Special Notice to Ladies

Our large purchase of Ladies' Suits for this season are now completed and the final lots have arrived, and are ready for selling. These Suits are just what you are looking for. Our strong argument is that you get them just a "little cheaper" than elsewhere. These specials should sell at sight.

Prettiest Wash Fabrics

We say prettiest, for surely there never were any prettier Wash Fabrics than these we are showing. Organdies, Dimities, Batistes, French Ginghams, Lawns and Voiles crowd each other for room, and when you consider that the prices are so very low the goods become very tempting.

Embroideries : An Endless Variety

There are All-Overs, Edgings and Insertions—baby width, medium widths and flounce widths. Patterns from a fraction of an inch to a half yard, with unusually liberal margins. The designs are beautiful, artistic and diversified. Neat exquisite effects for baby clothes and women's lingerie, dainty styles for trimming waists and showy elaborate combinations for flounces and ruffles.

DESIRABLE WATER FRONT FARMS

No. 124. Beautiful Bay Shore Farm, on Chesapeake bay, 191 acres good quality land, 25 acres in chestnut, oak, hickory, walnut and locusts, balance tillable and in a good state of cultivation. 4 000 keiffer pear, damson and plum trees just in bearing, good healthy orchard. Improvements consist of a 10-room dwelling, part brick and frame, bay window front, 3 large porches, 16x26 feet, cellar, 4-room frame dwelling also situated along shore and in good condition, white family tenants; 8-stall stable with large loft, large granary, cribs will hold 1500 bushels of corn and large loft, carriage house and wagon shed with loft, every thing in good condition; 87-foot well and wire fencing. This property is very desirably situated on the Chesapeake bay, within 500 yards of steamboat wharf, steamer stops there making regular trips to Philadelphia and Baltimore. This property at $10 000 is the cheapest proposition on the Chesapeake; location, improvements and soil would be difficult to surpass.

No. 110. Napley, a beautiful water front estate, on Chester river. Napley is beautifully situated on Chester river, in Kent county, Md., and contains 248 acres of well-improved land, 340 acres tillable, 108 acres in good timber (easily $6,000 worth of timber can be cut off this farm); 4,000 peach, 800 pear and about 80 apple trees in good bearing. Large 12 room frame dwelling, newly papered and painted, 2 large porches and fine shade, 6-room tenant house and another smaller tenant house; 10 stall stable, granary and other necessary outbuildings in excellent condition; 2 pumps fine water and good fencing. This is one of the most desirable water front on Chester river; the dwelling is erected on a high knows, affording a most beautiful view of up and down the river; fine harbor for motor boats. This property is extremely pleasant in summer, high and healthy, and for a summer home on the water it difficult to surpass. The soil is easy to till and very responsive to cultivation, therefore this property combines both the summer home and a profitable farm. Price $22,000; is absolutely going to be sold. Write at once.

No. 115. On Bohemia River, in Cecil County, 114 acres of good land, improved by a 3-story brick dwelling, steam heated, fully equipped bath rooms on second and third floors, large porches and fine shade. Also a 7-room farm house, good outbuildings and a small cottage; buildings are all in good condition and cost much more than what we are asking for the farm. This farm has a fine view of Bohemia and Elk rivers and is very desirable. Price $9,000. Possession at once.

No. 112. Pretty water front, in Kent County, on Lankford's Bay, 132 acres of land, 12 acres of woodland and balance tillable; apples, pears, cherries, damsons, half-acre gooseberries and grapes for family use; 7-room brick house, 5-room tenant house, stable, barn and all other necessary outbuildings in good repair. This property affords a most beautiful view of Lankford's Bay; the house is erected on a high bluff with a gradual slope to the bay. Price $4000. Fish, oysters, etc., plentiful; delightful in summer—comfortable in winter.

MIDDLETOWN'S CRACK NAG.

New laurels for Middletown as a fine horse flesh center! "R. T. C." the sorrel gelding sold for over $5000.00 last Summer by Mr. Willard B. Biggs to a purchaser in Columbus, Ohio, is already aspiring after new honors, having been entered in the 2 14 class of the "Paper Mills" $10,000.00 stake, in the racing events scheduled for Kalamazoo, Michigan.

"R. T. C.," was foaled in 1902 by Prince March, owned by Mr. C. Malcom Cochran, and whose record is 2 13¾. "Prince March" is out of the dam Mrs. Nellie, by Nut Brown Prince, whose dam was Brownson out of Legatee, with a long and first-class pedigree on both sides of both his parents.

