Thanksgiving Proclamation.

"By the President of the United States of America.

"A proclamation.

"It has pleased Almighty God to bring the American people in safety and honor through another year, and in accordance with the long unbroken custom handed down to us by our forefathers the time has come when a special day shall be set apart in which to thank Him who holds all nations in the hollow of His hand for the mercies thus vouchsafed to us. During the century and a quarter of our national life we, as a people, have been blessed beyond all others, and for this we owe humble and heartfelt thanks to the Author of all blessings. The year that has closed has been one of peace within our borders, as well as between us and all other nations. The harvests have been abundant, and those who work, whether with hand or brain, are prospering greatly. Reward has waited upon honest effort. We have been enabled to do our duty to ourselves and to others. Never has there been a time when religious and charitable effort has been more evident. Much has been given to us and much will be expected from us. We speak of what has been done by this nation in no spirit of boastfulness or vainglory, but with full and reverent realization that our strength is as nothing unless we are helped from above.

"Hitherto we have been given the heart and the strength to do the tasks allotted to us as they severally arose. We are thankful for all that has been done for us in the past, and we pray that in the future we may be strengthened in the unending struggle to do our duty fearlessly and honestly, with charity and good will, with respect for ourselves and with love toward our fellow men.

"In this great republic the effort to combine national strength with personal freedom is being tried on a scale more gigantic than ever before in the world's history. Our success will mean much not only for ourselves, but for the future of mankind; and every man or woman in our land should feel the grave responsibility resting upon him or her, for in the last analysis this success must depend upon the high average of our individual citizenship, upon the way in which each of us does his duty by himself and his neighbor.

"Now, therefore, I, Theodore Roosevelt, President of the United States, do hereby appoint and set apart Thursday, the 24th of November, to be observed as a day of festival and thanksgiving by all the people of the United States at home or abroad, and do recommend that on that day they cease from their ordinary occupations and gather in their several places of worship or in their homes, devoutly to give thanks unto Almighty God for the benefits He has conferred upon us as individuals and as a nation, and to beseach Him that in the future His divine favor may be continued to us.

"In witness whereof I have hereunto set my hand and caused the seal of the United States to be affixed.

"Done at the city of Washington this first day of November in the year of our Lord, one thousand nine hundred and four and of the independence of the United States, the one hundred and twenty-ninth.

Republicans Will Win.

The question of the election of Roosevelt and Fairbanks seems to be pretty well settled. The Democrats hedge by claiming that much can be done in a week, thus admitting, that unless something unusual occurs, they are beaten. The New York Herald in the beginning of the campaign supported Parker, but about ten days ago admitted that his canvass was hopeless, has a poll of the states and gives the following figures as the result.

	Electoral Votes.
ROOSEVELT	257
PARKER (The Solid South and Maryland)	159
PROBABLY REPUBLICAN (Colorado. Delaware, Montana and West Virginia)	18
PROBABLY DEMOCRATIC (Nevada)	3
UNCERTAIN (New York, with an indicated plurality of 12,000 for Roosevelt)	39
NECESSARY to a choice	239

As a result of observations during his speaking tour on the Eastern Shore, Senator Louis E. McComas is sure that Congressman William H Jackson will be re-elected. The Senator also believes that President Roosevelt will get a vote on the Eastern Shore which will surprise those Democrats who are clarming everything in that section of the state.

Senator McComas was compelled to curtail his tour on the Eastern Shore because of the demand for his participation in the campaign in Western Maryland. He is confident that Colonel Pearre will be re-elected to Congress by his usual plurality, and that the district will give Mr. Roosevelt a large lead over Judge Parker; but as his home is in the Western part of the state, he believe that he should devote the remainder of the campaign to that section.

The situation on the Eastern Shore was found by Senator McComas to be in first-class condition. "While I was not able to traverse the whole shore," said the Senator, "I was able through reliable sources to obtain an accurate idea of the existing political conditions in the several counties. I was greatly gratified at what I learned. I am confidant that Mr. Jackson will be re-elected to Congress, and that Mr. Roosevelt will have a majority in the district.

"Dorchester county is in splendid shape. Mr. Phillips Lee Goldsborough and other Republicans in the county have worked hard and will produce gratifying results. My information leads me to believe that Mr. Jackson will carry Wicomico county. Somerset county will roll up a good sized majority for him. Talbot will be found in line. In the normal Democratic counties there may be some surprises for the Democrats"

MOTHERS OF A LIKE OPINION.

Mrs. Pilmer, of Cordova, Iowa, says: "One of my children was subject to croup of a severe type, and the giving of Chamberlain's Cough Remedy promptly, always brought relief. Many mothers in this neighborhood think the same as I do about this remedy and want no other kind for their children." For sale by R. J. Colston, Denton; Davis, Druggist, Ridgely.

"Lest We Forget."

Mr. Editor:

We are now near the close of the Presidential campaign and it is possible that the Democratic party was never in a worse plight than at the present time. Everything seems to have gone against them. The prosperity under a protective tariff still continues. The Philippines have been pacified. Cuba has been freed by the United States and given up to the Cubans. The imperialistic bugaboo has been exploded, but in spite of all the good times Democratic orators are now appealing to the voters to elect the Democratic nominees on a platform of free trade, free silver, a scuttling foreign policy, and a Western union telegraph message.

