ROCK HALL ITEMS

Mr. Charles H. Smith is in high feather because of the fact that he is well advanced in farm work, and his wheat and grass crops are in a most flourishing condition. He says his Alfalfa is about ready to cut, his crowing is loud and long. Get a hustle on you Ben and Milt, Charley is going to smash all record and leave you far in the rear.

Mr. Arthur Andrews has at last found a panacea that is a sure eradicator of rheumatism. He will gladly communicate information of his find to any sufferer free of charge who may so desire.

Our undertakers, Casey Bros. are an up-to-date firm. We recently witnessed their work from the laying out of the dead to burial and were agreably surprised at their efficiency and equipment for all needs in their line.

Mr. John Wilson has been for quite awhile troubled with a tumor, and is now in the Marine Hospital, Baltimore, undergoing an operation for its removal.

Assistant Postmaster, Paul Hynson, who has been spending a vacation in New York and Washington has returned home much pleased with his trip.

The Easter bonnets and suits are still nonobservable except in the boudoir. The weather man seems unkind sure.

Sunday was a splendid day for an advanced spell of the blues and many there were who had 'em, church services were very slimly attended.

My, what a horrible mess was handed down to us on Tuesday! Rain wind and snow. Fruit trees in bloom, garden truck in growth and all covered with snow. No wonder Ex. Sheriff Casey wishes he posessed a cool million, so that he would be in a position to dodge these freaks of the weather by going South in winter and North in summer. Grin and bear it Jim, those who are in such a position don't seem to tarry on this terrestrial sphere much longer than those of slim purse and are not half as happy.

The numerous relatives and friends at this place of the Rev. John W. Robinson, Sumwalt, of the Baltimore M. E. Conference, are highly pleased at the rapid advance in ministerial honors of that gentleman. He is now a Presiding Elder of the Washington District. Sixteen or twenty years ago when Jack was a frequent visitor here and the chum of Johnny Dowling and other boys, he gave evidence of there being in his makeup something more than the ordinary, and we are all proud of its croping out into fruitage. May he continue to advance and be more and more a power for good to the glorification of the Master and the salvation of souls.

The Odd Fellows Lodge here has changed its time of regular meetings from Wednesday to Tuesday evenings. This was done that there may be no longer a clash in the church and lodge work of a number of the members. Now they have a clear field for doing loyal work in both institutions.

It seems unfortunate that our fishermen, now that an abundance of shad are in these waters, are handicapped by so much stormy weather.

The Motion Picture enterlainment on Tuesday evening was quite largely patronized, and richly enjoyed.

There are many of the residents of this section who regret the non-return of Rev. J. W. Parris to the M. P. Church. He is a most lovable pastor and had endeared himself to many outside of his Parish. Best wishes and prayers from here go with him to his new field of labor.

The storms of the week have played havoc with fishing nets and traps of our watermen.

"Sold Again."—Mr. Jos. S. Trew advertised a pair of mules for sale in the NEWS two weeks ago. On Monday he informed us that they had been sold. The NEWS brought him a buyer. The way to sell things is to let the public know you have them for sale. The KENT NEWS reaches that public for you. Try it.

Respect YOUR Stomach

GIVE it food that will not irritate or retard the performance of its natural functions, and it will reciprocate in a way agreeable and comforting.

No single ingredient contributes so largely toward wholesome, nourishing, agreeable food as Royal Baking Powder.

Royal Baking Powder's active ingredient, Grape Cream of Tartar, is the most healthful of the fruit products.

This is why Royal Baking Powder makes the food finer, lighter, more appetizing and anti-dyspeptic, a friend to the stomach and good health.

Imitation Baking Powders Contain Alum

"The use of alum and salts of alumina in food should be PROHIBITED. The constant use of alum compounds exerts a deleterious effect upon the digestive organs and an irritation of the internal organs after absorption.
