Kent News.

CHESTERTOWN:

SATURDAY MORNING.....MAY 27, 1882.

Kent County Agricultural Association.

CLUB ROOM, May 22, 1882.

Messrs. Editors:—A quite lengthy but interesting session, very much time was used, not wasted, discussing "crows." To a motion "that crows do more harm than good, and that farmers should make war upon them," a substitute was moved, "that crows do more good than harm," a long argument followed, and it was surprising how many friends the crows have, and how many good things were said of them. My experience is that the crow instead of being a respectable and useful member of society, whose acquaintance is to be cultivated, is an unmitigated nuisance, and one of the strongest proofs of the truth of the comfortable old doctrine of total depravity. The substitute was lost, and then the original motion was negatived, leaving the crow just where he was when we started; I wish he could be voted shot or poisoned out of the county; he is the greatest enemy we have to insectivorous birds, and pulls up more corn than his miserable carcass will ever pay for in the highest market. One member found corn soaked in water, mixed with strychnia certain death; your correspondent would advise its general use.

Parliamentary points are sometimes interesting. The president ruled that on a division being called to decide the vote on a question, none could vote except those who voted when the question was first put, and that no member had a right to vote differently, when a call for division was made, than he did at the first vote. The only restriction Cushing makes is "that no member can vote on a division who was not in the room at the time of the first vote." The ruling of the chair was differed from by some members; please decide the point Messrs. Editors, as you are expected to know everything. [We know of no parliamentary rule fully deciding the points in question, but precedent would establish the right of any one to vote on the division if present, whether he voted before or not; and, further, that a person *may change his vote* at any time before the result is finally announced.—EDS.]

Mr. J. P. Nicholson who was the essayist apologized for not writing an essay and gave us an address, largely extempore, on "The bright future of farming in Kent," which I think was listened to with more attention and better appreciated than a written essay would have been; arguing that we are reaping the benefit of the industry, wisdom and energy of our predecessors. That the natural advantages of location, soil and climate are better understood, and more highly valued than ever before. That the churches and a faithful ministry has brightened the future by raising the standard of morality and religion, with many other arguments.

Not much time was left for the regular question "The greatest drawbacks to sheep culture; how they can be remedied, and what are the chief requisites to raising sheep?" Dogs were the chief trouble by deterring many from keeping sheep, and causing those who have them, to live in constant dread. The remedy: keep no dogs and kill all that come on the premises; the cure seems harsh, but when a farmer is compelled to choose between the duty he owes to his creditors and his wife and little ones, and sparing the worthless curs, is he not justified by every law of right and duty in deciding for family and creditors? When the weight of public sentiment shall be that the only good dog is a dead dog, sheep culture will be a pleasure. Plenty of good food, careful attention, with dry and comfortable shelters were considered the chief requisites; some members claimed that with these from one to two hundred per cent. could be realized on the first cost of a flock; one member stated that his flock of Cotswold ewes, just sheared, averaged from 10 to 12 lbs. of wool to the fleece—a very heavy average, showing the value of good breeds. The absence of the member appointed to open was regretted.

The diplomas gained at the last Fair are ready for distribution to those who have not already secured them.

Essayist for May 29: Mr. John Bell.

Question for next meeting: "What are the three most promising things for the farmers of Kent county to engage in?" Mr. Wm. T. Nicholson to open.

PARTICEPS.

Letter to the Kent News.

Messrs. Editors:—Projects planned and undertaken under adverse circumstances and amid discouragement, sometimes surprise us by their astonishing progress and happy issue. This is somewhat the case in the establishment of a Sunday-school at Worton Station. Nothing daunted by the "utterly utter" destitution of singing books and Sunday-school literature, organ, or library, we find the faithful gathering themselves together in the spacious room of the Agricultural Club (kindly offered them for the purpose) on the Fair Grounds, Sunday after Sunday, much like sheep without a shepherd. Rain could not disperse them, neither the chilly winds nor the frosts of ridicule or opposition. On Sunday last the Club room was crowded by the friends of the undertaking. After addresses by Messrs. Crossley, Jacobs and Phelps, the latter gentleman was appointed chairman, and Sunday-school fully organized by the election of a full corps of officers with Bro. Wm. Beck at their head as superintendent. The *esprit-de-corps* manifested on the occasion may be better understood when I mention the fact that about $25 was quickly pledged upon the spot for the purchase of an organ for the school. No wonder they sang the songs of Zion so sweetly and understandingly! What could prevent the prayers from partaking of fervency and life? Need we feel surprised that the school should already number some sixty-five scholars in good and regular attendance? Wouldn't we just like to "speak right out in meeting" and name some of those energetic workers (particularly those ladies) who have infused their very life-blood into this undertaking and pushed the scheme on to realization! We can't though. We might get reprimanded for it, for are not these bright-workers like the Master of old—clothed with the garment of humility, while like Him they thus seek to "go about doing good?"

