Kent News.

SATURDAY MORNING..... SEPT. 15, 1883.

CORRESPONDENCE OF KENT NEWS.

School Begins—Music—Grange Hall—Grange Matters—Proposed Emigration.

Both teachers and pupils seemed eager to have the schools reopen on the 3d inst. The long vacation begets a species of ennui, and although "much study is a weariness to the flesh" the monotonous routine of school duties becomes heartily and entirely welcome. School No. 10 opened with an attendance of two-and-twenty, which, considering that the peach season had not closed, may be considered a pretty good showing. By the indefatigable efforts of Miss C. J. Smyth, the teacher, and the indomitable perseverance of her pupils, school No. 10 is now furnished with an excellent organ of fine tone and neat finish. If it be true that music hath charms to soothe the savage, rend a rock and split a cabbage, the influence can not be otherwise than salutary.—Why should not all our public schools be so supplied and rudimentary music be included in the regular course of study?

The Grange Hall is nearing its completion. It has been almost ten years since the organization of Fairlee Grange, and perhaps four since the idea of a hall was broached. The necessity of a suitable place of meeting became constantly more apparent, and the need of a room for lectures, concerts, &c., was equally urgent. The building is forty-eight feet in length and twenty-four in width, on a foundation of brick; giving a store room on the ground floor 24 by 40, and an entrance of 8 feet to the ante-room and main hall of the same dimensions. The dining-hall above this is 45 feet by 14 and surmounted by a Gothic roof in the form of two crosses. The ceiling is 8 feet, and the room and wings are lighted by six gothic windows. The upper stories are reached by a continued stair five feet wide below and three and a-half above with walnut rail the whole length. Joseph Turner of Chestertown, is the contractor, and furnished all the materials. Lemont Downing is the sub-contractor, who, with the Messrs. Judefind, of Edesville, five in number, father, sons and two grandsons, and Mr. Fred. Prinn, did the woodwork. Mr. Prinn is a native and formerly a resident of Birmingham, England, and is esteemed as a skillful mechanic. The Messrs. Judefind will, I learn, start shortly for Florida, where they will be employed at good wages for some six months. They will have three churches to build. It is possible that Mr. Downing and Mr. Prinn may join the party.—The masonry was done by R. R. Calder, and the painting by Mr. Howard, of your town. The Grange will meet in their new hall on Thursday, 4th proximo, at 2 o'clock P. M. The board of directors, Wm. J. Vannort, president, and Wm. T. Nicholson, secretary, will receive and consider applications for the use of the hall for lectures, concerts, &c. The store room is rented for a term of years to two energetic young men of the neighborhood who propose to put in a large stock of miscellaneous goods, and drive trade on the principle of small profits and quick sales.—Your advertising columns will give full particulars in due time.

SIMON SHARP.

CHESTERVILLE AND VICINITY.

Messrs. Editors:—The Church South held its third quarterly meeting at Millington on Sunday and Monday last. The Elder could not be present till Monday, when he preached in the church at Millington. Rev. Mr. Sullivan of the M. P. Church, Crumpton, preached in the Church South, Chesterville, on Sunday morning, while the Rev. Mr. Marshall occupied the Millington pulpit in the afternoon and that at Chesterville at night.

The Meth. Episcopal Church, Galena circuit, will hold its third quarterly meeting tomorrow (Sunday) at Chesterville, the elder preaching at night.

Well, well, the sound of the hammer and saw, and ring of the trowel are heard at last. Grandpap Schwatka started the ball by repairing his damaged property in the village, caused by fire last Fall. Then the school trustees took it into their heads to paint the school house, and it was done, looking much the better therefor; and then last but not least, the trustees of the Church South concluded their pastor was worthy of a *house* to live in, and they at once set about putting him up a respectable and comfortable dwelling. Mrs. S. W. Aldridge generously donated a lot adjoining the church, on the east side thereof; subscriptions amounting to $1500 or $1800 were readily secured, and the work was begun at once. The structure is a frame, two stories, with a front 18x34, and a back building 14x24. It will most likely cost when completed $2,000 or $2,500, and will be the first new dwelling erected in the village in seventeen years. Is it any wonder then, as a resident of this Rip Van Winkle village, that we rejoice to see this great improvement? Mr. J. Reese Woodall is the contractor, and the work is being pushed right along. The parsonage will be ready for the parson by the time cold weather sets in.

