GARFIELD'S LAMENT.

From the New York World, Oct. 6, 1880.

This life of mine
I'd fain to resign
No more to hear 329.
All things combine,
And still outline
My anguish from 329.
If to the brine,
I do incline
The breakers roar 329.
The gentle vine
Its leaves entwine
In forms that read 329.
Ah! how malign
That awful sign
Writ everywhere, 329.
Woe's me, I pine
For Auld-Lang-Syne
Before I snatched 329.
This cheek of mine
Incardanine
Glows when I hear 329.
Oh! comrades mine
Upon this line
I cannot fight 329.
329,
329,
Three hundred and 29.
Nine, brothers, write it nine,
Write it on the shutters and write it on the sign,
A great big 3 with a 2 combine,
And a 2 standing straight up before the 9.
A nine behind the 2, and a 3 beads the line,
Nine, brothers, write it nine,
Write it on the shutters and write it on the sign.

MARRYING UNLAWFULLY.

For the benefit of ministers and others we publish below the law of Maryland as regards marrying:

Article 73 of the Code is as follows:

SEC. 103. If any person shall marry with any person within the three degrees of direct lineal consanguinity, or within the first degree of collateral consanguinity, each of the parties so marrying, on conviction thereof, shall forfeit and pay fifteen hundred dollars, or be banished from the State forever.

SEC. 104. If any person shall marry with any person related within any other of the degrees of kindred or affinity prohibited by the laws of this State, each of the parties so marrying shall, on conviction thereof, forfeit and pay five hundred dollars.

SEC. 105. If any minister shall knowingly celebrate the rites of marriage between any persons related in the degree of kindred and affinity prohibited by law, on conviction, pay five hundred dollars.

SEC. 106. If any minister, pastor, or other person who, according to the laws of this State, do usually join people in marriage, shall upon any pretence join in marriage any negro with any white person, he shall, on conviction, be fined one hundred dollars.

SEC. 107. If any person shall celebrate the rites of marriage between any white persons except the persons authorized by the laws of this State to celebrate the rites of marriage, such person, on conviction shall be fined five hundred dollars.

SEC. 108. If any person in this State shall marry without license, or without such publication as the law requires, on conviction, he shall be fined one hundred dollars. This section does not apply to Quakers, who marry according to the usages of their society.

SEC. 109. If any person belonging to this State, shall go out of this State and there marry with any person belonging to this State, without such license or publication, each of said parties, on conviction, shall be fined a hundred dollars.

SEC. 110. If any minister shall marry any person without such license or publication, on conviction, thereof, shall be fined one hundred dollars.

SEC. 111. If any minister shall knowingly join in marriage any male under the age of twenty-one years, or any female under the age of sixteen years, and not before married, without the consent of the parent or guardian of every such person, personally given or signified under the hand and seal of the parent or guardian, attested by two witnesses, he shall on conviction, be fined fifteen hundred dollars.

TROUBLE AMONG THE GREENBACKERS.—D. D. Lum, assistant secretary of the national committee of the greenback party, has written to Representative Murch, of Maine, the committee's chairman, a letter in which he charges that "the greenback national canvass as now conducted is manipulated in the interest of the republican party, and Gen. Weaver's expenses borne in a large measure from the republican campaign fund." He adds:

"I have in my possession letters and telegrams from the republican national committee headquarters showing their solicitude for the greenback movement, and written proof of their appropriation of funds to encourage greenback dissention. Gen. Weaver's plan of the campaign was formed before his nomination. His ambition has been to throw the election into the House. Last May, when reasoning with him on the improbability of success in that case, he said he was confident that it could be brought about through an alliance with the republicans, who held nineteen States in Congress. At that time I laughed at the idea of republican sympathy, but the progress of the campaign has demonstrated that every move made by our standard-bearer has been to win the confidence of the republican party. In case the October election should go heavily democratic, Gen. Weaver's friends are hopeful of inducing the republicans to withdraw their electoral ticket in West Virginia, Missouri, Texas and Mississippi, and perhaps secure thro' their support enough votes to enable the election to be thrown into Congress."

JUSTICE FOR DEPOSITORS.—The Court of Appeals, by a decision which we recently reported, has set up a timely legal "danger signal" at the door of the private residence of every trustee and director in a savings bank or a trust company. It seems from this decision that the moribund Central Park Savings Bank had a set of trustees who played ducks and drakes with the deposit moneys, and who, instead of caring for what they held, advertised for more depositors by erecting on credit a spacious bank building. When the depositors came for their dollars they found them transmitted into brown stone, mortar and fine furniture, and learned that even those unsatisfactory equivalents must be sacrificed to a mortgagee at a time when real estate was falling. After a few years of litigation the Court of Appeals has done justice to the weary depositors, and at the same time has taught to all other financial trustees a lesson by forcing the trustees of the Central Park Savings Bank to make good out of their private means the deposits lost thro' their reckless management.—*N. Y. World.*

A LEADING republican journal—the Springfield *Republican*—frankly tells its party associates that the Republicans have lost by every false issue that has been raised to mislead the people and sounds a note of warning in these words: "The first attack brought out the Sherman correspondence, which a good many Republican papers, the New York *Tribune* among them, have not even dared to give their readers. The next has brought his letter on Southern claims. A third might bring about the letter to the American people known as an inaugural." But what would the *Republican* have the *Tribune* and kindred spirits do? As the Republican party has no issues on hand worth speaking of the organs are obliged to invent some if merely for the appearance of things. It must be confessed, however, that they have not achieved much success in the business thus far.

