THURSDAY, APRIL 7th, 1910.

Because of the higher cost of living, the Pennsylvania Railroad Company will advance the salaries of all employees not receiving $3,000 per year. This will mean an increase of from $8,000,000 to $10,000,000 in expenses of the company. The increase will go into effect April 1, 1910.

Ex-President Roosevelt is in Rome and is being royally received wherever he goes. The Pope has made it impossible for the former President to have an audience with him, because Mr. Roosevelt declines to be bound by any conditions. The affair is creating considerable comment among the churches and in the newspapers.

The automobile show is attracting many visitors from all sections of the Peninsula. With one of these machines it is an easy matter to make a trip of 40 or 50 miles and to those with the "fever" this is only an ordinary "joy ride." Many lady enthusiasts are attending and enjoying the splendid music as well as the inspection of the cars. The machines on exhibition are of the highest grade and show great improvements over those of last yeer. There are several miles of fine roads, recently completed, running out in several directions from town which are being enjoyed by visitors with their machines. The exhibition will close to-morrow evening.

## SAVE THE STATE.

The Maryland Legislature has adjourned after a session unparalleled in the history of the state for boss rule and partizan legislation. Very few laws that will benefit the citizens of the State were enacted, but everything of the least advantage to the Democratic party was looked after with untiring interest. The verdict of the people, expressed at two elections, in regard to the colored voters was trampled upon and the most brazen political measure ever framed was forced through both houses. In speaking of it the Baltimore American says:

"Maryland is in the hands of a revolutionary junta. The Democratic legislature that passed with barred doors the bills dictated by the unscrupulous leaders of the Democratic party raised the banner of revolution. They have made imperative a call for the combination of all the forces of political rectitude. The patriotism of the men of Maryland is at stake. The bosses have made this state a spectacle for men and angels. It is in the most deplorable political condition of its entire history. The tide of reaction has swept back forty years and Maryland alone among the commonwealths is now knocking at the door of state's rights. One of the leaders in the political incendiarism declared the Constitution of the State of Maryland to be above that of the United States. Were this not the vaporing of an empty pate it would be an expression of rank sedition. It would be a revolutionary assertion a declaration that would range against the state all the other states of the Union and the concerted power of the federal government. The outburst was modified by a more astute Democrat into a statement that the Digges bills place Maryland's Constitution above the Fourteenth and Fifteenth Amendments. This does not alter the fact "The Democrats know in their hearts that they have raised the banner of rebellion. They appreciate to the full that, so far as they could effect the end, they have withdrawn Maryland from the federal compact—for that compact includes the despised amendments. They understand full well that they have set out upon the sea of political piracy. They do not need to be told that they have invited scuttling by a federal broadside. They appreciate the desperation of their case. whey have put themselves in the most perilous plight of any body of Americans during the past forty years. They have degraded the state to the lowest point they could possibly drag it. They have entered upon a political filibuster in which the stake is the capture of the state pending the decision of the courts, which they hope to stave off until after they have had a vote upon the subject of the disfranchisement of the colored voter, with that voter, whose rights are affected, deprived of the ballot. They know full well that Major Venable was talking by the book when he warned those who shall be the active agents in the work of ravishment of the registration to prepare for a longer or shorter term of residence in the Penetentiary. As surely as the American citizens of this state who account their citizenship above the schemes of a revolutionary junta vastly surpass in numbers the servile caterers to the band of desperadoes who have taken the high-handed course of political pollution so surely will the wrong-doers be brought to book. The Republicans the Independents, and all decent Democrats, banded in coalition of revolt against revolution will bring that end to pass."

### How To Cure Rheumatism.

The cause of Rheumatism and kin dred diseases is an excess of uric acid in the blood. To cure this terrible disease this acid must be expelled and the system so regulated that no more acid will be formed in excessive quantities. Rheumatism is an internal disease and requires an internal remedy. Rubbing with Oils and Liniments will not cure, affords only temporary relief at best, causes you to delay the proper treatment, and allows the malady to get a firmer hold on you. Liniments may ease the pain, but they will no more cure Rheumatism than paint will change the fibre of rotten wood.

Science has at last discovered a perfect and complete cure, which is called "Rheumacide." Tested in hundreds of cases, it has effected the most marvelous cures; we believe it will cure you. Rheumacide "gets at the joints from the inside" sweeps the poisons out of the system, tones up the stomach, regulates the liver and kidneys, and makes you well all over. Rheumacide "strikes the roots of the disease and removes its cause." This splendid remedy is sold by druggists and dealers generally at 50c and $1.00 a bottle. In tablet form at 25c and 50c a package. Trial bottle of tablets sent by mail on receipt of price 25c. Booklet free. Write to Bobbitt Chemical Co., Baltimore, Md.

A Run-Down Cow is a Losing Proposition

The heavy grain ration and the forced feeding for winter milk production tire out and weaken the digestive and milk secreting organs of your dairy cows.

When these organs become fatigued through ever-exertion, it is as impossible for them to perform their work properly, or to do the same amount of work, as it is for any other part of the body when in that condition.

In consequence the cow becomes "run-down," the milk supply dwindles and the animal often contracts some

SERIOUS DISEASE

These conditions exist inwardly long before they are noticed outwardly. Your first knowledge of any trouble when the milk decreases in quality and quantity, or when your cows have fallen a prey to disease—perhaps TUBERCULOSIS!

Fairfield's Blood Tonic and Milk Producer

keeps your cows from getting in that condition. It is a Scientific preparation specially compounded for animals that have FOUR stomachs and chew the "cud." It makes the winter foods easy to digest, saves the wear and tear on the digestive organs, and enables the cow to secure all the nutriment her food contains and turn it into the products that fatten her owner's pocket-book. Fairfield's Blood Tonic for Cattle only prevents and and cures disease by removing the cause.

IT EXTERMINATES GARLIC

when Fairfield's Blood Tonic for Cattle Only is fed regularly, and three-quarters of an hour before milking, it will positively remove all taint and taste of Garlic from milk and cream. Fairfield's Blood Tonic and Milk Producer makes cows give more, and richer milk; makes calves strong and healthy and causes steers to fatten in half the usual time. The dose is One Tablespoonful and a 50c package contains 60 doses—making it the most economical Conditioner on the market. It is sold under written guarantee by
