Miracles in Money

A city skyscraper seems a miracle in steel and stone. But it is only a vast number of girders painstakingly placed together—a vast quantity of bricks placed end to end and one above another.

Miracles in money are seeming miracles only. **You** can work miracles in your own life.

Saving Wins Success

You can have a big prosperous farm, own a car, or travel wherever you wish.

Men who have really succeeded spell it S-A-V-E. You can win the same success. You do not need a lot of money to do it. You need no great education.

You need only the determination to start now and continue. Let us help you.

VOTE FOR

SISK FOR CONGRESS

As proof that the suggestions which Col. A. W. Sisk has made from time to time as to the best method of handling the liquor problem, is simple, practical, and will work out for a better and cleaner condition than the Volstead Law is giving us. We give below a statement from the "Social Information," a paper published in Stockholm, Sweden, dated June 26th, covering the situation in the three countries—Finland, total prohibition; Norway, partial prohibition, and Sweden, under Government control of both manufacture and distribution.

In Finland there is total prohibition like ours. The capitol city, Helsingfors, has 188,922 inhabitants, number of arrests for intoxication for three years were as follows:

1919	1920	1921
5,488	12,307	13,550

An increase of 250%.

In Christiana, the capital of Norway, there is prohibition of hard liquors only—wine and beer being permitted—has 258,341 inhabitants, arrests for intoxication three years were as follows:

1919	1920	1921
16,488	13,624	13,750

A decrease of nearly 20%.

In Stockholm, the capitol of Sweden, where the Government has absolute control of all alcoholic liquors, the number of arrests for intoxication with a population of 419,788 were as follows:

1919	1920	1921
11,115	10,120	6,848

A decrease of 38%.

The Swedish system modified to suit our conditions is the plan which Col. Sisk has been advocating for the past three months. It is the only plan that will cure the present distressing condition which, like a cancer, is eating out the moral vitals of our people. This business must be taken out of the hands of the criminal class and controlled by the iron hand of the Federal Government.

The provinces of Quebec and British Columbia also have Government control while Ontario has prohibition. British Columbia tried prohibition but for only a very short period, when it adopted the Quebec plan. Reports from there bear out our contention most emphatically that there is no control at all unless the Government does it.

Wm. Cabel Bruce, when announcing his candidacy last week, laid special emphasis upon the modification of the Volstead Law and Governmental control.

A VOTE FOR SISK IS A VOTE FOR THE PROTECTION OF YOUR OWN BOYS AND GIRLS.

SENATOR FRANÇE'S CONSPICUOUS SERVICES IN AGRICULTURE

Because of his interest in and practical knowledge of farm problems, Senator France on entering the Senate became a useful, faithful member of the Committee on Agriculture and Forestry and throughout Maryland and the Nation is known as the friend of the farmer.

1. He was one of FIVE to vote against the Socialistic-Bolshevistic Lever Act which gave the Government the power to fix wheat prices so that other nations could take the American farmers' grain at less than its market value. Senator France in a notable speech in 1917 called this bill unjust and unconstitutional. The Supreme Court two years later held the Lever Act to be in part unconstitutional, as Senator France had argued.

2. Senator France proposed measures to assist the farmer during the war to get labor, seed and supplies.

3. Senator France urged and secured increased appropriations for eradicating tuberculosis from dairy heards, to check foot and mouth disease, and to control crop pests.

4. Senator France secured an additional appropriation for small agricultural experiment station in Maryland.

5. Senator France was first Senator in 1919 to predict demoralized prices for farm products unless our export trade was protected and urged successfully amendment to War Finance bill and offered bill to extend German rcedits and open Russian markets in interest of our farmers.

6. Senator France proposed measure looking to making county seat post office buildings farm community buildings to care for parcel post and agricultural extension work as well as other government activities.

7. Senator France urged amendments to Federal Employment Bureau to enable farmers to secure farm labor.

8. Senator France was one of first to urge legislation to legalize co-operative enterprises among farmers.

9. Senator France outlined in a notable Senate address legislation needed by farmers.

10. Senator France added in Senate an amendment to the last Agricultural Appropriation bill to promote plans for the standardization of farm machinery and machine parts.

11. Senator France's recent speech on "Present and Future Welfare of American Farmer" has been circulated, quoted, and commended in many different States.

These and other measures and addresses prove that Senator France is a constructive, courageous and informed statesman, devoted to the advancement of American Agriculture.

By authority Oliver P. Metzerott, Political Agent.

HOW THE BANK SERVES THE FARMER

You, the Farmer, are America's greatest producer of wealth. But before **you** receive the money for your crops many months usually elapse. The crops must be sown, must be fertilized, tilled, reaped and SOLD.

The Bank is your Friend because it helps to carry you over the weeks and months between planting and profiting seasons. It permits you to purchase seed, fertilizer, machinery, on credit.

In times of stress it stands behind you and helps you weather the storm.

Are YOU getting all the benefits which the bank offers farmers?

Learn how we can help **you.** Ask for full information from our offcials. They will be pleased to tell you more about our service.