Lest we forget we will recall some Cleveland history:

1892 — Grover Cleveland elected President. Great depression in business. All kinds of securities at low ebb.

1893 — The greatest panic in the history of the country, and no relief.

1894 — Senate passed the Bland bill. Congress passed the Gorman and Wilson bill which killed American industries and threw hunhundreds of thousands out of work. Pennsylvania railroad stocks went below par for the first time in years.

1895 — Wholesale bankruptcies of manufacturers, merchants, banks, and railroads aggregating losses of thousands of millions of dollars. Men glad to work for any wages and thousands who could get no work at any price. Gold reserve of U. S. Treasury gone causing an issue of $262,000,000 of gold bonds. Secretary Carlisle's dickering with New York bankers at that time showing that there was very little confidence in the administration.

Do you want four years more of misery, want and business destruction on free trade policies administered by the same old gang; Parker, Cleveland, Gorman, Hill, McCarran and Belmont? If you do then vote the Democratic ticket.

Now, last, but not least, voters do you want the Pennsylvania Railroad to have another vote in Congress then vote for Thos. A. Smith now running on the Democratic ticket.

CITIZEN.

CAUSE OF LOCKJAW.

Lockjaw, or tetanus, is caused by a bacillus or germ which exists plentifully in street dirt. It is inactive so long as exposed to the air, but when carried beneath the skin, as in the wounds caused by percussion caps or by rusty nails, and when the air is excluded the germ is roused to activity and produces the most virulent poison known. These germs may be destroyed and all danger of lockjaw avoided by applying Chamberlain's Pain Balm freely as soon as the injury is received. Pain Balm is antiseptic and causes such injuries to heal without maturation and in one third the time required by the usual treatment. It is for sale by R. J. Colston, Denton; Davis, Druggist, Rigdely.

Only Two Cross Marks will Be Necessary.

From the Baltimore American.

Attorney General William S. Bryan and Mr. W. Starr Gephart, counsel to the Board of Supervisors of Elections, agreed on Monday as to how the ballots shall be marked by the voters of the city at the coming election. As heretofore explained in The American, only two cross marks will be necessary—one to the right of the names of the candidates for president and vice-president, and the other to the right of the favored candidate for Congress.

Mr. Bryan's letter to Mr. Gephart, which will be incorporated in the instructions to be issued to the judges of election by the supervisors, is important to each voter in the state, and is as follows:

If a voter should make a cross mark (X) opposite the surnames of the presidential and vice-presidential candidates of a party, and should also make a cross mark (X) opposite the name of one or more of the candidates for presidential elector of the same party, the vote could be counted only for the elector opposite whose individual name the ballot was marked. For example, if a voter should make a cross mark (X) opposite the surnames of Parker and Davis, the Democratic nominees for president and vice-president, and should also make a cross mark (X) opposite the name of Mr. Frank Brown, one of the Democratic candidates for presidential elector, the bollot would count for Mr. Frank Brown, but for no other elector.

If a voter should make a cross mark (X) opposite the surnames of the presidential and vice-presidential candidates of one political party and should also make a cross mark (X) opposite the name of one or more of the candidates for presidential elector of some other party, the whole ballot would be thrown out.

For example, if a voter should make a cross-mark (X) opposite the surnames of Roosevelt and Fairbanks, the nominees for president and vice-president of the Republican pariy, and should also make a cross mark (X) opposite the name of Mr. Frank Brown, a Democratic candidate for presidential elector, the whole ticket would be thrown out for all offices, members of Congress as well as presidential electors.

Just Waiting For the Count.

For several days the success of the Republican party and the election of Roosevelt and Fairbanks has seemed so well assured that the people have settled down to wait until the votes are cast and counted on Tuesday next. The poll of the states and congressional districts as made by the New York Herald, a Democratic paper, and published a week before the election, have proved surprisingly accurate for a number of years. The forecast by states is as follows:

Comparison of Facts.

Mr. Editor:

"Facts are stubborn things" Read these facts carefully, and remember when you are reading them that they are facts and not theories.

The last time the Democratic party was in power and in charge of the Government it increased the bonded debt of the Government $262,335,800, and yet had an aggregate deficit of $135,470,055.17, and this disastrous showing was made in a time of absolute peace. The Republican party had a surplus for the four years of 1889-1892 of $209,554,348 18 and for the four years of 1897-1900, within which time the Republican administration carried on the Spanish American war and so acjusted the revenues to the need of the country as to produce a surplus in excess of expenditures of more than $63,000,000, and yet the debt was not so great by $62,000,000 as during the four years of Democratic rule. Stop and think that the Republican party over the government of Democrats in 1893 of only $585,029,330 and this debt was increased in time of peace to $847,365,130. Confronted by these facts, must not every fair-minded man who appreciates the absolute importance of the successful operations of the Treasury to every business enterprise, the employer as well as the employee, confess the unwisdom, the risk and the danger of again turning over the affairs of this country to the Democratic party. We certainly think it would be a very unwise and unbusiness-like proposition to even consider. The entire country being now at the very height of prosperity—is the time, if the [illegible] let well enough [illegible]
