THIS IS AN EASY WAY TO SAVE MONEY

HOW IT WORKS

The Christmas Savings Idea is not new, but it is not generally known here how it works.

We will have six classes of savings, which can be worked either up or down, that is, increasing and decreasing each week from the smallest to the largest, until the last week the opposite amount is paid, viz:—

In the 2c class, the first week, paying UP, 2c is paid in; the next week, 4c; the next, 6c; the next 8c, each week adding 2c. At the end of 50 weeks when the Christmas checks are sent out, you will receive $26.74.

If you decide to pay down, 50c is paid in the first week, 48c the second, 46c the third, decreasing 2c each week. The last week only 2c is paid, and then you receive a check for $27.09.

The same method applies to the other classes.

4% interest is paid on these acounts as soon as $5 is paid.