Did you really know that it is being circulated around that Galena has elected a *Mayor*? Of course it must have started in some envious sister village whose street lights fail to dispel the mental fog hanging over its inhabitants. Our brilliant street illuminators of course permit no such morbid condition to exist in our midst. When however we get the mayor and full board of aldermen elected it is proposed to extend our limits so as to take in Georgetown, Locust Grove, &c., in order that the said officials may have sufficient room to swing the sceptre in. What Galena is really going to have is a militia company, the requisite forty names having been attained I think, and the law duly complied with. Look out for war on little Delaware, or a rush at the Kent Guards. May so much military spirit in our glorious Kent be compatible with perfect peace. Or on the other hand is it a guarantee of peace, if we show a belligerent attitude towards outsiders and "the rest of mankind?" However that may be I propose that we carefully husband all the superfluous military enthusiasm until the "4th of Independence" (as the small boy has it) and turn it to good account for the benefit of the Odd Fellows of Galena, on their dedication day. Certainly they ought to have honor awarded them for erecting so creditable and elegant a building in our village. With a grand picnic, a general invitation to the militia of our county to be present, and a grand review by our Governor and staff, the program will be complete. As for our military company, never did a finer set of men take them as a whole enlist in such an enterprise. Let critics carp as they please positive good must come out of this organization when properly equipped, drilled and commanded. A judicious indulgence in the military spirit and a proper knowledge obtained of the "art of war" is highly beneficial in its immediate effects upon the individual and upon his general bearing and conduct.

OBSERVER.

Lecture by Professor Zimmerman.

WASHINGTON COLLEGE, May 23.

Messrs. Editors:—We trust your readers will not forget the lecture to be delivered by Professor W. H. Zimmerman in the College Hall next Friday evening at 8 o'clock. It will be very instructive as well as interesting; the experiments, which will be performed in the presence of the audience, will be fine; and those who may not fully understand their philosophy, will be interested and pleased with the glow and beauty of each experiment which will plainly demonstrate "Dame Nature." The subject which has been announced before, is enough to induce any seeker and lover of truth, to be present in order to witness the performance. Each experiment will be fully and satisfactorily explained. The Excelsior Band promise to sustain their already laudatory reputation by proving themselves capable of furnishing music that will be an honor to them and a credit to the Society. We wish it distinctly understood that there will be no admission fee; but on the contrary we extend a cordial invitation to the ladies and gentlemen of Chestertown, and vicinity. We promise to make it entertaining as well as instructive. Come one! Come all! No apphension need be felt on account of the case of fever which appeared last week at the College. It was not only a very mild one, but the patient has been kept away from the student's building and has quite recovered.

THOS. M. MARSHALL, nominated for Congressman at large by the recent republican convention at Harrisburg, Pa., has written a formal letter to Hon. George Lear, president of the convention, declining the nomination.

GEORGE H. ROBINSON & SON, of Baltimore, are the lowest bidder for bricks for the new postoffice, and will be awarded the contract, at $25 for pressed and $8 40 for hand made, per thousand.

IN the death at Deadwood, D. T., the other day, of the Rev. George C. Pennell, an Episcopal clergyman, a romance in real life, surpassing some of the most extraordinary incidents of fiction, is recalled. When a young man Mr. Pennell married in New York his cousin, Mary H. Schroeppel. A child was born and the mother was told it was dead. Upon her recovery she returned to her native place, where she continued to pass under her maiden name. When she died it was found that she had bequeathed her property to the Syracuse Home Association. The child, however, did not die, but was taken away by its grandfather, Dr. Pennell, a physician, and when it was nine weeks old it was intrusted by him to Raphael Renz, of No. 63 Lormer street, Brooklyn, to be raised. The child was kept in ignorance of his parentage, but on coming of age he discovered facts which led him to believe that the Rev. Mr. Pennell was his father. He followed up these clews, and finally succeeded in obtaining a recognition of his parentage by Mr. Pennell. The father, however, would never receive his son, but, humiliated by the exposure of his heartlessness and treachery to both wife and son, removed to Deadwood, where he remained in comparative obscurity until he died.

SPEED ON THE OCEAN.—The steamship Alaka, of the Union Line, which reached her dock at New York on Sunday afternoon, made the quickest western passage on record. She passed Roche's Point, near Queenstown, on Sunday, the 14th, at 11.52 A. M., and reached Sandy Hook Sunday morning at 11.40. The actual time was seven days four hours and ten minutes. This is two hours and eight minutes faster than her last western passage, which until this one was the quickest on record.

