BOGARDUS THE CHAMPION—*An Extraordinary Shooting Feat.*—At Gilmore's Garden, New York, on Thursday of last week, Capt. Bogardus, the famous shot, successfully performed the wonderful task which he had assumed of breaking with a shot gun 5,000 balls in 500 consecutive minutes, the balls being sprung from traps eighteen yards rise. The firing commenced at 2.40 P. M., and the first thousand balls broken were scored in 64 minutes and 40 seconds; the second thousand was disposed of in 1 hour and 23 minutes, and the captain then took a rest, having made but a few misses and being ahead of time. Resuming, Bogardus shot with great rapidity, but in a short time began to give signs of fatigue. In 3 hours 23 minutes and 15 seconds of actual work 3,000 balls had been broken, but during the fourth thousand the line lagged, and the fatigue of the marksman was becoming more marked.

The rates were growing longer and the breaking of the fortieth hundred consumed 11m. 30s., and this, too, with only four misses. The pauses for rubbing up the worker became more frequent, and a pail of hot water was placed conveniently near for use. A rest of 13m. 10s., took place at the close of the fourth thousand, and as the time of breaking each hundred lengthened, the captain seemed the more determined to win A double misfire was doubly provoking, but with brief respites devoted to rubbing arnica without and pouring gin coctails down the throat enabled the assistants to keep the marksman to his work. But the right arm was growing stiffer from shot to shot; the fingers jammed and bleeding, could scarcely grasp the cartridges. The curtain hung in fragments and the crowd closed in about the gunner, but with the same weapon he kept on his raising and shooting. In his weakness the recoil seemed extra strong, and the immense charge of four drachms of strong wood powder were telling, but the margin of time was liberal, and no fears of a breaking down was then felt by the captain's intimate friends. During the forty-eighth hundred he was compelled to drop into a chair, and from that time on shot from a chair, but the rests came faster and faster, and during the last hundred a breathing spell of 4 minutes and 40 seconds was taken. during which the captain lay almost in a state of coma. His strength was enough to carry him to the end, however, and at 10h. 35s., he fired the shot which broke the 5,000th ball, and with a great cheer the audience rushed in, each anxious to be first in congratulating the captain, who almost crawled off under the great ulster thrown over him. Bogardus had won, and with a margin of 19m. 25s. He had raised the ten pounds to his shoulder over five thousand three hundred times.

A NOVEL RIFLE MATCH.—The question as to the superiority of the breech-loading over the muzzle-loading rifles has been the subject of much discussion in England ever since the late international match for the centennial trophy at Creedmoor, and considerable correspondence has been carried on by the advocates of the respective systems of rifle shooting in the columns of the *Volunteer Service Gazette*. In a recent letter to that journal Mr. John Rigby, the Dublin gunmaker, said: "To bring the matter to an issue I am ready to average a match at 1,000 yards between two men shooting with muzzle-loaders and two men with American breech-loaders, the latter to clean at their discretion, but the prize to be awarded to the squad making the best score in a given time." The Sharps Rifle Company has accepted the challenge, and proposes to have the match shot early next spring the respective teams each to shoot upon its own soil upon one day in each of three weeks. The Sharps team will shoot at Creedmoor. The other conditions will be arranged hereafter.

LARGE CHURCHES.—The following paragraph gives the size of some of the largest churches in Europe: St. Peter's Church, at Rome, will hold 54,000 persons; Milan Cathedral, 37,000; St. Paul's, at Rome, 32,000; St. Paul's at London, 35,000; St. Peteronio, at Bologna, 24,400; Florence Cathedral, 24,300; Antwerp Cathedral, 24,000; St. Sophia's, Constantinople, 23,000; St. John's Lateran, 22,900; Notre Dame, at Paris, 21,000; Pisa Cathedral, 13,000; St. Stephen's, at Vienna, 12,400; St. Dominic's at Bolona, 12,000; St. Peter's at Bologna, 11,400; Cathedral of Vienna, 11,000; St. Marks, at Venice, 7,000; Spurgeon's Tabernacle, 7,000.

