Kent News.

SATURDAY MORNING .....Oct. 13, 1883.

GRAND RALLY!

OF THE

DEMOCRACY in CHESTERTOWN.

A Grand Democratic Rally and Mass Meeting will take place at Chestertown, on

SATURDAY, October 27, 1883,

AT TWO O'CLOCK P. M.

Hon. Robert M. McLane,
Hon. Chas. B. Roberts,
Hon. J. Frank Turner,
Gen'l Bradley T. Johnson,
Hon. Jas. A. Buchanan,
Hon. Samuel J. Randall,
OF PENNSYLVANIA,

and other eminent speakers will be present, and address the people on the issues of the day. A BRASS BAND will be in attendance, and a general good time will be had.

The Democratic voters of the county and all other citizens interested in a good government and an economical administration of affairs are invited to attend.

C. G. WOODALL,
T. ROMIE STRONG,
J. J. SPEAR,
State Central Committee for Kent Co.

☞ Local mass-meetings in different sections of the county will be announced next Tuesday. Those interested are requested to confer together.

OUR FAIRLEE LETTER.

A School Festival and a Hungry Crowd—The Grange Building and Builders—Farm Operations.

The Festival of Miss Naomi Kendall's school took place as announced in the KENT NEWS and yielded the gratifying return of eighty-eight dollars, to be applied to the improvement of the building. It was thought that ample provision had been made for any imaginable number of friends who might be likely to encourage the enterprise, but either the number of visitors or their eating capacities very nearly exceeded the preparation made; so nearly indeed, that some of the busy waiters and attendants were put on short allowance. The genial dispenser of ice cream fell below zero in the distribution of edibles, but being fat and good natured he could well afford to subsist for a while on former accumulations. The best feature, perhaps, of these social entertainments are those little *contretemps* or mis-*Diehls* that give rise to fun and contribute to the general jollity. Of this character was the entire failure of the coffee supply. The managers sent forthwith to the nearest store, Nathan's at Melitota, for a package, "burnt and ground," when it came it proved to be burnt but not ground. Placed in a cloth and pounded with a chunk of wood, it was put on the table in the form of a decoction. Then came the fun of drinking a cup of coffee and grinding it afterwards. Vive bagatelle! Anything to increase the attractiveness of our Schools!

The Grange Store has been opened with a modesty quite proper in young beginners, and a fair stock of desirable goods, giving our citizens another choice in the bestowal of their patronage. The Hall, however, will probably not be ready for occupancy before the 18th instant.

Two needed improvements have been made on the Worton side of our neighborhood. Mrs. Mary Diehl has added to and much improved her dwelling house on the Frisby farm; and her sister, Mrs. Harriet Usilton, has built a comfortable and tasteful front to her residence at Smith's Cross Roads. Mr. Thomas Dowling and others did the work for the former, and Messrs. A. M. Kendall and Elmore Skirven did the work for the latter. Our carpenters are nearly all busy the whole year. Capt. F. Wing is now putting the finishing touches to Capt. A. L. Corey's commodious and comfortable house, and William Kline is building a new house for Capt. Sam. Coleman near Humphrey's Point.

Farmers in this vicinity have finished cutting and shocking an exceptionally large corn crop, and are nearly done putting in their wheat.

Yours truly, SIMON SHARP.

A LETTER FROM THE SEASIDE.

ATLANTIC CITY, Oct. 8.

Messrs. Editors:—Thinking all news is news to newspaper men, I herewith send my little item from the "City by the Sea," and a charming city it has grown to be. Notwithstanding the popular idea that the first of September ends the season it is delightful here at present, just cool enough to make a walk on the beach a pleasure, and wind enough to make a good, high-rolling surf. This is the month sportsmen delight in, plenty of fish and plenty of game. The firing on the meadows is almost incessant, and the big bunches of fish attest either the skill of the fisher or the abundance of the finny tribe. This summer has proved Atlantic City to be a favorite resort for Baltimoreans, and Baltimore belongs to Maryland don't it?—so we may feel a pride in the acknowledged beauty of Baltimore belles.—Last Sunday there were plenty of bathers in the surf, children on the shore digging in the sand and pony phaetons on the drives; but today the bathers are scarce, though the surf is lovely, and visitors plenty. Among the strollers on the beach last Sunday we noticed Mr. John Primrose and lady, from your near neighborhood. From most among the disciples of Walton is Mr. W. B. Ginnedo, who is also well known in Kent; the old gentleman is wedded to the hook and line and is generally rewarded by a goodly catch.

A SUBSCRIBER.

[For the Kent News.]

Messrs. Editors:—Permit me to send you an item with reference to a gentleman formerly of Chestertown and to the manor born.

Charles Alfred Usilton graduated at the Jefferson Medical College, Philadelphia, and entering at once upon the practice of medicine has already made his mark as a successful physician.

