SATURDAY.. ..... JULY 24, 1880.

HORRIBLE MURDERS AND SUICIDE.—At Lyons, New York, Sunday last, Solomon H. Easterly, a farmer, worth between $20,000 and $30,000, quarreled with his wife and her mother, Mrs. Greer, when he (Easterly) left the house, and securing an axe returned, and on entering the room where Mrs. Greer and his wife were he at once attacked the former, striking her a terrible blow with the axe on the head, sinking the blade into the woman's brain. Mrs. Greer, on being struck, staggered to a corner of the room, where she fell and almost immediately died. Easterly, after striking Mrs. Greer, turned to his horror-stricken wife, before whose eyes he had killed her mother, and, raising the axe, struck her. She dodged the blow, and only a slight wound was inflicted. This was followed by another blow, with like results. Before he could deal a third blow his wife made her escape from the room and ran out. Her husband followed her, and overtaking her beneath a tree struck her a terrible blow on the top of the head as she was running. The skull was crushed in and the woman fell to the ground and died in a few moments. Easterly dropped the axe, and hastening to the barn got out his horse and buggy, and drove off. The knowledge of the double murder caused great excitement at Lyons. Officers were notified, and a number of persons started in pursuit of the fleeing murderer. The pursurers failed to find Easterly, but at a later hour discovered his horse and buggy hitched at Hotchkiss's mill, some four or five miles distant, and on the banks of the Canandalgua outlet. At an early hour Monday morning searchers discovered Easterly's clothing lying on the bank of the outlet, some distance from the mill. A search of the outlet resulted in finding the dead body of the murderer and suicide, he having drowned himself.

ONE of the most horrible crimes ever committed in Pittston, Pa., was perpetrated Monday evening by Justin Hoffman, a German shoemaker. He had returned from a day's debauch and as usual, began abusing his wife, using the foulest language. She sat caressing their little child in the scantily-furnished room that overlooked the back yard, where several children were at play. The wife begged her husband to be more reasonable, if only for the sake of their child, who had been taken suddenly ill that afternoon. Her kind words seemed to incense him, and he swore furiously. The little child, terrified by its father's fiendish conduct, crouched close to its mother's breast, trembling with fear. Just as the mother was endeavoring to allay its terror, Hoffman grasped his gun, and, retreating towards the door, with a demoniac look in his eyes, took deliberate aim at both. The blood gushed from the mother's breast where the shot took effect, and the child who had been shot through the head, tossed about in the throes of death in her arms, and died in a few minutes. Hoffman, still thirsting for blood, fired among the children who were at play in the back yard, and wounded two of them. One was his own and the other belonged to his neighbor. By this time the people living close by became alarmed and ran to the scene of the tragedy. Hoffman was disarmed and dragged before 'Squire Ensign, followed by a threatening crowd who were anxious to lynch him, but he was protected by officers and lodged in the county prison at Wilkesbarre.

THIS from the New York *World* is directly to the point. Who will take up for Oakes Ames and underate the old man's character for truth?

Harper's Weekly frankly admits that the "case" of General Garfield in the matter of the Credit Mobilier business "consists wholly of his word against that of Oakes Ames." This being the fact, on what ground is the country asked to believe that General Garfield told the truth and that Oakes Ames committed pejury? There can be no party feeling in this matter, for Oakes was a much more distinguished and influential republican member of Congress when this question arose between himself and Gen. Garfield than General Garfield had ever been until he was suddenly pitchforked into a Presidential candidacy at Chicago. Are not the friends of Oakes Ames entitled to be heard on the subject? Have not some of these friends been erecting a stately monument to Oakes Ames in New England recently? Suppose that General Garfield had died several years ago and that Oakes Ames had been nominated for the Presidency at Chicago, which then would be the perjurer and which the truly honest man according to the republican newspapers?

A NOVEL MODE OF SWINDLING.—Two men, attired in the garb of Sisters of Charity, have been soliciting contributions in Reading, Pa., for an asylum in New York. They went from house to house and adopting the plan of making friends with children of well-known people. These children the collectors took with them from place to place. They had particularly good luck, and were lodged by hospitable people who treated them with the consideration it is lucky to bestow upon an angel unaware. After they had collected quite a large sum, they left for a new field of labor.

