ROCK HALL, MD.

THIS ADVERTISING is a sort of mutual affair, which has a tendency to strengthen the confidence which must exist between the seller and the buyer. Little profits and judicious advertising is the foundation upon which a successful business can be built. We call the KENT NEWS readers attention to our special sale of MEN'S AND BOYS' CLOTHING. A summer suit at reduced prices right in the height of the season is somewhat of an innovation, yet a call for these goods will convince you that they are extra values at our reduced prices. Then our SHOE BUSINESS is a hobby of ours. We try to keep the Shoe to please each and every patron. This necessitates us to carry a very large stock of shoes, and from this stock the most fastidious can be suited.

We carry a full stock of MEN'S HATS, LADIES' AND GENTS' FURNISHINGS, DRY GOODS OF EVERY DESCRIPTION, CARPETS, MATTINGS AND OIL CLOTHS. A nice line of GENERAL MERCHANDISE.

We hope to receive a liberal share of your patronage in the future.

We are yours for business,
M. KRAMER, - ROCK HALL, MD.

FROM TOO FREE USE of fresh fruits and vegetables and the climatic conditions now existing, diarrhœa is almost epidemic in some portions of the country. As soon as the trouble is started dress the patient lightly, protecting completely the vital parts, put to bed in a cool place, applying hot cloths over the stomach, and send for a physician right away. It is very dangerous to let this disease get a strong hold on the system. While waiting for the doctor give a dose of one of the diarrhœa mixtures made by the reliable druggists of Kent as directed on the label of the bottle containing same. Remember, diseases change with conditions and that many of the old-time home remedies have given quick jobs to the undertakers.

THE insolence and bad conduct of negroes in Delaware has aroused the white citizens of that State as never before, and there is now talk of inforcing an old "Jim Crow" law which has for over a quarter of a century been in "innocuous desuetude" and had apparently been forgotten. It permits public service corporations and proprietors of public houses to refuse to accommodate any person that in their opinion might injure their business.

One section of the law provides that carriers of passengers may make such arrangements in their business as necessary, assign a particular place in their cars, carriages or boats to such of their customers as they may choose to place there, and whose presence elsewhere would be offensive to the major part of the traveling public, where their business is conducted.

Delaware is suffering from the great influx of negroes from the South, where their right of franchise has been abridged. Thousands of these negroes were imported into Delaware by Addicks and his gang for political purposes, and now the decent people of the State are compelled to suffer because of it. No wonder they are growing tired of it!

Conditions will be the same in this State if the negro disfranchising amendment is not adopted by the people at the next election. This State, like Delaware, will be overrun with negroes, and our white women will have to submit to similar indignities that the white women of Delaware are now submitting to. The white voters of Maryland will have an opportunity to deal with the negro question at the ballot box next November, and we have no fear but that they will do it effectually.

CHARLOTTE H. ASH.

Miss Charlotte H. Ash, a daughter of the late Jacob Bowen Ash, and a sister of Col. George R. Ash, of the Cecil Democrat, died on Friday night, the 18th inst., in her 33rd year, at the family residence on North street Elkton.

Miss Ash was a granddaughter of the late Col. Geo. R. Howard, of this county, her mother being before her marriage Miss Emily Howard, who is still remembered by many of her contemporaries, as a refined and cultured lady. Miss Charlotte inherited in a large measure the talent and bright intellect of her mother, which she applied to good account as associate editor of the Cecil Democrat. Recently she spent some time in the South in the hope of regaining lost health, but her malady could not be stayed, and with cheerful Christian resignation she awaited her final summons. Her brother and three sisters survive her—Misses Helen, Mollie and Flora Ash.

Her funeral was held Monday afternoon. Rev. William Schouler officiating. Interment was made at the Presbyterian Cemetery. The bearers were Messrs Joshua Clayton, John M. Dunbar, Stanley Steele, Victor R Bennett, O C. Giles and Ricketts Nelson.

The comfort of a Dolly Madison, is an art, not an accident in making.

ARMOUR'S
Royal Ammoniated or Bone
FERTILIZER
HIRAM M. BROWN, - - Sole Agent
Kent and Queen Anne's, Vicinity of Chestertown.

WE, FOR THE 60TH SEASON PRESENT
...Our Fertilizers...
TRADE MARK
TO THE FARMERS AND PLANTERS OF KENT and adjoining counties. With pride we say that we are better equipped than ever, this year to give you your money's worth.

Many cannot understand why, after so many years doing business here, that Wilbur W. Hubbard's Fertilizers are more extensively used year after year. But the mystery is solved by a visit to our factory, which is always open for inspection to the public, and those who go down to our works marvel at the pains taken in manufacturing the goods.

First the bone is shoveled in the crusher with a scoop shovel and prepared for the Denmead mill, then it is dissolved, and after getting in good mechanical condition, if making a dissolved bone goods, so many pounds of bone is put in the mixer. The nitrate of soda, fish and high grade potash are added, the whole thoroughly mixed, passed through a phosphate mill and screened and thrown up in bulk, to remain until it is shipped, and then it is bagged in new treated acid proof bags and sent out in splendid shape. We are often asked, "why don't you run the goods when first mixed, right in the bags, and not go to the expense of treating the bags, as do other manufacturers?"

We are often asked if this is not a needless extreme, but we reply—it pays to make the best.

Whilst there is some loss by evaporation by bulking, an additional expense in rebagging and an expense to treat the bags, when we remember that a farmer appreciates a good goods, and in first class mechanical condition it pays to go to extremes as it is impossible to make a first class fertilizer otherwise, and by treating our customers right in their purchases, making the time of payment of the bill to suit them, we have gotten a personal hold upon our trade.

The Fertilizers for 1905 are the best we have ever put out. Each year has its experiences. We learned something in 1904—the users of Wilbur Hubbard's Fertilizers will get the benefit of it. A poor article may sell rapidly for a time if it is pushed energetically, but a record of steady gain over a period of 60 seasons among the same people, can only be achieved by a good, reliable article. You can only judge the future by the past. If you have used Wilbur Hubbard's Fertilizers in the past you may be assured they will give you satisfaction in the future. If you have not tried them, we ask you if a record of Thirty (30) successful years with the farmers of the Middle States is not a sufficient guarantee to justify you in using the goods.

Soliciting your patronage, and thanking all our friends for their substantial support in the past, we remain

Very truly yours,
Wilbur W. Hubbard,
Manufacturer of Standard Bone Fertilizers,
July 15, 1905. CHESTERTOWN, MD.