Thinking with Solomon that "he who getteth a wife getteth a good thing" he governed himself accordingly, and on Wednesday evening, Sept. 26th, was married to Miss Ellen Stevenson of Philadelphia. The wedding took place at the house of the bride's mother, 1802 South 13th St., Rev. Alex M. Wiggins officiating.

Quite a number of the relatives and friends of the happy couple were present. A large table was filled with bridal gifts consisting of silver, glass and chinaware, table linen, mirror, &c. Abundant refreshments were provided and "all went merry as a marriage bell." We congratulate the happy pair and their relatives—on this new departure—and wish them all success.

A. M. W.

[COMMUNICATED.]

Messrs. Editors:—The illustrious Funny Editor of the *Transcript*, in his satirical comment on the guess and calculations "of a young phosphate dealer" in the globe of pills at Mr. Stam's drug store, made a few slight errors in his issue of Thursday. "Monarch" did not weigh, measure or offer to bet on the number of pills in the glass, but the funny editor *did bet* and *lost*. I do not believe he made a calculation, but used his familiar number "320." The funny editor's friends would like to know how much extra he paid for the squeak in the new pair of shoes he took delight in exhibiting a few days ago to his admiring audience, and whether he has paid *his* bet?

MONARCH.

THE St. Mary's *Beacon* says that two children, one an adopted child of Judge Hilburn, the other a son of John Cajay, residing in the St. Inigoes' section of that county, have been abducted by dredgers. The children, who are about eight years old, were playing on the shore, and were enticed on board the dredge boat and carried off. The abduction has created much excitement wherever known, and will add considerably to the already deep-seated dislike and distrust with which the people regard the dredging fraternity.

A PROGRESSIVE TOWN—*Completion of the Westminster Water-Works.*—From the Westminster *Advocate* we learn that the water-works of that town have been completed and turned over to the company and city by the contractor and engineer, Col. William W. Taylor. The work was commenced on June 1, and was completed in less than four months, though there was about two weeks' delay in getting pipe. The water is obtained from large and strong springs about a mile from the town limits, piped into a pool of 300,000 gallons capacity, and is thence pumped into a reservoir of 1,000,000 gallons capacity, located on a high hill just at the outskirts of the city. The reservoir is so elevated that the natural fall will force the water above the roofs of the highest buildings, and its force can be greatly increased by the pump, which can throw 20,000 gallons per minute. The supply of water is sufficient for a population several time greater than the city now has, and there are other water sources Col. Taylor controls that can be utilized at any time, and which will increase the supply sufficient for the needs of a population of 25,000. The water mains are five miles long, and the total cost of the works is between $25,000 and $30,000. Water has been introduced here while other towns have been making preparations. In fact, in seven weeks from the time work was commenced water was supplied to nearly half the town, for the water was turned on as fast as the pipe was laid. The water is pure and soft, and supplies a protection against disease and fire, and is a convenience long needed. Westminster has now gas, water, railroad and telegraph, and will soon have telephone connection with Baltimore and other points, giving it all the facilities and conveniences of the largest cities.

GAVE HIMSELF UP—*The Singular Adventures of an Escaped Murderer.*—The colored murderer, John Smith, who made such a desperate break for liberty and life in Oakland jail last Thursday week, proves to be no game chicken after all.—He was under sentence of death for killing Josiah Harden, and awaiting the death warrant to fix the date of execution. He enticed Jailer Cropp into the cell, knocked him down, released himself from a chain, which fastened him to the wall of the prison, and then, shackled with irons, turned the key on his keeper and escaped. A great alarm was raised. State's Attorney Veitch and a posse of men hunted for the fugitive all Thursday night, but to the surprise of everybody the prisoner was found early in the morning stowed away in a shed near the jail. It seems that in the struggle before his escape the prisoner had received a severe wound in the abdomen from the jailer. He was scantily clothed, and the night being very cold, he thought he would die of his injury, which frightened him, and he returned shortly after dark. The jail door being then locked, however, he could not enter the prison, and so he remained in the shed until daylight, when he gave himself up.

The prisoner made his escape about 4 o'clock in the afternoon of Thursday week. Sheriff Jamison had just left the jail to go down town on business. Mr. Cropp remained in charge of the prison during the sheriff's absence. A great deal of indignation was expressed on account of the escape, and the party in pursuit was large.—Smith was convicted at the September term of the Garrett county circuit court for the murder of Josiah Harden, May 15 last, by shooting him. Friday, Nov. 16, has been fixed by Gov. Hamilton as the day for his execution.

