THE COURTS.

ORPHANS' COURT, Tuesday, May 6, 1879.—Present, Judges Nicholson, Shallcross and Willson. On application, James A. Pearce was appointed guardian to Anna B. and Joseph W. Hazell, who filed his bond with security approved by the court. Said guardian was authorized to expend a sum in the education of his Ward, Joseph W. Hazell. On application, letters of administration on the personal estate of Mary A. Needles were granted to George Vickers and Richard Hynson (the parties entitled first renouncing), who filed their bond, with approved security. George T. Williams and Samuel F. Cooper were appointed to appraise said estate; the usual notice to creditors was ordered. F. Hyson Dill, executor of Charles G. Wood, returned a list of sales of the personal estate of said deceased, which was filed and ordered to be recorded.

CIRCUIT COURT.—The April term of our Circuit Court terminated last Saturday. The following business remains to be reported:

State vs. Louis Ford, indicted at a regular term, some years since, for shooting John Cunningham with intent to kill, April 4, 1874. (On trial at time of going to press last week.) Verdict, guilty. Hynson for defense.

R. C. Thackery, Esq., a member of the bar of Cecil county, was admitted as an attorney of this court.

State vs. George T. Kreager, indicted for dredging for oysters on forbidden grounds, he being at the time captain of the pungy "Indian Hunter," on or about March 22, 1879. Tried before the court, and adjudged guilty. Fined $1 and costs, and to be confined in the county jail for two weeks from May 2, 1897. Hynson for defense.

The Petit Jury was finally discharged Friday.

The following motion for a new trial in the Grice case was filed May 2d by Albert Constable, Esq., senior counsel for plaintiffs:

* * * * "The plaintiff moves the court to set aside the verdict in this case and grant a new trial—

1st—Because the verdict is against the evidence.

2d—Because the verdict is against the law.

3d—Because of the rejection of certain material and competent evidence offered by the plaintiff.

4th—Because of newly discovered evidence.

ALBERT CONSTABLE, Plaintiffs' Att'y.

Mr. Constable will probably reduce his argument in support of the above motion to writing and submit it to the Court at an early day for consideration.

In case of State vs. Marshall Emory, presented for participating in a riot at Thomas B. Wheat's residence, on or about Aug. 17, 1878, a motion to quash was made by the prosecuting attorney.

State vs. James C. Moffett, indicted for an assault upon Samuel Reed, and shooting at him with a pistol, in 1878, a non est has been entered.

State vs. J. Jones Pearce, indicted for keeping a gambling room where cards are played for money, at a game called "all-fours," or "seven up," "euchre" and "bluff," during the months of November and December, 1878, and January, 1879, a non est was entered.

SENTENCING CONVICTS.

On the assembling of Court, Saturday morning, his Honor Judge Wickes passed sentence upon the convicts, as follows:

Louis Ford, convicted of assault with intent to kill, to be confined in the penitentiary for six years from May 3, 1879.

Sellers Mattee (colored), convicted of larceny, to be confined in the penitentiary for 2 years from May 3, 1879.

State vs. William Holmes (colored), convicted of larceny, to be confined in the penitentiary two years from May 3, 1879.

Maria Chase (colored), convicted of larceny, to be confined in the penitentiary one year from May 3, 1879.

The Peach Crop.

INDICATIONS OF A VERY LARGE YIELD.

All the indications are for a very large peach crop this year, though it is not yet too late for frost to cause a total failure. We have known the crop to be killed in this county by frost in June. Should nothing occur to injure the crop in Queen Anne's and Kent counties, the great orchard region of this State, it is believed that 2,000,000 bushels will be raised this year.

Preparations, it is said, have been made to dry, by a patent process, much of the fruit this season, and whenever prices rule low there will doubtless be a very large amount of peaches disposed of in this way. The cost of drying is not more than 10 cents per basket, and a basket of peaches, when dried, will weigh five or six pounds, and sell for 15 to 20 cents per pound. So the dryer can make a handsome profit by this process.

