MOODY & LUSBY

Chestertown, Maryland

The Commissioners of Chestertown decided Monday to start the street sprinkler—and the next day it rained!

Wheat yesterday was quoted at 1.02¼ spot; July, 86; August, 84.

The new local time-table on the railroad went into effect Tuesday. The morning train leaves Chestertown at 7.08 A. M. and arrives at 11.21; afternoon train leaves at 2.32 and arrives at 6 P. M.

Don't forget the Bond Church festival next Wednesday and Thursday evening.

Owen Crow, up town, sold nine crates of strawberries Saturday and for the week his record was over 700 quarts. What merchant can beat this?

The Messrs. Wilmer, of Centreville, visited Chestertown Monday in an up-to date automobile making the trip here in 40 minutes. They ran down to Rock Hall and returned in about an hour. The horses on the road paid no attention to it.

The freights from Cliff wharf which has been abandoned by the steamboat company amounted to more than $3,000 last year. One farmer's shipments alone footed up to over $800. Mayor C. T. Stratton has been the faithful wharfinger at the Cliff's for many years.

The Wilkinson Voting Machine Company, fully patented, was incorporated this week in Baltimore with a capital stock of $200,000. The machine is very ingenious contrivance for registering and counting votes, and is as simple as the present pencil marking system, without any of its faults. It tells the result of the ballot immediately upon the close of the voting. The machine is believed to be the most practical and the cheapest ever invented and it will no doubt be adopted throughout the country.

The Maryland Democratic Editors Association will leave Baltimore next Friday, June 9, for a sea trip to Boston.

MILLINGTON ITEMS.

Mr. and Mrs. J. Clifton Mallalieu, of New York, were the guests of Mrs. Julia Mallalieu the first of the week.

Mr. and Mrs. Ross, of Smyrna, Del., spent the day Sunday as the guests of Mr. and Mrs. B. W. Duling.

Miss Ruth Price returned to her home Saturday, after spending the week with her brother in Philadelphia.

Mr. and Mrs. Wm. Harrington and children, of Bear, Del., visited Mr. and Mrs. George Harrington Sunday.

A committee of three, appointed by Washington Camp, No. 42, P. O. S. of A., decorated with flags all the soldier's graves in the Millington cemetery last Tuesday, Decoration Day.

Mr. W. B. Troy, a traveling salesman, who has been quite ill at the Hotel Bailey for the past two weeks with pneumonia, is slowly recovering and hopes to be able to return to his home at Hyde, Md., in a few days. Mrs. Troy and two children have been with him this week.

Rev. Edwin Gardiner, pastor of the M. E. Church here, has been preaching a series of sermons on the temptations of Christ. He will preach the third sermon Sunday morning—subject: "The Third Assault."

Mr. J. R. Wilson, who has been building a machine shop, has about completed the building, has the machinery in place and in full operation.

Decoration Day was observed here in rather a quiet manner, the only excitement being the game of baseball between the Hartley nine and our boys. Hartley was completely snowed under by the score of 20 to 6. The Millington nine has the best fielding and batting team on the field this year it has had for some time. Manager N. A. Wallen would be glad to hear from any nine who can put up a good, strong game.

Mrs. J. J. Buffington and children, of Baltimore, are spending some time with Mrs. M. M. Numbers.

STILL POND NEWS.

A Criticism.

Messrs. Editors Kent News:

Gentlemen:—Please excuse me for what I say in this letter but I am impelled to write you from conscientious convictions. I may be wrong in the view I take but I am certainly sincere, and have only a general public interest to serve in doing so. What I wish to say is this: I think you are wrong in noticing in your paper the personal abuse of your enemies. I know it is hard to hear such continued and, as I fully believe, unjust and false reflections, yet you have never lost anything in the past by your silence. Your paper has never sided in any manner with a faction and should not allow the aggravations of the present to vary your policy. Some time ago I fully intended to support Mr. Nicholson in this contest, but have now as fully determined *not to do so*, and for the reason that his particular friends have indulged so improperly in blackguarding you and others of my friends. Those who use this sort of *argument* are always the losers. Keep the Kent News clean, as it always has been, is the best wish of your Sincere Friend.

[Ed. Note.—We agree with our friend as to our general policy, and thank him for his kind references. Our "personalities" now, we hope, will be excused. We have never before indulged in them, though we might have been fully justified in doing so. The jealousy of petty men has led to a repeated fusilade of spite-thrusts at us, but we have regarded *the source* and treated them as beneath our notice. Now we have a duty to perform to the Democratic party which compels us to notice some of the high-handed measures of one man in his rule or ruin policy. Our friends will appreciate the present service of the News to the people, we are sure, in giving a little of its space to expose *Barrollism* in Kent.

American Yacht Wins!

The American schooner yacht, Atlantic owned by Mr. Wilson Marshall, and under command of Capt. Charles Barr won the great international yacht race across the Atlantic ocean, making the trip in a little more than 12 days. There were eleven vessels in the race and when the American yacht passed the stake boat Monday night none of her competitors had been sighted.

Queen Caroline Sold.—The steamer Queen Caroline, of the Queen Anne Ferry and Equipment Company, has been sold to the Montauk Steamboat Company, a sub-company of the Long Island Railroad. The sale is subject to inspection. The steamer has been lying in the yards of the William Skinner Shipbuilding and Drydock Company, Baltimore, since the close of last season, when the company began to liquidate. Orders have been given to have the engines coupled up and prepared for steam. The Queen Caroline was built by the Baltimore Shipbuilding and Drydock Company in 1902. She registers 641 tons gross, is 193 feet long, 30 feet 1 inch wide and 11 feet 2 inches molded depth. The engines are of the triple-expansion type, with cylinders 16 inches, 25 inches and 42 inches diameter and 36 inches stroke of piston. She has a steel hull, is fitted with a limited number of staterooms and space for carrying freight, and was intended for a day boat. She was used between Lewes, Del., and Cape May in connection with the Queen Anne's Railroad. But one of the boats now remains to be sold—the Queen Anne. It is said that several companies are bidding for her.

Children's Day will be observed tomorrow in many Kent Churches.