JAMES GORDON BENNETT announces in the columns of the New York Herald that "with or without the action of Congress of the public, care will be taken of the widow and orphan of DeLong, and not of them alone, but of every widow and every orphan of the men who sailed with the Jeannette and have perished."

THE real estate owned by the late James Gordon Bennett was sold in New York on Monday. James Gordon Bennett, the son, bought all the parcels that were offered. The Nassau street property brought $650,000, and the whole sale realized $1,361,000.

FIVE men who attempted to destroy a bridge on the Mexican National railway on Friday of last week were caught Sunday, and by order of the governor of Mexico they were immediately shot.

THE celebrated stock-farm of Aristides Welch at Chestnut Hill, near Philadelphia, has been purchased by Norman W. Kinston, of St. Paul, Minn., for $125,000.

DR. GLENN, the great California wheat-grower, is making preparations to harvest 1,000,000 bushels of wheat this year. Dr. Glenn is a native of Augusta county, Virginia.

WM. H. VANDERBILT recently paid $20,000 for a blue white diamond weighing fifteen carats. It is pronounced the finest stone of its size ever brought to America.

THE republicans of New Castle county, Del., have nominated James Martin for sheriff and David H. Wingate, for coroner.

THERE is More Strength restoring power in a bottle of Parker's Ginger Tonic than in a bushel of malt or a gallon of milk. This explains why invalids find it such a wonderful invigorator for mind and body. See other column.

BALTIMORE MARKET.—The Baltimore papers of Thursday quote as follows:

WHEAT—Longberry $1 45@1 45; Fultz $1 50@1 40 for fair to good. CORN—White, prime 89@89; yellow, 87@87. OATS, Maryland, 62.

Everything High except Clothing!

THAT IS TO SAY, AT THE

"STAR" CLOTHING HOUSE

Under the "Kent News" Office, CHESTERTOWN, MD.,

It costs more to live to-day than it has for many years past, and yet to-day we sell better quality Clothing for less money than we ever did. The HOW and WHY of this remarkable exception would be a long story. The strictly cash nature of our business:—no credits asked in buying; no credits given in selling;—the careful economy secured by personal attention to details, are among the causes which make our goods cheaper to you than they can be elsewhere.

WE HAVE PAID FOR all our goods and they BELONG TO US, and we can afford to sell them at a very small profit. Not compelled to charge exorbitant or fancy prices that other houses do who sell goods on *commission* or *long credit*.

☞ Some Strong Points:

AN EIGHT DOLLAR CASSIMER SUIT as good and the same kind other houses sell for TEN DOLLARS.

A TEN DOLLAR SUIT that is wonderful money's worth.

A wide and handsome variety to choose from.

Suits for dress in plain and fancy goods of the very latest and most stylish cuts at prices below the market in every case.

Our goods are all new and first class in every respect; never bought old stock and sold them as new goods as others dor

☞ COME and examine our stock, and be convinced that our goods are better and prices lower than any other house on the Shore.

BOYS' CLOTHING of all the nobby and reliable styles at special Low prices. Don't forget to give us a call and examine our goods.

A. FRIEDMAN,

MOGEE'S SCHUYLKILL

—AND—

PLYMOUTH ROCK

Quick and Slaked LIME,

MANUFACTURED AT NORRISTOWN, PA.,

EXPRESSLY FOR AND FOR SALE BY

B. F. FLEMING, Wholesale Dealer,

Chestertown, Kent County, Md.

THIS LIME has been used more extensively than any other during the past five years by the Farmers in this county and has given excellent results. Some farmers tell us it has paid for itself on the first crop, and the very best reference we have is that they continue to use it in preference to any other. We contract for 100,000 Bushels at a time, at Bottom Cash Figures. This enables us to sell cheaper and on more accommodating terms than any man in the business. We have sold this Lime in Delaware and Maryland for eight years, and during that time we have tried other Lime; but have not found any as yet to compete with Mogee's Schuylkill and Plymouth Rock Quick and Slaked Lime. Farmers tell us it Slakes more to the Bushel, contains less Core, acts quicker and lasts longer than any Lime they ever used. We can fill orders more promptly by Railroad and Water than any firm in the Lime business.

FARMERS, MERCHANTS and CITIZENS GENERALLY OF KENT AND QUEEN ANNE'S COUNTIES.

AS THE PAINTING SEASON is rapidly advancing, I call your attention to my immense stock of all kinds of PAINTING MATERIALS. My prices are city prices, and all goods guaranteed as represented.

I make a specialty of Tinted Lead.—This lead is a strictly good article, and is tinted the color you want. It requires linseed oil and dryer. Guaranteed not to crack, peel nor blister, and will not fade within a reasonable time. I have also a full line of Liquid Paints in any quantity desired, and of the most reliable kinds.

Walnut and Oak Stainings, Carriage Varnishes, Kalsomine, and in fact I have everything you want in the Paint line.