AN earthquake shock was felt at San Francisco at one o'clock Wednesday morning. It was the most severe felt in several years, and was the third shock during the night. The two previous shocks were felt early Tuesday evening. The shock this morning was the heaviest experienced since the great one of 1868. Buildings groaned, metallic roofings cracked, and many people rushed half-dressed from houses and hotels. The recollection of its being within one day of the anniversary of the earthquake of 1868 seemed to increase the fears, and many people walked the streets all night in preference to re-entering their houses. Earthquakes are reported to have occurred during the night and morning at several places along the coast.

PROFITS ON STOCK.—The profits arising from the raising of fine stock may be illustrated by the example of one of our own citizens. We are informed that during the month of September alone Dr. Wm. H. DeCourcy has sold two yearling fillies at $150 each, twelve head of Shropshire-down ewes at $25 per head, and three buck lambs of the same breed at $30 per head, and two yearling heifers at $75 per head,—aggregating very nearly $850 from sales of stock for one month. He is now daily in the receipt of a number of letters from all parts of the country making inquiry about stock. Some of the above animals went to Pennsylvania and Virginia, and others have been purchased by citizens of our own county.—*Centreville Observer.*

THE Dorchester *Democrat and News* says: "The democratic prospects in Dorchester county are brightening every day, and will continue to improve up to election day. The loss anticipated from the Meekins movement was greatly exaggerated, and now we know that the disgusted republicans will discount all this loss, while the regular democrats are so encouraged by the comparison of the two State tickets and the certainty of the success of Hon. Robert M. McLane that all will work with a will to surpass the great majority of 1881."

A STORM INCIDENT.—As an incident of the storm in Somerset county, Md., Tuesday week, the Princess Anne *Marylander* mentions "that a catalpa bean was torn from a tree distant 60 feet from a residence and driven like an arrow through a pane of glass in the sitting-room window, making a hole about three inches in diameter, and driving a sharp-pointed piece of the shivered glass sixteen feet across the room, where it stuck through the canvas of a painting." The storm did a great deal of damage in Somerset, as well as in the counties below it.

MR. GEO. W. WOOLFORD showed us this week one of the largest oysters we ever saw. It weighed 2 pounds and 1 ounce, measured 8 inches in length and 5 inches in width. It was three inches thick and well relished. It was caught by dredgers on Cook's Point and was doubtless as large as any other oysters at the bottom of the Choptank.—*Cambridge Democrat.*

BROKE HIS NECK.—Michael Bournarski, aged 18 years, fell out of a chestnut tree near Bush river on Sunday afternoon and broke his neck. He had gone out with a number of companions to gather chestnuts. An inquest was held by the county authorities and a verdict of accidental death rendered. His body was brought to his home, No. 5 Shakespeare street.—*Sun.*

A DISPATCH to the Baltimore *Sun* from Hagerstown says:—The nominations of Holton and his associates on the ticket has created no enthusiasm in the Republican party here. They preferred almost to a man Pratt and Urner, and have been disappointed because Western Maryland has not been recognized in the nominations.

THE wife of a farmer in Cecil county recently had three children at one birth. On the same day one of his sows had a litter of seventeen pigs, and another sow a brood of thirteen pigs.

ATKINSON, tried for shooting Ringgold with intent to kill, has been acquitted in Caroline co.

BALTIMORE MARKET.—The Baltimore papers of Friday quote as follows:

WHEAT—Longberry $1 12@1 15; Fultz $1 08@1 11 for fair to good. CORN—White, prime 65@67; yellow, 64@65. OATS, Maryland, 37.

W. C. ELIASON, MANAGER.
Sept. 29. Pier 15 Light St., Balto.

The "Splendid"

FIRE PLACE HEATER

is one of the handsomest, heaviest and most complete Heaters ever offered to the trade. The Fire and Feed Pots are put together in sections and when any part wears out it can be replaced by even a child, without moving stove or taking out a bolt, thus saving considerable expense. It is altogether practical in construction, and beautiful in design and finish.

We take great pleasure in offering this Heater to our customers feeling confident of the genuine comfort it will afford them. Mr. R. J. Foard has used two of the above heaters for several years and will recommend them to any one. Call and examine them at

HINES & CLEMENTS',
Sept. 8-tf. adjoining Kent Nat. Bank.

SAVE THE EXPENSE OF

BUILDING A BRICK CHIMNEY

Our Fire Clay Chimney Pipe does not rust nor crack by heat nor crumble from frost. It has been used ten years for dwellings, schools, churches, &c. No danger from fire, as it does not communicate heat to wood. Insurance companies have decided it to be a safer chimney than brick. Any one can put it up. A complete chimney costs from $5 to $10, according to height of building. This is no experiment. Thousands are now in use all through the South. Bases supplied for use with fire places. ☞ Send for descriptive circular with full information.

CHAS. H. TORSCH & CO.,
S. E. Cor. Pratt & Charles Streets, Baltimore, Md.

☞ It will pay you to cut this out for future use.

THOS. J. MANN