To return the grower 20 cents per basket, the fresh fruit must sell in the market for upwards of 50 cents per basket, as the freight and transportation expenses on perishable fruits are large.—This subject of expense has been a source of discussion among the growers for many years. Why a great railroad can afford to carry a barrel of flour from St. Louis to New York for 20 cents, while the railroads between here and New York must charge 25 cents to put a basket of peaches or $1 to put a barrel of apples there, is a question which the Delaware growers find it difficult to answer. The cost on a basket of fresh peaches from Dover to New York, by the carload, is about 25 cents. The same basket filled with dried peaches, shipped in the same quantities, would go for about 7 cents. Ten cents per box from the Chester river wharves to Baltimore is also claimed to be entirely too much.

Against this injustice the growers loudly protest. The railroad officers say that the matter of rapid trains and rapid delivery, with specially constructed cars, make it impossible for them to accede to the demand of the growers that freight shall be reduced on fresh fruits, and it is said that Mr. Hinkley, the president of the Philadelphia, Wilmington and Baltimore railroad, under whose management the through peach trains are run to New York, has said that should an assurance be given the peach growers that freight rates would be reduced for years to come to the same low rates given for grain, there would soon be so many peach orchards planted on the peninsula that no one railroad in the United States would have facilities to move the crop.

On the fifteenth of the present month there will assemble in Paris a Congress called to discuss the proposed Ship Canal across the Isthmus of Panama. The Atlantic and Pacific oceans come so near to each other at that point that the idea of connecting them by a ship canal struck the earliest explorers. As early as 1528 a route was surveyed under the orders of Philip II. It has since been examined by English, French, American and German engineers and various routes reported as feasible. That such a canal is capable of construction is hardly to be denied but that it could ever be a success is more than questionable. All the surveyors unite in estimating an enormous cost for work. It must always be remembered that though the oceans are near each other, the rocky chain which is called the Andes in South America and the Rocky Mountains in North America form the backbone of this Isthmus. A tunnel which would admit the passage of masted ships, or even of ocean steamers, would be a huge affair and an open cut would be even more huge. It seems hardly possible that such a work will ever be made to pay the interest on the enormous capital that would be required to build it.

A LITTLE boy in Roxburg, Mass, who was seriously ill with the diphtheria, was the owner of a small dog, which had been denied access to the sick-room. One day the dog managed to slip in, and before the attendants could prevent, sprang to the bed and affectionately caressed the boy, lapping his face and mouth. The little boy began to recover from that moment, and regained his health, but the dog died, with every symptom of diptheria.

HON. MONTGOMERY BLAIR has written a letter to a Missouri editor, in which he says the presidential contest of 1880 will be between Tilden and Grant, and predicts the election of the former by an overwhelming majority.

SENATOR DAVID DAVIS is spoken of as the Democratic candidate for President.

THE

"COMPETITOR" REAPER,

MANUFACTURED BY

WM. A. HYLAND & Co

Galena, Kent Co., Md.

The COMPETITOR REAPER, invented by us, has been thoroughly tested in past seasons. There are many reasons why it should be preferred above all others by the Farmers of Kent. It is sold as cheap as any other; the parts can always be had at home; it took the FIRST PREMIUM at Middletown and Kent Co. Fairs, and it is, we believe, the best in the market. Among the numerous testimonials received are the following:

Georgetown, Kent co., Md., April 19, 1879.

Messrs. W. A. Hyland & Co.

Gentlemen:—The Competitor Reaper I purchased of you last season gave me entire satisfaction. Mr. Morris Davis, who carries on the farm for me, says that he can cut from 25 to 30 acres per day, and believes the Reaper to be a reliable machine, working well in all its parts; runs very light to the horses and is easily managed. I recommend the Reaper to any farmers wanting a new and good Reaper.

Yours, resp'y, A. WOODALL.

Masseys, Md., Sept. 10, 1877.