HON. SAMUEL J. TILDEN, it is announced, has consented to preside at the democratic ratification meeting at the New York Academy of Music, provided his health will permit. Ex-Gov. Seymour writes that he will come if possible, and so does Mr. Hendricks, of Indiana. Senator Kernan and Gov. Hampton, of South Carolina, also will probably be present. It is designed to have a series of meetings, of which the Academy is to be the centre only, Irving and Nillson Halls, as well as the open streets, being included in the programme.

RUSSIA'S short grain crop is once more the promise of a European market for America's surplus supply. Russia's average export will, it is thought, be cut down this year at least a fourth by imperial prohibition, if not still more. This prohibition will be likely to open the German markets to American grain, as Germany's rye crops are poor; and thus the ill wind in that quarter will once more blow good to American farmers.

YESTERDAY was the twenty-sixth of Dr. Tanner's self-imposed fast of forty days. He was getting along very well and the physicians in attendance believe that he would be able to hold out. The Doctor has lost two inches in height since he began fasting. This is explained by the shrinkage of the cartilaginous substance between the vertebrae of the spinal column.

A SHOCK of earthquake was distinctly felt at Contoocook, Manchester and Milford, N. H., last Tuesday evening. Dishes and pictures were shaken down in several instances but no serious damage is reported.

Political Notes.

GEN. NEAL DOW has written a letter accepting the nomination for the presidency by the national prohibitory party.

AT a meeting of the Brooklyn (N. Y.) war veterans last week, Col. Coler and Adjutant Donald McDonald, both republicans, announced their purpose to vote and speak for Hancock.

WHEN an Ohio man gets into the woods for a couple of days, on a fishing excursion, the first question he asks on his return is: "Have I been nominated for any office while I was gone?"

GEN. E. W. BARBER, of Jackson, Michigan, who was third assistant postmaster-general under the Grant administration, has declared for Gen. Hancock. He was a staunch friend of the late Senator Chandler.

SENATOR BLAIR, republican, of New Hampshire, says the contest in that State will be one of the hardest that ever took place, and says it will be "absolutely necessary for the republicans to strain every nerve to succeed."

HAMILTON FISH, JR., is for Hancock. When a Republican changes his clothes and holds his head up he makes a first-Hancock man.—*Phila. Times.*

A PERSONAL friend of Gen. Grant in Washington says that the ex-President will never allow his name to go before another presidential convention and will never again take an active part in politics.

HON. MARSHALL JEWELL complains that Democratic newspapers are 'flinging mud' at Gen. Garfield. He conveniently forgets that the "mud" referred to was manufactured by Gen. Garfield himself.

SEN. HAMLIN, of Maine, has fully decided not to be a candidate for re-election. Congressman Frye and ex-Congressman Eugene Hale are aspirants for the place.

OF course Gen. Grant says he will support Garfield. Nobody ever doubted it. At the same time he is frank enough to say that he had nothing against General Hancock.

GEN. HANCOCK is reported to be a rich man. Besides all his other property in Missouri, he has some excellent coal mines, which he refuses to sell, and does not at present care to open.

IT would hardly have done for Gen. Garfield to have taken very elevated ground on civil-service reform with Custom house Arthur as his associate on the Presidential ticket.

MAJ. GEO. W. MURPHY, a member of the republican executive committee of Alleghany county, Pa., and James M. Caldwell, also a republican and a prominent lawyer of Pittsburg, have both joined a Hancock Club in that city and made speeches favoring his election.

REPUBLICAN newspapers make a poor fist of it in attempting to pooh-pooh the accessions to Hancock and English from the Republican ranks. It is perfectly evident to unprejudiced men that the number of Hancock Republicans is large and steadily increasing.

A NOTORIOUS desperado, for whose capture $500 had been offered, was caught in Oregon by two constables. They had to convey him a hundred miles in a wagon, and knowing his reckless character, they tied him to the seat. On the way he tried several devices to escape, but in vain, until he hit upon the desperate one of firing a keg of powder that was in the vehicle. This he did by covertly throwing a lighted match into it. He crouched as low as possible, and shielded his face, so that he was not seriously injured. One of the constables was killed, and the other burned so badly that he could do nothing to prevent the prisoner from getting away.

