The Kent News.

SATURDAY ..... OCT. 23, 1880.

GARFIELD AND GRANT.

That the recent interview at Mentor, O., between Gen. Garfield on the one side and Gen. Grant, Senator Conkling, etc., on the other, resulted in a compact by which the Grant party are to be materially benefitted in the event of Republican success, becomes more and more apparent day by day. What that compact involves it is easy to guess. For his part, Garfield promised to let the senatorial triumvirate "run the machine" in case he is elected President. In return Gen. Grant and his friends undoubtedly engaged to throw all their energies and influence into the fight. That some such an arrangement was made and ratified is evident from the course of recent events. Until within the last week or two the indifference of Gen. Grant and Senator Conkling was so conspicuous that some of the more reckless Garfield organs did not hesitate to speak of them as being recreant to their party trust. Gen. Grant himself made perfunctory declarations of his abiding Republicanism, but couldn't see his way clear to taking an active part in the campaign. But a meeting between Grant and Garfield was held at the latter's home and suddenly all was changed. Senator Conkling threw himself into the thickest of the fight in Indiana and Ohio and ever since both he and Gen. Grant have been untiring in their efforts to aid the Republican cause. The ex-President is now in New York, the object, of course, being to enlist, by the influence of his personal example, the active interest and co-operation of all who have ever trained under the imperialist banner in the States of New York, New Jersey and Connecticut. Of course, Gen. Grant is not doing all this for nothing. His object, now that he has brought Garfield to terms, is to fasten another Republican administration on the country, whose influence is pledged to himself in advance, and thus to pave the way for his renomination in 1884. A more corrupt and degrading compact than that which undoubtedly exists between himself and Garfield could not be imagined. Necessarily it would involve an administration wholly given over to the extravagance, incompetency and fraud from which, when Grant was beaten at Chicago, the people believed themselves to have been delivered. Such duplicity, however, is just what might have been expected from the Credit Mobilier candidate. No time should be lost in exposing it to the people in its true light and in enforcing upon them the fact that in voting for Garfield they will vote to restore to power the men who made themselves so odious to all decent citizens under the two administrations of Grant.—*Balto. Gazette.*

THE MARYLAND DEMOCRACY—*Address from the Democratic State Central Committee.*—The democratic State central committee of Maryland have issued the following address:

"*Baltimore*, Oct. 14, 1880.—The democratic party of the United States expects that those who profess its faith in this State will, from this hour until the polls are closed on the day of the presidential election, devote themselves to the business of the canvass, and that they will see to it that every democratic vote in their respective election districts or precincts is cast on that day. In the State of Indiana at the presidential election of 1876 our party secured a majority of 5,500 votes out of a total of 421,500. At the late election, the present republican administration, aided by the managers of the republican party, reversed this majority by the fraudulent exercise of official power and by corrupt use of money. The democrats of Indiana will set right in November the wrongs inflicted upon them in October. It is the duty of the democrats in this State to take care that our great democratic majority is duly recorded in November, so that we may have no wrongs to right, but only a well-deserved success to rejoice over. In no former period in the whole political history of the country was there every occasion for more devoted zeal. The present contest is a struggle against the centralization of national and State powers in the hands of the republican party as a national organization. Let no effort be spared. Your zeal will not only avail in this State. Its contagious example will extend to the North, South and West. When New York, New Jersey and Connecticut take their place among the democratic States at the close of the polls on November 2, 1880, when Indiana breaks from the sharp contest of that day to take her place at their side, and victory is won—as it assuredly will be—let the States on which the brunt of battle has fallen see that Maryland has again joined them with an increased democratic majority and with a solid democratic delegation in the House of Representatives. Very respect'y yours, &c.,

A. P. GORMAN,
"Chairman of the State Central Committee."

DEMOCRATIC UNION IN NEW YORK.—The Irving and Tammany Hall factions of the Democracy came to a full understanding on the question of nominations last Monday night. It was agreed to nominate Wm. R. Grace for mayor. The Democratic State committee also has issued an address to the Democracy of New York, denouncing the means by which they allege the Republicans carried Indiana, asking whether the incumbent President can levy upon officers appointed by him and paid by all an unlawful tax so large as to buy the succession for a candidate of his choice; declaring that the Democracy seek to bring the executive into co-operation with the legislative department of the federal government, to lighten the public burden by reduced taxation, encourage manufacturing industry by a tariff adjusted to the interests of all, stimulate agriculture by cheap transportation in ships carrying the American flag, secure equal protection at home and abroad to all citizens native or foreign born, enforce rigid accountability in public offices and the examination of the accounts by others than those who made them. In conclusion the address says: Let vigilance at every poll guard the ballot-box against bribery. Let every democratic vote be cast. Let every democrat strive to be first in the cause of reunion and reform.