Messrs. W. A. Hyland & Co.—Gentlemen:—The Competitor Reaper I purchased of you last June did its work to perfection, not causing one moment's detention in cutting my entire crop of wheat. In my opinion it has no equal for durability, simplicity of construction, ease of draught, &c. The matter is I would have no other. Yours, very resp'y,

RICHARD C. JOHNSON.

Masseys, Md., Sept. 15, 1878.

W. A. Hyland & Co.—Dear Sirs:—I have used several Reapers and consider yours the best. DR. C. H. B. MASSEY.

Masseys, Md., April 19, 1879.

Messrs. W. A. Hyland & Co.

Gentlemen:—The Competitor Reaper I bought of you last year gave me perfect satisfaction. I have used the following named reapers and believe yours excels each and all of them: The Hussey, Pennington, Jersey Blue, Wood & Champion. I purpose buying another "Competitor" Reaper from you next year to use on a farm that I lately purchased. I cheerfully recommend your Reaper as a reliable and easily managed machine.

Yours, SAM'L HURLOCK.

Galena, Kent co., Md., April 15, '79.

Messrs. Wm. A. Hyland & Co.

I have taken a great interest in your Reaper from the time you first put it out, and have followed it through its many improvements. I believe it to be the lightest draft, the most durable and satisfactory in its work of any dropper that I have ever seen. I have one and would not exchange it for any other make.

Yours, respectfully,

CORNELIUS J. SCOTT.

Masseys, Kent county, Md., April 10, 1879.

Messrs. W. A. Hyland & Co:—Gentlemen:—The Reaper I purchased of you last year gave me entire satisfaction; it worked well in every particular, and I cheerfully recommend the Competitor Reaper to those wanting Reapers for the coming harvest, believing it to be a first class and reliable Reaper. Yours, respectfully,

STEPHEN BOYER.

Masseys, Md., April 4, 1879.

Messrs. W. A. Hyland & Co:—Gentlemen:—I am well pleased with the Competitor Reaper I purchased of you. I have used the Reaper two years with great satisfaction, cutting from 20 to 25 acres per day, and believe it to be the best Reaper out, and cheerfully recommend it to farmers needing new machines.

Yours, truly, SAM'L CACY.

Masseys, Md., March 10, 1877

Messrs W A Hyland & Co:

Gentlemen:—The new Competitor Reaper I purchased of you for the harvest of 1876 gave me the utmost satisfaction in cutting my grain. I cut fifty acres in two days, and I am perfectly satisfied that it is superior to any drop reaper now used.

Very resp'y, yours,

R. H. CORBALEY.

Philadelphia, March 1, 1877.

Messrs. Hyland & Co:—Gents: I used your new Competitor Reaper on my farm near Galena with great satisfaction. For strength and lightness of draught it cannot be excelled. D. McCAULEY.

Near Galena, Aug. 1, 1877.

Messrs. W. A. Hyland & Co.—Gents: I have used the Competitor Reaper I bought of you for two seasons, and consider it to be the most economical machine ever offered to farmers. There has been no expense incurred by breaking or any part of its works getting out of order; and with two horses it will reap 20 acres of wheat per day; runs very easy and light to the horses, and can be readily managed by any farm hand. Resp'y, yours,

EUGENE GOODING.

Cecilton, Md., April 12, 1879.

Messrs. W. A. Hyland & Co:

Gentlemen:—The Competitor Reaper that I purchased from you last season proved all that it was recommended to do and I believe it to be the best Reaper in use. It is of light draft for four horses and is very easy on their necks. It does its work well. *I cut 126 acres of wheat in 4½ days last season* with less expense than I ever did before.

Yours, resp'y,

JEREMIAH C. PRICE.

Galena, April 20, 1878.

W. A. Hyland & Co:—I bought a Competitor Reaper of you last year and cut my wheat (over one hundred acres) and am well pleased with the working of the machine. It runs very light and does the work well. Resp'y,

SAMUEL TODD.

