SATURDAY, APRIL 8, 1911.

J. HENRY BAKER, son of Hon. J. H. Baker, has been nominated for the City Council in Baltimore on the Republican ticket. Kent countains take to politics like ducks to water.

EVERY VOTER who took part in the Baltimore primaries is under a moral obligation to support the nominee of his party. It was a fair primary and good men have been nominated.

CARTER H. HARRISON, Democrat, was elected Mayor of Chicago Tuesday. It was the fifth time he has been given the office, and his plurality is in the neighborhood of 18,000. Charles E. Merriam, his Republican opponent, conceded the election two and a half hours after the polls closed. He was a professor in the Chicago University and a reformer.

THE FORCE OF EXAMPLE

To prove that Chestertown has done a great thing, not only for itself but as an example to other towns, is repeatedly coming before our notice. Here is part of an editorial from the Marylander and Herald in Princess Anne:

"The women of Princess Anne have recently organized a Civic Club, whose object is to promote local improvements and to formulate plans for a general advance in beautifying the town. This is a step in the right direction and the object of the organization deserves commendation.

The movement made by the Princess Anne women is in harmony with what has been done in other towns, some of which have made wonderful progress in improving conditions. Chestertown is an excellent example. Under the guidance of the women, that town, according to the local press, has become one of the most attractive in appearance on the Shore. Straightened streets, improved sidewalks, and parking of hitherto useless property, in addition to sanitary measures have been some of the accomplishments."

THE nomination of J. Harry Preston as Democratic candidate for Mayor in Baltimore by over 9,000 majority was a great triumph of the People in condemning the methods adopted by friends of his opponent. Mr. Preston was supported by men of just as high character as those of Mahool or Timanus, and when these men were assailed it stirred them up to put their stamp of disapproval upon the attackers. The words of Cardinal Gibbons are now in place, viz.: "I entertain the hope that after the political battle is over the combatants will endeavor to forgive and forget, and will join hands across the chasm to form an arch of blessed peace. Let them remember that they are all, no matter to what political party they are attached, children of the same mother, citizens of the same country, and all should unite hand and heart in advancing the material and political interests of our fair city."

THE Democrats of Baltimore in their primary election Tuesday polled for their mayoralty candidate the largest vote ever polled by them at any primary in Baltimore. The total vote for Messrs. Preston and Mahool was 50,833. The total registered Democratic vote is 63,960.

Compared with votes at former primaries, when Democratic candidates for mayor were nominated by the direct vote, the figures are surprisingly large. In 1903 the total vote was 39,156, distributed as follows: McLane, 31,576; Hayes, 16,114; Latrobe, 1,466. In 1907 the total vote polled was 39,911, distributed as follows: Mahool, 23,477; Brown, 9,301; Linthicum, 7,133.

The total vote for mayoralty candidates exceeded the latter vote for the two candidates for comptroller, Messrs. Thrift and Cherry, by 6,021. It exceeded the total vote cast for the three candidates for comptroller, Messrs. Hubert, Numsen and Brown, by 4,403. If Mr. George (Stewart Stovey) Brown had not been a candidate for president of the Second Branch City Council, Mr. George N. Numsen would most probably have defeated Mr. John Hubert for the nomination for this position. Mr. Brown got under the protecting wing of the Mayor Mahool and yet he polled 4,395 votes less than Mr. Numsen, who made his own fight in his own way. In a total vote of 46,430, Mr. Hubert defeated Mr. Numsen by only 4,394 votes.

By the nomination of Mr. Preston by nearly 10,000 and of its other candidates for heads of the ticket the Democratic organization, despite the assault upon it, maintained its hold.

The advance reports received from time to time concerning results of the general assessment that has been in progress throughout the state have been of somewhat varying significance. The taxable basis for Dorchester will be about $14,000,000, as against $8,000,000 under the old assessments. If such an average of increase is shown in every other county of the state, then the new assessment will mean much.

In some of the districts of Dorchester, the ratio of increase in valuation has been almost phenomenal. In the Hurlock district the taxable basis has advanced from $575,000 to $1,300,000. Three other districts — Williamsburg, Fork and East New Market—will double their taxable bases. Cambridge increase 70 per cent. Only one district of the county shows no increase.

LOWER TAXES AND ECONOMY

The People's Candidates are Pledged to These Two Things—The Roads as Now Managed an Example of What Can Be Saved For The Tax-Payer.

As each month's work of the management of the public roads of Kent county are published exclusively in the NEWS the People are becoming more and more impressed with the wisdom of the change. Of course it was expected that those who had been doing road work *for the sake of work* would object to the change; also that those who could not name or make the road engineer act according to his or their dictation would criticise or try to interfere with the new system, but the taxpayer interested in lower taxes and economy is loud in his praise of the excellent management of the faithful engineer. This economy, however, is not by any means at the sacrifice of good roads, for it is a well-known fact that the roads are in better shape today than for some years. But it is brought about by the wise council which has prevailed in reparing and working the roads.

Engineer Isaac Gibbs in his report to the Commissioners Tuesday shows that there has been spent on the roads for March $1,702.97, which makes a total of $8,622.83. This time last year these figures were more than double! Of this amount $1,121.58 was spent for permanent roads, nearly equal to State road, in parts of the third, fourth and fifth districts. It is the purpose of the Engineer to improve the roads running from Betterton towards Still Pond, the road in Sandy Bottom and also the road at Tolchester within the next few weeks. This system will be continued throughout the various districts until the sandy places and bad hills as far as possible shall have been put in good condition.

These are the items that Engineer Gibbs reported to the county commissioners which detailed statements are on file with the commissioners giving everything spent and to whom paid:

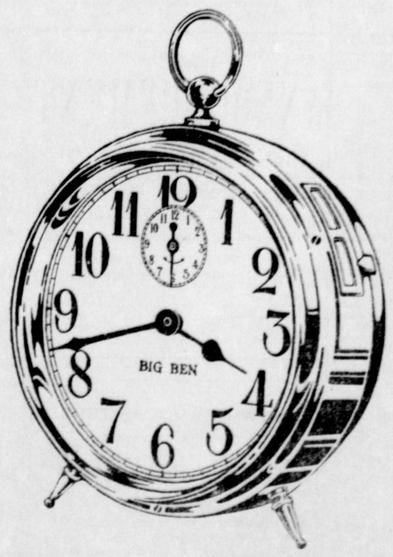
25g-tf-m Elliott, Maryland.



THERE'S a fellow in our store that wants to get work. He is well experienced, comes from a good home and anxious to make a record for himself.

His name is Big Ben. He's a handsome, well built, refined and bright looking chap with a clean cut, open face and a deep, cheerful voice.

Well dressed, punctual, up to the minute and always on the job. Works 36 hours at a stretch and overtime when needed.

Guarantees to wish you good morning when you want and either way you want, continuously for 8 minutes or intermittently for 15.

He makes the store his headquarters — come in and see him whenever you are down town. Very reasonable —same price for one year or for ten.