Miss M. J. Roberts, of Chestertown, has been appointed teacher of our public school. We trust she may prove as successful as her predecessor. Miss Alice Hammond, daughter of Dr. J. Nelson Hammond, Baltimore, has been appointed principal of the school at Sassafras. Miss Alice left the county with her parents a few years ago, and was educated in Baltimore; we are glad to welcome her back again. Miss Mollie Meier, who has been teaching at Hybernia for two years, still continues. This speaks well for her.

Strange but true—A lady passed through our village, one evening this week, driving a horse and riding a camel (camile).

Observations—I have seen many large houses, but never yet one large enough to hold two families.

The first you hear of an ass is his bray; the first you see are his ears, and the nearer his approach the more do the latter protrude.

A thought that has often struck me, but whether anyone else ever said it I cannot tell, I have seen some people who shine only when their boots are blacked.

The standing of some men is greater than their stature; the stature of some men is greater than their standing.

Dr. J. Bushrod Schwatka, now located in Newark, Ohio, paid his friends in this vicinity a brief visit this week. He is looking very well, and speaks highly of his Western home. His parents, now at Townsend, Del., have determined to emigrate thither in the Spring.

Much ground for wheat seeding remains to be broken. A heavy northeaster set in on Tuesday afternoon, and it is to be hoped the rainfall will be sufficient to enable farmers to plow.

WALTER.

LETTER TO THE KENT NEWS.

Messrs. Editors:—Not having communicated with you for some time, and having but recently taken a most delightful drive (after an absence of five years) through your very beautiful county, I thought possibly what I saw and noted as I passed along would, or might, interest a few of the very many intelligent readers of your most valuable paper, which I must say has (since my absence from my native county) been a source of great pleasure to me and family, coming, as it ever does, weekly to cheer and regale us with news from home. Well to return to my trip from one end of the county to almost the other, I will say that although the farms in the lower part of the county are well cultivated I did not see with the exception of Rock Hall and neighborhood much building improvement until I came to Worton Station and Lynch's, when lo! behold two beautiful little towns have, as it were, risen up since my last visit. Further on Still Pond comes in view, and a prettier or more prosperous village or surrounding neighborhood can scarcely be imagined or described. The home Kennard farm has but recently been purchased by our old and esteemed friend Mr. R. H. Rouse, I hear, at $75 per acre. It seems like a right good price for land, but when the neighborhood and improvements on the farm are all taken in, it is quite a bargain, the residence being one of the handsomest in the county, being of pressed brick with handsome porches and lawn, in fact everything to make it one of the most desirable residences that can be imagined. Mr. Rouse has also a very beautiful and productive farm on which he now resides, for which, I heard from good authority, he refused not more than a month ago $30,000, in cash too, which I should think a great inducement these hard times. I called to see him on my travels and he told me himself he was not at all particular about selling Poplar Neck, but, if he was, he would not think of taking less than $100 per acre, which is $31,000. I was handsomely entertained by himself and family, and also had the agreeable pleasure of meeting a relation of the family, a very sociable and charming young lady, Miss Clara Gaillard, a daughter of Dr. Edward Gaillard, of Philadelphia. I hope sometime to again meet such agreeable young ladies as the Misses Rouse and Gaillard is the not distant future. Please mention in your personals that Miss Clara has after a delightful visit of seven weeks with her relatives, Mr. Rouse and family, taken her flight homeward, leaving many hearts stricken and sore by her absence until another summer rolls around when we hope to hear of her again visiting old Kent.

AN OLD SUBSCRIBER.

ONE of our exchanges says: Our farmers need to exercise a little care in handling phosphates. It is becoming quite generally known that the common fertilizer, phosphate, is a very dangerous article to handle by anyone suffering from chapped or sore hands. It is partially composed of blood and bones of dead animals, which have come to their death by disease, and if it accidentally comes in contact with a flesh-wound may result in a severe case of blood poisoning.

PUBLIC SCHOOL MATTERS.

The Public School Association of Kent county met at the school room, in Chestertown, on last Saturday. The Examiner and forty of the teachers were present. The absences were generally explained. Music by the teachers constituted the opening exercises.