INFORMATION has recently come to light of a most interesting autograph—it is probably out of existence now, or it would be worth a fabulous sum—belonging to the Emperor Louis Napoleon, and most deeply concerning England. It was a letter from Nana Sahib to the Emperor, offering to make him master of India if he would declare war upon England. The letter was kept at the Tuilleries as a curiosity, and was doubtless destroyed by the Commune. The fact is a good lesson for panic-mongers, for at the very time that Napoleon was tempted to make war upon England while she was in sore distress, he answered the tempter by allowing British troops free passage through France on their way to India.

SINGULAR OCCURRENCE.—One afternoon during Christmas the family of Mr. Willis Noble, residing near Preston, was away from home, leaving a cow and one sheep in the pasture. Upon their return at night the cow and sheep was found in the pound, the sheep fearfully mutilated, but not dead, and by its side lay a strange dog, dead. So far, there is no way of solving the mystery except by inferring that the cow killed the dog, as it had a rent in the side as if made by some such means as the horn of a cow or a stake. It is seldom that justice is so promptly meted as in this instance.—*Denton Journal.*

SUICIDE is not more sinful than neglecting a cough. For only 25 cents you can buy a bottle of Dr. Bull's Cough Syrup and be saved from death.

THE almanac crop is ripe and lying around loose. Inquire of the druggist.

A GENTLE HINT.

In our style of climate, with its sudden changes of temperature,—rain, wind and sunshine often intermingled in a single day,—it is no wonder that our children, friends and relatives are so frequently taken from us by neglected colds, half the deaths resulting directly from this cause. A bottle of Boschee's German Syrup kept about your home for immediate use will prevent serious sickness, a large doctor's bill, and perhaps death, by the use of three or four doses. For curing Consumption, Hemorrhages, Pneumonia, Severe Coughs, Croup or any other disease of the Throat or Lungs, its success is simply wonderful, as your druggist will tell you. German Syrup is now sold in every town and village on this continent. Sample bottles for trial, 10c.; regular size, 75c.

AN IMPROVED METHOD OF SLAUGHTERING ANIMALS is about to be introduced in the slaughter houses of Glasgow and Dundee, Scotland. The invention is known as the "Bruneau mask." The "mask" consists of a piece of leather which covers up the eyes of the animal, being firmly secured round the neck by an elastic band. Over the brain there is an aperture, into which a bolt is introduced, and by a stroke of a wooden mallet on the bolt the brain is pierced. In the event of death not being instantaneous, the bolt is withdrawn, and a cane inserted communicating with the spinal marrow. In this way death (according to the advocates of the "Bruneau mask") is immediately caused. Recently a public trial was made in a Dundee slaughter house of the "Bruneau mask and flute-headed bolt," and the result was considered as entirely satisfactory. The mask has been used for some time in French abbattoirs.

"DON'T let any one say that I do not believe Mr. Hayes fairly elected, *for I have not looked into the subject carefully enough to form a judgment on it.*" This is a remarkable confession for a public man to make, and we respectfully suggest to General Butler that he lose no time now in looking into the subject. With his lofty ideas of political morality we should think he would find such a doubt as to the legality of the President's title quite insupportable.—*Balto. Gazette.*

MR. CONKLING not only wants to be the Senator from New York, the Republican party and the President of the United States, but the rest of the Senate and the Secretary of State as well. We hate slang, but really we do fear that Mr. Conkling is "bitting off more than he can chaw," and, like Tennyson's "brawny spearsman," will have to let his cheek bulge with the unswallowed piece."—*World.*

LUCKY is the baby whose Mamma uses GLENN'S SULPHUR SOAP, with which to wash the little innocent. No prickly heat, or other rash, can annoy the infant cuticle with which this cooling and purifying antiscorbustic comes in daily contact. Sold by all Druggists. Hill's Hair or Whisker Dye, black or brown, 50 cents. j19-4t.

LARGE YIELD OF WHEAT.—H. Slaughter on the "Raymond farm" in Raymond's Neck, belonging to Henry Stout, has got 1682 bushels wheat from 48 acres. This would be a fraction over 35 bushels per acre, and is the largest yield for the number of acres, in Duck Creek hundred, and so far as we know in the county.
—*Smyrna Times.*

THIRTY MILLIONS STOLEN.—The New York *Sun* publishes a list showing that the money stolen in the United States during the past four years—beginning at a period just prior to the panic of 1873—by reason of defalcations, embezzlements, and breaches of trust on the part of city and county officials, bank officers, executors of estates, &c., foots up $30,000,000.

