The Kent News.

SATURDAY.....FEB. 28, 1880.

A FEELING of intense uneasiness prevails at San Francisco for fear that violent measures will be taken against the Chinese.

THE Democratic National Committee met in Washington last Monday and selected Cincinnati, June 22, as the time and place of holding the national convention. The friends of Mr. Tilden made a strong effort to have the convention held at St. Louis.

GEN. GRANT and party arrived at the city of Mexico Saturday night and were enthusiastically received. The General was escorted to his apartments at the Military College by a military procession. He has not yet decided whether to return home by way of San Francisco or Texas.

THE New York republican convention, which met at Utica on Wednesday, adopted resolutions favoring the nomination of Grant for President. A test vote showed that Grant's friends had 37 majority over the advocates of an untrammelled delegation. A resolution favoring Blaine for second choice was laid on the table.

NEW MANAGEMENT.—Messrs. L. Jeff. Milbourne & Co. have assumed the management of the Baltimore *Evening Bulletin* as publishers and proprietors. Mr. Milbourne was brought up in the counting room of the Baltimore *Sun*, and his experience there will aid him in making the *Bulletin* a first class paper.

THE COLORED REPUBLICANS MOVING.—A convention composed of delegates of the several wards of Baltimore, representing colored republicans, was held in Baltimore on Wednesday night and among the resolutions adopted was one calling for united organization so as to demand four national electors in Maryland, and half the delegates to district, State and national conventions, on the ground that half the republicans are colored men.

WITH commendable enterprise the Baltimore *Gazette* has canvassed the Maryland Legislature on the Presidential question and found that among the Democratic members Bayard has 53 supporters against 10 for Tilden, 6 for Seymour, 4 for Hancock, 1 for Thurman and 8 for any available man. The Republicans are divided: For Blaine 13, Grant 5, Sherman 1, any one except Grant 3, any available man 1. Of the Kent delegation Senator Hepbron favored Hancock, while Messers. Ford and Hulme were for Bayard. Senator Turpin, of Queen Anne's, had no preference and was for any man who could win; Mr. Sudler preferred Bayard, and Mr. Legg was absent on account of sickness.

THEY GOT ALONG WITHOUT IT.—Gov. Hamilton thinks the State ought not to be at the expense of publishing the laws in newspapers to acquaint the masses of the people with legal provisions they are expected to obey, and observes that "the people and the State got along in all time without it, before 1865, and there is no occasion for it now." The Westminister *Advocate*, with pertinent force, replies:

"Our British ancestors "got along" with dirt floors to their houses and had no windows to them. They squatted around a fire in the centre of the dirt floor and the smoke escaped through an aperture in the roof. Later they "got along" without carpets upon their floors, but some progress in civilization by strewing rushes on them. They "got along," many years ago without the printing press, but they would not get along without it now. They did without the mariner's compass, but would not dispense with it now. The people and the State "got along" without steamboats, railroads, telegraphs, but that is no reason why they should be laid aside. The people "got along" for many years without Sabbath schools, and the thousand and one institutions for the improvement of mankind, but is that any reason why they should be abolished? Because the people "got along" without the publication of the laws prior to 1865, is no reason why they should dispense with it now. The people are obliged to obey the laws, and how can they be expected to do so if they are kept in ignorance of their provisions."

OYSTER INTERESTS.—The petition of fifty-six extensive oyster packing firms, who represent $25,000,000 capital, and who ask that a tax shall be imposed on all oysters shipped from the State whether they are shucked or in the shell, is worthy the consideration of the Legislature. There is danger that one of the most important interests of the State may be wholly destroyed by neglect, or by injudicious legislation. The oyster packers suggest a tax of ten cents a bushel on all oysters leaving the State in the shell, or of fifteen cents on each gallon shelled and in packages of any kind. There are over three hundred vessels pirating on the Maryland oyster beds, which furnish the main supply of the whole United States. To require licenses to be taken out by all who dredge for oysters, and enforcing the payment of the tax suggested by the oyster packers, will yield a revenue to the State, and save from destruction a most important source of food supply.

THE YORKTOWN CENTENNIAL.—Gov. Holliday, of Virginia, has written a letter to Gen. J. M. Drake, of Elizabeth, N. J., expressing gratification that the General, with the Veteran Zouaves, of that city, proposes visiting Yorktown, Va., in October, 1881, and he promises the visitors a kind and hearty welcome from the people of Virginia. Gov. Holliday hopes, from the interest manifested all over the country, that the proposed celebration will be worthy of the occasion. The Zouaves will take with them their battery of Gattling guns and brass cannon, now in their possion, which was captured at Stony Point by troops from Elizabethtown and Virginia.

THE daughter of Spotted Tail, a tall, ungainly young woman of 18, is studying in the government school for Indians at Carlisle Barracks, Pa. She has lately married the half-breed interpreter employed at the barracks, and when sent to do some scrubbing the other day her lordly husband interfered. His wife was of royal blood, he remarked, the daughter of a chief, and he wanted her to learn only what the white ladies do.