THE bracing atmosphere and clear sky of the past week have upset Prophet Vennor's prediction that October would open cold and stormy, and that the whole month would be "dreary in the extreme," with cold and wet weather. October is one of our finest months. The Canadian weather prophet may know the secret of the weather north of the St. Lawrence, but his predictions for Maryland have failed too signally to be regarded as trustworthy.

THE Peninsula papers never miss a week without a wonderful story vouched for by highly respectable people. Last week it was a ghost story, and now the Centreville *Observer* has a cat story The feline in question jumped into a stove having a good fire in it, ran across the fire to the pipe, up the pipe to the flue and there took refuge. When taken out she was singed a little but otherwise unhurt.

THE frauds by which the Republicans carried Indiana last week, are only equaled by the great presidential frauds of 1876. The Democrats say 10,000 fraudulent votes were cast by imported roughs, negroes and repeaters. These frauds can not be repeated on such a wholesale scale in November, for the merchantable material will be wanted at home.

ROBBED.—Edwin E. Pratt, Esq., of Queen Anne's county, was robbed in Baltimore last week of $40 in money, a watch and revolver. The thief was subsequently caught and the watch and pistol recovered. Mr. Pratt thinks he was drugged by the fellow, and robbed whilst suffering under the influence of the drug.

THE flag which floated over Fort McHenry at the time of the bombardment cost the Baltimore Centennial Committee $74 62 to bring it over from New York—$24 62 for expenses incurred in transportation and fifty to the owner of the flag. This the committee considered rather an expensive luxury.

THE population of Delaware is 146,654, of which 9,472 persons are foreign born and 26,456 colored. The population by counties is as follows: Kent, 32,877; New Castle, 77,746; Sussex, 36,031. The city of Wilmington has a population of 42,499.

A TEUTONIC member of the Elkton, Md., band complained that "no goot music would plow mit his horn." The horn was examined, and two marbles, a dead mouse, a sewing machine attachment and a package of smoking tobacco were drawn out of it.

THE Democratic vote in Ohio was increased 30,000. But it was all overcome by frauds. In Columbus alone 1,000 more votes were polled than the census shows there are male inhabitants over the age of twenty-one. These scandalous frauds cannot be so well practiced in November.

SOLE, the Vermont wrestler, was badly defeated in New York on Monday evening by Donohue, the New York blacksmith. The style of wrestling was collar and elbow, and the match was for the light weight championship of the United States.

THE winter has closed in early in the North and West. Snow to the depth of thirty inches fell near Buffalo, N. Y., on Monday. Whole orchards of young trees have been destroyed and barns crushed in by the snow. Not for many years has such a fall of snow in October been known.

THE Republicans claim that they will elect their candidates in the fift and sixth congressional districts of Maryland.

BALTIMORE GRAIN MARKET.—The Baltimore papers of Thursday quote:—Fultz Wheat at 1.05@$1.12 and longberry at $1.10@1.18. Corn—yellow 53@55; white 54@56. Oats 38@40.

PURE Cider Vinegar, for sale by
E. W. F. SIMPERS.

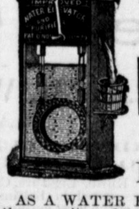
The attention of Farmers is called to our new Field ROLLER, which has taken the lead of all others. The best farmers of Kent, Cecil and Queen Anne's are now using them, and after one trial will have no other.

Especial attention given to

Repairing DRILLS.

Farmers are respectfully requested to send them in early.
WM. A. HYLAND & CO.,
jy17. GALENA.



The Improved WATER Elevator AND Purifier!

AS A WATER ELEVATOR it has these merits: 1st—It is the Simplest Structure for raising water, on the American market. 2, it is easily adjusted to any well or cistern. 3, it is very durable. 4, it works easily. 5. it will NEVER freeze. 6, it is always ready for use and always at its best. 7, it has none of the objections common to pumps. 8, it will make warm water cold.

All who examine this invention admit the above claims, but ask

How Does it Purify Water?

As the inverted cups pass around the Terra Cotta wheel suspended in the chain at the bottom of the Well or Cistern, they are constantly discharging air through the water from the bottom to the top.

