEY

Resumption of service early next summer on the Kensington, Sandy Spring Railway, which suspended operations when the Capital Transit Co. changed from street car to bus service on Connecticut avenue, was forecast by R. H. Phillips, the owner, at a meeting of the Montgomery County commissioners.

Phillips appeared to ask that assessments on his railroad be reduced because the road has not been operated for several months. He said he was virtually sure of beginning operation again, but did not say what plans he had made to obtain power.

Protect Driveways

Driveways suffer during the winter from the action of frost and snow, and all we can do about it is to see that ours is in as good condition as possible when Jack Frost comes. If there are any holes or ruts in the driveway, fill them up and pack them well. Spread the topping of gravel or bluestone as evenly as possible. Don't leave any depressions where water can accumulate and freeze. Every time a wheel goes in a puddle, out goes some of the driveway in the splash- ed water.

Battery and Ignition Firm Remodels Store

A notable improvement in the store of Fred Hart Battery Co., 1537 14th Street, N. W., whose advertisement appears in this newspaper, is being made this week.

The show room has been greatly enlarged by the removal of a partition, new equipment is being installed, and the interior is being freshly painted.

In addition to his already efficient corps of helpers, Mr. Munn, the proprietor, has employed an expert battery and ignition man to manage the newly finished and equipped show room, which is an added safeguard to his host of friends and customers.

Fred Hart Battery Company is an old and popular firm, which was founded, and has continued to grow, on dependable service to all its friends and patrons.

Take Mr. Munn your battery and ignition work, and tell him that you saw his advertisement in the Montgomery Independent.

Layman-Claggett

A quiet wedding united in wedlock Miss Margaret Claggett, daughter of Mr. and Mrs. H. H. Claggett, of Hyattstown, and Mr. Delmas Layman, son of Mrs. Birdie Layman, of Ridgeville. The ceremony occurred in the M. E. parsonage at Thurmont. The ring ceremony was used by the pastor, Rev. Wm. E. Nelson.

Mrs. Catherine Lightner, of Frederick, a sister of the groom, was matron of honor, and Mrs. Layman's brother-in-law, Mr. H. J. Garrett, of Washington, acted as best man.

Members of the immediate families and a few friends attended.

LIBERTY GROVE GRANGE BANQUETS

The Liberty Grove Grange held its annual banquet and installation of officers Wednesday night. The banquet was held in the Grange Hall at Burtonville. O. W. Anderson, county agent for Montgomery, was toastmaster. Albert A. Ady, of Rockville, was speaker of the evening, his theme being "The Rural Youth's Place in Community Organization." Special entertainment features were much enjoyed.

High Standard of Living. With only 7 per cent of the world's population, the people of this country have achieved a standard of living so much higher than other countries that we consume half of the world's coffee, half of its rubber, one-fourth of its sugar, three-fourths of its silk, one-third of its coal, and two-thirds of its petroleum.

Diphtheria Clinics Begun in Schools

A schedule of diphtheria immunization clinics has been arranged, covering 31 of the county schools. Most of this work will be done by Dr. Ellicott, county health officer,

and volunteer workers. All of the large schools of the county will be covered in the schedule except those in which clinics have been recently held. No children will be inoculated or tested without the written consent of a parent.

As it will be several months before some of the schools will be reached, parents are urged to take their children to their doctors now for these preventive treatments rather than wait for school clinics. If a child has already had a preventive inoculation of toxoid or toxin-anti-toxin, he should be taken to his doctor for a Schick test to determine whether the inoculation was successful.

Children under school age need protection even more than school children, because diphtheria is more dangerous in younger ages. The best age for immunization is six months.