Near Galena, April 15, 1878.

Messrs. W. A. Hyland & Co:—Gents: I wish to inform you that the Competitor Reaper I bought of you last season worked to perfection, cutting with ease both wet and dry grain; did not loose fifteen minutes time, and I can see no reason why my fellow farmers would go from home to buy a machine when such a good one can be obtained in our own county.

Yours, E. B. WOODALL.

Hanesville, April 22, 1879.

Messrs. Hyland & Co:—The Competitor Reaper I bought of you last harvest did its work well. It runs lighter than any machine I have ever used. I cheerfully recommend it to any one in want of a good, reliable machine.

Yours, LEWIN USILTON.

Galena, April 1, 1879.

Messrs. Hyland & Co:—Gents: The Reaper I purchased of you last year I am very much pleased with. I cut 140 acres without any trouble whatever. I cut 25 acres a day and can cut 30.

Resp'y, H. J. GRAY.

Still Pond, April 15, 1878.

Messrs. W. A. Hyland & Co:—Gentlemen: The Competitor Reaper I bought of you last harvest did its work perfect. We first tried it in a bottom where the wheat was wet and down, and it did the work elegant, not leaving or running over any wheat. We cut in valley, hill-side and hill-top, and it acted perfectly in every place. I can cut from 25 to 30 acres per day. It runs very light, and there is no weight of the Reaper on the horse's neck, and it gives me pleasure to say that farmers can buy a first-class machine in their own native county. Very truly, yours,

W. T. HEPBRON.

Church Hill, Q. A. co., April 15, '78.

Messrs. Hyland & Co:—The Competitor Reaper I bought of you last season I consider a first-class machine. It sustained its reputation as a mower as well as reaper; I have used various kinds of machines and I consider this the best machine I ever used, and I can give this certificate without the least hesitation.

Resp'y, JOHN BAXTER.

MR. J. S. KNAPP—Sir: I have made a thorough est of the London Food and recommend it to the public as a good Improvement Food for Horses. I will use it in preference to any condition powders I know of. [They have 300 horses.]

JOHN S. KNAPP—Sir: Having used the London Horse and Cattle Food on both my horses and cows, I cheerfully recommend it to the public as a good condition food for the horse and a profitable condiment for cattle, as it will cause cows to give more milk and make at least 25 per cent. more butter than any condition powders I ever used. Hoping this will induce my friends to try it, after which I am convinced they will bear the same testimony as to its merits as I do.

Yours, respectfully,

Milling! Milling!

THE subscriber most respectfully informs his old customers and the public in general that he has made arrangement with Dr. T. H. Whaland to run his Mill for the present year, and will use his best endeavors to give entire satisfaction. The Mill has undergone a very

Thorough Repair,

and has just finished a NEW BOLTING CLOTH as large as any on the Eastern Shore. This will enable him to do double the amount of work done heretofore, and in a very superior manner.

He hopes by strict attention to business to merit a share of public patronage.

GRAHAM FLOUR a specialty.

The Great Cause of

HUMAN MISERY.

Just Published in a Sealed Envelope. Price Six Cents.

A LECTURE on the Nature, Treatment, and radical cure of Seminal Weakness or Spermatorrhœa, induced by Self Abuse, Involuntary Emissions, Impotency, Nervous Debility, and Impediments to Marriage generally; Consumption, Epilepsy and Fits, Mental and Physical Incapacity, &c.; by ROB'T J. CULVERWELL, M. D., author of the "Green Book," &c.

The world renowned author, in this admirable Lecture, clearly proves from his experience that the awful consequences of self-abuse may be effectually removed without medicine and without dangerous surgical operations, bougies, instruments, rings, or cordials; pointing out a mode of cure at once certain and effectual, by which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically.

☞ This Lecture will prove a boon to thousands and thousands.

Sent under seal, in a plain envelope, to any address, post-paid, on receipt of six cents, or two postage stamps.