SPREAD OF THE FAMINE IN IRELAND.—The correspondent of the N. Y. *Herald* in Ireland report the distress there as daily spreading. Actual starvation is only kept under by the excellent machinery for distribution controlled by the several committees which have the funds in charge. In Donegal the number of distressed receiving relief has increased to 66,000. In county Mayo, since the *Herald's* first report, two weeks ago, the increase in the number of destitute persons has been nearly 25,000. The fear is general that the greatest distress has not yet been reached. The time most dreaded is that between the middle of May and the middle of July—the time, in other words, between the coming up of the potato crop and its maturing for the table. The government relief, though liberal, does not appear to be so managed as to extend its benefits to the most destitute and afflicted. The works are given out to contractors, who cannot be compelled, and who therefore will not employ the untrained and famined-weakened poor, but only able-bodied men capable of earning their wages. Some letters which the *Herald* prints are full of affecting details. One of these letters report three hundred families in a single parish on the brink of starvation, and nothing to give them. We have heard of letters received in this city by gentlemen having connections in the West of Ireland which tell fully as grevious a tale. The demand for relief is incessant, urgent and most mournful, and it rests upon an almost universal distress which no spasmodic efforts seem capable of reaching.—*Baltimore Sun.*

THE THIRD TERM.—In the March number of the *North American Review* there is a "symposium" between Judge Black and Mr. E. W. Stoughton in regard to the third term, the former presenting the reasons against it, the latter those for it. Mr. Black overhauls the late article of ex-Senator Howe on this subject with severity, but the gist of his argument is contained in his summing up of the *moral* repugnance of the people to such a violation of the unbroken traditions of their fathers. As Mr. Black says: "A President of the United States may legally be elected and re-elected for an indefinite number of terms; there is nothing in the constitution to forbid it; but the two-term precedent set by Washington, followed by his successors, consecrated by time and approved by all the public men of the country, ripened into a rule as efficient in its operations as if it had been a part of the organic law. A distinguished and very able Senator of the Grant party, who had carfully inquired into the state of the popular feeling, told me in 1875 that the sentiment which opposed a third term was stronger than a constitutional interdict; the people would more readily assent to a breach of popular law, tentually inserted into the constitution, than to any disturbance of an unwritten rule which they regard as so sacred."

IT costs the government something to bury congressmen who die in harness. The expense for the last fiscal year was $13,366 97. The funeral of the Hon. Gustave Schleicher, of Texas, cost $5,102 92, of which $313 50 was expended for gloves and silk scarfs, at $9 each, for the delegation. The cost of the funeral of the Hon. A. S. Williams was $1,449-60; of the Hon. T. J. Quinn, $432 15; of the Hon. Rush Cark, $2,664 45; of the Hon. B. B. Douglas, $1,041 65, and of the Hon. Julian Hartridge, of Georgia, $2,686 22. Besides this, the printing of eulogies cost $20,000.

THE PROPOSED WASHINGTON MONUMENT.—There was a largely attended special meeting of the New York Chamber of Commerce Saturday, to set on foot measures for erecting a staute of Washington in Wall street. Speeches in favor of the scheme were made by Mr. Elliott C. Cowdin, Col. F. A. Conkling, and others, and a resolution was unanimously adopted referring the question of the propriety of the proposed movement to a committee of twenty-five, to ascertain if a suitable site can be had therefor, and to suggest what further measures to adopt to carry such purpose into execution.

A WEALTHY resident of Union Hill, New Jersey, is said to be contemplating the construction of a commodious crematory in which remains will be incinerated for the reasonable sum of forty dollars per corpse. Union Hill is not far from New York; and as the crematory charges are much below the cost of the average funeral, it is not at all unlikely that the enterprise will prove a profitable business speculation. But it will deprive the dessecting tables of the medical schools of many a valuable subject.

MR. BAYARD STRONG IN NEW YORK.—If every Democratic voter in New York could freely express to-morrow his real conviction as to who would be the strongest candidate of either party in this State next November, Mr. Bayard would be the Democratic choice by a large majority. —*N. Y. World.*

IT would be good, though unexpected, news to hear that in distant Mexico Grant spent the 22d of February in contemplation of Washington's refusal to accept a third term of the presidency.

THE New York *World* announces once for all "that, under Mr. Tilden's lead, democratic reunion, harmony and good understanding in New York are absolutely impossible."

THREE thousand Germans took part in the anti-third-term meeting in New York Monday evening, and the expressions against Grant were of the most emphatic character.

THE packages of tomatoes put up last year in the United States reached the total of 19,978,000, of which New Jersey put up 5,592,000 cans.

It is estimated that 50,000 men and women are employed in Philadelphia in the manufacture of clothing, making 20,000,000 suits a year.
