MICKIE SAYS

CATARRHAL DEAFNESS

is greatly relieved by constitutional treatment. HALL'S CATARRH MEDICINE is a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced, your hearing may be destroyed forever. HALL'S CATARRH MEDICINE acts through the blood on the mucous surfaces of the system, thus reducing the inflammation and assisting Nature in restoring normal conditions.

Henry Ford says:

"Small mill machinery which produces flour just as good as the big mills has been invented. That means we are returning to the saving system of local mills supplying the local market, thus eliminating a big item of waste in transportation alone."

FLOUR MADE AT HOME

from home grown wheat is just as good—and BETTER

That is the message we want to get across to the folks of this territory.

It isn't our selfish "say-so". Modern invention,—the aggressive American spirit—and our small plant—(a complete unit) grinds the same high grade FLOUR to be had from any big mill.

"Henry Ford is a 'PRACTICAL' dreamer. A man who hitches common sense to vision"—so said a great Eastern editor recently in summing up the various predictions and activities of the motor manufacturer.

See what he says about the SMALL FLOUR MILL.

That's why you should bring your wheat here. That's why housewives of this territory are every day asking for IDEAL FLOUR when ordering.