This elevator will destroy *Wiggles, Water Bugs and Water Lice*, will make *foul or stagnant water pure*, and will remove all *color, bad taste* and *smell*. In short, *it will make bad water good, and good water better.*

The undersigned have secured the exclusive right to sell this really valuable Pump in Kent county and they earnestly ask for it a candid and fair examination, confident of its intrinsic merit. One can be seen on exhibition in Chestertown at any time. For circulars address

ROLPH & DeFORD,
j524-tf. *Sole Agents for Kent County*

THE OLD BAKERY

GEO. E. LEARY. ELMER E. LEARY
GEO. E. LEARY & SON.
LUMBER! LUMBER!
AT LEARY'S FACTORY, GREY'S INN.

A LARGE STOCK of WHITE PINE, VA. PINE, N. C. PINE, Va. White Oak, ASH and CYPRESS of all qualities and dimensions to suit the trade. Also,

SHINGLES, LATHS and PALES.

The above mentioned Lumber has been purchased direct from the Mills in the North and South, without the usual expenses of wharfage, inspection, commission, hauling and refreighting, which expenses we will divide with our customers. Or, will deliver wholesale at any point in the river at 5 per ct.

REMANUFACTURING.—We have just perfected machinery to remanufacture the above Lumber into FLOORING, Rustic or German SIDING, Window and Door FRAMES, SASH and DOORS, CART FELLOES, SLATS, STANDARDS and RAILS, PLOW BEAMS, or in any desirable shape to suit.

Virgin or Shingle Cypress for FENCING a specialty.

We solicit inspection and will give prompt attention to all orders.

GEO. E. LEARY & SON, Grey's Inn.

P. S.—As we are constantly employed at the Factory and have not the time nor desire to dun, those indebted to us will please call and settle at once.
May 29, 1880. GEORGE E. LEARY & SON.

W. N. E. WICKES,
AGENT FOR THE SALE OF
LISTER'S STANDARD PHOSPHATE.

This Phosphate, so extensively used, is offered to the WHEAT GROWERS of Kent County at LOWER RATES than heretofore.

THE MERITS of "LISTER'S PHOSPHATE" are so well known and universally acknowledged, that the publication of certificates is deemed unnecessary. Any farmer who has used and tested it is referred to as to its qualities as an IMPROVER, a grain producer, and a great promoter of the growth of Clover, &c.

EARLY ORDERS are solicited.

In my absence, information can be obtained at WICKES & BROTHER'S, and orders left with them will receive prompt attention.

It is in good condition for Drilling. aug21-3m.

PHOSPHATES,
Always in Excellent condition for Drilling,
MANUFACTURED BY
KENNARD & CO.

Our IMPERIAL at $30 time and $28 Cash.
ACIDULATED at $27 time and $25 Cash.

THE ABOVE BRANDS are made to suit the requirements of all farmers; some desire a general mixture, while others prefer a thoroughly acidulated article, and our object being to accommodate all, we therefore prepare our two special brands, and in addition thereto carry a

FULL LINE OF CHEMICALS,

in order to meet any demand for special formulas. These we furnish at Balt. prices.

Our goods have been thoroughly tested, and everywhere have been proven to be equal to any and superior to many of the articles in the market.

We pay no commissions to agents and are satisfied with a small margin ourselves, and hence the low figure at which we sell.

A visit to our Factory will afford you an opportunity to judge of the quality of our goods, and the following persons can furnish any information as to their merit:

Edward B. Jones, Chestertown.	G. H. Leaverton, Lankford.

J. C. Roseberry, Still Pond. July 31, 1880.

To WHEAT GROWERS.

The undersigned, PIONEER in the manufacture of Fertilizers in this city, and ORIGINATOR in 1858 of the Formulas and processes of manufacture of

"EXCELSIOR" and Ammoniated Phosphate

So well and favorably known by the Agricultural public, relying upon his experience and personal reputation hitherto acquired in the uniform excellence of these Fertilizers, as manufactured by him, continues to offer them to the Farmers and Planters of Maryland and Virginia, with the assurance that the high standard quality of each will be maintained as heretofore.

The above are the most concentrated FERTILIZERS ever offered to the farmer—combining all the stimulating qualities of Peruvian Guano, and the ever durable fertilizing properties of Bones, in fine, dry powder, prepared expressly for drilling.

For growing Wheat, it is the universal opinion of the Farmers of Maryland and Virginia, after over twenty years' experience in the use of these Fertilizers manufactured by me, that an application of 100 pounds is equal in its effects to 200 pounds of any