The following standing committees were appointed by the President: Finance—John V. Crosby, George Godwin, Josephine Harris, Mary E. Nowland, John F. Copper. Literary—S. E. Foreman, Henry Tonkin, Mary R. Taylor, Annie E. Leverton, Caroline T. Smyth. Music—W. G. Fallowfield, J. R. Starkey, Milton Melvin, V. J. Corbaley, Virginia Miller.

The discussion of the regular questions, "How shall we teach Good Behavior? Does it include rules of Etiquette?" was discussed generally by the teachers. The necessity of teaching this branch of education was unanimously contended for, and also for instructions in the ordinary rules of etiquette. The example of the teachers was placed among the most effective methods, and it was shown that all along the whole of instruction opportunities would offer to teach the rules of right conduct.

Mr. Pinkind was unable to be present, but his paper, Teachers' Institutes, was read by the president. We make the following extract from his remarks: "The time will soon come when all objections will be silenced by the practical demonstration of the fact that the Institute is one of the most profitable investments the State has ever made. Instead of retrenchment in this expenditure, a wise public policy demands a liberal appropriation for the proper maintenance and development of this educational necessity."

With almost unanimity it was determined that it is advisable for the Examiner to prepare the questions for the annual examination. It was determined by a vote of the Association that the re-organization of the District Associations are advisable. Mr. Long in the first, Mr. Forman of the second, Mrs Stephens of the third, Mr. Fallowfield of the fourth, and Mr. Crosby of the fifth, were appointed to call meetings in the several districts.

It was announced that Anderson's Junior Class History of the United States had been adopted in the place of Blackburn and McDonald's, for use in schools, and that the State Board of Education had declared against the use of the rod for missed lessons.

The total number of teachers in the county for the year ended June 30th was fifty-six white and nineteen colored. The whole number of pupils, 2,445 white; and 1,135 colored. The average number of pupils in attendance were 1,093 white and 254 colored. During two terms only five of the colored schools were opened. The whole number of pupils over sixteen years of age 178. During the winter term the different grades numbered as follows:—1st grade, 753; 2d, 496; 3d, 479; 4th, 482; 5th, 383; 6th, 256; 7th, 102. Studying Book Keeping, 70; Algebra, 90; Philosophy, 19; Map Drawing, 1,356; Geometry, 24; Physiology, 30; Latin, 31. Two new school houses have been built and one entirely rebuilt. At the annual examination 1,303 pupils in the white schools were examined, 789 promoted as follows: First grade, 283 examined, 182 promoted; 2d, 217 examined, 173 promoted; 3d, 213 examined, 147 promoted; 4th, 229 examined, 126 promoted; 5th, 187 examined, 82 promoted; 6th, 137 examined, 61 promoted; 7th, 37 examined, 18 promoted. About sixty per cent of all examined were promoted. The percentage by grades was as follows:—1st grade, 64; 2d, 80; 3d, 70; 4th, 55; 5th, 43; 6th, 44; 7th, 50.

The change of teachers are: At Sassafras, Miss A. M. Crouch, promoted to principal in place of Miss Owens, resigned; Miss A. G. Hammond, assistant in place of Miss Crouch, promoted; Galena, Mr. Wm. T. Brown, first assistant, in place of Mr. Woodside, resigned; Lambson's, Mr. Geo. Godwin in place of W. F. Taylor, resigned; Chesterville, Miss Mary J. Roberts, in place of Miss Jones, resigned; Still Pond Neck, Miss Mary C. Meredith, in place of Mr. Godwin, resigned; Catt's Corner, Miss Laura E. Watts, assistant; Trappe, Miss P. Kendall, in place of Miss Johnson, resigned; Eastern Neck, Miss E. L. Adkinson, in place of Miss Kendall, resigned; Eastern Neck Island, Miss V. Johnson, in place of Miss Adkinson, resigned; Drayton, Miss J. Janvier, in place of Miss M. L. Janvier, resigned.

A SHOOTING CASE IN TALBOT COUNTY.—A young man named Letourneau, one of four brothers from Annapolis on a visit to Tunis' Mills, in Talbot county, was arrested for shooting Samuel and William Clough on Sunday night week. The Cloughs followed two of the Letourneau brothers from church and jeered them. One of the Letourneaus lost his patience, and drawing a pistol fired at the Cloughs. He shot them both. Samuel Clough was struck in the right breast and William Clough in the leg. The balls were of small calibre, and made painful but not dangerous wounds. The magistrate who heard the case rendered a verdict of served them right and dismissed the case.