A GREAT APPLE YEAR.—In 1878, when apples were unusually plentiful, 333,000 barrels full were sent abroad, but it is calculated that this year no less than 500,000 barrels will be shipped to Europe, where the crop is said to be almost an entire failure. This of course gives American shippers an open market, and will result, it has been stated, in the shipment of half a million barrels of fruit. The prices realized in Europe, too, are double what can be obtained here; so that it can readily be understood how important a part the European markets play in the fruit trade. A significant feature of the shipments is the fact that many of them are made from Montreal, where the freight rates are so much lower than in New York that money can be saved by sending American apples there to be shipped abroad.

THE largest casting ever made in this country was turned out at the Black Diamond Steel Works, in Pittsburg, on Tuesday. The casting was an anvil block for a 17-ton steam hammer, and its weight was 160 tons. Five furnaces were built expressly for melting the iron, and seven hours were occupied in running the metal. The hammer will be the largest in the country, the next largest, of ten tons, being at Nashua, N. H. Four months will elapse before the block will be cool enough to handle.

MRS. GEN. HANCOCK is described as a lady who in conversation knows how to put her callers at ease. She is somewhat saddened when her visitors say that she may leave Governor's Island, which has been her home, for Washington. But she said to a lady caller, "I can do my duty; I have always been a duty woman." She is greatly amused by the humors of the campaign, especially when a good thing is said about the General.

The introduction of the

English Condition Powders.

In our American market, exempt from duty, freight, &c., has proved to the thousands who are daily using them that they have been a long felt want.

For the past half century they have grown in public favor and general use in all quarters of the Globe, until their name and fame is world-wide.

There is not an ailment (known in Veterinary practice) of the Horse, Cow, Sheep or Pig, but yield to their miraculous influence.

Their rare balsamic properties are conveyed to every part of the brute creation, and immediate relief is given.

They heal Internal Ulcerations, banish all derangements, and give the stomach proper tone.

No Stock-owner need despair a cure, whilst this *never-failing remedy* can be obtained; and the reputation they bear from all quarters of the *Globe* is fully borne out by the success they have attained—corroborated by testimonials of all classes and countries.

They have cured Thousands of Cases conceded Incurable.

The many ailments of each class of animals and their various forms are too extended to discuss. But we *guarantee* in each case a tenfold remuneration for the small investment that places them within reach of the most humble who often have to rely on their stock for support.

The majority are more directly interested in Horses, and to them we say one trial will convince you that they work wonders; and no matter how doubtful the *case* is, you will invariably be benefitted, & your animals made & kept healthy by their use.

English Condition Powders

are a *certain* and *speedy remedy*, no matter what the disease is, or how complicated. They are not a temporary, but have *invariably* proved to be a *radical cure*.

They *restore health* and *produce flesh, milk and butter*. They aid digestion and assimilation, and thoroughly renovate the system, and will be found invaluable and remunerative to every stock-owner.

TO CONSUMERS.—They are only one-third the price of all others, and are as superior in quality as quantity.

The following TESTIMONIALS speak of their merits:

Baltimore, June 17, 1879.

Mr. P. Warren—Sir: We have been handling your English Condition Powders for some time past, and find that their merits as compared with similar compounds, meet a want seldom (if at all) found in goods of a similar class. With Patrons of Husbandry they are growing into favor rapidly. Signed: H. O. DEVRIES,
Ag't Maryland State Grange.

Ashland House, 24th St. & 4th Avenue, *New York City*, Mar. 10, 1879.

I have used the English Condition Powders and can recommend them to the turf profession as being pure and similar to the imported, and would use no other.—For purity and quality they are *unequalled* and invaluable to horsemen.

Signed, HARRY HARTMAN,
Late manager Budd Doble's Turf Stock.

Baltimore, Md., Aug. 6, 1879.

P. Warren, Esq.—Sir: The English Condition Powders are conceded by all my patrons to be the *purest, cheapest* and *best* on the market; and have worked wonders where used. I sell five times as many of *them* as all others combined.

ALSO FOR SALE,
PERUVIAN GUANO, HIGH GRADE PURE DISSOLVED BONES, and ACID PHOSPHATE, very rich.

Chestertown, July 24, 1880.

W. Whitelock & Co.—Gentlemen: In answer to your inquiry I will say that for several years past I have watched the result of your "Vegetator" and have never known it to fail to make a good crop. I bought of Mr. James Brice eight tons last fall and will want twelve tons this fall.

Yours, V. HENDRICKSON.

Trappe, July 24, 1880.

W. Whitelock & Co.—Gentlemen: I will say that I have used some of all the leading Phosphates, and the "Vegetator" I bought of Mr. Jas. Brice has given me the best results all the time. I used twenty tons last Fall and will want about the same this season.

Yours, JOHN BRICE.

Chestertown, July 28, 1880.

W. Whitelock & Co.—Gentlemen: Last year was my first year to use Phosphate and of course every body had the best goods, and I finally settled on three of the best, as I thought. If I had used all of "Vegetator" I would have gotton a much larger crop, judging from what the two tons did that I got through Mr. James Brice.

I shall want more this fall.

Yours, J. B. SAPPINGTON.

Poplar Neck, Aug. 10, 1880.

W. Whitelock & Co.—Gentlemen: For the last 8 years I have been using your Vegetator for wheat, both on fallow and corn land, and propose to do the same in the future. I have used other brands, but as yours has outstripped them all I have left them off. Yours suits my land better than any I have used up to this time. I shall send in my order by Capt. Hadaway in a few days for ten tons of yours.

Yours, R. H. ROUSE.

Recognizing the fact that the relationship existing between the counties of Maryland and the City of Baltimore is such that residents of the Counties have occasion to visit the city frequently during the year; in consideration of these facts and the liberal patronage extended the "Maltby" in the past, I deem it but a matter of justice that some discrimination should be made in their favor. I have therefore concluded to