"A STITCH in time will save nine." So will *Leary's Compound Syrup of Wild Cherry and Tar* save you a Doctor's bill if taken in time; it is a sure cure for coughs, colds, croup and all throat and lung diseases. Only 35 cents, sold by all dealers. j12-2t.

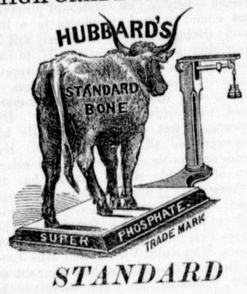
Wheat Seeding!

HIGH GRADE FERTILIZER



STANDARD

Bone Super-Phosphate,

UNEXCELLED
FOR ALL CROPS!

We again offer to the public our *Standard* Phosphate this, our ninth season. It is sold on an increased demand, not only in this State but Delaware, Pennsylvania, N. Jersey and Virginia, and for the last two years it has been extensively used as a *test* side by side of various *higher priced* Phosphates sold in the market, upon Wheat, Corn, and other crops in Kent and Queen Anne's counties, by many of our best farmers, who pronounce it to be equal to any in result, and superior to many, while the price is much less. There are other advantages in favor of the use of our *Standard*, which will be proven on trial.

1st. It is sold at $35 cash per Ton, at the Factory.

2d. It can be easily applied, with safety and profit, upon all crops.

3. It is always guaranteed to be in excellent order for drilling.

4. It is especially adapted to the growth of each and every crop.

5. The Base of the *Standard* is pure animal Bone, of which we invite inspection.

6. Animal Bone is a permanent improver of the soil.

7. Chemistry has enabled us to demonstrate with a degree of certainty that our soils lack principally *Nitrogen, Potash* and Phosphoric-acid, they being the three substances most essential for the profitable growing of crops and the Farmer to buy. Hence

☞We ask but ONE TRIAL

to convince all of the valuable properties contained in our Phosphate as a CROP PRODUCER, and we pledge ourselves to keep it up to its well known HIGH STANDARD, believing that our success depends entirely upon the QUALITY of our Fertilizer. We refer below to the names of a few Farmers who used our Phosphate on their wheat last Fall, which yielded an abundant Harvest:

GALENA MACHINE SHOPS!

Wm. A. Hyland & Co.

WE beg leave to call the attention of the Farmers of Kent and the adjoining counties to our new

COMPETITOR REAPER,

and the many IMPROVEMENTS we have made this year. Our Self-Oiling PITMAN BOX, which will run two hours without stopping to oil; also, case hardened Journals, which we think is a great advantage, preventing the wearing of the Journals, a trouble that all other machines have to contend with. We are now using a Guard with concaved centre, which will PREVENT CHOKING and always present a Sharp Cutting Edge, a thing that must present itself to the farmer at once. Also, a Knife with Steel Back, thereby adding Strength, Lightness and Elasticity; and our PATENT STEEL WIRE DROP, that overcomes all objections to a Dropper, working as well in light as heavy grain, a thing that has been long needed and found at last by us.

We make the Reapers of two sizes, for two and four horses. The four-horse Reaper cuts a Swath of six feet, and will cut from twenty-five to thirty acres of grain per day, and will not work the horses as hard as ordinary farm work. The five foot machine is intended for two horses, and is handled very easily. Farmers, call and see, or write to us and learn what we have for sale.

They are the proprietors of a Corn Sheller with Fan attachment, which with their one and two horse power, will shell and clean seventy-five bushels in one hour, of which fact good reference can be given.

REPAIRING

they do neatly, and all their work is done at reasonable prices. and say to all, encourage home manufacture, or at all events give them a trial.

THE CRAWFORD MOWER

so justly celebrated for its light draft, and good work done by it, they also keep for sale.

Also, the Celebrated Tay lor Rake

☞*WE GUARANTEE every Machine that leaves our Works.*

WM. A. HYLAND & CO.

We are also selling the Celebrated **Hubbard Self-Raking Reaper** AND MOWER COMBINED.

☞Farmers will please give us a call before purchasing elsewhere.