MEXICO seems at last to have entered fairly on the path of constitutional government. Gen. Gonzales, who according to the latest dispatches had secured a majority of the popular vote and who will probably be confirmed as President by Congress, is said to be an able and patriotic man, and the simple fact that President Diaz permitted him to be elected without a revolution augurs well for the future of our Southern neighbor.

IT isn't pleasant to think that the so-called "medical colleges" in Philadelphia recently broken up by the police sold as many as eleven thousand bogus diplomas to would-be physicians. Imagine eleven thousand quacks experimenting with human life and happiness under the mask of regular practitioners! From the published lists of "graduates" it would appear that these sham doctors are pretty well scattered over the country, and even Cuba, England, Germany and doubtless other foreign nations have their share.

THE population of Pennsylvania, according to the new census, is about 4,226,000, an increase of twenty percentum in ten years.

THE American team at Wimbledom are astonishing the sportsmen on the other side of the Atlantic at their fine rifle shooting.

Kennard & Co's Sterling Phosphate.

$23.00 CASH. $25.00 TIME.

THE GREAT SUCCESS of our Fertilizer last Spring has encouraged us to enlarge our Factory and adopt new and improved machinery, so that we are prepared to again offer our goods to the farmer, and guarantee a prompt and certain delivery of all orders. We respectfully invite the patronage of all, and are satisfied that a trial will insure the endorsement of those who use the "STERLING."

The following testimonials are a few of those received as to its work last Spring:

Chestertown, Md., Feb. 21st, 1880.

Dear Sirs:—Your Phosphate that I used on my Corn last Spring gave me great satisfaction. I also used your Wheat Phosphate last Fall; it is now looking as well as other Phosphates on the same land at a higher figure. I expect to use your goods next Spring. Yours, truly, COMEGYS BROWN.

Chestertown, Maryland, February, 1880.

KENNARD & CO.:—In reply to your question regarding the action of your Fertilizer, I will just state that I have only tried it on sugar beets. I applied it to my beets last Spring, putting it in the drill before I planted the seed, and notwithstanding the unfavorable circumstances to which the beets were subjected, the yield was far ahead of my most sanguine expectations. Yours, &c., I. C. TAYLOR.

Chestertown, Md., March 5th, 1880.

MESSRS. KENNARD & CO.—Gentlemen: I used your Phosphate last Spring on my Corn; applied it at the rate of one handful to three hills, and where I put it the yield was about twenty-five bushels to the acre; where I did not put any the yield was about ten bushels to the acre. On a portion of the same land I applied barn-yard manure, and the result was about twelve bushels to the acre. Where I used your stuff the ear was large, well filled, and I could not find a worm in a hundred ears; the grains were large and close together. Where I did not use the Phosphate a great many ears were wormy and poorly filled. I can cheerfully recommend it, and will use more this spring. Yours, truly, GEORGE W. LONG.

We also keep on hand a full stock of Pure Dissolved and Ground Raw Bone Potash and other Chemicals, which we furnish at prices equal to any offered.

IT WILL BE TO YOUR INTEREST TO CALL AT

GEO. E. LAMBERT'S

THREE STORY

E. SHORE CARRIAGE FACTORY

Opposite M. P. Church, CHESTERTOWN,

Where can be seen the latest styles Carriages, such as the Brewster Side Bar and Spring Buggy, Jenny Lynns, Jump Seats, Plain Rockaways, Sash-door Rockaways, all of his own make, of the best material, and by workmen who have certificates from the first class factories of the country.

We keep on hand a large lot of material of the best quality, bought at lowest margin, together with a large force of workmen, and we can turn out jobs at short notice, all of which are guaranteed for 18 months. Our Carriages took *first premiums* at the Kent Co. Fair three years in succession while other Factories were in competition.

We trade our new work for second-hand, or wheat or corn, to accommodate.

REPAIRING done at short notice and guaranteed.

Specialty!—We would call attention to our *light running Express Wagons, Dearborns, &c.*

Grateful to our patrons for past favors and promise of future support, we have determined to enlarge our business, and shall employ a force sufficient to built 50 to 100 Carriages, besides the large amount of repairing we have to do.