THE acquittal of Frank James, the murderer and bandit, will hardly add laurels to Missouri justice. The trial ended last Thursday week.—All the glamour of heroism possible was thrown about James and his life, and so well was the work done that he was not only acquitted of the crime charged, after a few hours' consultation by the jury, but accorded a general ovation by the large crowd attending the trial, which lasted late into the night. He is charged with other murders and robberies, but after the late incidents it is questionable if he will ever be again brought to trial, much less convicted of any of them. He professes to have reformed, and promises to lead a reputable life.

THE WORK OF THE OYSTER COMMISSION.—Col. Wm. H. Legg, member of the Oyster Commission, will visit Kent county this week for the purpose of conferring with the tongmen of the county regarding the oyster interests. Col. Legg proposes to visit each one of the tide-water counties of the State and explain to those interested in the oyster trade the results of the Commission's recent investigations touching the oyster beds of the Chesapeake and tributaries.—*Centreville Rec.*

By the will of the late Charles M. Wharton, of Dover, the Conference Academy of that place, will receive the sum of $2,000, with a proviso that the debt of the academy be reduced to $10,000 in two years, the sum thus left to go towards decreasing the debt to that amount. Those interested in this school should endeavor to secure the legacy.

THE *Baltimorean* says, "If all the men who are candidates for position in Baltimore could be placed in single file they would reach from the Rotaw House to Anapolis."

SHERMAN MORGAN, the Dover trotter, has been sold to a Philadelphia man for $900.

DIAMOND STATE SUPER PHOSPHATE AND DIAMOND STATE SOLUABLE BONE are probably the most popular fertilizers manufactured for wheat. In quality, mechanical and drilling condition, they cannot be surpassed.

BALTIMORE MARKET.—The Baltimore papers of Friday quote as follows:

WHEAT—Longberry $1 14@1 18; Fultz $1 10@1 13 for fair to good. CORN—White, prime 59@; 60yellow, 63@64. OATS, Maryland, 37.

SCHOOLS.

TO PARENTS.

MR. A. C. WHALAND'S SCHOOL will open Sept. 13. Pupils are requested to report promptly on that date. a25-3t.

WESTERN MARYLAND COLLEGE.

For students of both sexes in separate departments. Occupies one of the most beautiful and healthful sites in the State. Receives annual appropriation from the legislature. CORN SHELLERS
And HORSE POWERS.

I have now ready for delivery a large supply of the Celebrated

Hyland Corn Shellers & Horse Powers

which we think are unsurpassed, and we are selling them low.

ROLLERS.—We have the best Roller on the market, and persons wanting anything in this line should send in their orders at once.

THE CELEBRATED HYLAND
FARM WAGON
And Iron Frame Cultivator

To Our Friends and the Public:

In introducing these Wagons on the Peninsula, we feel that we are doing something to benefit the public. It seems to be the unanimous verdict of Farmers that our Wagons track better and run lighter than any others made on the Peninsula. This was the decision of the Judges of the Worton Fair, held in September, 1881. Every piece is carefully selected, and nothing but the best material is used.

Our DEARBORNS and CARTS are *EXCELLED BY NONE.*

Please give these implements a trial and you will find it to your interest.

WM. A. HYLAND,
CHESTERTOWN AND GALENA.
Oct. 7, 1882.

CARPETS of Rags. CARPETS of Jute.
CARPETS of Cotton & Wool Mixed.
CARPETS of all Wool.

We invite the inspection of those intending to purchase carpets this fall and winter to the largest stock that has ever been kept in this market and at City Prices.

☞ We have a large stock of floor and stair

OIL CLOTHS

5-8, 4-4, 5-4, 6-4 and 8-4, and also a variety of Stair Carpet.

Sept. 8-4m. J. B. BURCHINAL.

The "Splendid"
FIRE PLACE HEATER

is one of the handsomest, heaviest and most complete Heaters ever offered to the trade. The Fire and Feed Pots are put together in sections and when any part wears out it can be replaced by even a child, without moving stove or taking out a bolt, thus saving considerable expense. It is altogether practical in construction, and beautiful in design and finish.