My stock of Paint & Whitewash Brushes is also very large.

Here allow me to draw your attention to Lubricating Oils. I know my stock is larger than any on the Shore, and my prices are just as low as honesty allows me to make them.

You will also find a beautiful line of Wall Papers, selected with great care, and I believe you will be pleased if you call.

I also desire to refer to Baby Carriages, Children's Express Wagons, Shoo Flys, &c. I will run a large stock during the spring. I think the styles will suit you. It is my constant aim to please my customers, and by offering you good and reliable goods at low figures, I hope to merit your patronage. You will find it much to your advantage to call and get my prices before buying elsewhere.

Respectfully,

LOUIS K. STAM.

N. B.—My stock of FURNITURE is large. Goods delivered to your homes free of charge.

April 8, 1882.

PUBLIC LOCAL LAW FOR

Kent County,

PASSED BY THE GENERAL ASSEMBLY OF MARYLAND, AT THE JANUARY SESSION, 1882.

AN ACT

To authorize the Commissioners of Chestertown to open, widen or extend streets within the limits of said town.

SECTION 1st. Be it enacted by the General Assembly of Maryland, That the Commissioners of Chestertown are hereby authorized, whenever in their judgment the public convenience requires it, to extend or widen any of the streets or alleys within the limits of said town, and to open such new streets as they may deem necessary.

SECT. 2d. And be it enacted, That it shall be lawful for said Commissioners to contract and agree with the owner or owners of property, through or over which a street is to be extended, widened or opened, for the amount of damages and advantages accruing to such owner and to provide for the payment of the same.

SECT. 3d. And be it enacted, That whenever the said Commissioners and owner of any such property cannot so agree, then said Commissioners shall select some disinterested citizen of Kent county, and such owner shall select one disinterested citizen of Kent county, who if they cannot agree shall call in a third citizen of Kent county, and they shall visit the property to be affected by the proposed street, and assess the damages and advantages which may accrue to such property or the owner thereof; and they shall make their award in writing to said Commissioners and to such owner, and either party may appeal from such award to the Circuit court of Kent county, provided the opposite party be notified thereof within thirty days from the date of the award.

SECT. 4th. And be it enacted, That whenever any owner of such property refuses or declines to act under the preceding section, or is unknown or inaccessible to said commissioners or incompetent to contract, said commissioners may proceed as directed in the preceding section, after giving public notice of their intention, by advertisement in some newspaper published in Kent county, for three successive weeks before commencing such opening, widening or extension, except that the County Commissioners shall appoint one of the parties to estimate and award said damages and advantages in the place of the owner of the property, and from such award appeals may be taken as provided for in the preceding section.

SECT. 5th. And be it enacted, That if any such extension, opening or widening of any street be through or over any cemetery or grave yard, that before said commissioners proceed to open, widen or extend such street, they shall give notice by advertisement in some newspaper printed in Kent county, once in each of three successive weeks, warning all persons interested in that portion of said grave yard or cemetery, through or over which said street is to run, to remove the tombstones and remains of all persons buried in that portion of said yard, and upon the failure or refusal of the friends or relatives of such deceased persons to remove them, the said commissioners shall have said remains removed to some suitable place, and to record a full account of all such removals on their minutes of proceedings, and after such removal, they shall proceed as mentioned in the preceeding sections.

SECT. 6th. And be it enacted, That this act shall take effect from the date of its passage.

WE HEREBY CERTIFY, That the aforegoing is a correct copy of an Act of the General Assembly of Maryland, passed January Session, 1882.

Approved May 3d, 1882.

JOSEPH B. SETH,
Chief Clerk of the House of Delegates.
J. M. MILLER,
Secretary of the Senate.

May 11, 1882—3t.

AN ACT

To repeal the first section of chapter forty-two of the acts passed at January session, Eighteen hundred and eighty, entitled "an act to permit the shooting of wild fowl from sink boxes in certain parts of Sassafras river, in Cecil and Kent counties "west of a line drawn from Pond's Bar, on the Kent side to ordinary point Bar, on the Cecil side," and to re-enact the said first section with amendments.

Be it enacted by the General Assembly of Maryland, That the first section of chapter forty-two of the acts passed at January session eighteen hundred and eighty, entitled, "an act to permit the shooting of wild fowl from sink boxes in certain parts of Sassafras river in Cecil and Kent counties, west of a line drawn from Pond's Bar on the Kent side to ordinary point bar on the Cecil side," be, and the same is, hereby repealed and re-enacted so as to read as follows:

SECTION 1 Be it enacted by the General Assembly of Maryland, That on and after the passage of this act, it shall be lawful for the bona fide citizens of Cecil and Kent counties to shoot wild fowl from sink boats in the wa