"R. T. C." was bred by Mr. Dan M. Cochran who yet owns his mother, Mrs. Nellie, besides four other promising colts, one of which is a full brother to "R. T. C." He stands 15½ hands high, and is the fastest trotter ever bred in Delaware. His rise to fame was sudden enough to be called romantic. After only seven workouts in 1909, he was put on the track, and at once made a record of 2.14¼. Inasmuch as his late owner, Mr W. B. Biggs, drove him on the kite shaped track of Doctor McCoy at Kirkwood, at so keen a pace as 2.09 it is believed by knowing horsemen in this vicinity that "R T. C." will give such a good account of himself as will cause those westerners to sit bolt upright and take the liveliest kind notice of the big wonder come out of "Little Delaware."

FOURTEEN RODE FOR ONE FARE

Oklahoma is about to acquire a remarkable family. Mr. and Mrs. Frank Scott, of Highland, Kan., are seeking a location for a home somewhere in the State where they can obtain plenty of land. They will need it, for they have been married not quite ten years and are the parents of 19 children, all of them boys and 13 of them living. They hold the record on triplets, having five sets to their credit and two sets of twins. All of the 13 boys living are under 5 years old. Mr. and Mrs. Scott are the children of farmers living near Highland.

Last fall the Scotts, deciding that they must find more land, went to Alberta, Canada. They were not satisfied there and returned. On the return trip all records in the history of railroading were broken.

Mrs. Scott and her 13 children all rode on one first-class passenger ticket. At Omaha the conductor made a vigorous protest.

"Madame, you cannot carry a whole Sunday-school along with you on that one ticket, and you need not tell me these are all yours. You will have to pay fare for some of them."

"The rules of this railroad company provide that a child under 5 years of age may ride free when accompanied by its parents with a first-class ticket, don't they?" retorted Mrs. Scott.

"They do, but you will have to show me."

Then Mrs. Scott dug down into her valise and brought out the family Bible in which was recorded the names and ages of each of the children. The conductor had to give in. The mother and children occupied five double seats in the homeseekers' car and paid for only one.

PUBLIC SPRAYING DEMONSTRATIONS TO BE HELD.

Soon Time to Spray For Codling Moth And Plum Curculie.

The success attending the conducting of spraying and pruning demonstrations in different parts of the State by the State Horticultural Department of the Agricultural College and the Horticultural Department of the Experiment Station during the early spring, has been unprecedented.

Plans are now being made for holding spraying demonstrations for the control of the codling moth and plum curculie. It is hoped to be able to hold them in each county of the State. The officers of the department firmly believe in such demonstration work as it has shown to be the best means of disseminating information. The people of a community are invited to attend a spraying demonstration and also to see the results of the treatment in the fall.

Every one who has apple trees should spray them just as the blossoms fall with a solution made by combining two pounds of arsenate of lead and one and one quarter gallons of consentrated lime sulphur solution to fifty gallons of water The Pathologists are recommending lime sulphur as a fungicide in preference to the Bordeaux mixture, for the first spraying at least.

All peach trees should be sprayed with arsenate of lead two pounds and slack lime three pounds to fifty gallons of water, just as the calyces or shucks are falling off the tiny fruit. This occurs about ten days after the blossom falls. This spraying will aid in preventing injury from the plum curculie, through whose punctures brown rot and other disease enters causing the fruit to rot later on.

These treatments, applied at the proper time which will now be shortly through the State, are exceedingly important.

THOMAS B. SYMONS,
State Entomologist.

A GENTLEMAN from an adjoining county who recently returned from a trip to a neighboring State tellls of a "call down" he saw posted in a large manufacturing plant, which showed the character of the man at the head of the enterprise. The visitor said the epigram was so pointed and posted in such a conspicuous place that no one but a blind man or a galloping horse would miss it. The notice read:

"A man that whistles at a woman he does not know is a contemptible coward of the meanest kind. He knows she cannot defend herself as a man could and therefore he takes advantage of her weakness to expose a low trait in his character."

Hats off to the man who has the courage of his convictions and who thus attempts to curb a practice which is too common in every community. By striking at an evil of this kind it shows of what material he is composed. A woman, whether she reigns as queen in the home of refined taste, toils at the busy loom or intricate machinery, or whether a clerk in a store or factory is entitled to every mans chivalrous respect, and the occasional encounters with men of the stamp of this manufacturer help to sustain one's faith in the human race.