We take great pleasure in offering this Heater to our customers feeling confident of the genuine comfort it will afford them. Mr. R. J. Foard has used two of the above heaters for several years and will recommend them to any one. Call and examine them at

HINES & CLEMENTS',
adjoining Kent Nat. Bank.
Sept. 8-tf.

BUY THE
CHAPMAN & LAMBERT
Iron Frame Cultivator,

For putting CORN GROUND in order for Wheat.

We made great improvements in our Cultivators for this Fall's trade. Every tooth is adjustable and guaranteed not to choke in any filth or corn stubs.

We have the finest lot of best Cultivator TEETH we ever had. We made some this fall that are stronger than any made before by us.

CHAPMAN & LAMBERT.
Sept. 8, 1883.

Notice.

The firm of WROTH & CLARK is this day, Sept. 3d, dissolved by mutual consent. All persons indebted to the late firm will please call and settle either by cash or note.

WROTH & CLARK,
STILL POND, Sept. 3, 1883.

☞ NOTICE:—The business will be conducted at the Old Stand by G. H. CLARK and THOS. RASIN, JR., and will be glad to supply all our old customers, and all new ones that will give us a call as we will keep a full line of such goods as are generally kept in a country store. CLARK & RASIN.
Sept. 8-3t.

CORN HOES!

Do not forget that

CHAPMAN & LAMBERT

Has on hand a lot of the Best and Lightest they ever made and for sale cheap. Bear in mind they are the BEST GRADE of CAST STEEL.

We use nothing but the best of material in all our work.

Some Reasons Why!
IN THE MILLING BUSINESS

Why has **SPICER** been successful in the Milling business? We answer?

1st.
Because he is a jolly old fellow, and has a good word for everybody.

2d.
He is a millwright and keeps his mill in first-class order, without going to Baltimore for a millwright.

3d.
He is not only a millwright but enjoys the reputation of being a first-class miller.

4th.
In his mill you can always find flour meal, chops and all kinds of feed for sale at the very lowest prices that the market will allow it to be sold for.

5th.
He has but one price for the rich and poor. His prices are the same to all.

6th and Last,
Though not least, he is very careful how he uses the toll-dish, as all his customers will say.

To the ladies of Kent county who delight in good flour, we wish to say that we have at last succeeded in getting Radcliffe Mill, at Chestertown, in first-class order, and today we are making better flour than ever before. We keep the best millers that money can get. None but first-class millers handle our wheat mill. Gentlemen we will willingly take back and pay cash for any bad flour we may make from good wheat. We are very thankful for all past favors, and as we have the mill in first-class order and are making first-class flour and meal, with plenty of water that will run us day and night, we hope to secure a full share of public patronage.

SPICER & BACON.

Wheat Seeding for 1883.

Office of T. R. HUBBARD & SON,
MANUFACTURERS OF
HUBBARD'S STANDARD & EXTANT BONE SUPER-PHOSPHATES
AND SOLE PROPRIETORS AND IMPORTERS OF
OCEAN BIRD GUANO.

We have just completed in addition to our Factory Large Warehouse and Wharf, render-ing us full capacity, which enables us to keep constantly on hand and in stock in addition to our manuf'd Phosphates

DISSOLVED BONE & Fertilizing Supplies.

It is not surprising that Our Goods have been so noted as well for their Superior condition for drilling, as for general Excellence, as Every Ton is made from Bone dissolved ahead in the self-same way by the best machinery in use, and the inspection of which all farmers and the public generally are most cordially invited.

We give below names of reference of a few of our many patrons who have used our Goods with full satisfaction:

Luther Handy, Lucas Aldrich, Abe Crawford, T. A. Jacobs, Hyland P. Smith, Geo. R. Stephens, Stonewall Johnson, W. Archibald, Jr., Edw. B. Pennington, J. Cordray Loud, L. R. Shewell, John Brice, C. O. Cacy, Wm. G. Trew, George R. Beck, Phillip E. Trew, Hiram Brown, John Gale, Wm. L. Bowers, Col. R. C. Johnson, W. E. Sanders, James R. Jones.

☞ For further reference see circulars of certificates which will be mailed to all parties upon application.
