Wonderful Values in Fine Overcoats for BOYS. The Kind That will suit Parents and Boy, from **$2.50 up to $5.00**

TWO MEN LOSE LIVES IN STORM

Colored Men, Who Were Members of Crew on the Schooner Harriet E. Ford, Drown—Capt. Charles Hopkins Floats Ashore on Roof of Cabin and is Rescued.

Helpless in the severe gale which swept the Chesapeake Bay and the Patapsco River Sunday night, two schooners—the Harriett E. Ford and Alexander McCulloh—became stranded. Two colored men—Neil Green, aged 28, of St. Mary's county, and John Pearre, aged 30, of Baltimore, were drowned. A number of launches and other small craft were torn from their fastenings and driven ashore, to be pounded to pieces by the heavy seas and strong wind.

Capt. Charles Hopkins, the only survivor of the schooner Harriett E. Ford, reported the accident at the Customhouse. He made the following statement:

The two colored men and myself left Wicomico River Sunday morning about 3 o'clock. We had fair wind until about 8 o'clock Sunday night, when it began to blow. The wind kept increasing and our sails were torn to shreds. I then headed for the Chester River, thinking I could find shelter. There was a rough sea, and we made slow progress. I soon ordered the two men of my crew to throw over both anchors, which was done. We might just as well have thrown out a feather for the boat was tossed about as though it were a plaything. We were about three miles from Love Point, and I was trying my best to steer the vessel to that place. Suddenly the wind became more furious and the boat began to take water. One of my men, I think it was Green, shouted, 'Captain, we are on a sandbar.'

Lashed to Rigging.

The waves washed over the ship. I then informed the two colored men that I was going to lash myself to the rigging, and advised them to do likewise. It seemed they were too frightened or too cold to do so. I was rendered unconscious several times by the waves striking my body. Finally I felt the rigging giving away, and I unlashed myself just in time to be saved from being struck on the head by a falling mast. The two colored men were clinging to the roof of the cabin, and I also grabbed hold of it.

We hung on to the roof of the cabin for several hours. Finally the boat started to sink. The roof of the cabin was loosened and I advised the two negroes to hold on. Just before the ship went down a large wave swept over us, washing all overboard. I shouted to the other men, but as the wind was howling I doubt if they heard me. As the boat went down the roof of the cabin floated and I clung to it. I supposed I was on the roof for several hours when it suddenly stopped tossing, and on looking I saw I was near shore and a man was coming toward me. He pulled my raft ashore and took me to his home, where I was furnished with dry clothes. This afternoon I went to Love Point and took the steamer to Baltimore. The gentleman who assisted me in my trouble was Mr. Bridden, who lives about a half mile from Love Point.

Will Quit the Water.

The Harriett E. Ford was owned by the Webster-Ford Company, of Baltimore, and was valued at $1,000. It contained over 1,500 bushels of oysters valued at $600. When asked if he would follow the water any more Captain Hopkins replied: "I have been following the water for the past 12 years, but this is the first time I have ever had an experience like this. I don't think that I will follow the water again, as I have had enough."

The Alenander McCulloh, loaded with a cargo of lumber, foundered about 4 a. m. yesterday off Miller's Shore, near Dundalk, and the crew, consisting of the master and three deck-hands, were forced to take to the ship's yawl for safety. While the shore was but about 1,000 yards away, the men in the small boat were buffeted about for hours in a terrific sea before they were successful in landing. The schooner is loaded with lumber consigned to Andrew Miller, at Dundalk, opposite whose wharf the vessel now lies waterlogged.

WOMEN'S JURY OF 12 MINDS.

Unable to agree upon anything, the first woman's jury to sit in Los Angeles was discharged.

The case was that of I. H. Nagor, accused of having violated the speed ordinance and arranged in Justice Forbes' court.

After listening patiently for three hours to testimony and argument, the jury at 12 30 o'clock was notified to get ready for luncheon. Twelve different eating places were selected by the 12 jurors. Then two said they did not want to go at all.

In vain did Justice Forbes urge them to reach an agreement as to a place for luncheon. Finally at 1.30 o'clock he ordered them locked up again. The justice lost his luncheon too.

At 5 o'clock, after four and a half hours' deliberation, the women reported they were unable to agree upon a verdict and the Court ordered their discharge.

TO PLANT 100,000 APPLE TREES

One hundred thousand apple trees are to be planted on one farm, near Bridgeville, Del. The farm is the one which has been purchased by the Delaware Apple Company, the officers of which, at a meeting held on Saturday in the office of Hon. David T. Marvel in Wilmington, reached the above decision. When Mr. Marvel, who is an officer of the company, was spoken to on the subject he said the object of the meeting was to select the varieties of apples to be grown on the company's farm and the number of trees to be planted. After selecting the best and most readily marketable varieties, it was decided to set out this fall, starting next morth, 48,000 trees, all of select varieties, to be arranged in blocks of early fruit, late fruit, etc. In the spring the company will set out 20,000 more trees and next fall the planting will bring the total number up to 100,000. The farm has been cleared and is ready for the planting, and when the work is completed it will be practically one unbroken orchard of 100,000 trees set out in blocks as outlined above.

Stiff Neck Relieved

For any stiffness or lameness Sloan's Liniment gives relief at once. It acts like massage—quickens the blood and limbers up lame muscles and joints. When applied immediately after violent exercise it prevents stiffness.

Here's Proof

"I am using your liniment for stiffness. I have bought two bottles of it and it is the best I ever saw."
Mrs. MARY CURRY, Milltown, Ga.

"I had a severe pain between my shoulders, and noticing your advertisement in the street cars I got a bottle which quickly relieved me."
R. D. BURGOYNE, Maysville, Ky.

SLOAN'S LINIMENT

is an excellent antiseptic remedy for sore throat, cuts and bruises. Very penetrating—needs no rubbing. Sold by all dealers.

Price 25c., 50c. and $1.00.

Sloan's book on Horses, Cattle, Hogs and Poultry sent free. Address
DR. EARL S. SLOAN, BOSTON, MASS.

The J. E. Baker Co. Now Offers For Sale

Victor Fine Ground Limestone

THE BEST WAY TO LIME: The United States Government and the Pennsylvania Agricultural Experimental Stations are now recommending Finely Ground Limestone as the best way of applying Lime to the soil. It does not destroy manure, there is no danger of burning your crops, it keeps for years, and can be applied at any time or season.

EASIEST AND CHEAPEST TO USE Comes packed in canvas or paper bags. Can be easily handled, and kept in storage indefinitely, without change or loss. No more laborious slacking, no more choking dust, nor scalding burns. Can be drilled into the soil, or sowed on the surface and harrowed in. Saves half the cost of the old way of applying Lime. Is cheaper and better.

GIVES MAXIMUM RESULTS It has been proved that very Finely Ground Limestone produces, as a fertilizer, the same results pound for pound as air slaked Lime, or any other commercial fertilizer, and because VICTOR Fine Ground Limestone is the purest, most Finely Ground Limestone on the market, and because it destroys no manure or crop, it gives much better results than any other burned or hydrated Lime made.
